APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, MAY 4, 1904.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

THE following Notices are published for general information.

D. B. HORN,
Secretary, Marine Department.

CALCUTTA, *the 30th April 1904.*

ARABIA, SOUTH COAST—GULF OF ADEN, NORTH SHORE.

Makalleh bay.—Erection of a Watch Tower, Sultan's Residency and other buildings.—Disappearance of the Flag-staff, and ruined Fort on Ras Marbat.

No. 138 (*first publication*).—The Bombay Government has given notice (No. 49 of 1904) that information, dated 5th April, has been received from the Officer Commanding R. I. M. S. *Dalhousie* that an additional square stone Watch Tower is erected, bearing N. 40½° W. (true) 1 mile 5¾ cables from Ruined Fort on Ras Marbat.

An imposing looking Residency for the Sultan is now being erected and nearly completed (March 1904) with other buildings in the course of construction to the westward of the town and are connected by a good road.

The Flag-staff shewn in the centre of town does not exist.

Ruined Fort on Ras Marbat is not conspicuous from the anchorage, being now almost entirely in ruins.

This Notice affects the following Admiralty Chart:—Anchorages on the coast of Arabia, Makalla Bay, No. 10; also Red Sea and Gulf of Aden Pilot, fifth edition, 1900, page 426.

JAPAN, SOUTH COAST—HONSHU (NIPON).

Mura and Goza harbours—Rocks in approaches.

No. 139 (*first publication*).—The British Admiralty has given notice (No. 229 of 1904) that on a recent Japanese Chart the undermentioned dangers appear in the approaches to Mura and Goza harbours:—

MURA HARBOUR.

A rock with a depth of 1½ fathoms over it, situated with Kadzura sima summit (222 feet) bearing east, distant 2 cables, and Kohara sima summit N. 37° E.

GOZA HARBOUR.

a. A shoal, named Mutsuna sho, with a depth of 2½ fathoms over it, situated with the summit of Goza saki (310 feet) bearing S. 59° W., distant 12 cables, and Clump (233 feet) N. 45° W. This shoal extends for a distance of one cable S. 16° W. from the above position, the depth being 2¼ fathoms on its southern limit.

There is a shoal head, with a depth of 4¼ fathoms, 1¼ cables S. 53° E. from the position of the above 2½ fathoms.

b. A shoal, named Kohira sho, with a depth of one fathom over it, situated with Goza saki summit bearing S. 61° W., distant 16 cables, and Clump (233 feet) N. 56° W. This shoal extends about one cable S. 5° W. from the above position, the depth on its southern limits being 1¾ fathoms, but as defined by the 5-fathom contour line it extends nearly 3 cables in the same direction.

c. A shoal, named Sato ne, with a depth of one fathom over it, situated with Goza saki summit bearing S. 58° W., distant 15½ cables, and Clump (233 feet) N. 56° W.

From this position the shoal extends for a distance of 1¼ cables N. 80° W., there being a depth of 2¼ fathoms on its western edge.

d. The 5 fathom contour line extends from the coast southward of Hamagema ura across the entrance to a distance of 8½ cables S. 8° E. from the Clump (233 feet).

Approximate position, Goza saki summit, lat. 34° 16¼′ N. long. 136° 45¼′ E.

(Variation 4° Westerly in 1904)

A new edition of Chart No. 994 will be issued when it has been corrected from the Japanese Chart recently received.

This Notice effects the following Admiralty Chart:—Mura and Gosa harbours, No. 994: Also, Sailing Directions for Japan, etc., 1904, pages 340, 341.

PACIFIC OCEAN—Philippine Islands—Luzon, south coast.

Port Sorsogon.—Light established.

No. 140 (first publication).—The British Admiralty has given notice (No. 238 of 1904) that, on 5th February 1904, a *white fixed* lantern light, elevated 120 feet above high water, and visible from a distance of 6 miles, was established on a tree situated on the north-western extremity of Bagatao island, port Sorsogon entrance.

Approximate position, lat. 12° 49¾′ N., long. 123° 47¾′ E. on Chart No. 2395.

This Notice affects the following Admiralty Charts:—No. 2577, St. Barnardino and Mindoro straits; plan of Port Sorsogon on Chart No. 2395; Also, List of Lights, part VI. 1904, page 105; and Eastern Archipelago, part I., 1902, page 338.

PERSIAN GULF—Bushire to Muscat.

Wreckage westward of Ras-al-Mutaf.

No. 141 (first publication).—The Bombay Government has given notice (No. 41 of 1904) that the Master of S.S. *Kola* reports that during his voyage from Bushire to Muscat, he passed in Latitude 27° 42′ N., Longitude 51° 16′ E. and 19 fathoms of water a mast step uppermost and appearing to be attached to sunken wreckage.

It showed 4 feet out of water and about 1½ feet in diameter.

This Notice affects the following Admiralty Chart:—Persian Gulf, northern portion, etc., No. 2837b; also Persian Gulf Pilot, 1898, page 258.

BAY OF BENGAL—Hooghly river.

Cowcolly light increased in intensity.

No. 142 (first publication).—The Commissioners of the Port of Calcutta have given notice, dated 25th April 1904, that on and after the first day of November 1904, the existing fixed white light exhibited from a white tower 62 feet above high water, 2 miles S.S.W. of Kedgeree point, will be increased in intensity from about 500 standard candles to 1,250 standard candles or 1¼ lighthouse units.

The new apparatus will be dioptric; but the character of the light will remain unchanged. The light will be visible between the bearings of N. 13° E. through North to N. 83° W.

The light will be visible in clear weather from a distance of 13 nautical miles.

Note.—The bearings are magnetic, and those concerning the visibility of lights are given from seaward.

Position.—Lat. 21° 50′ 10″ N. long 87° 56′ 9″ E.

This notice affects the following Admiralty Charts:—River Hooghly, Calcutta to Saugor Point, No. 136; the Sandheads, False Point to Matlah river, No. 814; Bay of Bengal, No. 70; India, Coconada to Bassein river, No. 829; also List of Lights, Part VI, 1904, No. 353.

AUSTRALIA—GREAT SANDY STRAIT.

Stewart island flats—Moonboom lead altered and directions for use of the new channel given.

No. 136 (second publication.)—The Port Master, Brisbane, has given notice (No. 4 of 1904) that on and after the 19th March, in consequence of a Deeper Channel having opened up at Stewart Island Flats, the Moonboom Lead will be altered so as to lead in 8 feet at L.W.S. across the shoal off the north end of Stewart Island. A small pair of leading beacons will also be erected at the eastern end of this lead (on Stewart Island).

The following are directions for use of the New Channel:—

By Day.—After rounding the south end of Stewart Island two White Triangular Beacons will be seen on the sand bank to the north of Stewart Island; bring these ahead and slightly open to the westward, passing two Red Beacons to starboard and one black one to port, until abreast two White Triangular Beacons, which will be seen on Stewart Island, when haul to the westward bringing these marks into line astern on a bearing of S. 39° E. Continue so, passing two Black Beacons to port and three Red ones to starboard, until about midway between the third red beacon and Moonboom Island, when proceed as formerly. Three gauges showing the depth of water are placed, one opposite Fig-tree, one at Stewart Island, and one at Moonboom as formerly.

By Night.—Keep the Fig-tree Lights in line astern until another pair (red and white) to the northward of Stewart Island open out to starboard, when haul to the northward, bringing these lights ahead but slightly open to the westward; continue with them so until the Red and White Lights on Moonboom Island are brought into line, when steer for them, passing the front light on the port hand about a ship's length distant, then proceed as formerly.

Chart affected, 1030; Australia Directory, Vol. II.

JAPAN—HONSHU—RIKUOKU GULF.

Tairadate lighthouse—Fog signal established.

No. 137 (second publication).—The British Admiralty has given notice (No. 225 of 1904) that, on 20th February 1904, a fog siren, giving during thick or foggy weather *one blast* of *three seconds'* duration *every forty-two seconds*, would be established at Tairadate lighthouse.

Approximate position, lat. 41° 10½′ N., long. 140° 38½′ E.

This Notice affects the following Admiralty Chart:—Tsugaru strait, No. 2441: Also, List of Lights, part VI, 1904, No. 981; and Sailing Directions for Japan, Korea, &c, 1904, page 686.

AUSTRALIA, NORTH COAST—TORRES STRAIT.

Booby island—Reef reported to the northward.

No. 129 (third publication).—The British Admiralty has given notice (No. 201 of 1904) that the Master of the German S. S. *Varzin* reports that, when passing through Torres strait, his vessel, drawing 18½ feet, struck on a rock in a position from which Booby island bore S. 8° W., distant 3¾ miles.

The danger has been placed upon the Charts in the above position as "Varzin shoal. P.D."

Approximate position, lat. 10° 32½′ S., long. 141° 55½′ E.

(Variation 4° Easterly in 1904.)

This Notice affects the following Admiralty Charts:—Western approach to Torres strait, No. 447; cape Grenville to Booby island, No. 2354; Torres strait, No. 2375; Albany pass to Booby island, No. 437: Also, Australia Directory, vol. II, 1898, page 470.

KOREA, WEST COAST—CHEMULPHO APPROACH.

Unreliability of lights during winter.

No. 130 (third publication).—With reference to Notice to Mariners No. 325, dated the 9th October 1903, issued by this office, stating that unwatched lights had been established on White rocks, North Watcher, Yo dol mi, and So Wolmi; the British Admiralty has given further notice (No. 205 of 1904) that it is reported, with reference to these lights, that in the very cold whether, sometimes prevailing in this locality during the winter months, the oil gas is frozen, and therefore these lights are less reliable than those ordinarily unwatched.

Approximate position, So Wolmi, lat. 37° 27¾′ N., long. 126° 35¾′ E.

This Notice affects the following Admiralty Chart:—Approaches to Chemulpho anchorage, No. 1270: Also, List of Lights, part VI, 1904, Nos. 829, 828, 827, 826; and Sailing Directions for Japan, Korea, &c., 1904, pages 57, 58, 59.

AUSTRALIA, SOUTH—PORT ADELAIDE LIGHT.

Intended beacon light.

No. 131 (third publication).—The British Admiralty has given notice (No. 208 of 1904) that it is intended to establish a *green fixed* light, visible from a distance of 5 miles, on a black pile beacon to be erected in a depth of 11 feet off the southern point of the northern bank at the entrance of Port Adelaide river, at a distance of about 1½ cables N. 62° W. from the old lighthouse. During the erection of the beacon a barge and a pile driver, from which a *white fixed light* will be exhibited, will be moored in the position.

The exact position of the above beacon is not given.

Approximate position, old lighthouse, lat 34° 48′ S., long. 138° 28′ E.

Further Notice will be given when the light is established.

(Variation 5° Easterly in 1904.)

This Notice affects the following Admiralty Chart:—Port Adelaide, No. 1750: Also List of Lights, part VI, 1904, page 206; and Australia Directory, vol. I, 1897, pages 331 and 332.

AUSTRALIA, NORTH-WEST COAST—PORT HEDLAND.

Light established.

No. 132 (third publication).—The British Admiralty has given notice (No. 209 of 1904) that a *white fixed* dioptric light of the 5th order, elevated 48 feet above high water, and visible in clear weather from a distance of 12 miles, has been established on the tidal signal flagstaff erected in the centre of the town of port Hedland; it has been placed on the Chart at a distance of 1¾ cables S. 25° W. from Lumsden beacon.

The light is obscured seaward when bearing to the eastward of S. 18° E.

Approximate position, lat. 20° 18¼′ S., long. 118° 34¾′ E.

(Variation Nil in 1904.)

This Notice affects the following Admiralty Charts:—Bedout island to cape Cuvier, No. 1055; port Hedland, No. 1437: Also, List of Lights, part VI, 1904, page 195; Australia Directory, vol. III, 1895, page 272; and Revised Supplement, 1902, page 17.

AUSTRALIA, SOUTH COAST—BASS STRAIT.

Pyramid rock.—Rock reported north-eastward.

No. 133 (third publication).—The British Admiralty has given notice (No. 210 of 1904) that the Master of the S. S. *Wakatipu* reports that when steering to the southward on 24th October 1903, after passing to the eastward of Deal island and just before Pyramid rock was sighted, his vessel, drawing 18 feet, bumped sharply on a sunken obstruction at 4-30 A.M., but no danger could be seen in any direction. No soundings appear to have been taken.

The Government of Tasmania has also given Notice, dated 31st December 1903, that five Masters of Ships have reported that a rock exists in this vicinity, but as the positions given by them differ, about 4 miles both in latitude and longitude, it is quite impossible to place it on the Charts with any degree of accuracy. "Rock reported hereabouts 1903" has, therefore, been inserted on the Charts at a distance of about 7 miles north-eastward of

Pyramid rock. Vessels are recommended to avoid this locality until it has been examined.

Approximate position, Pyramid rock, lat. 39° 49′ S., long. 147° 15′ E.

This Notice affects the following Admiralty Charts:—Port Phillip to Gabo island, No. 3169; Bass strait, No. 1695a: Also, Australia Directory, vol. I, 1897, page 556.

RED SEA, EASTERN SHORE.—KAMARAN PASSAGE.

Alterations in buoys and beacons.

No. 134 (third publication).—The British Admiralty has given notice (No. 219 of 1904) that the following information, dated 29th February 1904, respecting the buoys and beacons in Cameron passage, has been received from Captain E J. W. Slade, M. V. O., H. M. S. *Diana*:—

New Buoys—

(*a*) A red buoy surmounted by a staff and triangle has been established in a depth of 4½ fathoms at low water to mark the extremity of the shoal extending from ras el Bayádh; it is situated with ras el Bayádh telegraph hut bearing S. 28° W., distant 3 cables, and ras el Yemmen telegraph hut N. 64° W.

(*b*) A black buoy surmounted by staff and ball has been established in a depth of 4 fathoms at low water to mark the extremity of the shoal extending from ras el Yemmen; it is situated with ras el Bayádh telegraph hut bearing S. 22° E., distant 4¼ cables, and ras el Yemmen telegraph hut, N. 62° W.

(*c*) A red buoy surmounted by a staff and cylinder has been established in a depth of 5 fathoms at low water to mark the edge of the 5-fathoms contour line to the southward of ras el Bayádh; it is situated with ras el Bayádh telegraph hut bearing N. 37° E., distant 14½ cables, and ras el Yemmen telegraph hut North.

Buoys removed—

The two red buoys, situated at distances of 3¾ cables N. 27 E. and 5 cables North, respectively, from ras el Bayádh telegraph hut have been removed and are consequently expunged from the Chart.

Beacons:—

The small beacon 8 feet high, formerly situated close to the telegraph hut on ras el Yemmen, and a similar beacon formerly situated at a distance of 15 cables S. 15° W. from ras el Bayádh telegraph hut, do not now exist.

A very conspicuous blockhouse, 25 feet high and 128 feet above high water, has been erected about 5½ miles north-eastward of ras el Bayádh; it is situated at a distance of 3½ cables S. 26° E. from Jebel Mahasin △.

Approxmate position, ras el Bayádh telegraph hut, lat. 15° 15¼′ N., long. 42° 35′ E.

(Variation 3° Westerly in 1904.)

This Notice affects the following Admiralty Chart:—Kamaran passage, No. 543: Also Red Sea, &c., Pilot, 1900, pages 309, 310, 311, 312.

AUSTRALIA, SOUTH.—SPENCER GULF.

Plank point and western shoal.—Beacons established.

No. 135 (third publication).—The British Admiralty has given notice (No. 220 of 1904) hat the undermentioned beacons have been erected on the western shore of Spencer gulf:—

(*a*) Plank point. A pile beacon with a square head, painted black, has been erected in a depth of 24 feet at low water in a position from which Plank point summit (56 feet) bears N. 84° W., distant 5 miles, and shoal water point S. 43° W.

Approximate position, lat. 33° 32′ S., long. 137° 23′ E.

(*b*) Western shoal. A pile beacon with a diamond shaped head has been erected in a depth of 17 feet at low water, on the western edge of the 3-fathom patch off Western shoal, in a position from which Hummock hill bears N. 2° W., distant 6½ miles, and Mount Young N. 68° W.

Approximate position, lat. 33° 9′ S., long. 137° 36′ E.

(Variation 5° Easterly in 1904.)

This Notice affects the following Admiralty Chart:—St. Vincent and Spencer gulfs, No. 2389b; Wood point to Lowly point No. 403: Also, Australia Directory, vol. I, 1897, pages 212, 213.

CONTENTS.

LIBERALITY OF BABUS CHARU CHANDRA CHOUDHURY, HEMANGA CHANDRA CHOUDHURY, AND HERANNA CHANDRA CHOUDHURY OF SHERPUR.

No. 307T.—M., dated Darjeeling, the 25th April 1904.

From—L. P. SHIRRES, ESQ., Secretary to the Govt. of Bengal, Municipal Dept.,
To—The Commissioner of the Dacca Division.

I AM directed to acknowledge the receipt of your letter No. 60G., dated the 14th April 1904, in which you report that Babu Charu Chandra Choudhury and his brothers, Babu Hemanga Chandra Choudhury and Babu Heranna Chandra Choudhury, have given a donation of Rs. 2,562-14 for the construction of a new building for the Sherpur Charitable Dispensary on the condition that it shall bear the name of their late father, Har Chandra Choudhury.

2. In reply, I am to request that you will be so good as to convey to the donors an expression of the Lieutenant-Governor's appreciation of their liberality. This letter will be published in the *Calcutta Gazette.*

WEATHER AND CROP REPORT.

For the week ending the 2nd May 1904.

Burdwan.—No rain. Ploughing and manuring of fields continue. Rain wanted in Raniganj subdivision. Fodder and water sufficient except in some parts of Raniganj. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	per rupee.
Kalna	12	3	
Katwa	13	2	
Raniganj	14	0	

Birbhum.—Rainfall nil. Weather hot and cloudy. Ploughing and manuring going on. Rice sells at Sadar at 14¼ and at Rampur Hât at 14 seers per rupee. Fodder and water sufficient.

Bankura.—Rainfall nil. Rain urgently needed. Weather oppressive. Transplantation of sugarcane commenced. Fodder and water not sufficient. Wells getting dried up. No cattle-disease. Rice sells at 14 seers the rupee.

Midnapore.—Rainfall nil. Late cotton and *rabi* thriving and transplantation of sugarcane almost completed in Sadar. Cattle-disease in Midnapore, Gopiballavpur, and Kharakpur thanas. Fodder and water sufficient, but scarcity of water reported from Sadar. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee.
Contai	16	0	
Tamluk	13	8	
Ghatal	14	0	

Hooghly.—Rainfall nil. Rain urgently needed throughout the district. Fodder and water available. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	per rupee
Serampore	11	0	
Arambagh	13	12	

Howrah.—Rainfall at Sadar nil. Weather hot and cloudy. Cultivation of sugarcane and of jute in the Ulubaria subdivision going on. Jute not yet sown in the Sadar subdivision for want of rain. Paddy seedlings are being grown. *Aghani* paddy has been sown to a small extent only for want of rain. Fodder and water for cattle sufficient. No cattle-disease reported. Common rice is selling at 12 seers per rupee.

24-Parganas.—No rain. Weather seasonable. Cultivation retarded for want of rain. Common rice sells at 12 seers per rupee at Sadar and at 14 seers per rupee at Diamond Harbour. Condition of cattle good. Supply of fodder and water sufficient.

Nadia.—Rainfall at Sadar 0·05, Kushtia 0·94, Chuadanga 1·91, Meherpur 0·19. Weather hot. Prospects of standing crops good. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	0	per rupee.
Kushtia	13	8	
Meherpur	12	0	
Chuadanga	13	0	
Ranaghat	12	0	

Murshidabad.—Rainfall at Jangipur ·08. Transplantation of sugarcane continues. Lands are being prepared for winter rice. Prospects of *boro* good. Fodder sufficient except in Kagram outpost. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	0	per rupee.
Kandi	13	0	
Jangipur	15	0	
Lalbagh	13	4	

Jessore.—Rainfall at Sadar ·05, Jhenida ·68. Weather seasonable. Sowing of *aus* paddy and preparation of land for jute going on. Rain wanted. No cattle-disease reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	9	per rupee.
Jhenida	14	0	
Magura	15	0	
Narail	16	0	
Bangaon	13	5	

Khulna.—Rainfall nil. Weather hot, cloudy and windy. Preparation of lands for autumn rice still continues. *Jute* sowing estimated at 22 per cent. State of summer rice fair. Fodder and water sufficient. Cattle-disease reported from Batiaghata and Assasuni. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee.
Bagerhat	16	8	
Satkhira	13	0	

Rajshahi.—Rainfall at Sadar 0·29, Naogaon nil, Nator 0·06. Prospects of standing crops good. Sowing of *bhadoi* and jute continues, but rain wanted. No want of fodder and drinking-water. No cattle-disease. Common rice selling as follows:—

	Srs.	ch.	
Sadar	14	4	per rupee.
Nator	15	0	
Naugaon	16	0

Jalpaiguri.—Rainfall at Sadar 2·81, Alipur Duars 5·41. Weather cloudy with occasional showers. Sowing of *bhadoi* paddy and jute continues. No more rain wanted for the present. Common rice sells at 13¼ seers a rupee. Fodder and water sufficient.

Darjeeling.—Rainfall at Sadar 0·55. Weather rainy. *Hills*—Maize and potato progressing. *Bhadoi* crop and *chota marua* being sown. *Terai*—*Bhadoi* crop and jute cultivation progressing fairly. Coarse rice sells as follows:—

	Srs.	ch.	
Hills	11	0	per rupee.
Terai	16	0	

Maize sells at Darjeeling at 18 and at Kalimpong at 22 seers per rupee.

Rangpur.—Rainfall at Sadar ·32. Fall general. Weather hot. Sowing of jute continues. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	10	per rupee.
Gaibanda	14	8	
Kurigram	16	0	
Nilphamari	15	0	

Bogra.—Rainfall at Sadar 1·39. Slight fall in parts of the district. Weather hot and occasionally cloudy. Ploughing for *aus* and jute continues and their sowings going on. Fodder and water sufficient. Common rice sells at 16½ seers per rupee.

Pabna.—Rainfall at Sadar 2·44, Sirajganj 0·74. Fall general. Weather cloudy and hot. Prospects of standing crops fair. Rain has done much good to cultivation. Sowing of jute and paddy continues. Outturn of linseed, rape and mustard and sugarcane 100 per cent. No cattle-disease. Fodder and water sufficient. Common rice sells at 16½ seers per rupee.

Dacca.—Rainfall at Sadar ·33. Fall general except at Narayanganj. Prospects of crops fair. Weather seasonable. Fodder available. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee.
Manikganj	16	0	
Narayanganj	14	0	
Munshiganj	13	0	

Mymensingh.—Rainfall at Sadar 4·39, Jamalpur 1·5, Netrokona 0·40, Tangail, 1·08. Weather seasonable. Prospects of crops good. Sowings of jute, winter and autumn rice continue. Cattle-disease reported from Nalitabari police-station. Fodder and water ample. Rice sells as follows:—

	Srs.	ch.	
Sadar	14	0	per rupee.
Jamalpur	16	0	
Kishorganj	14	8	
Netrokona	15	2	
Tangail	14	8	

Faridpur.—Rainfall at Sadar 0·48, Goalundo 2·37, Madaripur nil. Weather seasonable. State and prospects of crops very good. Common rice sells at 15 seers the rupee. Fodder and water sufficient. No cattle-disease.

Backergunge.—Weather seasonable. Summer rice outturn normal. No cattle-disease. Fodder sufficient. Common rice sells at 14½ seers per rupee.

Tippera.—No rain. Weather seasonable. Prospects good. Sowing of *aus* paddy and jute going on. Harvesting of *boro* going on in Brahmanbaria. Fodder and water sufficient. Cattle-disease in Nabinagar thana. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	0	per rupee.
Brahmanbaria	17	9	
Chandpur	16	0	

Noakhali.—No rain. Weather seasonable. Prospects not good. Sowing of *aus* not finished. Fodder and water sufficient. Cattle-disease at Feni. Common rice sells at Sadar at 14 and at Feni at 15 seers per rupee.

Chittagong.—Rainfall nil. Cultivation of *aus* continues. Cattle-disease continues. Fodder and water sufficient. Common rice sells at 15 seers per rupee.

Chittagong Hill Tracts.—Rainfall nil. Weather hot and cloudy. Rice sells at 13 seers per rupee. *Jooming* in progress. Outturn of tobacco poor. Cattle-disease reported from Bandarban.

Patna.—Rainfall nil. Weather hot and windy. Harvesting of *rabi* completed except in Barh. Scarcity of water in Bihar. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	0	per rupee.
Barh	15	0	
Bihar	13	8	
Dinapore	15	8	

Gaya.—Rainfall nil. Weather hot with strong west wind. Sugarcane doing well. Threshing of *rabi* crops approaching completion. *China* (millet) is being harvested. Fodder and water for cattle sufficient. Common rice sells at 13¼ seers per rupee.

Shahabad.—Rainfall nil. Sugarcane germinating. Fodder and water abundant. Rice sells at Sadar at 14 seers a rupee.

Saran.—Rainfall nil. Weather seasonable. Fields being prepared for *bhadoi* crops. *China* and sugarcane doing well. No cattle-disease. Fodder and water sufficient. Common rice sells at 16 and maize at 27 seers per rupee at Sadar.

Champaran.—No rain. Weather hot with strong wind. Sugarcane and *china* doing well. Sowing of *kodo* and early rice and preparation of lands going on. No cattle-disease. Fodder and water sufficient. Common rice sells at 17 and maize at 31 seers per rupee.

Muzaffarpur.—Rainfall nil. Weather hot. Harvesting of *rabi* crops almost over. Threshing in progress. Prospects good. Fodder and water sufficient. Common rice sells at 15 and maize at 28 seers a rupee.

Darbhanga.—Rainfall nil. Weather seasonable. Threshing of *rabi* in progress. Sowing of paddy in low lands in progress. Rain wanted for preparing fields for next crops. Fodder and water sufficient except in Samastipur subdivision where wells and tanks are drying up. No cattle-disease reported. Common rice sells as follows:—

	Srs	ch.	
Sadar	16	8	per rupee.
Samastipur	16	0	
Madhubani	15	9	

Monghyr.—No rain. Weather seasonable. Threshing of *rabi* crops going on. Lands are being prepared for *bhadoi* crops. Sowing of paddy in low lands going on. Watering of sugarcane continues. Fodder sufficient. Scarcity of water in Jamui subdivision. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	8	per rupee.
Begusarai	14	0	
Jamui	13	0	

Bhagalpur.—Rainfall nil. Weather seasonable. Sowing of paddy and *mung* on low lands completed in Supaul and Madhipura. Rain wanted throughout the district. Standing crops doing well. Cattle-disease still reported from Dhuraiya outposts. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	14	per rupee.
Banka	11	4	
Madhipura	18	0	
Supaul	19	0	

Purnea.—Rainfall at Sadar 0·55. Weather cool. Sowing of jute and *bhadoi* still continues. Cattle-disease reported from Koari outpost. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee.
Kishanganj	17	0	
Araria	19	0	

Malda.—Rainfall at Gumashtapur ·10. Weather hot. Very little rain with hail fell on the 29th April. *Boro* coming into ear. *Bhadoi* and jute sowings delayed for want of rain. No cattle-disease. Water available. Scarcity of fodder reported from three thanas. Common rice sells at 14½ seers per rupee.

Sonthal Parganas.—Rainfall at Pakaur 0·11. Weather hot. Sugarcane, the only crop on the fields, doing well. Fodder sufficient, except in parts of Pakaur. Scarcity of water being felt in some parts of Dumka, Pakaur and Rajmahal subdivisions. Common rice sells at 12½ seers per rupee.

Cuttack.—Rainfall nil. Weather seasonable. *Dalua* and tobacco being harvested. Sugarcane badly affected for want of rain. Fodder and water sufficient. Condition of cattle generally good. Common rice sells at 19 seers 11 chitaks per rupee at Sadar.

Balasore.—No rain. Ploughing retarded for want of rain. *Dalua* and *mung* being harvested. Standing crops doing well. Rice sells at 20 seers a rupee both at Bhadrak and Sadar. Fodder and water-supply sufficient.

Angul.—No rain. Weather seasonable. Common rice sells at 26 and 21 seers per rupee at Sadar and Khondmals respectively. Fodder and water sufficient.

Puri.—Rainfall nil. Weather hot and seasonable. Land is being ploughed for the next paddy crop. Sugarcane and cotton are promising well. *Dalua* and *mung* are being harvested. Tobacco is being reaped. Fodder and water-supply sufficient. Common rice sells at 19 seers 11 chitaks per rupee.

Hazaribagh.—Rainfall nil. Weather hot. Collection of *mahua* going on. Fodder and water sufficient. Common rice sells at Sadar at 12½ and at Giridih at 12 seers per rupee.

Ranchi.—Rainfall at Sadar nil. Weather seasonable. Fields are being manured *Tewa* paddy doing well. Cattle-disease reported from several thanas. Fodder and water sufficient. Common rice sells at 13 seers per rupee at Sadar and at 18 seers at Gumla.

Palamau.—No rain. Weather hot. Sugarcane being irrigated. Cattle-disease continues. Water scarce in the district. Fodder available. Rice sells at Sadar at 13½ and maize at 27 seers per rupee.

Manbhum.—Rainfall nil. Weather seasonable. Prospects of crops (sugarcane and tobacco) good. Fodder and water sufficient. Cattle-disease not reported. Common rice sells at Sadar and Gobindpur at 12 seers per rupee.

Singhbhum.—Rainfall nil. Ploughing and manuring in progress. Fodder and water sufficient. Cattle-disease reported from thanas Ghatsila and Chakradharpur. Rice sells at 15 seers per rupee.

General Summary.—Rain is reported from parts of the Presidency, Rajshahi, Dacca and Bhagalpur Divisions. The fall was heavy in the districts of Jalpaiguri, Pabna and Mymensingh, elsewhere light. Ploughing and sowing continue, but rain is needed in parts of Bihar and also in the Orissa and Burdwan Divisions. Prospects fair. Cattle-disease reported from 13 districts, and scarcity of fodder and water from 10. The price of common rice has risen in 10 districts, has fallen in 8, and is stationary in the remainder.

By order of the Lieutenant-Governor of Bengal,

A. EARLE,

Secretary to the Govt. of Bengal.

REVENUE DEPARTMENT,

The 3rd May, 1904.

	Inches.
The mean pressure of the seven days	29·715
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	29·723
	Hours.
The total number of hours of bright sunshine	63·8
The maximum possible number of hours of sunshine	90 0
	°
The mean temperature of the seven days	87 0
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	85 0
The extreme variation of temperature	18·1
The maximum temperature	95·8
	Miles.
The highest velocity of the wind in one hour	17
	%
The mean relative humidity	74
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	72
	Inches.
The total fall of rain from 24th to 30th April 1904	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	0·79
The total fall from 1st January to 30th April 1904	5·53
The average fall of the corresponding period for 24 years, Surveyor-General's Office	4·82

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 2nd May 1904.

G. W. KÜCHLER,
for *Meteorological Reporter to the Govt. of India and Director-General of Indian Observatories.*

RESOLUTION ON THE ADMINISTRATION REPORT OF THE JAIL DEPARTMENT FOR THE YEAR 1903.

No. 244P.—D.

JAILS.

Dated Darjeeling, the 2nd May 1904.

RESOLUTION.

READ—

The Report on the Administration of the Jail Department for the year 1903.

Read also—

Reports for the years 1901 and 1902 and the Resolutions of Government recorded thereon.

Major W. J. Buchanan, I.M.S., was in charge of the Jail Department from the 1st of January till the 17th of April 1903, from which latter date Major R. J. Macnamara, I.M.S., held charge until the end of the year under review. Major Macnamara has submitted the Report for the year.

2. The total population of the jails of Bengal, which amounted to 21,030 on the 1st of January 1903, was decreased by the release of 3,334 prisoners on

the occasion of the Coronation of the King-Emperor, but it rose steadily during the year, although admissions were fewer by over two thousand than those of the preceding year, and stood at 19,907 at the end of the year.

3. The health of the prisoners during the year 1903 was in general good; and the death-rate, which stood for all the jails at 23·5 per mille against a death-rate of 33·33 per mille for the whole population of Bengal, was lower than any rate recorded during the last ten years, except those for the years 1898 and 1899. To the generally satisfactory statistics of health of the jail population the returns of the Barisal Jail furnish a marked exception. As noticed in the Resolution on the report for the year 1902, this jail has for some years had a very bad record of mortality, and for the year 1903 it shows a ratio of 90·6 deaths per mille, which is in excess even of previous records, and which, even after allowing for the bad health of many of the prisoners on admission, is an alarming rate. The Lieutenant-Governor has required the Inspector-General to submit a special report as to the steps which have been taken during the past year and which are proposed to improve the health of the prisoners in this jail; and the Inspector-General has reported that the two main defects which have been factors in the excessive mortality have been, first, overcrowding and, secondly, bad water-supply. Not only has this jail been frequently overcrowded so far as regards accommodation in wards, but the jail is also "site crowded," *i.e.*, the area within the walls is insufficient. The water-supply for the jail has been taken sometimes from a reserved tank and sometimes from the river. The river supply is considered the better, and should alone be used. Sanction has recently been given to enlarge the enclosed area of the jail; a new hospital has been built, and it is hoped that a municipal water-supply for the town and jail will be arranged. It is quite clear, however, that the state of this jail requires the very close attention of the Inspector-General and the local officers. The Inspector-General is evidently in doubt whether all the causes of the present high mortality in this jail have been ascertained and whether they are removable. The Lieutenant-Governor has requested the Inspector-General of Civil Hospitals, in consultation with Major Buchanan, and if necessary with the Sanitary Commissioner and Sanitary Engineer, to conduct a careful inquiry into the causes of mortality in this jail.

4. In general it is to be noticed, as was noticed in last year's Resolution, that the accommodation available in Bengal jails and subsidiary jails is insufficient, and specially in the case of under-trial prisoners. The expenditure incurred during the year on jail buildings amounted to Rs. 3,03,306, namely, Rs. 2,52,116 on original works and Rs. 51,190 on repairs, and it is hoped that a larger sum will be spent under this head during the current year. The want of accommodation has led to the mixing up of convicts and under-trial prisoners in some jails, to overcrowding, and to the absence of suitable quarantine arrangements where plague is prevalent. The Lieutenant-Governor concurs with the Inspector-General in his view of the importance of this matter. The Inspector-General has furnished lists grouping the required works in order of urgency, and His Honour hopes that it may be possible to give effect to a programme of extension and improvement in the course of the next two or three years.

5. The Lieutenant-Governor has recently consulted the Inspector-General as to the feasibility of abolishing a large number of the subsidiary jails so far as regards the accommodation in them, even for short periods, of convicts. It is especially in the subsidiary jails that overcrowding is too common in the case of under-trial prisoners, and it is hoped that a change of system, so far as may be found possible, under which convicts will be sent immediately on sentence to the district or central jail, will give substantial relief in the accommodation of under-trial prisoners. Such a reform will also, it is hoped, result in more effective discipline and providing suitable labour for convicts. Difficulties will no doubt be found in giving full effect to this measure in the case of some of the subsidiary jails on account of their distance from head-quarters and because police escorts will not always be promptly forthcoming; but in the main it is believed that the reform contemplated is practicable and desirable, even when it may involve additional expenditure.

6. Major Macnamara has offered some interesting remarks on the subject of the rice diet which is in general use in Bengal jails, but the Lieutenant-Governor is not convinced of the soundness of his conclusion that prisoners are "largely overfed with rice." It is to be remembered that in the districts of Bengal Proper rice is the staple food of the people; and the substitution of *makai* or any other cereal in the jails of these districts might not be expedient. The instance given by the Officiating Inspector-General of a change in the health of the prisoners of the Daltonganj Jail, which was coincident with the partial substitution of *makai* for rice in the diet scale, is not conclusive, because in fact the inhabitants of the Palamau district largely eat *makai.* At the same time it undoubtedly illustrates the necessity for, or advantages of, careful attention to the matter of diet. On the whole, the figures relating to increase and decrease of weight of convicts which are given in an Appendix to the Report are not unsatisfactory. From this statement it appears that out of 42,329 convicts discharged during the year, 10,191 neither lost nor gained weight, 26,219 gained weight, and only 5,919 lost weight. The Lieutenant-Governor leaves it to Major Buchanan, who has returned to duty, to make such recommendations to Government as he may think proper on this important subject of diet of prisoners after consideration of the suggestions made by his *locum tenens.*

7. Under the head of Labour and Cash Earnings the Lieutenant-Governor notices that there was a satisfactory increase of average profit per head of those sentenced to labour from Rs. 30-12 in 1902 to Rs. 31-9 in 1903. The net earnings in central jails per head of average strength of convicts ranged from Rs. 116-1 in the Presidency Jail to only Rs. 10-1 in Rampur Boalia. The differences require the careful attention of Superintendents. The Inspector-General has been invited to place before Government, if he thinks proper, the purport of his correspondence with the Military authorities on the subject of the full use by them of the jail factories; and the Public Works Department will enquire into the complaint that convict labour was not employed fully on the construction and repairs of jail buildings in Hazaribagh.

8. There was a decrease in the total numbers of offences and punishments of convicts during the year, but a slight increase in the percentage of punishments to average number of convicts, which was apparently due to the number of releases of short-term prisoners in connection with the Coronation rejoicings. As suggested in last year's Resolution, a scheme of remission of sentences by days to take the place of the record of marks was submitted during the year by Major Macnamara, but its consideration was postponed till the return from leave of Major Buchanan, who originally proposed this change. The Lieutenant-Governor awaits Major Buchanan's opinion on the subject.

9. The Lieutenant-Governor again notices the unsatisfactory state of the jail warder force. It was suggested in last year's Resolution that the leave rules for these officers should be made more liberal with special reference to the fact that most of the warders come from up-country districts. It is understood, however, that the leave difficulties are principally due to the want of a reserve of warders, and the Lieutenant-Governor will be prepared to consider proposals for the necessary increase of strength to enable leave to be more freely given.

10. The average period of detention of under-trial prisoners, the Lieutenant-Governor regrets to observe, was in excess of the figures for the preceding year in spite of the smaller number of admissions. Enquiries must be made by Commissioners in the case of those jails and subsidiary jails which show the most unsatisfactory results; but this matter is one which demands constant attention from Commissioners and District Magistrates throughout the year. Inspections of subsidiary jails by the Subdivisional Officers were more regularly made than in the preceding year, but explanations will be required from the Subdivisional Officers of Cox's Bazar and Samastipur as to the insufficient number of visits paid by them to the subsidiary jails under their charge.

11. The Lieutenant-Governor notices commendations bestowed by the Officiating Inspector-General upon officers of the Department and thanks

Major Macnamara for the zeal with which he discharged his duties and for an interesting report.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Inspector-General of Jails for information and guidance.

Ordered also that a copy of this Resolution and a copy of the Report be submitted to the Government of India in the Home Department.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

W. C. MACPHERSON,

Offg. Chief Secy. to the Govt. of Bengal.

.RECOMMENDATION TO BE MADE BY THE DISTRICT BOARDS OF THE DACCA DIVISION FOR THE NOMINATION OF A MEMBER TO THE BENGAL LEGISLATIVE COUNCIL.

No. 804A.—D.

RESOLUTION.

APPOINTMENT DEPARTMENT.

Dated Darjeeling, the 4th May 1904.

THE seat in the Bengal Legislative Council of the Hon'ble Maulvi Seraj-ul-Islam, Khan Bahadur, who was nominated as the representative of the District Boards of the Chittagong Division, will be vacant on the 28th July 1904. On the occurrence of the vacancy caused by the expiry on the 19th August 1903 of the term of office of the Hon'ble Babu Chaturbhooj Sahay, who represented the District Boards of the Patna Division, it became the turn of the District Boards of the Dacca Division, in the rotation sketched in paragraph 5 of the Resolution of this Government No. 1553J., dated the 25th March 1893, to exercise the privilege of recommending a candidate to fill the seat to be so vacated. For special reasons, however, which were set forth in the Resolution of this Government. No. 1194A.—D., dated the 1st June 1903, the Lieutenant-Governor decided to invite the District Boards of Chota Nagpur, instead of those of the Dacca Division, to submit a recommendation for filling the vacancy on that occasion. For the purposes of filling the vacancy which will occur on the expiry on the 28th July next of the Hon'ble Maulvi Seraj-ul-Islam Khan Bahadur's term of office, return will be made to the rotation laid down in the Resolution of 1893; and the District Boards of the Dacca Division will accordingly be invited to exercise the privilege of recommendation on this occasion. The necessary notification will be published in the *Calcutta Gazette*, specifying the District Boards of the Dacca Division as the group of Boards on whose recommendation the Lieutenant-Governor will make a nomination to the seat. Each District Board will elect one representative only, and he will be entitled to exercise all the votes of the body which he represents.

2. The following statement shows the District Boards which will send delegates to vote for a person to be recommended for the vacant seat, and the number of votes assigned to them according to the scale shown in paragraph 5 of the Resolution of this Government No. 2307A., dated the 31st March 1897. The ordinary income taken is that for 1902-1903:—

Division.	District Board.	Ordinary income.	Number of votes to be recorded by the representatives.
		Rs.	
Dacca ...	Dacca ...	1,55,207	3
	Mymensingh ...	2,95,889	6
	Faridpur ...	95,729	2
	Backergunge ...	2,66,667	5

3. Under Rule IV of the Regulations framed by the Governor-General in Council with the approval of the Secretary of State under section 1 (4) of the Indian Councils Act, 1892, for Bengal, the Lieutenant-Governor now desires that the Commissioner of the Dacca Division will at once address the Chair-men of the District Boards enumerated in the above list, requesting them to convene a special meeting of their Board at which one member of the Board should be selected to represent them for the purpose of making the recommendation for the seat in Council. The name of the representative so selected must be reported at once by the Chairman to the Commissioner of the Division.

4. The period of three months laid down in Rule VII of the Regulations as that within which a recommendation shall be made to the Lieutenant-Governor will run from the date on which the Commissioner of the Division issues his request to the Chairmen of the District Boards.

5. As soon as the representatives have been selected, they will be called upon by the Commissioner of the Division to meet together on an early and convenient date, with special reference to the limit of time imposed by Rule VII of the Regulations, and at such convenient place as he may specify, for the purpose of electing, by a majority of votes, a person whom they will recommend to the Lieutenant-Governor to be nominated as a member of the Council. The names of all candidates put forward at such meeting shall be duly proposed by one of the representatives present. The election shall be by ballot, and the person elected must obtain a majority of the votes of the representatives present. If on the occasion of the first ballot an absolute majority is not obtained, the name of the candidate who obtains the least number of votes shall be withdrawn from the election, and another ballot shall then be held for the remaining candidates, and so on, until an absolute majority is obtained. In the event of a tie occurring at any stage, lots shall be drawn.

6. The electoral representatives present at this meeting shall elect one of themselves to be Chairman, and he shall preside and be responsible for the fair and proper exercise of the ballot vote.

7. The Chairman of the meeting shall without delay report to the Commissioner of the Division the name of the person elected, with the number of votes obtained, and any other information which it may appear desirable to communicate, and on behalf of the meeting shall recommend to the Lieutenant-Governor the nomination to the Council of the person so elected. The Commissioner shall submit the report from the Chairman of the meeting, with any observations he may wish to add, to the Chief Secretary to Government, by whom the recommendation will be submitted to the Lieutenant-Governor.

8. Attention is drawn to the following Rule VI of the Regulations which have been framed by the Governor-General in Council with the approval of the Secretary of State:—

VI.—It shall be a condition in the case of any person to be recommended by a Municipal Corporation, or group of Municipal Corporations, that he shall be a person resident within the Municipality or the district in which it is situated, or in some one of the municipalities constituting the group or of the districts in which they are situated. A similar condition shall also apply to persons to be recommended by District Boards.

Explanation.—A person is not "resident" within the meaning of this rule unless he has a place of residence in the locality concerned, and such practical connection with that locality as qualifies him to represent the inhabitants thereof.

If at any time the question is raised whether a person proposed for election is "resident" within the meaning of this rule, the question shall be referred to, and decided by, the Local Government, whose decision shall be final.

Under this rule it is not necessary that the person recommended should be a member of any District Board concerned, but he must be resident within the Division from which the recommendation is made. Subject to this condition, the rules declare no limit of qualification, and it is left to the representatives to recommend a person under Rule V (*c*) according to the majority of their votes.

9. It is desirable that the subsidiary arrangements now sanctioned shall, as far as possible, be given effect to by the District Boards concerned with the minimum of official interference. The Divisional Commissioner and the District Magistrates will, of course, afford any assistance which may be required, and will do their utmost to facilitate the smooth working of the elections; but Government officers are forbidden to take part, directly or indirectly, in the election by canvassing, influencing votes, or otherwise interfering with the free choice of the District Boards. No indication should be given by any official member of any of the District Boards concerned as to the manner in which he himself intends to vote.

ORDERED that a copy of this Resolution be furnished to the Commissioner of the Dacca Division for information and guidance, and for communication to the District Boards in his Division.

Ordered also that a copy be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

W. C. MACPHERSON,

Offg. Chief Secy. to the Govt. of Bengal.

WEATHER AND CROP REPORT.

For the week ending the 9th May 1904.

Burdwan.—Rainfall at Sadar 2·45, Raniganj 0·13, Kalna 2·08, Katwa 1·25. More rain wanted in all the subdivisions except Kalna. Ploughing and manuring of fields continue. Fodder is sufficient except in some parts of Raniganj. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	per rupee.
Kalna	12	13	
Katwa	13	2	
Raniganj	13	12	

Birbhum.—Rainfall at Sadar ·27, Rampur Hàt ·72 with hailstones. Weather seasonable. Ploughing and manuring going on. Rice sells at Sadar at 14¼ and at Rampur Hàt at 14 seers per rupee. Fodder and water sufficient.

Bankura.—Rainfall at Sadar 3·33, Vishnupur ·92. Weather generally stormy in the evenings. Thunderstorm with hail and rain last night. Lands being prepared for *aus* crop. Sugarcane being grown. Fodder and water not sufficient yet. No cattle-disease reported. Rice sells at 14 seers the rupee both at Sadar and Vishnupur.

Midnapore.—Rainfall at Sadar 1·89, Contai 2·50, Tamluk 1·52, Ghatal 1·47. Cattle-disease in Midnapore, Kharakpur and Gopiballavpur thanas. Fodder sufficient, but scarcity of water reported from Sadar and Ghatal. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee.
Contai	17	0	
Tamluk	13	8	
Ghatal	14	0	

Hooghly.—Rainfall at Sadar 1·86, Serampore 1·28, Arambagh 0·75. Prospect of standing crops fair. Fodder and water available. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	per rupee.
Serampore	11	0	
Arambagh	13	14	

Howrah.—Rainfall at Sadar 1·73. Winter rice has been sown on about one-fifteenth part and jute on about one-sixteenth part of the normal area Summer rice is ripening. Sugarcane is growing well. The rainfall of the last two days will now facilitate the progress of cultivation. Fodder and water sufficient. No cattle-disease reported. Common rice is selling at 12 seers per rupee.

24-Parganas.—Rainfall at Sadar 2·76, Barasat 2·32, Basirhat 1·19, Diamond Harbour 1·60. Weather seasonable. Rainfall still insufficient. State and prospects of crops fair. Lands are being vigorously prepared for early paddy and jute. Sowing of jute and *aus* has commenced in Basirhat. Common rice sells at 12 seers per rupee at Sadar and at 14 seers per rupee at Basirhat and Diamond Harbour. Condition of cattle good. Supply of fodder and water sufficient.

Nadia.—Rainfall at Sadar 1·82, Kushtia 2·02, Chuadanga 2·35, Meherpur 2·03. Ranaghat 2·15. Weather hot. Prospects of standing crops good. Sowing of paddy and jute has commenced. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	per rupee.
Kushtia	13	8	
Meherpur	12	0	
Chuadanga	13	0	
Ranaghat	12	0	

Murshidabad.—Rainfall at Sadar not received, Lalbagh 0·55, Jangipur 0·45, Kandi 0·81. Sugarcane-planting continues. *Aman* lands being prepared. Sowing of *bhadoi* in progress. Recent rain benefited *til* in Kandi subdivision. No cattle-disease. Fodder and drinking-water sufficient except in some parts in Kandi. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	0	per rupee.
Kandi	14	0	
Jangipur	14	8	
Lalbagh	13	4	

Jessore.—Rainfall at Sadar 4·39, Jhenida 2·89, Magura 2·73, Narail 3·67, Bongaon 2·81. Weather seasonable. Sowing of *aus* paddy and jute going on. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee
Jhenida	14	0	
Magura	15	0	
Narail	16	0	
Bangaon	13	5	

Khulna.—Rainfall at Sadar 3·88, Bagerhat 2·85 and Satkhira 2·42. Weather unsettled. Preparation of lands for autumn rice still continues. State of summer rice fair. *Jute*-sowing estimated at 29 per cent. Fodder and water sufficient. Cattle-disease reported from Khulna, Batiaghata and Assasuni. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee
Bagerhat	16	0	
Satkhira	13	0	

Rajshahi. Rainfall at Sadar 2·13, Nator 3·46, and Naugaon 0·72. Prospects of standing crops good. The rainfall has done much good to the sowing of jute and paddy. No cattle-disease. Fodder and water sufficient. Common rice selling as follows:—

	Srs.	ch.	
Sadar	14	4	per rupee.
Nator	16	8	
Naugaon	17	0	

Dinajpur.—Rainfall at Sadar 2·14, Thakurgaon 1·99. Fall in the district general, varying from 5·17 to ·30. Weather seasonable. Sowing of jute and *bhadoi* in progress. No cattle-disease. Fodder and water plentiful. Common rice sells at 16 seers at Sadar and Thakurgaon.

Jalpaiguri.—Rainfall at Sadar 4·68, Alipur Duars 5·46. Fall general Weather cloudy with occasional rains. Sowing of *bhadoi* paddy and jute continues. Common rice sells at 13½ seers a rupee. Fodder and water sufficient everywhere.

Darjeeling.—Rainfall at Sadar 2·92. Weather cloudy. *Hills*—Maize and potato doing well. *Bhadoi* paddy and *chota marua* germinating. *Terai*—*Bhadoi* and jute cultivation going on. Planting of sugarcane commenced. Coarse rice sells as follows:—

	Srs.	ch.	
Hills	11	0	per rupee.
Terai	13	0	

Maize sells at Darjeeling at 18 and at Kalimpong at 22 seers per rupee.

Rangpur.—Rainfall at Sadar 4·26. Fall general. Weather cloudy and rainy. Recent rains have retarded the weeding of jute and *aus*. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	10	per rupee.
Gaibanda	14	8	
Kurigram	16	0	
Nilphamari	15	0	

Bogra.—Rainfall at Sadar 0·19. Slight fall everywhere. Weather cloudy with occasional shower. Sowing of *aus* and jute going on. Fodder and water sufficient. Common rice sells at 16 seers per rupee.

Pabna.—Rainfall at Sadar 3·12, Sirajganj 0·88. Fall general. Weather cloudy and hot. Prospects of standing crops fair. Sowing of jute and paddy continues. No cattle-disease. Fodder and water sufficient. Common rice sells at 16½ seers per rupee.

Dacca.—Rainfall at Sadar 1·81. Fall general. Prospects of crops fair. Weather seasonable. Fodder available. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee
Manikganj	16	0	
Narayanganj	14	0	
Munshiganj	13	0	

Mymensingh.—Rainfall at Sadar 3·63, Jamalpur 7·97, Kishorganj 6·97, Netrakona 5·74, Tangail 1·02. Weather cloudy with occasional rains. Prospects of crops fair. Summer rice suffered from excessive rain. Sowing of *aus*, jute and paddy still continues. Condition of cattle good except in Nalitabari station. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	0	per rupee.
Jamalpur	16	0	
Kishorganj	14	6	
Netrakona	15	1	
Tangail	14	8	

Faridpur.—Rainfall at Sadar 2·46, Goalundo 1·56, Madaripur 0·30. Weather stormy. State and prospects of crops very good. Common rice sells at 15 seers the rupee. Fodder and water sufficient. No cattle-disease.

Backergunge.—Rainfall at Sadar 1·75. Fall general. Weather cloudy. No cattle-disease. Fodder sufficient. Common rice sells at 14¼ seers per rupee.

Tippera.—Rainfall at Sadar 2·91, Brahmanbaria 7·68, Chandpur 0·73. Weather rainy and cloudy. Prospects good. Sowing of *aus* paddy and jute going on. *Boro* and jute slightly damaged by rain in Brahmanbaria. Fodder and water sufficient. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	12	per rupee
Brahmanbaria	17	0	
Chandpur	16	0	

Noakhali.—Rainfall at Sadar 2·57, Feni 1·36. Prospects uncertain. Sowing of *aus* continues. Fodder and water sufficient. No cattle-disease. Common rice sells at Sadar at 14 and at Feni at 15 seers per rupee.

Chittagong.—Rainfall at Sadar 0·33, Cox's Bazar 0·03. Cultivation of *aus* crop going on. Cattle-disease reported. Fodder and water sufficient. Common rice selling at 14¼ seers per rupee.

Chittagong Hill Tracts.—Rainfall 1·07. Weather hot and cloudy. Rice sells at 13 seers to the rupee. *Jhooming* is still in progress. Sowing of rice and *til* commenced in some places. Lands are being made ready for *plough*-cultivation of rice. Cattle-disease nowhere except in thana Bandarban. Fodder and water sufficient.

Patna.—Rainfall nil. Weather seasonable; easterly wind. Standing sugarcane and *china* doing well. Scarcity of water continues in Bihar. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	4	per rupee.
Barh	14	8	
Bihar	13	8	
Dinapore	15	8	

Gaya.—Rainfall at Sadar 0·75, Nawadah 0·14. Weather hot with east wind; sometimes cloudy, accompanied with storms. Sugarcane doing well. Threshing of *rabi* and harvesting of *china* (millet) over. There was a severe hailstorm at Sadar on the 5th instant, but no damage was done to the crops. Fodder and water for cattle sufficient. Common rice sells at 13$\frac{1}{16}$ seers per rupee.

Shahabad.—Rainfall nil. Sugarcane doing well. Fodder and water abundant. Rice sells at Sadar at 14 seers per rupee.

Saran.—Rainfall at Sadar 0·02, Siwan 1·65, Gopalganj 2·50. Weather cloudy. East wind. Rain in the north of the district has done much good. Fields being prepared for *bhadoi* and paddy crops. Probable outturn of *arhar* 16 annas. No cattle-disease. Fodder and water sufficient. Common rice sells at 16 and maize at 27 seers per rupee at Sadar.

Champaran.—Rainfall at Sadar 2·60, Bettiah 2·06. Strong west wind. Rain has improved the prospects of standing crops and facilitated preparation of lands for *aghani* and *bhadoi* sowings. Paddy is being sown in places. No cattle-disease. Fodder and water sufficient. Common rice sells at 17 and maize at 31 seers per rupee.

Muzaffarpur.—Rainfall at Sadar 1·13, Hazipur ·06, Sitamarhi 1·77. Weather generally hot. Harvesting of *rabi* crops finished. Threshing approaching completion. Rainfall of the week has benefited the crops in low lands. Fodder and water sufficient. Common rice sells at 15 and maize at 28 seers a rupee.

Darbhanga.—Rainfall at Sadar 1·40, Samastipur ·37, Madhubani 1·45. Weather cloudy, with east wind. Threshing of *rabi* is still in progress. Fields for *bhadoi* crops are being prepared. The recent rain has much benefited the standing crops. No cattle-disease reported. Fodder and water sufficient except in some villages in the Samastipur subdivision. where more water is wanted. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	8	per rupee.
Samastipur	16	0	
Madhubani	16	4	

Monghyr.—Rainfall at Sadar 0·04, Begusarai nil, Jamui ·91. Weather seasonable. Threshing of *rabi* crops going on. Watering of sugarcane continues. Paddy being sown in low lands Scarcity of water in Jamui subdivision. Fodder sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	3	per rupee.
Begusarai	13	8	
Jamui	13	0	

Bhagalpur.—Rainfall at Sadar 1·17, Banka 0·07, Madhipura 2·59, Supaul 1·72. Weather occasionally cloudy with high east wind. Rainfall has done much good. Cattle-disease still reported from Dhuraiya outpost. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	14	per rupee.
Banka	11	4	
Madhipura	17	0	
Supaul	19	0	

Purnea.—Rainfall at Sadar 1·78. Kishanganj 1·34, Araria 1·04. Fall general. Sowing of jute and *bhadoi* going on briskly. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee.
Kishanganj	17	0	
Araria	18	0	

Malda.—Rainfall at Sadar 0·54, Gumashtapur 0·78, Nawabganj 1·30, Chanchal 1·22, Gajol 1·00, Sibganj 1·07. Weather cloudy. *Boro* doing well, but some damage has been done to it in Habibpur outpost by hail. Recent rain has facilitated the sowings of *bhadoi* and jute. No cattle-disease. Water available. Scarcity of fodder reported from one thana only. Common rice sells at 14½ seers per rupee.

Sonthal Parganas.—Rainfall at Sadar 0·34, Godda 1·71, Pakaur 0·24, Rajmahal 0·28. Weather hot and cloudy. Sugarcane doing well. Outturn of tobacco 75 per cent. Fodder and water insufficient, except at Deoghar and Godda. Common rice sells at 12½ seers per rupee.

Cuttack.—Rainfall at Sadar 0·77. Fall general. Weather seasonable. *Dalua* and tobacco being harvested. Sugarcane growing. Fodder and water sufficient. Condition of cattle generally good. Common rice sells at 19 seers 11 chitaks per rupee at Sadar.

Balasore.—Rainfall at Sadar 0·99. Fields being ploughed at places. Sugarcane being planted. Other crops doing well. Rice sells at 18 and 20 seers per rupee at Sadar and Bhadrak respectively. Fodder and water available.

Angul.—Rainfall at Sadar 0·26 Weather seasonable. Common rice sells at 26 and 21 seers per rupee at Sadar and Khondmals respectively. Fodder and water sufficient.

Puri.—Rainfall 0·02. Weather hot and seasonable. Land is being ploughed for the next paddy crop. Sugarcane and cotton are promising well. *Dalua* and *mung* are being harvested. Tobacco is being reaped. Fodder and water-supply sufficient. Common rice sells at 19 seers 11 chitaks per rupee.

Hazaribagh.—Rainfall at Sadar 0·25, Giridi ·05. Weather hot. Cattle-disease reported from one thana. Lands being ploughed. Fodder and water sufficient. Common rice sells at Sadar at 12½ and at Giridih at 12 seers per rupee.

Ranchi.—Rainfall at Sadar 2·34. Weather hot and cloudy. Ploughing and manuring in progress. Cattle-disease reported from Sisai and Kolebira thanas. Fodder and water sufficient. Common rice sells at Sadar at 12 and at Gumla at 18 seers per rupee.

Palamau.—Rainfall at Sadar 0·17. Weather hot and cloudy. Rainfall general, mostly scanty with high wind and hailstorms damaging mango to a certain extent. Sugarcane doing well. Cattle-disease reported from five thanas. Fodder available. Water scarce Rice sells at Sadar at 13¼ seers and maize at 27 seers per rupee.

Manbhum.—Rainfall at Sadar 0·94, Gobindpur 0·16. Weather seasonable. Prospect, of crops good. Fodder and water sufficient. Cattle-disease not reported. Common rice sells at Sadar at 12¾ and at Gobindpur at 12 seers per rupee.

Singhbhum.—Rainfall 2·96. Ploughing and manuring in full swing. Fodder and water sufficient. Cattle-disease reported from thana Ghatsila. Rice sells at 15 seers per rupee.

General Summary.—Rainfall during the week was general and, for the most parte moderately heavy. More rain is wanted in the districts of Burdwan and 24-Parganas. Somn damage to crops has been caused by hail in Malda and Palamau, and by excessive rain is. Mymensingh. Prospects otherwise good. Cattle-disease reported from 9 districts, and scarcity of fodder and water from a few places. The price of common rice has risen in 6 districts, has fallen in 4, and is stationary in the remainder.

By order of the Lieutenant-Governor of Bengal,

A. EARLE,

Secretary to the Govt. of Bengal.

OFFICE OF SANITARY COMMISSIONER FOR BENGAL,

The 6th May 1904.

F. C. CLARKSON, *Major*, I.M.S.,

Sanitary Commissioner for Bengal.

Abstract of the Results of Meteorological Observations taken at the Alipore Observatory in the month of April 1904.

	Inches.	Date.	Hour.
The mean pressure of the month	29·681		
The average pressure of April from 44 years' registers ...	29·748		
The highest pressure in the month	29·867	27th	10
The lowest pressure in the month	29·426	6th	16
The range of pressure	0·441		
	Hours.		
The total number of hours of bright sunshine during the month	254·4		
The maximum possible number of hours of sunshine ...	378·9		
	℉		
The mean temperature of the month	86·2		
The average temperature of April from 20 years' registers ...	85·0		
The highest temperature in the month	101·5	23rd	
The lowest temperature in the month	69·4	10th	
The range of temperature during the month	32·1		
The mean daily range of temperature	17·8		
The greatest range of temperature in one day	26·1	3rd	
	Per cent.		
The mean humidity of the month	73		
The average humidity of April from 20 years' registers ...	68		
	Inches.		
The mean vapour tension of the month	0·903		
The average vapour tension of April from 20 years' registers ...	0·791		
The mean cloud proportion of the month	0·90		
The average cloud proportion of April from 27 years' registers	2·82		
	Inches.		
The total rainfall of the month	0·33		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	0·32		
The average fall of April from 24 years' registers ...	1·54		
The greatest fall in 24 hours	0·33	10th	
	Days.		
The number of rainy days in the month	1		
The average number of rainy days in April from 24 years' registers	3		
	℉		
The mean maximum equilibrium temperature of solar radiation during the month	148·5		
The mean difference of sun and air temperatures	53·3		
The greatest sun temperature	155·2	3rd	
The greatest excess of sun over air temperature	57·0	10th	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	74·2		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	3·2		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	6·2	17th	
	Miles.		
The mean movement of the wind per day	173·2		
The greatest movement of the wind in one day	284·0	11th & 12th	
The greatest movement of the wind in one hour	20·0	9th 5 to 6 P.M.	

The number of hours with winds from each of the eight points—

N. 2, N.E. 1, E. 15, S.E. 49, S. 452, S.W. 170, W. 9, N.W. 8, Calm 14.

G. W. KÜCHLER,

for Meteorological Reporter to the Govt. of India and Director-General of Indian Observatories.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 9th May 1904.

Results of the Meteorological Observations taken at the Alipore Observatory from 1st to 7th May 1904.

Month.	Date.	Maximum in sun.	Number of hours of bright sunshine.	Mean pressure barometer at 32° Fahr.	Temperature. Mean.	Maximum.	Range.	Minimum.	Hygrometry. Mean wet bulb.	Vapour tension.	Dew point.	Humidity.	Wind. Prevailing direction.	Miles recorded.	Rain.	Weather.

	Inches.
The mean pressure of the seven days	29·699
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	29·700
	Hours.
The total number of hours of bright sunshine	47·6
The maximum possible number of hours of sunshine	90·9
	°
The mean temperature of the seven days	84·9
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	85·3
The extreme variation of temperature	24·6
The maximum temperature	94·6
	Miles.
The highest velocity of the wind in one hour	17
	%
The mean relative humidity	73
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	73
	Inches.
The total fall of rain from 1st to 7th May 1904	1·45
The average fall of the corresponding period for 24 years, Surveyor-General's Office	0·86
The total fall from 1st January to 7th May 1904	6·98
The average fall of the corresponding period for 24 years, Surveyor-General's Office	5·68

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; <, lightning, / strong wind; K, thunderstorm.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 9th May 1904.

G. W. KÜCHLER,
for Meteorological Reporter to the Govt. of India and Director-General of Indian Observatories.

RESOLUTION RECORDED ON THE ANNUAL RETURNS OF THE LUNATIC ASYLUMS IN BENGAL FOR THE YEAR 1903.

MUNICIPAL DEPARTMENT—MEDICAL.

Darjeeling, the 12th May 1904.

RESOLUTION No. 677T.—M.

READ—

The Annual Returns of the Lunatic Asylums in Bengal for the year 1903.

Read also—

The Triennial Report on the working of the Lunatic Asylums in Bengal for the three years 1900—1902 and the Resolution recorded by Government thereon.

The returns, which were received by the Government before the prescribed date, have been prepared in accordance with the instructions contained in the Resolution of the Government of India in the Home Department, No. 21—31, dated the 12th January 1904.

2. The Inspector-General of Civil Hospitals points out in the notes that the number of new admissions, the daily average population, and the total number treated were the highest on record, and he suggests that lunatics are brought into the Asylums more frequently and freely than in

former years. The increase between the years referred to by him is, however, not greater than is accounted for by the increase in the total population of the Province. Attention is also drawn to the fact that the death-rate is higher in Bengal than in some other Provinces. The explanation no doubt is that the total capacity of the Asylums in Bengal is smaller in proportion to the total population of the Province than that provided elsewhere; for when only a smaller proportion of the lunatics can be treated preference must be given to the worst cases, and among these naturally there is a larger mortality. The average number of inmates per 1,000 of population was ·01 in Bengal as compared with ·051 in Bombay,* ·051 in Burmah, and ·023 in the Punjab. The same explanation probably accounts for the large number discharged as cured in Bengal, which was 96·44 per mille against 66·41 in Bombay, 80·83 in Burmah, and 70·18 in the Punjab. The daily average number of inmates in Bengal was 1,053·70, while the capacity of the Asylums was only 1,188.

* Figures for other Provinces are from Reports for 1902, except those for the United Provinces, which are for 1901.

3. The Inspector-General of Civil Hospitals points out that the most serious item in expenditure is the cost of diet. This has increased considerably more in recent years than either the rise in prices or the larger average population appears to account for. In the five years ending in 1892 the average cost per patient for diet was Rs. 33-13-1, but in the year under review it had risen to Rs. 47-11-6, or by 41·11 per cent. In the different Asylums the percentage of increase was as follows:—Dullunda 32·60, Dacca 15·02, Patna 31·18, Berhampore 18·34, and Cuttack 62·21. An explanation should be obtained of the large increase in the last-named Asylum. Figures for this comparison are not available for Bhawanipur. On the other hand, if the comparison be made with the quinquennial period ending with 1902, it will be found that there has been an actual decrease, the total cost of diet in the year 1903 having been less than in the year 1902 and almost the same as in the year 1901. It is also satisfactory to note that the average total cost per patient in Bengal (Rs. 130) is less than in Bombay (Rs. 174), Madras (Rs. 172), the Punjab (Rs. 166), or Burmah (Rs. 149), although it considerably exceeds the figure shown for the United Provinces (Rs. 95).

4. It is undeniable that the arrangements at the Asylums are in many respects far below the standard of the present day. Especially is this the case in Bhawanipur, where the patients are shut in, and where their surroundings are not conducive to successful treatment. At other Asylums also, although more space is available, there is an absence of the skilled supervision which can only be obtained by the continuous presence of a highly trained specialist. To render it possible to provide such treatment at a reasonable cost concentration of these Asylums is necessary, and such a measure has become practicable owing to the fact that almost all districts are now accessible by railway. The arrangements for carrying out this reform are already far advanced in the case of native lunatics; and it is hoped that it may be found feasible to carry out a similar reform in the case of European lunatics: the matter is receiving earnest attention. Although, however, the medical officers in charge have had to work under great disadvantages, the Lieutenant-Governor notices with much satisfaction the opinion recorded by the Inspector-General of Civil Hospitals that the Asylums have been carefully and judiciously managed throughout the year.

By order of the Lieutenant-Governor of Bengal,

L. P. SHIRRES,

Secretary to the Government of Bengal.

FINAL FORECAST OF THE WHEAT CROP OF BENGAL, 1903-1904

The 16th May 1904.—The following is published for general information.

A. EARLE,

Secy. to the Govt. of Bengal.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Final Forecast of the Wheat crop of Bengal, 1903-1904.

Preliminary.—Wheat is grown chiefly in the Bihar districts; also in Murshidabad, Nadia, Rajshahi, Rangpur, Pabna, Hazaribagh, and Palamau.

2. *Character of the season.*—The heavy rains in October favoured the retention of moisture by the soil during the wheat-growing season. In November light showers were obtained all over the Province, except in Bihar, where, however, the bulk of the wheat crop is raised. December was practically rainless, but the crop in Bihar was much benefited by the January rains. In February the rainfall was more general and copious. On the whole, the season has been moderately favourable.

3. *Area sown.*—The normal area under wheat in these Provinces is at present estimated at 1,498,500 acres, while the area planted this year is returned at 1,508,600 acres, against 1,117,000 acres sown last year.

4. *Character of the crop.*—From Appendix I, in which the district returns have been summarised, it will be seen that out the nineteen large wheat-growing districts in the Province. only Patna reports a crop of over 100 per cent. Five districts, viz., Rajshahi, Pabna, Gaya, Saran, and Malda report a normal crop of 100 per cent. Monghyr and the Sonthal Parganas expect a 95 and a 98 per cent. crop respectively. In four districts (viz., Shahabad, Darbhanga, Purnea, and Hazaribagh) the outturn varies between 80 to 86 per cent., and in the remaining seven it varies between 60 to 78 per cent. Since the publication of the preliminary forecast in February last prospects improved in five districts out of the nineteen chief wheat-growing districts, remained stationary in six and deteriorated in eight. The provincial outturn according to the present estimate of the District Officers amounts to 85 per cent., of a normal crop, against 89, which was their estimate in the Preliminary Forecast.

Considering the favourable condition of the season, the provincial outturn may safely be estimated at 90 per cent. of a normal crop.

5. *Food-stocks and the prices of food-grains.*—The harvests of the year are generally reported to be a little below the normal, but the prices were easier than in the previous year. This may be partly ascribed to sufficient stock left from the harvest of the previous year, but I would ascribe it mainly to better harvests actually obtained. The stock in hand, though not plentiful, is sufficient for the requirements of the Province.

6. *Gross outturn.*—According to the estimates of the District Officers, the gross yield of wheat in the Province will, this year, amount to 527,800 tons, as compared with 485,900 tons of the past year.

7. *Imports of wheat into Calcutta.*—From the statistics of the wheat trade quoted on the margin, it will be noticed that there was during the year under report a considerable decrease of imports of wheat into Calcutta from Bengal and Bihar. This is probably due to good crops in other Provinces of India, and consequent less demand from these Provinces.

Imports of wheat into Calcutta from the calender year 1891 to 1901.

	Nadia ...	1,788,160	1,043,800	23,100	22,600	22,900	55	60	The decrease in the area and outturn as compared with that given in the first forecast is due to the want of rain.	
	Murshidabad	1,371,680	965,500	130,000	114,400	106,700	54	68	The decrease in the outturn as compared with that shown in the preliminary forecast is due to want of seasonable rain.	
	Jessore ...	1,872,000	1,203,800	2,700	1,300	1,200	43	44	The decrease in area and outturn is due to want of rain in sowing time.	

Division.	District.	Total area of district.	Total area estimated to be under cultivation.	Approximate normal area under wheat.	Approximate area under wheat last year (1902-1903).	Estimated area under wheat this year (1903-1904).	Taking 100 to represent the normal outturn, how much represented the outturn last year (1902-1903)?	Taking 100 to represent the normal outturn, how much will represent this year's outturn (1903-1904)?	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
1	2	3	4	5	6	7	8	9	10	11
		Acres.	Acres.	Acres.	Acres.	Acres.				
Rajshahi ...	Rajshahi ...	1,663,040	1,262,100	74,200	64,100	62,000	90	100	.....	
	Jalpaiguri ...	1,594,600	925,000	800	600	500	55	75	......	
	Darjeeling	744,960	148,200	5,000	5,000	5,000	100	100	..	
	Rangpur ..	2,235,520	1,224,900	50,000	30,500	28,000	64	65	Rains in October 1903 have affected the outturn.	
	Pabna ...	1,176,960	865,300	16,000	16,000	16,000	100	100	......	
Dacca ...	Mymensingh	4,052,480	2,406,700	100	100	100	100	100	....	
	Faridpur ...	1,459,840	1,132,600	2,000	2,000	2,000	100	100	......	
Patna ...	Patna	1,328,000	1,082,100	125,500	113,200	129,400	96	104	The normal area has been raised.	
	Gaya	3,015,680	2,207,500	157,600	110,300	159,300	100	100	The large increase in area sown with wheat crop this year is due to the fact that large patches of land which could not be sown with rice owing to the failure of rain at the proper season were left fallow and were cropped with wheat and other *rabi* crops.	
	Shahabad ..	2,798,780	1,841,800	122,000	121,000	120,200	89	85	The small decrease both in the area and outturn is reported to be due to late sowing in the Sasaram subdivision and want of moisture at the time of sowing in the Buxar subdivision.	
	Saran	1,710,465	1,357,200	89,400	89,400	89,400	90	100	The condition of the crop has been improved and a normal outturn is now estimated.	

	Champaran ...	2,259,840	1,447,600	105,300	111,200	104,200	75	75	The prospects have deteriorated owing to the absence of rain.
	Muzaffarpur...	1,941,254	1,627,000	69,700	73,200	73,200	80	78	The low outturn is due to want of winter rains.
	Darbhanga ...	2,130,000	1,678,000	52,700	51,700	67,800	92	96	Low outturn is due to want of rain in the Madhubani Subdivision.
	Monghyr ...	2,609,440	1,682,800	100,000	110,000	100,000	95	95	......
	Bhagalpur ...	2,704,640	2,097,000	203,200	202,200	226,100	91	78	The low outturn is due to deficient rainfall.
	Purnea ...	3,195,513	1,639,800	22,000	22,000	22,000	85	80	The decrease in the outturn is due to want of seasonable rainfall.
Bhagalpur ...	Malda ..	1,216,000	675,800	60,000	70,000	76,400	95	100	..
	Sonthal Parganas.	3,500,160	1,545,900	28,500	28,500	37,000	96	98	The season was favourable for wheat crops. The rice land at Godda that was left fallow for draught was cultivated with wheat, hence the increase over the normal area.
	Cuttack ...	2,322,560	1,161,200	1,500	2,100	2,100	90	85	The low outturn is due to the deficiency of rainfall at the time of growth of the crop.
Orissa ...	Balasore ...	1,334,368	870,800	500	200	100	75	75	Decrease in area and outturn is due to the want of seasonable rain at the time of sowing.
	Angul ...	1,075,840	260,000	100	100	100	30	25	Wheat is not grown in the Khondmal subdivision. The low outturn is due to heavy rain during the sowing season.
	Hazaribagh ...	4,493,440	1,703,000	18,700	18,700	16,500	68	84	The low outturn is due to the slight damage caused by the rainfall of March.
	Ranchi ...	4,561,920	1,500,000	600	500	600	75	75	The deficiency in outturn is due to want of rain in January last.
Chota Nagpur	Palamau ...	3,139,200	627,600	14,700	14,700	18,030	60	78	The cause of decrease is that a very severe hail-storm on the 9th and 10th March destroyed the entire crop in many villages.
	Manbhum ...	2,654,080	1,419,200	6,000	4,500	3,700	90	74	The decrease in outturn is due to want of rain.

FINAL FORECAST ON THE OILSEED CROPS OF BENGAL, 1903-1904.

The 16th May 1904.—The following note is published for general information.

A. EARLE,
Secy. to the Govt. of Bengal.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Final forecast of the Oilseed Crops of Bengal, 1903-1904.

Explanatory.—This forecast furnishes the final estimates of the area and outturn of the different kinds of oilseeds, both *bhadoi* and *rabi*, grown in these Provinces. The chief oilseed crops are mustard (white and brown) and rape, sesamum (*til*), linseed, castor, Niger oilseed (*sirguja*), and *eruca sativa* (*tárámani*). Mustard and rape occupy about 50 per cent. of the total area under oilseeds, and linseed occupies about 25 per cent. The bulk of the mustard and rape is cultivated in the districts of the Rajshahi Division, in Dacca, Mymensingh, Purnea, and the Sonthal Parganas. Linseed is chiefly grown in Darbhanga, Saran, Champaran, Gaya, and Nadia. *Til* or ginjelly is grown principally in Jessore, Bogra, Pabna, Dacca, Mymensingh, Backergunge, Tippera, Noakhali, Midnapore, Gaya, Angul, Hazaribagh, and Palamau.

2. *Character of the season.*—The heavy rainfall of October has been reported to have injuriously affected the *rabi* oilseed crops in some districts, while in some others it is reported to have helped the retention of moisture by the soil and done much good to these crops. Probably where sowing of mustard and linseed had been done before these heavy rains, the crops have been damaged and resowing may have been found necessary, but, on the whole, I should say that the heavy rains benefited both the *bhadoi* and the *rabi* oilseed crops. These were followed by only light showers in November, except in the Patna and Bhagalpur Divisions, where, owing to want of rain in November and December, the crops have suffered. Throughout Bihar and North Bengal, however, light showers were obtained in January, and in February the showers throughout the Province were fairly copious. March and April were practically rainless; but this only facilitated harvest operations. I do not see much ground for concluding that weather conditions were worse

since the preliminary forecast, and, on the whole, the season was favourable for the *rabi* crops.

3. *Area sown.*—The total normal area under different oilseed crops is now estimated at 3,878,900 acres. The area cropped in the current year is returned at 3,829,500 against 3,657,700 acres sown last year.

4. *Character of the crop.*—It will be seen from Appendix I, that six districts, viz., Dinajpur, Pabna, Dacca, Gaya, Purnea, and Malda have reported a normal crop; 14 districts 90 to 99 per cent.; 14 other districts 80 to 89 per cent.; 10 districts 60 to 69 per cent., and Nadia 58 per cent. According to the district estimates, the outturn of the Province, as a whole, amounts to 84 per cent. of an average crop, against 90 per cent., which was the return in the preliminary forecast. As conditions improved since January, I regard the present estimate as unduly low, and I do not think the outturn for the Province, as a whole, will fall below 90 per cent.

5. *Gross outturn.*—Taking 6 maunds per acre to be the normal rate of outturn for linseed, rape and mustard, and 4¼ maunds per acre for other oilseeds, the gross yield of all the oilseed crops for these Provinces during 1903-1904 amounts to 663,600 tons against 609,700 tons produced in the preceding year.

S. L. MADDOX,

Offg. Director of the Dept. of Land Records and Agriculture, Bengal.

DARJEELING,

The 7th May 1904.

WEATHER AND CROP REPORT.

For the week ending the 16th May 1904.

Burdwan.—Rainfall at Sadar 2·34, Kalna 5·40, Katwa 2·57, Raniganj 3·03. Weather seasonable. Ploughing of lands continues. *Aus* being sown in Kalna. Fodder and water sufficient. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	per rupee.
Kalna	12	3	
Katwa	13	2	
Raniganj	13	5	

Birbhum.—Rainfall at Sadar 2·90, Rampur Hât 1·61. Weather seasonable. Ploughing and manuring going on. Rice sells at Sadar at 13½ and at Rampur Hât at 14¼ seers per rupee. Fodder and water sufficient.

Bankura.—Rainfall at Sadar 1·47, Vishnupur 1·5. Weather stormy, temperature has fallen. Thunderstorm with hail and rain on Tuesday and Wednesday. Lands being prepared for cultivation. Cultivation of sugarcane in progress. Fodder and water getting sufficient. Common rice sells at Sadar at 14½ seers and at Vishnupur at 14 seers the rupee.

Midnapore.—Rainfall at Sadar 1·33, Contai 2·96, Tamluk 1·86, Ghatal 1·08. Cattle-disease reported from thana Kharakpur. *Boro* being harvested in Ghatal. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee.
Contai	17	0	
Tamluk	13	8	
Ghatal	14	0	

Hooghly.—Rainfall at Sadar 3·60, Serampore 3·33, Arambagh 1·39. Prospects of standing crop fair. Sugarcane being planted. Sowing of jute commenced. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	per rupee.
Serampore	11	0	
Arambagh	15	0	

Howrah.—Rainfall at Sadar 3·55. Cultivation of winter rice has extended to about $\frac{1}{12}$th part of the normal areas. Summer rice is ripening. Jute has been sown on about $\frac{1}{10}$th part of the normal areas. The condition of sugarcane and other standing crops is good. Lands are being extensively ploughed for the cultivation of winter rice. Fodder and water for cattle sufficient. No cattle-disease reported. Common rice is selling at 12 seers per rupee.

24-Parganas.—Rainfall at Sadar 3·04, Barasat 5·95, Barrackpore 3·56, Basirhat 4·82, Diamond Harbour 1·95. Weather seasonable. State and prospects of standing crops fair. Lands are being prepared for jute and *aus* paddy. In some parts sowing is going on. Common rice sells at 12½ seers per rupee at Sadar and at 14 seers per rupee at Diamond Harbour. Condition of cattle good. Supply of fodder and water sufficient.

Nadia.—Rainfall at Sadar 1·40, Kushtia 5·51, Chuadanga 4·88, Meherpur 3·42, Ranaghat 6·15. Prospects good. Paddy and jute sowing progressing. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	8	per rupee.
Kushtia	13	8	
Meherpur	12	0	
Chuadanga	13	0	
Ranaghat	12	0	

Murshidabad.—Rainfall at Sadar 6·27, Kandi ·66, Jangipur 1·83, Lalbagh 4·55. Weather seasonable. Sowing of *bhadoi* and planting of sugarcane continues. Jute being sown. Lands being prepared for winter rice. Recent rain benefited crops. No cattle-disease. Fodder sufficient except in Kagram outpost. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	8	per rupee.
Kandi	14	0	
Jangipur	14	8	
Lalbagh	13	4	

Jessore.—Rainfall at Jessore 2·07, Jhenida 5·91, Magura 4·88, Narail 4·52, Bangaon 4·02. Weather seasonable. Sowing of *aus* and jute continues. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee.
Jhenida	14	0	
Magura	15	0	
Narail	16	0	
Bangaon	13	5	

Khulna.—Rainfall at Sadar 3·42, Bagerhat 3·23, Satkhira 0·74. Weather seasonable. Sowing of autumn rice and jute estimated at 70 and 39 per cent. respectively. State of summer rice fair. Fodder and water sufficient. Cattle-disease reported from Baitaghata, Rampal and Asasuni. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee.
Bagerhat	16	0	
Satkhira	13	0	

Rajshahi.—Rainfall at Sadar 3·33, Nator 1·97, and Naugaon 1·13. Prospects of standing crops good. Sowing of *bhadoi* and jute continues. No cattle-disease. Fodder and water sufficient. Common rice selling at 15¾ seers per rupee.

Dinajpur.—Rainfall at Sadar 1·28, Thakurgaon 2·70. Fall in the district general, varying from 3·30 to ·32. Weather seasonable. Sowing of *bhadoi* and jute continuing. No cattle-disease. Common rice sells at 15½ seers at Sadar and at 16 seers at Thakurgaon.

Jalpaiguri.—Rainfall at Sadar ·76, Alipur Duars 1·99. Fall general. Weather cloudy with occasional showers. Sowing of jute and *bhadoi* paddy nearly finished. Common rice sells at 13½ seers a rupee. Fodder and water sufficient.

Darjeeling.—Rainfall at Sadar 4·44. Weather unsettled. *Hills*—Maize and *Bhadoi* paddy doing well. Potato and *chota marua* progressing. *Terai*—Jute-sowing nearly complete. *Bhadoi*-sowing still going on. Prospects fair. Coarse rice sells as follows:—

	Srs.	ch.	
Hills	11	0	per rupee.
Terai	13	0	

Maize sells at Darjeeling at 18 and at Kalimpong at 22 seers per rupee.

Rangpur.—Rainfall at Sadar 3·83. Fall general. Weather rainy and cloudy. Heavy rains have retarded the weeding of jute and *aus*. Harvesting of tobacco finished. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	10	per rupee.
Gaibanda	14	8	
Kurigram	16	0

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM FOR THE MONTH OF APRIL 1904.

At the beginning of the month pressure was practically normal over the whole Province' while temperature was everywhere above the normal. On the 1st a fall of the barometer set in in the west, and extended over the whole Province on the following day. Though the downward course was checked on the 3rd, it was resumed with increasing rapidity on the 4th, 5th, and 6th; the defect from the normal on the latter date amounting at approximately $\frac{2}{10}$ths of an inch in the south of the Province. An equally sharp recovery on the two succeeding days had the effect of re-establishing normal conditions, so that on the morning of the 8th pressure was not far removed from the average, there being slight excess over the northern and eastern portions of the Province and slight defect over the remainder. At the beginning of this period fresh southerly winds had set in at the head of the Bay, and gathering force from day to day were causing a strong indraught of moisture into the eastern and northern parts of the Province. Rainfall, which at the end of March had been isolated and confined to Assam, began about the 4th of April—favoured as it was in addition by the fall of the barometer which then set in—to extend to the eastern and northern parts of the Province. This strong indraught was no doubt due mainly to the high day temperatures prevailing in the western interior, which caused a sharp gradient of pressure from the head of the Bay to the west of the Province. From the 8th to the 16th pressure, with only a small check on the 12th and 13th, fell steadily. The defect on he 16th was everywhere large, and amounted in some places to $\frac{1}{4}$th of an inch. Day temperatures in the west of the Province remained steadily high and largely above the average—conditions which fostered the formation of an area of unusually low pressure in that quarter and the continued powerful indraught of humid air from the Bay into the eastern and northern parts of the Province. On the other hand, in the west and south-west comparatively dry westerly winds were blowing steadily during this period. In consequence of this circulation, rainy weather prevailed during almost the whole period in Assam and East Bengal and to a large extent in North Bengal as well. The only days on which the showery weather extended to the remaining parts of the Province were the 8th and 9th, but the showers which then fell in these parts were for the most part insignificant. It may be noticed with respect to the temperature during this period that although the day temperatures naturally fell in the parts affected by the rainfall, the mean remained for the most part above the normal, chiefly owing to comparatively high night temperatures. On the 16th a marked change in the conditions took place, a sharp general rise of the barometer commencing on that date and continuing for the next few days. Owing to this rise pressure was nearly normal on the 19th, and continued so with slight fluctuations till the 22nd. During this period of rise day temperatures had fallen in Bihar and Chota Nagpur, and the winds at the head of the Bay had diminished in force. Rainfall consequently decreased, the 16th and 17th being the only days of the month with the exception of those at the beginining on which the whole Province was free from rain. From the 18th, however, onward day temperatures on the west of the Province again began to increase, and in response to this rise a corresponding access of strength was noticeable in the winds at the head of the Bay. Showery weather in consequence once more gradually established itself in Assam and the northern and eastern portions of the Province. Temperature during the first days of this period fluctuated in the north and east portions of the Province, but towards the end began to fall, so that on the 22nd it was in general defect. From the 22nd to the 27th a moderate surge of pressure took place, a considerable fall being followed by a still more considerable rise, with the result that on the latter date pressure was in moderate excess over the Province. During this period the distribution of pressure was not so favourable as it had been for the indraught of moist winds from the Bay. Though temperature still continued excessive in the west, the day temperature had risen in the north as well. so that winds over the Province were more southerly. Rainfall consequently almost ceased in East Bengal, though it still continued in North Bengal and Assam. During the last days of the month the character of the weather did not change materially. On the 28th a fall of pressure set in and continued on the next day. A slight recovery on the 30th resulted in the pressure on that day being nearly normal with a slight excess in the eastern and a slight defect in the western half. The distribution again became more favourable for rainfall in Assam and the northern and eastern portions of the Province, and precipitation consequently increased again. During the latter as well as the former half of the month, the conditions were such as to practically confine the rainfall to Assam and the last mentioned parts of Bengal.

General summary of weather.—The weather during the month was characterised by great uniformity. With almost constant high day temperatures in South Bihar and Chota Nagpur a persistent area of low pressure maintained itself in that quarter, causing a very strong indraught of humid air from the Bay with a circulation giving south-west winds in the south-west portions of the Province, while over East and North Bengal and Assam the directions curved from south through south-east and east to north-east. Owing to the persistence of these conditions during the greater part of the month the winds at the head of the Bay were largely above normal strength, while the rainfall, copious in Assam and the northern and eastern parts, was extremely scanty over the remainder of the Province.

Summary of pressure.—Pressure was nearly normal both on the first day and on the last day of the month. Between these dates there were four marked oscillations of pressure, the first two showing an amplitude much greater than is usual. Though, however, pressure recovered at the end of the month to very nearly its original phase, the long period of falling barometer, from the 7th to the 16th, brought the mean pressure of the month below the normal, and caused a defect over the whole area, varying from a minimum of $\frac{3}{1000}$ in Burmah to $\frac{80}{1000}$ in South-West Bengal.

Summary of temperature.—The conditions noted in the report indicate an excessive maximum temperature in the western half of the Province, enduring almost continuously for the whole month. This excess extended also to the night temperatures. On the other hand, as soon as the showery and cloudy weather had established itself in the eastern half, day temperatures naturally fell, while the humidity of the atmosphere helped to maintain the minima at a level above the normal, which was, however, counteracted to a certain extent by the low minima which occurred when rain actually fell during the night. The general result is that while mean maxima are in excess in the western half and in defect in the eastern half of the Province, mean minima are above the normal over the whole Province, the excess, however, diminishing to zero as we approach the extreme east and north-east of the Province.

Summary of rainfall.—As already noted, rainfall was very scanty in the south-west and western parts of the Province, being considerably below the normal in South-West Bengal, Chota Nagpur, Orissa, and Bihar, while rainfall was very considerably in excess in North and East Bengal and Assam. The conditions prevailing in normal years are of course always such as to induce a much larger precipitation in the latter than in the former divisions of the Province, but in the present year these conditions were strikingly exaggerated, leading to the marked contrast above noted between the rainfall in the eastern and western halves of the Province.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the month of April 1904:—

Meteorological Divisions.	Temperature.						Rainfall—							
	Highest observed during month.	Lowest observed during month.	Average for month.			Average mean of month above or below normal mean of month.	Of month.			Rainy days.			Since 1st April 1904.

	Inches.
The total fall of rain from 8th to 14th May 1904	4·35
The average fall of the corresponding period for 24 years, Surveyor-General's Office	1·00
The total fall from 1st January to 14th May 1904 ..., ...	11·33
The average fall of the corresponding period for 24 years, Surveyor-General's Office	6·68

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; <, lightning, / strong wind.

REPORT ON THE STATE OF THE SALT MARKET FOR THE FOURTH QUARTER OF 1903-1904.

No. 4474B., dated Calcutta, the 13th May 1904.

From—H. WHEELER, ESQ., Secretary to the Board of Revenue, L. P.,

To—The Secretary to the Government of Bengal, Financial Department.

Member in charge:
K. G. GUPTA, ESQ., I.C.S.

I AM directed to submit the following report on the state of the salt market for the fourth quarter of the year 1903-1904, comprising the months of January, February and March 1904.

2. The quantity of salt of every description cleared during the quarter amounted to 27,84,257 maunds, as compared with 28,77,591 maunds in the previous quarter, and 28,78,654 maunds in the corresponding quarter of the previous year. The net amount of duty levied thereon was Rs. 52,84,047, as against Rs. 55,61,795 in the previous quarter, and Rs. 64,05,061 in the corresponding quarter of the previous year.

3. The subjoined Table (I) shows in detail the importations into the port of Calcutta and the total clearances of sea-imported salt during the quarter, as

compared with the figures of the corresponding quarters of the two previous years :—

TABLE I.

Whence imported.	1901-1902. Fourth quarter.		1902-1903. Fourth quarter.		1903-1904. Fourth quarter.

6. The quantity of salt despatched during the quarter by the East Indian Railway to stations beyond Buxar was *nil*, as against 405 maunds in the previous quarter and 1,620 maunds in the corresponding quarter of the previous year.

7. The quantity of saltpetre salt excised in the refineries of the Lower Provinces during the quarter amounted to 8,250 maunds, as compared with 2,844 maunds in the previous quarter and 7,320 maunds in the corresponding quarter of the previous year.

8. The shipments of Liverpool salt during the quarter for the port of Calcutta, according to the published market reports, amounted to 46,039 tons. It is reported that the vessel *Tannenfels* is afloat for Calcutta with an approximate quantity of 3,300 tons of salt from Hamburg.

9. Table IV shows the average wholesale prices per 100 maunds of Liverpool and other descriptions of salt during each fortnight of the quarter :—

TABLE IV.

DESCRIPTION OF SALT.	Fortnight ending 15th January 1904.	Fortnight ending 31st January 1904.	Fortnight ending 14th February 1904.	Fortnight ending 29th February 1904.	Fortnight ending 15th March 1904.	Fortnight ending 31st March 1904.
1	2	3	4	5	6	7
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Liverpool *panga*	56 4 9	54 10 8	51 7 4	51 4 4	51 11 4	51 11 4
Hamburg *karkatch*	55 0 0	54 9 0	50 4 4	50 0 0	50 0 0	50 0 0
Muscat ditto	48 0 0	48 0 0		47 0 0	46 0 0	46 0 0
Bombay ditto	50 5 8	50 0 0	50 8 0	50 0 0	70 0 0	
Aden crushed	51 0 0	51 8 0	50 2 8	48 0 0	......	47 4 0
Salif ditto	52 0 0	52 0 0	48 0 0	47 15 0	48 0 0	47 4 0
Rawayah ditto	53 0 0	53 0 0	48 9 0	48 12 5	49 0 0	48 13 [illegible]

During the quarter the prices of all kinds of salt except the price of Bombay *karkatch* showed a tendency to fall. The increase in the price of Bombay *karkatch* during the fortnight ending 15th March 1904 is attributed to insufficient stocks. The average price per 100 maunds of Madras salt was Rs. 52-8-6.

10. The following Table (V) shows the quantity of sea-imported salt admitted into bond and cleared from bond and shipboard at the several outports and inland warehousing stations:—

TABLE V.

As compared with the corresponding quarter of the previous year, there was an increase both in the quantity admitted into bond and cleared,

WEATHER AND CROP REPORT.

For the week ending the 23rd May 1904.

Burdwan.—Rainfall at Sadar 0·05, Kalna 0·32, Katwa 0·12, Raniganj nil. Ploughing and manuring of fields continue. Prospect of sugarcane good. *Aus* being sown in Sadar and Kalna. Rain wanted in Raniganj. Fodder sufficient. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Burdwan	12	8	per rupee.
Kalna	12	3	
Katwa	12	11	
Raniganj	13	8	

Birbhum.—Rainfall at Sadar ·92, Rampur Hât nil. Weather seasonable. Ploughing and manuring going on. Rice sells at Sadar at 13½ and at Rampur Hât at 14½ seers per rupee. Fodder and water sufficient.

Bankura.—Rainfall at Sadar nil, Vishnupur. 04. Weather hot. Manuring and ploughing of lands and sowing of *aus* going on. Fodder and water sufficient. No cattle-disease reported. Common rice sells at 14½ seers at Sadar and at 14½ seers at Vishnupur per rupee.

Midnapore.—Rainfall at Sadar 0·27, Contai ·03, Tamluk ·60, Ghatal 0·69. Cattle-disease in Midnapore and Gopiballavpur thanas. Lands being cultivated for *aus* and winter rice crops. Fodder and water sufficient except in thana Dautan. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee.
Contai	16	0	
Tamluk	13	0	
Ghatal	14	0	

Hooghly.—Rainfall at Sadar 0·15, Serampore nil, Arambagh 0·05. Prospects of standing crops fair. Sowing of jute continues and that of *aus* has begun. Fodder and water available. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	per rupee.
Serampore	11	0	
Arambagh	13	11	

Howrah.—Rainfall at Sadar 0·11. Weather seasonable, hot and cloudy. Jute has been sown on about half the normal areas in the Sadar subdivision and about one-fourth the normal areas in the Ulubaria subdivision. The cultivation of the winter rice has extended up to about one-eighth part of the normal area. Sowing of seed-paddy for seedlings to be transplanted has commenced. The condition of sugarcane and other standing crops is good. Fodder and water plentiful. No cattle-disease reported. Common rice is selling at 12 seers per rupee.

24-Parganas.—Rainfall at Barasat 0·20. Weather seasonable. More rain wanted in Barrackpore. State and prospects of crops fair. Progress of farming operations satisfactory. Common rice sells at 12½ seers per rupee at Sadar, 11 seers at Barasat, and 13½ seers at Diamond Harbour. Condition of cattle good. Supply of fodder and water sufficient.

Nadia.—Rainfall at Sadar 0·47, Kushtia 0·73, Chuadanga 0·66, Meherpur 1·58, Ranaghat 0·29. Prospects of crops good. Sowing in progress. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	8	per rupee.
Kushtia	13	8	
Meherpur	12	0	
Chuadanga	13	0	
Ranaghat	12	0	

Murshidabad.—Rainfall at Sadar ·49, Kandi ·02, Jangipur ·12, Lalbagh ·43. Weather seasonable. Planting of sugarcane, sowing of *aus* and jute, and preparation of lands for winter rice continues. No cattle-disease. Fodder sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	per rupee.
Kandi	13	0	
Jangipur	14	8	
Lalbagh	13	0	

Jessore.—Rainfall at Jessore 3·60, Jhenida 0·91, Magura 1·80, Narail 0·78, Bangaon 0·07. Weather seasonable. Sowing of winter rice and jute nearly completed. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	0	per rupee.
Jhenida	14	0	
Magura	15	0	
Narail	16	0	
Bangaon	13	5	

Khulna.—Rainfall at Sadar 4·32, Bagerhat 1·42, Satkhira 0·35. Weather seasonable. Sowing of autumn rice and jute estimated at 19 and 48 per cent. respectively. State of summer rice fair. Fodder and water sufficient. Cattle-disease reported from Batiaghata and Rampal. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee.
Bagerhat	17	0	
Satkhira	13	0	

Rajshahi.—Rainfall at Sadar 1·53, Nator 1·07, and Naugaon 0·57. Prospects of standing crops good. Sowing of jute nearly finished. Sowing of *bhadoi* and *aman* in progress. A few cases of cattle-disease reported from Singra thana in the Nator subdivision. Fodder and water sufficient. Common rice selling on an average at 15¾ seers a rupee.

Dinajpur.—Rainfall at Sadar Nil, Thakurgaon ·71. Very slight fall in some places. Sowing of *bhadoi* and jute still continuing. No cattle-disease. Fodder and water plentiful. Common rice sells at 16¾ seers at Sadar and at 16 seers at Thakurgaon.

Jalpaiguri.—Rainfall at Sadar 3·13, Alipur Duars 4·16. Fall general. Weather seasonable. Sowing of jute and autumn paddy finished. Weeding commenced. Prospects of crops not favourable, owing to heavy rainfall at sowing time. Common rice sells at 13½ seers a rupee. Fodder and water sufficient everywhere.

Darjeeling.—Rainfall at Sadar 3·17. Weather unsettled. *Hills*—Maize, potato, autumn rice, *chota marua*, wheat and *kangni* doing well. *Terai*—Sowing of autumn crop progressing well. Prospects fair. Coarse rice sells as follows:—

	Srs.	ch.	
Hills	12	0	per rupee.
Terai	13	0	

Maize sells at Darjeeling at 18 and at Kalimpong at 22 seers per rupee.

Rangpur.—Rainfall at Sadar 0·83. Slight fall general. Weather hot. Prospects of standing crops fair. Weeding of jute and *aus* going on. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	10	per rupee.
Gaibanda	14	8	
Kurigram	15	0	
Nilphamari	15	0	

Bogra.—Rainfall at Sadar 0·64. Slight fall everywhere. Weather cloudy with occasional showers. Sowing of *aus* and jute going on. Fodder and water sufficient. Common rice sells at 17¼ seers per rupee.

Pabna.—Rainfall at Sadar 1·05, Sirajganj 1·40. Fall general. Weather cloudy and hot. Prospects of standing crops fair. Sowing of jute almost completed. No cattle-disease. Fodder and water sufficient. Common rice sells at 17¼ seers per rupee.

Dacca.—Rainfall at Sadar 2·15. Fall general. Prospects of crops fair. Weather cloudy. Fodder available. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee.
Manikganj	16	0	
Munshiganj	13	0	
Narayanganj	14	0	

Mymensingh.—Rainfall at Sadar 3·37, Jamalpur 1·90, Kishorganj 2·04, Netrakona 0·31, Tangail 0·67. Weather seasonable. Condition of crops fair. Heavy rain has retarded weeding of jute in parts. Outturn of tobacco normal. Condition of cattle good. Fodder and water ample. Rice sells as follows:—

	Srs.	ch.	
Sadar	14	0	per rupee.
Jamalpur	16	0	
Kishorganj	14	0	
Netrakona	15	3	
Tangail	14	0	

Faridpur.— Rainfall at Sadar 0·68, Goalundo 0·32, Madaripur 0·45. Weather seasonable. State and prospects of crops very good. Jute growing luxuriantly. Common rice sells at 15 seers a rupee. Fodder and water sufficient. No cattle-disease.

Backergunge.—Rainfall at Sadar 2·47. Fall general. Weather seasonable. *Til* harvesting commenced. No cattle-disease. Fodder sufficient. Common rice sells at 14¼ seers per rupee.

Tippera.—Rainfall at Sadar 2·34, Brahmanbaria ·29, Chandpur 2·39. Weather seasonable. Prospects good. Sowing of *aus* going on. Lands in which jute has been damaged by rain are being sown with winter paddy. Fodder and water sufficient. Cattle-disease in Laksam and Hajiganj thanas. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	4	per rupee.
Brahmanbaria	17	9	
Chandpur	16	0	

Noakhali.—Rainfall at Sadar 3·12, Feni 1·60. Fall general. Weather sultry and cloudy. Prospects fair. Sowing of *aus* finished in Sadar Subdivision, but continues in Feni. Cattle-disease reported. Fodder and water sufficient. Common rice sells at Sadar at 13 and at Feni at 15 seers per rupee.

Chittagong.—Rainfall at Sadar 2·14, Cox's Bazar 1·44. Cultivation of *aus* crop going on. Cattle-disease reported. Fodder and water sufficient. Rice sells at 14¼ seers per rupee.

Chittagong Hill Tracts.—Rainfall 2·87. Weather hot with storms. Weeding and sowings of *jooms* in progress. Lands being prepared for *aus* paddy. Rice sells at 12¼ seers per rupee.

Patna.—Rainfall at Sadar 0·30, Dinapore 0·72, Bikram 0·16. Weather seasonable. *China* harvesting commenced. Sugarcane doing well. Scarcity of water continues in Bihar. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	0	per rupee.
Barh	14	8	
Bihar	14	0	
Dinapore	15	0	

Gaya.—Rainfall at Sadar 0·05, Jahanabad 0·05. Weather very hot with east wind. Sowing of *marua* has commenced. Lands are being prepared for sowing autumn crops. Sugarcane doing well. Fodder and water for cattle sufficient. Common rice sells at $13\frac{1}{16}$ seers per rupee.

Shahabad.—Rainfall at Sadar ·14, Buxar ·04, Dehri ·05. Prospects of sugarcane fair. Fodder and water abundant. Rice sells at Sadar at 14 seers per rupee.

Saran. - Rainfall nil. Weather seasonable. Preparation of fields for *bhadoi* crops going on. *China* and sugarcane doing well. Cattle-disease reported from Manjhi thana. Fodder and water sufficient. Common rice sells at 16 and maize at 28 seers per rupee at Sadar.

Champaran.—No rain. Weather hot. Standing crops doing well. *Bhadoi* being sown and lands being ploughed up. No cattle-disease. Fodder and water sufficient. Common rice sells at 17 and maize at 31 seers per rupee.

Muzaffarpur.—Rainfall at Hajipur ·04. Weather hot. Preparation of land for sowing of autumn crops going on. Sowing commenced in low lands. Fodder and water sufficient. Common rice sells at 15 and maize at 28 seers a rupee.

Darbhanga.—Rainfall nil. Weather hot with east wind. Fields are being ploughed for autumn crops. Rain urgently wanted. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	12	per rupee.
Samastipur	16	0	
Madhubani	15	9	

Monghyr.—Rainfall at Sadar nil, Begusarai ·17, Jamui 0·26. Weather seasonable. Standing crops doing very well. Lands are being ploughed and prepared. No cattle-disease. Scarcity of water continues in places. Fodder is sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	13	per rupee.
Begusarai	13	0	
Jamui	12	0	

Bhagalpur.—Rainfall at Sadar 0·10, Banka 1·17. Weather cloudy. Ploughing of fields and sowing of autumn crops continue. Cattle-disease reported from Katoria thana Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	14	per rupee.
Banka	11	14	
Madhipura	17	0	
Supaul	18	0	

Purnea.—Rainfall at Kishanganj 1·14, Araria 0·31. Rain needed at Sadar. Sowing of jute and autumn crops still continues. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee.
Kishanganj	17	0	
Araria	19	0	

Malda.—Rainfall at Sadar ·11, Chanchal ·09, Sibganj ·53, Gumashtapur 1·14, Nawabganj 1·13. Weather hot and cloudy. Harvesting of *boro* going on. Sowing of jute and autumn crops continue. No cattle-disease. Water available. Scarcity of fodder reported from Gumashtapur. Common rice sells at 14½ seers per rupee.

Sonthal Parganas.—Rainfall at Sadar 0·41, Jamtara 0·40, Pakaur 0·54, Rajmahal 0·31. Weather hot. Sugarcane doing well. Outturn of wheat and gram 98 and 97 respectively and that of barley normal. Fodder insufficient, except in Dumka and Godda subdivisions. Water insufficient in all but Godda subdivision. Common rice sells at 12 seers per rupee at Sadar.

Cuttack.—Rainfall at Sadar 0·21. Fall general. Weather seasonable. *Dalua* and tobacco being harvested. Sugarcane growing. Cotton is in pods. Fodder and water sufficient. Condition of cattle generally good. Common rice sells at 18 seers 6 chitaks per rupee at Sadar.

Balasore.—Rainfall at Sadar 0·74. Fields being ploughed. Vegetables doing well. Rice sells at 18 and 20 seers per rupee at Sadar and Bhadrak respectively. Fodder and water available. No cattle disease is reported in the district.

Angul.—Rainfall at Sadar 0·17, Bissipara 0·10. Weather seasonable and cloudy. Lands are being ploughed. Common rice sells at 26 and 21 seers per rupee at Sadar and Khondmals respectively. Fodder and water sufficient.

Puri.—Rainfall 0·04. Weather seasonable. Land is being ploughed and manured for the ensuing paddy crop. Sugarcane and cotton are being irrigated and getting on well. Harvesting of *dalua* is going on. Fodder and water-supply sufficient. Common rice sells at 19 seers 11 chitaks per rupee.

Hazaribagh.—Rainfall at Sadar 0·28, Giridi 1·00. Weather hot. Lands being ploughed. Scarcity of fodder and water being felt. Cattle-disease reported from one thana. Common rice sells at Sadar at 12½ and at Giridih at 12 seers per rupee.

Ranchi.—Rainfall at Sadar 0·08. Weather hot and cloudy. Ploughing and manuring in full progress. Sowing of paddy commenced in places. Cattle-disease reported from several thanas. Fodder and water sufficient. Common rice selling at Sadar at 13 and at Gumla at 18 seers per rupee.

Palamau.—Rainfall nil. Weather hot. Fields being prepared in places. Sugarcane doing well. Cattle-disease exists. Fodder available. Water scarce. Rice sells at Sadar at 13½ seers and maize at 24 seers per rupee.

Manbhum.—Rainfall at Sadar 0·64, Gobindpur nil. Weather seasonable Prospect of crops good. Sugarcane growing. Fodder and water sufficient. Cattle-disease reported from Baghmandi, Manbazar and Gaurandi thanas. Common rice sells at Sadar at 12 seers 3 chitaks and at Gobindpur at 12 seers per rupee.

Singhbhum.—Rainfall 1·18. Ploughing and manuring in progress. Fodder and water sufficient. Cattle-disease reported from thana Ghatsila. Rice sells at 15 seers per rupee.

General Summary.—Rainfall during the week was general, but not evenly distributed. More rain is needed in Darbhanga and in parts of Burdwan, 24-Parganas and Purnea. Heavy rainfall has retarded the weeding of jute in parts of Mymensingh and rendered the prospects of crops unfavourable in Jalpaiguri. Prospects otherwise good. Planting of sugarcane, sowing of autumn crops and preparation of lands for winter rice continue. Cattle-disease reported from 12 districts. Fodder and water generally sufficient. The price of common rice has risen in 9 districts, has fallen in 3, and is stationary in the remainder.

By order of the Lieutenant-Governor of Bengal,

A. EARLE,

Secretary to the Govt. of Bengal.

REVENUE DEPARTMENT,

The 24th May, 1904.

	Inches.
The mean pressure of the seven days	29·646
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	29·667
	Hours.
The total number of hours of bright sunshine	59·3
The maximum possible number of hours of sunshine	92·5
The mean temperature of the seven days	86·8°
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	86·5
The extreme variation of temperature	23·9
The maximum temperature	98·1
	Miles.
The highest velocity of the wind in one hour	13
	%
The mean relative humidity	72
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	73
	Inches.
The total fall of rain from 15th to 21st May 1904	Nil.
The average fall of the corresponding period for 24 years, Surveyor-General's Office	0·90
The total fall from 1st January to 21st May 1904	11·33
The average fall of the corresponding period for 24 years, Surveyor-General's Office	7·58

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground, and the rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

⌓ dew; t, thunder.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 23rd May 1904.

G. W. KÜCHLER,
for *Meteorological Reporter to the Govt. of India and Director-General of Indian Observatories.*

EAST INDIAN RAILWAY.

Statement of Goods Traffic in staples carried during the four weeks ending 27th February 1904 as compared with the same period of 1903.

CONTENTS.

WEATHER AND CROP REPORT.

For the week ending the 30th May 1904.

Burdwan.—Rainfall at Sadar 1·91, Kalna 1·80, Katwa 1·72, Raniganj 1·71. Ploughing of fields continue. *Aus* and *aman* are being sown except in Raniganj. Fodder and water sufficient. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	0	per rupee.
Kalna	12	3	
Katwa	12	10	
Raniganj	13	0	

Birbhum.—Rainfall at Sadar 2·87, Rampur Hât 7·81. Weather seasonable. Heavy rainfall retarded sugarcane cuttings at Rampur Hât. Ploughing and manuring going on. Rice sells at Sadar at 13½ seers and at Rampur Hât at 14 seers per rupee. Fodder and water sufficient.

Bankura.—Rainfall at Sadar 1·8, Vishnupur 1·21. Weather seasonable. Manuring and ploughing of lands, sowing of *aus* and raising of *haimanti* seedlings in progress. Fodder and water sufficient. No cattle-disease reported. Common rice sells at 14½ seers both at Sadar and Vishnupur.

Midnapore.—Rainfall at Sadar 1·42, Contai ·47, Tamluk ·47, Ghatal 0·97. Lands being ploughed and sowing of paddy and jute commenced. Harvesting of *boro* over in Ghatal. Sugarcane, *boro* and tobacco thriving in Sadar. Fodder and water sufficient except in thana Dantan and outpost Nayagram. Cattle-disease in thana Midnapore. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee.
Contai	16	0	
Tamluk	13	0	
Ghatal	14	0	

Hooghly.—Rainfall at Sadar 3·16, Serampore 1·96, Arambagh 0·75. Prospect of standing crops fair. Sowing of jute and *aus* continues. Fodder and water available. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	per rupee.
Serampore	11	0	
Arambagh	13	11	

Howrah.—Rainfall at Sadar 2·95. Weather seasonable. Jute has been sown on three-fourth of the normal area in the Sadar subdivision and on half the normal area in the Ulubaria subdivision. The cultivation of winter rice has extended to one-fourth of the normal area. The condition of sugarcane and other standing crops is good. Fodder and water plentiful. No cattle-disease reported. Common rice is selling at 12 seers per rupee.

24-Parganas.—Rainfall at Sadar 4·04, Barasat 0·49, Barrackpore 1·72, Basirhat 3·71, Diamond Harbour 0·38. Weather seasonable. State and prospects of standing crops good. Sowing of *aus* paddy and jute going on. Common rice sells at 12¼ seers per rupee at Sadar, and at 13¾ seers at Diamond Harbour. Condition of cattle good. Supply of fodder and water sufficient.

Nadia.—Rainfall at Sadar 1·48, Kushtia 3·15, Chuadanga 3·01, Meherpur 4·40, Ranaghat 5·52. Prospects of crops good. Sowing progressing. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	8	per rupee.
Kushtia	13	8	
Chuadanga	12	0	
Meherpur	13	0	
Ranaghat	12	0	

Murshidabad.—Rainfall at Sadar 6·12, Kandi 6·10, Jangipur 1·07, Lalbagh 4·52. Weather rainy. Sugarcane getting on fairly well in Jangipur and Kandi. Rains benefited *til* and *boro* paddy in Kandi. Jute being sown in parts of Lalbagh. Sowing of *aus* is going on. *Aman* lands are being prepared. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	per rupee.
Kandi	13	8	
Jangipur	14	8	
Lalbagh	13	4	

Jessore.—Rainfall at Sadar 4·42, Jhenida 3·80, Magura 2·89, Narail 2·55. Weather seasonable. Sowing of jute and *aus* still continues. Fodder and water sufficient. Cattle-disease reported from Kaliganj thana and Salikhia outpost. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	6	per rupee.
Jhenida	13	8	
Magura	16	0	
Narail	16	0	
Bangaon	Report not received.		

Khulna.—Rainfall at Sadar 3·33, Bagerhat 4·21, Satkhira 2·36. Weather hot and cloudy with occasional rain. Sowing of autumn rice and jute estimated at 26 and 74 per cent. respectively. State of summer rice fair. Lands are being prepared for winter rice (broadcast). Fodder and water sufficient. Cattle-disease reported from Batiaghata. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee.
Bagerhat	17	0	
Satkhira	13	0	

Rajshahi.—Rainfall at Sadar 8·55, Nator 9·54, Naugaon 4·30. Prospects of standing crops good. Sowing of jute still continues in places. Sowing of *aman* paddy in progress. No cattle-disease. Fodder and water sufficient. Common rice sells on an average at 15¾ seers a rupee.

Dinajpur.—Rainfall at Sadar 6·81, Thakurgaon 6·67. Fall in the district general varying from 15·01 to 3·60. Weather cloudy. Sowing of jute almost finished, but that of *bhadoi* still continuing. No cattle-disease. Fodder and water plentiful. Common rice sells at 15½ seers both at Sadar and Thakurgaon.

Jalpaiguri.—Rainfall at Sadar 3·53, Alipur Duars 7·68. Weather seasonable. State of jute and *bhadoi* paddy not favourable owing to heavy rainfall. Common rice sells at 13¼ seers a rupee. Fodder and water sufficient everywhere.

Darjeeling.—Rainfall at Sadar 1·68. Weather seasonable. *Hills*—Maize, potato, *bhadoi* paddy, *chota marua*, wheat and *kangni* doing well. *Terai*—*Bhadoi* sowings completed. Preparation for *haimanti* paddy progressing. Prospects of jute not very good. Coarse rice sells as follows:—

	Srs.	ch.	
Hills	12	0	per rupee.
Terai	13	0	

Maize sells at Darjeeling at 18 seers and at Kalimpong at 22 seers per rupee.

Rangpur.—Rainfall at Sadar 12·24, Gaibanda 9·94, Nilphamari 8·84, Kurigram 6·36. Weather cloudy and rainy. Prospect of standing crops unfavourable owing to heavy rain. Weeding of *aus* and jute retarded. Fodder and water sufficient. Cattle-disease reported from Palashbari outpost. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	10	per rupee.
Gaibanda	13	8	
Kurigram	14	0	
Nilphamari	14	0	

Bogra.—Rainfall at Sadar 6·78. Fall general. Weather cloudy. Sowing of *aus* and jute finished and their weeding commenced, but the recent rain has retarded the work. Fodder and water sufficient. Common rice sells at 17¼ seers per rupee.

Pabna.—Rainfall at Sadar 3·24, Sirajganj 7·20. Fall general. Weather cloudy and rainy. Prospects of standing crops fair. Sowing of jute and paddy almost finished. Incessant rain interfered to some extent with weeding. No cattle-disease. Fodder and water sufficient. Common rice sells at 17¼ seers per rupee.

Dacca.—Rainfall at Sadar 2·34. Fall general. Prospects of crops fair. Weather seasonable. Fodder available. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee.
Manikganj	16	0	
Munshiganj	13	0	
Narayanganj	14	0	

Mymensingh.—Rainfall at Sadar 10·91, Jamalpur 6·17, Kishorganj 9·89, Netrakona 10·20, Tangail 5·66. Weather cloudy with occasional rains. Heavy rain has impaired the condition of jute in lowlying tracts and retarded weeding operations. Fodder and water ample. No cattle-disease. Rice sells as follows:—

	Srs.	ch.	
Sadar	14	0	per rupee.
Jamalpur	15	0	
Kishorganj	13	14	
Netrakona	15	3	
Tangail	13	12	

Faridpur.—Rainfall at Sadar 2·59, Goalundo 2·75, Madaripur 4·65. Weather hot and steamy. State and prospects of crops very good. This weather of alternate rain and heat suits jute very well. Common rice sells at 15 seers a rupee. Fodder and water sufficient. No cattle-disease.

Backergunge.—Rainfall at Sadar 1·16. Fall general. Weather cloudy. *Til* harvesting continues. No cattle-disease. Fodder sufficient. Common rice sells at 14¼ seers per rupee.

Tippera.—Rainfall at Sadar 4·09, Brahmanbaria 7·64, Chandpur 4·86. Weather rainy. Prospects fair. Sowing of paddy nearly completed in subdivisions. Fodder and water sufficient. Cattle-disease in Kotwali, Chowdagram and Hajiganj thanas. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	0	per rupee.
Brahmanbaria	15	3	
Chandpur	16	0	

Noakhali.—Rainfall at Sadar 5·92, Feni 2·73. Weather sultry and cloudy. Prospects fair. Cultivation of lands for *aman* commenced at Sadar. Sowing of *aus* continues in Feni. Cattle-disease reported. Fodder and water sufficient. Common rice sells at Sadar at 13 and at Feni at 15 seers per rupee.

Chittagong.—Rainfall at Sadar 4·04, Cox's Bazar 1·34. Cultivation of *aus* crop still going on. Cattle-disease reported. Fodder and water sufficient. Rice sells at 14 seers per rupee.

Chittagong Hill Tracts.—Rainfall 2·10. Weather cool with heavy storms. Planting of paddy, cotton and *til* on the *jooms* completed in places. Weeding in progress. No cattle-disease. Common rice sells at 14¾ seers per rupee.

Patna.—Rainfall at Sadar 1·29, Bihar 5·05, Barh 2·92, Dinapore 1·18, Bikram 2·85, Hilsa 3·67. Weather hot, cloudy with easterly wind. Sugarcane doing well. *China* being reaped. Rainfall has facilitated cultivation and abated scarcity of water in Bihar subdivision. Common rice sells as follows :—

	Srs.	ch.	
Sadar	14	0	per rupee.
Barh	14	8	
Bihar	14	0	
Dinapore	15	0	

Gaya.—Rainfall at Sadar 2·99, Nawada 3·49, Jahanabad 1·82, Aurangabad 2·46. Weather hot ; latter part of the week cloudy and coal. Sugarcane doing well. *Marua* being sown. Ploughing of fields for sowing paddy and *bhadoi* is in progress. Fodder and water for cattle sufficient. Common rice sells at $12\frac{13}{16}$ seers per rupee.

Shahabad.—Rainfall at Sadar 1·32, Buxar 0·11, Bhabhua 0·25, Sassaram 0·91, Dehri 1·78. Sugarcane doing well. Fodder and water abundant. Rice sells at Sadar at 14 seers per rupee.

Saran.—Rainfall at Sadar 1·24, Siwan ·20, Gopalganj 1·63. Weather seasonable. A heavy storm passed over this district on the morning of the 30th. The rain has done much good. Preparation of fields continues. *China* doing well. Cattle-disease reported from Manjhi thana. Fodder and water sufficient. Common rice sells at 16 and maize at 28 seers per rupee at Sadar.

Champaran.—Rainfall at Sadar 1·81, Bettiah 0·78. Weather hot and cloudy. Prospects of standing crops improved Lands being prepared and *bhadoi* being sown. Sugarcane doing well.. No cattle-disease. Fodder and water sufficient. Common rice sells at 17 and maize at 31 seers per rupee.

Sowing of *bajra*, *mandua* and maize has commenced only in places. Outturn of linseed normal and that of *mahua* 50 per cent. Fodder and water sufficient except in parts of Jamtara and Rajmahal subdivisions. Common rice sells at Sadar at 12 seers per rupee.

Cuttack.—Rainfall at Sadar 8·32. Fall general. Weather seasonable. *Dalua* and tobacco being harvested. Sugarcane growing. Cotton being plucked. Paddy being sown. Fodder and water sufficient. Condition of cattle generally good. Common rice sells at 18 seers 6 chitaks per rupee at Sadar.

Balasore.—Rainfall 1·10. Lowlands are being sown at places. Sugarcane being irrigated and thriving. Other crops doing well. Rice sells at 20 and 28 seers per rupee at Bhadrak and Sadar respectively. Fodder and water sufficient.

Angul.—Rainfall at Sadar 0·54, Bissipara 0·76. Weather seasonable and cloudy. Ploughing going on. Common rice sells at 26 and 21 seers per rupee at Sadar and Khondmals respectively. Fodder and water sufficient.

Puri.—Rainfall at Sadar 1·17 and Khurda 2·98. Weather seasonable. Lands are being ploughed and manured and in some places paddy is being sown. *Mung* is being harvested. Sugarcane and cotton are promising well. Fodder and water-supply sufficient. Common rice sells at 19 seers 11 chitaks per rupee.

Hazaribagh.—Rainfall at Sadar 1·76, Giridi 4·90. Weather hot. Lands being ploughed. Paddy being sown. Scarcity of water being felt. Fodder sufficient. Common rice sells at Sadar at 12¼ and at Giridih at 12 seers per rupee.

Ranchi.—Rainfall at Sadar 1·86. Weather cloudy. Ploughing and sowing in progress. Cattle-disease reported from six thanas. Fodder and water sufficient. Common rice selling at Sadar at 13 and at Gumla at 18 seers per rupee.

Palamau.—Rainfall at Sadar 3·46. Rainfall general. Weather hot and cloudy. Fields are being ploughed. *Tewa* paddy and sugarcane doing well. Cattle-disease abating. Fodder available. Water generally sufficient. Rice sells at Sadar at 13¼ seers and maize at 23¾ seers per rupee.

Manbhum.—Rainfall at Sadar 2·26, Gobindpur 2·51. Weather seasonable. Prospect of crops good. Fodder and water sufficient. Cattle-disease reported from Baghmandi, Manbazar and Gaurandi thanas. Common rice sells at 12 seers per rupee.

Singhbhum.—Rainfall 1·59. Ploughing continues. Fodder and water sufficient. Cattle-disease reported from thanas Ghatsila and Chakradharpur. Rice sells at 15 seers per rupee.

General Summary.—Rain fell during the week throughout the Province. The fall was heavy in some parts of North and East Bengal where the excessive rain has retarded the weeding of *ous* and jute. Ploughing and sowing continue. Prospects generally good. Cattle-disease reported from 13 districts. Fodder and water generally sufficient. The price of common rice has risen in five districts, has fallen in five, and is stationary in the remainder.

By order of the Lieutenant-Governor of Bengal,

A. EARLE,

Secretary to the Govt. of Bengal.

REVENUE DEPARTMENT,

The 31st May, 1904.

The total fall from 1st January to 28th May 1904	15·37
The average fall of the corresponding period for 24 years, Surveyor-General's Office	8·90

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograp and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All th thermometers are verified and the readings have been corrected to a standard constructed and verified at th Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four fe above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at th Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed i the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is fo 24 hours preceding 8 A.M. of that day.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder <, lightning; K, thunderstorm.

CONTENTS.

ANNUAL REPORT OF THE ROYAL BOTANIC GARDEN, CALCUTTA, FOR THE YEAR 1903-1904.

No. 620T.—F., dated Darjeeling, the 25th May 1904.

From—L. P. SHIRRES, ESQ., Secretary to the Govt. of Bengal, Financial Dept.,
To—The Secretary to the Govt. of India, Dept. of Revenue and Agriculture.

I AM directed to submit, for the information of the Government of India, a copy of the 117th Annual Report of the Royal Botanic Garden, Calcutta, for the year 1903-1904.

2. The thanks of the Lieutenant-Governor have been conveyed to Major Prain, I.M.S., and his subordinates for their successful administration of the garden during the year.

No. $\frac{2377}{258}$, dated Royal Botanic Garden, Sibpur, the 2nd May 1904.

From—MAJOR D. PRAIN, M.B., I.M.S., Superintendent, Royal Botanic Garden Sibpur,
To—The Secretary to the Government of Bengal, Financial Department.

I HAVE the honour to submit herewith the 117th Annual Report of the Royal Botanic Garden, Calcutta, for the year 1903-1904.

ANNUAL REPORT OF THE ROYAL BOTANIC GARDEN, CALCUTTA, FOR THE YEAR 1903-1904.

THE filling up of a pond near the Cinchona office and close to the river bank has been the chief out-door operation during the year. The river, which was separated from this pond by a narrow embankment, showed signs, during

recent rainy seasons, of breaking through. Under the professional advice of the Department of Public Works it was decided to fill this pond, and a special grant of Rs. 3,000 was provided for the purpose and expended in full during the year. The repainting of the Palm house was taken in hand and the cleaning and painting of the outer aisles overtaken, leaving the central dome still to be dealt with.

The weather during the early part of the year was marked by the absence of the usual hot-season rain-storms. The labour force of the garden had consequently to be employed in watering as many trees and shrubs as possible so as to ensure their preservation. In spite of these efforts a considerable mortality took place, over 60 trees and shrubs having died out-right. As the watering of every tree in the garden being physically impossible, it was necessary to concentrate our efforts on the rare and valuable kinds whose loss would have meant the disappearance of a species from the collection; the death-roll, as a result, fortunately only includes six or eight of this class. The close of the year was marked by a severe wind-storm (March 9th, 1904), which overturned a number of trees, two or three of which were valuable species, and did much damage in the nursery. With these exceptions the weather throughout the year was favourable to vegetation. A large portion of the central section of the great banyan tree fell spontaneously at midnight on March 16th, 1904; the tree had not apparently been damaged by the storm of the previous week, and there was no wind at the time of the accident, which, it is to be feared, indicates merely the progress of natural decay.

2. *Economic Work.*—The interest taken by the public in plants yielding useful fibres has continued to be great and, in connection with this, progress has been made with the enquiry into the various species of *Agave* that occur in India. The successful introduction through this garden of *Agave Sisalana*, the species that yields the most esteemed fibre of this class, has been recorded in the reports for 1891-92 and subsequent years, and a review of the results so far obtained has been alluded to in the report for 1899-1900. The Sisal *Agave* does not thrive equally well or give equally remunerative results in all parts of India, and in certain districts species of *Agave* other than *Sisalana*, already so completely naturalised as to appear indigenous, thrive so much better than Sisal and yield fibres commercially so little inferior to the best Sisal fibre that their systematic cultivation offers a hopeful field for investment. The idea that any *Agave* is a native of India is a mistaken one; all are American, and all are introduced. The belief that all the *Agaves* naturalised in India belong to one or, at most, two species, *Agave americana* and *Agave vivipara*, would now also appear to be incorrect; it seems that, while, as a rule, more or less well-defined areas have particular species well established, the prevailing species in one area often differs from that most plentiful in another area. Moreover, it is found, when attempts are made to utilize the fibre of these local *Agaves*, that somewhat diverse results are obtained; at times the fibre extracted is reported to be nearly up to the standard of Sisal, at other times it proves too weak to be worth extracting. The explanation of these facts appears to be that other species of *Agave* share with *A. Sisalana* the pecularity of adapting themselves readily to certain localities and thriving less vigorously in others. The original object of the introduction of all the species was to povide secondary lines of defence round stockades, forts and strong villages; in more settled times they have been chiefly used as hedges bordering highways and lines of railway. Vigour of growth therefore has been the only quality considered in selecting plants within any particular area; the nature of the fibre has not till recently attracted attention. It is too soon yet to say how many different *Agaves* have really become naturalised; by what characters they may be most certainly distinguished; or which of them are best for fibre-producing purposes, but sufficient information has already been obtained to show that considerable caution must be exercised by those desirous of laying down extensive plantations of local *Agaves*, and all the information so far available has been freely afforded to numerous enquirers during the year. A similar but less marked confusion prevails with regard to the species of *Furcræa* or "Mauritius hemp", of which certainly two, and probably three kinds have so far become established in India. Steady progress has been made with the investigation referred to in last year's report into the sources of "Indian hemp". Seeds received from gentlemen interested in this trade from parts of India so remote as Coconada,

Lower Bengal, Central India, and the United Provinces have been grown experimentally with the result of proving that fibres which in the trade vary in value, according to locality of origin, from £ 9 to £ 18 per ton are derived from the same plant, *Crotalaria juncea*. What is still more interesting is the result that when the plants in question are grown side by side, cultivated under identical conditions, and their fibre is extracted in the same way, the difference in value almost disappears. The greatest variation experienced was of £ 2 per ton only, and it was reported that all the fibres submitted for valuation could have been sold under the same mark. These experiments are to be repeated during the ensuing year on a more comprehensive scale so as to put the results on a wider and firmer basis. The work of cultivating living tubers or bulbs and of growing seeds for the purpose of identifying the sources of economic articles on behalf of the Reporter on Economic Products has gone on as usual during the year, as has also the preparation of grafts of fruit-trees and the raising of stock of trees for planting by Government officers on roadsides and elsewhere. At the request of the Director of Land Records and Agriculture the Superintendent paid three visits to Bihar to inspect various centres of experimental cotton cultivation; he also paid a visit to Burdwan in connection with the experimental cultivation of jute by the Agricultural Department.

3. *Herbarium.*—The botanical explorations made during the year included a visit by the Superintendent to Independent Sikkim and Tibet. The journey was undertaken by the invitation of Colonel Younghusband, and with the consent of Government, in order to organise Botanical Survey operations in Tibet in connection with the frontier mission. The results of the visit were very satisfacrory. Captain Gage, Curator of the Herbarium, was deputed to Assam in order to make a systematic survey of the district of Cachar with the object of linking up the results obtained in the course of the investigations already made in the Lushai country. The visit gave very satisfactory results, but some time must elapse and more exploration work must be undertaken before it is possible to give a connected account of the botanical features of the country lying between the valleys of the Barak and the Irawaddy. Collections by means of native collectors were made in Lower Burma. The number of named specimens distributed to other Herbaria during the year has been 16, 110. The number received has been 20,976. These include collections presented by the Director, Royal Gardens, Kew, 128 specimens; Botanic Garden, Zurich, 161 specimens; Imperial Museum, Vienna, 110 specimens; Botanic Garden, Berlin, 544 specimens; Botanic Garden, Durban, 108 specimens: also by the following private contributors, C. B. Clarke, Esq., London, 300 specimen; Mons. E. Mouillefarine, Paris, 1,002 specimens; S. A. Prince Roland Bonaparte, 391 specimens; J. Baagoe, Esq., Denmark, 44 specimens; C. F. Baker, Esq., California, 628 specimens; C. G. Pringle, Esq., Vermont, U. S. A., 280 specimens; H. H. Smith, Esq., Pittburgh, U. S. A., 1,890 specimens. In India the chief donors have been C. G. Rogers, Esq., Port Blair, 203 specimens; B. B. Osmaston, Esq., 138 specimens; C. E. C. Fischer, Esq., 93 specimens; F. B. Manson, Esq., 82 specimens; H. H. Haines, Esq., 76 specimens; T. F. Bourdillon, Esq., 32 specimens; J. S. Slater, Esq., 195 specimens; P. Brühl, Esq., 190 specimens; J. Marten, Esq., 162 specimens; J. L. Lister, Esq., 72 specimens The thanks of Government are due to all of these institutions and individuals for their valuable contributions. Some specimens were also acquired by purchase and those obtained through the agency of this institution included 1,960 specimens collected in connection with the Tibet Frontier Mission viz., 797 by Col. Younghusband and Mr. J. C. White and 1,163 by the Superintendent during his visit to the frontier, and 1,641 specimens obtained by the Curator of the Herbarium and by native collectors in Assam and Burma. From the Seistan Boundary Commission, 127 specimens were received.

4. *Library.*—A large number of books have been added to the library during the year; many of these have been presented or given in exchange for publications. Further progress has been made with the card catalogue and another bookcase has been added. The rate of accession to the library is, however, so great that it has been necessary to solicit the provision as soon as possible of further extra accommodation.

5. *Botanical Publications.*—The chief publications issued during the year in connection with the garden have been:—*Annals of the Royal Botanic Garden,*

Vol. X, Part I, (*The species of Dalbergia of South Eastern Asia*), by the Superintendent; *Flora of the Sundribuns*, (in *Records of the Botanical Survey of India*), also by the Superintendent; *A Census of the Indian Polygonums* (*Records Botanical Survey*), by Captain Gage, Curator of the Herbarium. Sir George King has continued his *Materials for a Flora of the Malayan Peninsula*, based largely on material belonging to the Calcutta Herbarium; of this invaluable work, Part XIV, dealing with *Caprifoliaceæ* and part of *Rubiaceæ*, has been issued during the year: with Sir George King, Mr. J. S. Gamble, F.R.S., has now become associated in this work.

6. *Interchange of Seeds and Plants.*—The number of packets of seeds distributed during the year was 6,152. The number of packets received was 1,677. These included valuable contributions from Australian Botanical establishments of seeds of *Eucalypti;* a fine collection of Japanese seeds from the Imperial Garden at Tokio; most interesting contributions from Mexico, by Mr. J. C. Harvey; from Europe, by M. Robertson-Proschowsky of Nice, and Signor C. Sprenger of Naples; from German East Africa, by the Agricultural Department at Dar-es-Salaam. They also included over 200 different seed packets received from the Reporter on Economic Products for experimental cultivation and subsequent identification. The number of plants distributed during the year was 38,687; these included a collection of useful species (340 plants) issued to the Rev. Dr. Russell Scott on behalf of an Industrial Mission Colony that is being established in British East Africa; over 2,000 issued to assist in the development of Uganda; a collection of the various kinds of pine-apples grown in India (87 plants) sent to Jamaica at the instance of His Excellency the Viceroy; economic plants asked for by the Bureau of Agriculture, Manila; representative collections of the various *Agaves* naturalised in India to the Directors' lands Plantentuin, Buitenzorg and to the Directeur de l'Agriculture, Saigon; a further consignment of representative Indian oranges to the Government of West Australia and a collection of *Hevea brasiliensis* plants to the Consul-General for Italy at Calcutta on behalf of the Italian Government. The number of rhea plants issued in India was 12 only, indicative of the fact that those interested in cultivating this plant have now received sufficient supplies; on the other hand, over 2,000 plants of rhea were issued to our Central and East African Colonies. The number of fibre plants other than rhea issued included 2,014 *Agaves;* 2,225 *Furcræas;* and a few plants of *Sanseviera*, or "Bowstring hemp." The number of plants received was 11,019. These include a very interesting collection of 68 plants received from the Director, Royal Gardens, Kew; an instructive collection of the *Agaves* established in Upper India from the Superintendent of the Botanic Garden, Saharanpur; a fine collection of orchids from the Salween Valley presented by Captain H. Wood, R.E., of the Survey of India; a valuable collection of economic tubers from Chota Nagpur by the Rev. Father Cardon; a fine collection of pine-apple suckers by R. G. Girard, Esq., some interesting and valuable tubers presented by the Bureau of Agriculture, Manila; and over 6,000 tubers, bulbs and cuttings, mostly for the purpose of cultivation with a view to subsequent identification on behalf of his department, from the Reporter on Economic Products.

7. *Lloyd Botanic Garden.*—The condition of this garden has been satisfactory throughout the year. The Curator again visited personally the higher levels in connection with the collection of Alpine seeds, with once more very satisfactory results. During the year a consignment of Valerian roots was collected on behalf of the Agricultural Chemist to Government. in connection with investigations regarding the preparation of an insecticide.

8. The money allotted for contingencies for the Royal Botanic Garden, Calcutta, was spent in full. There was a saving of Rs. 371-14-9 under the allotment for establishment charges and of Rs. 462-14-6 under that for travelling allowance. In the corresponding allotments for the Lloyd Botanic Garden there were savings under contingencies of Rs. 92-8-6 and under establishment of Rs. 149-7-9. The revenues for the Royal Botanic Garden of Rs. 935-11, and for the Lloyd Botanic Garden of Rs. 857-10-6 have been paid into the treasuries at Calcutta and Darjeeling respectively.

WEATHER AND CROP REPORT.

For the week ending the 6th June 1904.

Burdwan.—Rainfall at Sadar nil, Kalna nil, Katwa 1·77, Raniganj ·13. Weather very hot. *Aus* and *aman* are being sown. Fodder and water sufficient. Sugarcane doing well. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	8	per rupee.
Kalna	12	3	
Katwa	12	3	
Raniganj	13	0	

Birbhum.—Rainfall at Sadar ·19, Rampur Hât 1·22. Weather hot and cloudy at intervals. Ploughing and manuring going on. Sowing commenced. Rice sells at 13½ seers at Sadar and at 14 seers at Rampur Hât. Fodder dear. Water sufficient.

Bankura.—Rainfall at Sadar nil, Vishnupur ·32. Weather very hot. Rain wanted. Cultivation of *aus* and *haimanta* in progress. Fodder and water sufficient. No cattle-disease reported. Common rice sells at 14½ seers the rupee both at Sadar and Vishnupur.

Midnapore.—Rainfall at Sadar 0·56, Contai ·10, Tamluk ·19, Ghatal 0·04. Ploughing and sowing continue. Sugarcane and tobacco thriving. Fodder and water sufficient except in thana Dantan and outpost Nayagram. Cattle-disease in thana Midnapore. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee.
Contai	16	0	
Tamluk	13	0	
Ghatal	14	0	

Hooghly.—Rainfall at Sadar nil, Serampore nil, Arambagh 0·48. Prospect of standing crops fair. Sowing of *aus* and jute continues. Fodder and water available. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	per rupee.
Serampore	11	0	
Arambagh	13	14	

Howrah.—Rainfall at Sadar nil. Weather very hot. Jute has been sown over the whole normal area in the Sadar subdivision and over three-fourths of the normal area in the Ulubaria subdivision. Winter rice has been sown on about three-eighths of the normal area. Sugarcane and other standing crops doing well. Fodder and water plentiful. No cattle-disease. Common rice is selling at 12 seers per rupee.

24-Parganas.—Rainfall at Diamond Harbour 0·5. Weather hot. Rain wanted throughout the district. State and prospects of crops good. Sowing of *aus* paddy and jute going on. Common rice sells at Sadar 12½ seers and at Diamond Harbour at 13 seers 5 chitaks per rupee. Condition of cattle good. Supply of fodder and water sufficient.

Nadia.—Rainfall at Sadar 0·07, Kushtia 0·37, Chuadanga 0·11, Meherpur 0·59, Ranaghat 0·10. Prospects good. Sowing nearly finished. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	8	per rupee.
Kushtia	13	8	
Chuadanga	13	0	
Meherpur	12	0	
Ranaghat	12	0	

Murshidabad.—Rainfall at Sadar ·78, Kandi 2·05, Jangipur 5·08, Lalbagh ·23. Weather seasonable. *Haimanta* and *aus* being sown. *Boro* being harvested. State of jute, sugarcane and *til* good. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	per rupee.
Kandi	13	4	
Jangipur	14	0	
Lalbagh	13	0	

Jessore.—Rainfall at Sadar nil, Jhenida 0·94, Magura 1·37, Narail 0·04, Bangaon nil. Weather very sultry. Sowing of *aus* and jute nearly finished. Fodder and water sufficient. Cattle-disease reported from Salikha outpost. Common rice sells as follows :—

	Srs.	ch.	
Sadar	14	14	per rupee.
Jhenida	13	8	
Magura	16	0	
Narail	14	9	
Bangaon	13	5	

Khulna.—Rainfall at Bagerhat 0·36, Satkhira 0·86. Weather seasonable. Sowings of autumn and winter rice (broadcast) and jute estimated at 38, 2 and 92 per cent. respectively. State of summer rice fair. Fodder and water sufficient. Cattle-disease reported from Khulna. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee.
Bagerhat	16	13	
Satkhira	13	0	

Rajshahi.—Rainfall at Sadar ·46, Nator 9·21, Naugaon 1·43. Prospects of standing crops good. Sowing of jute finished. Sowing of *aus* and *aman* in progress. No cattle-disease. Fodder and water sufficient. Common rice sells at 15⅝ seers a rupee.

Dinajpur.—Rainfall at Sadar 1·69, Thakurgaon nil. Weather seasonable. Sowing of jute finished and of *bhadoi* still in progress. No cattle-disease. Fodder and water plentiful. Common rice sells at 14½ seers at Sadar and at 16 seers at Thakurgaon.

Jalpaiguri.—Rainfall at Sadar 1·81, Alipur Duars 2·09. Weather hot. Weeding of jute and *bhadoi* paddy going on. Lands are being ploughed for *haimanti* paddy. Common rice sells at 13¼ seers a rupee. Fodder and water sufficient everywhere.

Darjeeling.—Rainfall at Sadar 0·90. Weather seasonable. *Hills*—Maize, potato, *bhadoi* paddy, *chota marua*, wheat and *kangni* doing well. *Terai*—*haimanti* sowings in progress. *Bhadoi* cultivation going on. Jute prospects fair. Coarse rice sells as follows :—

	Srs.	ch.	
Hills	12	0	per rupee
Terai	13	0	

Maize sells at Darjeeling at 18 and at Kalimpong at 12 seers per rupee.

Rangpur.—Rainfall at Sadar 3·22, Gaibanda 5·04, Nilphamari 2·14, Kurigram 8·53. Weather cloudy and hot. Prospects of standing crops fair. Water and fodder sufficient. Weeding of *aus* and jute going on. Cattle-disease reported from Palashbari outpost. Common rice sells as follows :—

	Srs.	ch	
Sadar	11	4	per rupee.
Gaibanda	13	0	
Kurigram	14	0	
Nilphamari	14	0	

Bogra.—Rainfall at Sadar 0·36. Fall general. Weather very hot. Weeding of *aus* and jute going on. Cultivation for winter rice commenced in places. Fodder and water sufficient. Common rice sells at 16½ seers per rupee.

Pabna.—Rainfall at Sadar 0·33, Sirajganj 3·37. Fall general. Weather very hot. Prospects of standing crops fair. Sowing of winter and *bhadoi* paddy estimated at 95 per cent. Weeding going on. Reaping of summer rice commenced. No cattle-disease. Fodder and water sufficient. Common rice sells at 17¼ seers per rupee.

Dacca.—Rainfall at Sadar 1·02. Fall general. Prospects of crops fair. Weather seasonable. Fodder available. No cattle-disease. Common rice sells as follows : —

	Srs.	ch.	
Sadar	15	0	per rupee.
Manikganj	16	0	
Munshiganj	13	0	
Narayanganj	14	0	

Mymensingh.—Rainfall at Sadar 3·78, Jamalpur 2·40, Kishorganj 5·69, Netrakona 4·07, Tangail 1·64. Weather seasonable. Condition of crops fair. Transplantation of winter rice commenced Jute has suffered from excessive rain. No cattle-disease. Fodder and water ample. Rice sells as follows:—

	Srs.	ch.	
Sadar	14	0	per rupee.
Jamalpur	16	0	
Kishorganj	13	13	
Netrakona	15	9	
Tangail	14	4	

Faridpur.—Rainfall at Sadar 0·10, Goalundo report not received, Madaripur 2·73 Weather very hot. State and prospects of crops good. Common rice sells at 15 seers the rupee. Fodder and water sufficient. No cattle-disease.

Backergunge.—Rainfall at Sadar nil, Pirojpur 1·58, Patuakhali ·28, Bhola 0·90. Weather hot. No cattle-disease. Fodder sufficient. Common rice sells at 13½ seers the rupee.

Tippera.—Rainfall at Sadar ·49, Brahmanbaria 1·97, Chandpur ·73. Weather seasonable. Prospects fair. Lands are being cultivated for *aman* paddy in Sadar. Fodder and water sufficient. Cattle-disease in Kotwali and Hajiganj thanas. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	0	per rupee.
Brahmanbaria	16	0	
Chandpur	16	0	

Noakhali.—Rainfall at Sadar 1·55, Feni 3·39. Weather hot. Prospects fair. Ploughing of land for *aman* commenced. Cattle-disease reported. Fodder and water sufficient. Common rice sells at Sadar at 13 and at Feni at 15 seers per rupee.

Chittagong.—Rainfall at Sadar 1·50, Cox's Bazar 1·59. Cultivation of *aus* crop still going on. Cattle-disease reported. Fodder and water sufficient. Common rice selling at 14 seers per rupee.

Chittagong Hill Tracts.—Rainfall ·49. Weather generally hot, though sometimes cooled by small showers attended with gales. Planting of paddy, cotton and *til* on *jooms* almost completed. Plough cultivation in progress and *aus* paddy is being transplanted in places. Cattle-disease reported from Bandarban. Common rice sells at 12¼ seers per rupee.

Patna.—Rainfall at Bihar 0·07, Dinapore ·02. Weather hot and cloudy. Sugarcane doing well. Cultivation for *bhadoi* crops proceeding. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	12	per rupee.
Barh	14	0	
Bihar	14	0	
Dinapore	15	0	

Gaya.—Rainfall at Sadar 0·06, Nawada 0·40, Aurangabad 0·49. Weather hot and cloudy, sowing of *marua* and *makai* going on, and in places *marua* seedlings doing well. Ploughing of fields for sowing paddy and *bhadoi* is in full swing. Sugarcane doing well. Fodder and water for cattle sufficient. Common rice sells at $13\frac{1}{16}$ seers per rupee.

Shahabad.—Rainfall at Sadar 1·32, Buxar 0·11, Bhabhua 0·25, Sassaram 0·91, Dehri 1·78. Sugarcane doing well. Fodder and water abundant. Rice sells at Sadar at 14 seers per rupee.

Saran.—Rainfall at Sadar 0·07, Siwan ·10, Gopalganj 0·50. Weather hot. *Bhadoi* crops are being sown. Sugarcane and indigo doing well. Cattle-disease reported from Sonepur, Manjhi, and Baniapur thanas. Fodder and water sufficient. Common rice sells at 16 and maize at 27 seers per rupee at Sadar.

Champaran.—No rain. Sowing of paddy and *bhadoi* in full progress. Sugarcane and *china* doing well. No cattle-disease. Fodder and water sufficient. Common rice sells at 17 and maize at 31 seers per rupee.

Muzaffarpur.—Rainfall at Sadar ·14, Hajipur ·02, Sitamarhi ·14. Weather hot. Sowing of paddy and *bhadoi* crops continues. Prospects continue favourable. Fodder and water sufficient. Common rice sells at 15 seers and maize at 28 seers a rupee.

Darbhanga.—Rainfall at Sadar 0·67, Samastipur 0·10, Madhubani 0·42. Weather hot and cloudy. Sowing of *bhadoi* crops in progress. Standing crops coming up well. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	12	per rupee.
Samastipur	15	0	
Madhubani	15	9	

Monghyr.—Rainfall at Sadar 1·17, Begusarai 3·64, Jamui 2·16. Weather very hot owing to the atmosphere being occasionally cloudy. Sowing of *bhadoi* and paddy crops commenced in many places. The late rain has done considerable good to sugarcane and has made lands fit for cultivation. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	1	per rupee.
Begusarai	12	0	
Jamui	13	0	

Bhagalpur.—Rainfall at Sadar 1·15, Banka 3·79, Madhipura 2·02, Supaul 4·61. Weather cloudy. The rain has been very beneficial. Sowing of *bhadoi* crops continues. Cattle-disease still reported from Katoria and Dhuria outposts. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	14	per rupee.
Banka	12	8	
Madhipura	18	0	
Supaul	19	0	

Purnea.—Rainfall at Sadar 1·31, Kishanganj 1·30, Araria 1·18, fall general. Whether sultry and hot. Weeding of jute and *bhadoi* going on. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee.
Kishanganj	17	0	
Araria	19	0	

Malda.—Rainfall at Sadar ·81, Chanchal 1·75, Gajol ·50, Sibganj ·38, Nawabganj ·11. Weather very hot and cloudy. Harvesting of *boro* finished except in one or two places. Sowing of *bhadoi* and jute still continues. Lands are being prepared for winter rice. No cattle-disease. Water sufficient. Scarcity of fodder in thana Gumashtapur. Common rice sells at 14 seers per rupee.

Sonthal Parganas.—Rainfall at Sadar 1·82, Deoghar 0·60, Godda 1·13, Jamtara 1·18, Pakaur 6·17, Rajmahal 1·27. Weather hot. Outturn of sugarcane 109 per cent. Sowing of paddy seedling has commenced. Fodder and water sufficient except in parts of Jamtara and Rajmahal subdivisions. Rice sells at 12 seers per rupee.

Cuttack.—Rainfall at Sadar 0·06. Fall general. Weather seasonable. Sugarcane growing. Cotton being plucked. Paddy being sown. Fodder and water sufficient. Condition of cattle generally good. Common rice sells at 17 seers 11¼ chitaks per rupee at Sadar.

Balasore.—Rainfall at Sadar 0·25. Sowing in progress. Sugarcane thriving. Other crops doing well. Rice sells at 18 seers per rupee both at Sadar and Bhadrak. Fodder and water available.

Angul.—Rainfall at Sadar 0·62, Bissipara 0·37. Weather seasonable. Ploughing in progress. Common rice sells at 25 and 21 seers per rupee at Sadar and Khondmals respectively. Fodder and water sufficient.

Puri.—Rainfall at Sadar nil, Khurda 0·31. Weather seasonable. Lands are being ploughed and manured, and in some places paddy is being sown. Cotton is ripening. Sugarcane is growing on well. Fodder and water-supply sufficient. Common rice sells at 17 seers 11 chitaks per rupee.

Hazaribagh.—Rainfall at Sadar 0·22, Giridi 0·14. Weather hot. Lands being ploughed. Cattle-disease reported from two thanas. In some places difficulty being felt for fodder. Water sufficient. Common rice sells at Sadar at 13 and at Giridih at 12 seers per rupee.

Ranchi.—Rainfall at Sadar 0·63. Weather hot and cloudy. Sowing of *bhadoi* and winter paddy continues. Cattle-disease reported from several thanas. Fodder and water sufficient. Common rice selling at Sadar at 13 and at Gumla at 18 seers per rupee.

Palamau.—Rainfall at Sadar 0·05. Weather hot and cloudy. Slight rain fell. Fields are being prepared. *Tcua* paddy ripening. Sugarcane doing well. Cattle-disease decreasing. Fodder available. Water insufficient in places. Rice sells at Sadar at 13¼ seers and maize at 22½ seers per rupee.

Manbhum.—Rainfall at Sadar 0·58, Gobindpur 0·69. Weather seasonable. Prospect of crops fair. Fodder and water sufficient. Cattle-disease reported from Manbazar thana. Common rice sells at 12 seers per rupee.

Singhbhum.—Rainfall 0·37. Ploughing in progress. Fodder and water sufficient. Cattle-disease reported from thana Ghatsila. Rice sells at 14 seers per rupee.

General Summary.—Rain is reported from all districts except Howrah and Champaran. The fall was heavy in some parts of North and East Bengal, elsewhere light. Jute is reported to have suffered from excessive rain in Mymensingh. More rain is needed in Bankura and 24-Parganas. Prospects otherwise good. Ploughing and sowing continue. Cattle-disease reported from 16 districts. Fodder and water generally sufficient. The price of common rice has risen in twelve districts, has fallen in four, and is stationary in the remainder.

By order of the Lieutenant-Governor of Bengal,

A. EARLE,

Secretary to the Govt. of Bengal.

REVENUE DEPARTMENT,

The 7th June, 1904.

WEATHER AND CROP REPORT.

For the week ending the 6th June 1904.

Burdwan.—Rainfall at Sadar nil, Kalna nil, Katwa 1·77, Raniganj ·13. Weather very hot. *Aus* and *aman* are being sown. Fodder and water sufficient. Sugarcane doing well. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	8	per rupee.
Kalna	12	3	
Katwa	12	3

Calcutta,
The 7th June 1904.

D. B. Horn,
Secy. to the Govt. of Bengal.

Abstract of the Results of Meteorological Observations taken at the Alipore Observatory in the month of May 1904

	Inches.	Date.	Hour.
The mean pressure of the month	29·673		
The average pressure of May from 44 years' registers ...	29·658		
The highest pressure in the month	29·838	8th	10
The lowest pressure in the month	29·507	28th	16
The range of pressure	0·331		
	Hours.		
The total number of hours of bright sunshine during the month	235·8		
The maximum possible number of hours of sunshine ...	408·3		
	⊕		
The mean temperature of the month	85·5		
The average temperature of May from 20 years' registers ...	85·4		
The highest temperature in the month	98·1	19th	
The lowest temperature in the month	68·1	12th	
The range of temperature during the month	30·0		
The mean daily range of temperature	16·6		
The greatest range of temperature in one day	21·4	12th	
	Per cent.		
The mean humidity of the month	75		
The average humidity of May from 20 years' registers ...	74		
	Inches.		
The mean vapour tension of the month	0·918		
The average vapour tension of May from 20 years' registers ...	0·883		
The mean cloud proportion of the month	4·85		
The average cloud proportion of May from 27 years' registers	4·46		
	Inches.		
The total rainfall of the month	9·84		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	9·47		
The average fall of May from 24 years' registers ...	5·60		
The greatest fall in 24 hours	2·92	27th	
	Days.		
The number of rainy days in the month	7		
The average number of rainy days in May from 24 years' registers	7		
	⊕		
The mean maximum equilibrium temperature of solar radiation during the month	147·9		
The mean difference of sun and air temperatures	54·6		
The greatest sun temperature	153·9	26th	
The greatest excess of sun over air temperature	62·1	12th	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	73·9		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	2·9		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	4·0	26th	
	Miles.		
The mean movement of the wind per day	127·8		
The greatest movement of the wind in one day	230·0	3rd	
The greatest movement of the wind in one hour	18·0	24th	1 to 2 P.M.

The number of hours with winds from each of the eight points—

N. 9, N.E. 5, E. 37, S.E. 108, S. 382, S.W. 124, W. 20, N.W. 6, Calm 53.

G. W. KÜCHLER,
for Meteorological Reporter to the Govt. of India and Director-General of Indian Observatories.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 6th June 1904.

Results of the Meteorological Observations taken at the Alipore Observatory from 29th May to 4th June 1904.

Month.	Date.	Maximum in sun.	Number of hours of bright sunshine.	Mean pressure barometer at 32° Fahr.	Temperature.				Hygrometry.				Wind.		Rain.	Weather.

	Inches.
The mean pressure of the seven days	29·627
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	29·582
	Hours.
The total number of hours of bright sunshine	61·0
The maximum possible number of hours of sunshine	93·6
The mean temperature of the seven days	88·2
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	86·6
The extreme variation of temperature	19·1
The maximum temperature	98·0
	Miles.
The highest velocity of the wind in one hour	12
	%
The mean relative humidity	74
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	76
	Inches.
The total fall of rain from 29th May to 4th June 1904	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	1·53
The total fall from 1st January to 4th June 1904	15·37
The average fall of the corresponding period for 24 years, Surveyor-General's Office	10·43

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph and from eye observations

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

⌓, dew; o, overcast.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 6th June 1904.

CONTENTS.

SUPPLY OF DRINKING-WATER IN RURAL AREAS IN BENGAL.

Circular No. 12T.—M., dated Darjeeling, the 20th May 1904.

From—L. P. SHIRRES, ESQ., I.C.S., Secretary to the Government of Bengal, Municipal Department,

To—All Commissioners of Divisions.

I AM directed to invite your attention to the observations with regard to the supply of drinking-water in rural areas in Bengal which were made by the Lieutenant-Governor on the occasion of the debate on the Imperial Budget in the Viceregal Council, and which are reproduced in page 340 of the *Gazette of India* of 2nd April 1904. In the course of his speech His Honour said: "That is a matter to which we shall have to give of our finances; and I do trust that, despite the existence in certain limited localities of an opposite spirit, it will be found that, when the Government either directly or through the Local Boards and Municipalities expends its own money, the public will also be ready to come forward and assist as they have done in the Province to which I have so long belonged." The subject was again dealt with by Sir Andrew Fraser in his speech on the Provincial Budget in the Bengal Legislative Council, and his remarks will be found at pages 130 and 131 of Part IVA of the *Calcutta Gazette* of the 13th April 1904. On the same occasion His Honour made a definite promise through his Secretary that if in any case the local authorities would contribute one-third of the cost, and the public another third, the Government would contribute

the remaining third up to a maximum of Rs. 5,000 for any one district and of Rs. 50,000 for the whole Province. I am now to communicate in greater detail the views of the Lieutenant-Governor on this subject, and his instructions in regard to the manner in which the promised grant should be expended.

2. The difficulties connected with an adequate supply of wholesome drinking-water in the mufassal have engaged the earnest attention of successive Lieutenant-Governors of Bengal for a number of years past. Much correspondence has passed, and frequent instructions have been issued on the subject, as will be seen by a reference to the circulars cited in the margin. The question has also been discussed annually n connection with the Provincial Budget, and statements showing the expenditure incurred have at different times been laid on the Council table in response to requests by Hon'ble Members for such information.

Do. No. 8L.S.-G., dated 9th February 1903.

3. With regard to the quantity, as distinguished from the quality, of the water-supply available, the opinions expressed in the somewhat voluminous correspondence referred to are in general accord with the statement made by the Financial Secretary in the debate on the Provincial Budget for the year 1899-1900. On that occasion Mr. Baker, then Financial Secretary, said that according to his information there were very few villages in Bengal which had not in their midst one or more tanks or wells which would be sufficient for local purposes if they were kept in proper order and preserved from contamination. On the whole Sir Andrew Fraser has no hesitation in coming to the conclusion that a deficiency in the quantity of water available in rural areas for drinking purposes is altogether exceptional, and that the efforts of Government and of the local officers should be directed chiefly to improving the sources of supply and removing causes of contamination.

4. The two main causes which affect the quality of the water-supply are the failure to maintain the tanks in proper order, and the absence of suitable arrangements for the reservation of one or more tanks solely for a supply of drinking-water. When a prolonged drought occurs the water of tanks which have not been properly cleaned out and deepened becomes shallow and foul, and may readily be a means of spreading disease. The neglect to re-excavate tanks is sometimes due to divided ownership or to friction amongst owners: it is sometimes also attributable to the fact that the tank was originally excavated as an act of piety, but that the descendants of the original benefactor are unable to maintain it. Although many persons are willing from religious motives to dig new tanks when they can afford to do so, comparatively few are willing to incur the lesser expense of deepening and maintaining tanks which have been dug by others. In such cases as these, or when suitable arrangements are wanting merely because there is no one with sufficient authority to take the initiative, the local officers will very frequently be able to effect an improvement by a judicious use of their influence and of the grants which they are able to make. A District or Subdivisional Officer who goes about himself, and is prepared to make an immediate contribution of not more than Rs. 50 when he sees that it is wanted, can do a great deal towards improving the water-supply. At present, it is true, the funds of a District Board may not be expended in the repair and maintenance of any works unless these become vested in, or are placed under the control and administration of, the Board; but there seems little practical objection to allow the District Board (under section 76) to take over and repair or improve works which are really for the benefit of the community. It may be added that the Bengal Local Self-Government Act of 1885 is at present under amendment, and the opportunity will be taken to widen the powers of District Boards in this respect.

5. The contamination of tanks which should be reserved for drinking purposes, where it is not due to the failure of those interested to clean them out and deepen them, is principally owing to their use as places for bathing, for washing clothes and utensils, or for watering cattle. When such neglect of the most elementary rules of health is due to the backwardness of the sanitary education of the people, who prefer to use the nearest water available rather than be put to the inconvenience of going a short distance to satisfy some of their requirements, little immediate result can be hoped for from the occasional visits of officials. In such cases the Government must look to the influence of educated native gentlemen in the mufassal by precept and example gradually to lead their fellow-countrymen into the more excellent way. At the same time, although the exhortations and advice of officials may for the time being appear to be thrown away, they can scarcely fail to have an educative influence which may bear fruit at a later date.

6. When additional tanks or wells are really required, the zamindars concerned should be asked to modify the conditions usually imposed by them in such cases. The conditions in question are for the most part extremely onerous, and, when drinking-water is really required, are unduly restrictive. A notable example of the effect of the withdrawal of such restrictions was seen in North Bhagalpur in the latter part of the year 1901-1902. At that time scarcity was apprehended in certain comparatively small portions of that district, and the zamindars consequently allowed tanks to be dug freely within the areas affected, with the result that in a short time the people themselves expended nearly half a lakh of rupees in digging tanks. At the same time it is not necessary to press for a universal relaxation of these conditions, for those who excavate tanks from purely religious motives do not always do so where tanks are most required, or even where they are required at all.

7. The conditions which the Lieutenant-Governor has attached to the grants which he has promised to make are for the purpose of securing in the first place that the money is judiciously spent. When the villagers themselves are willing to contribute, and when the District Boards are also willing to do so, the Lieutenant-Governor is prepared to accept these facts as sufficient assurance that the money is required, and that it will be properly expended. In the next place these conditions secure also that money will not be given unless it is supplemented, and thus made to go as far as possible. A consideration of even more importance is that when expended in the manner indicated it will be used to foster instead of stunting the growth of the virtues of self-help and self-reliance. One of the principal objects of the Local Self-Government policy is to secure that the Government and the people shall co-operate in advancing the interests of the community. I am to express the hope that this object will be kept steadily in view.

8. During the current year, and until the Local Self-Government Act of 1885 is amended in the manner indicated in paragraph 4 above, the expenditure will probably be mainly confined to the excavation of new tanks or wells, because at present District Boards cannot legally expend their funds in the maintenance of tanks or wells which remain the property of private individuals. His Honour, however, considers it right that this should be so, for places where new tanks or wells are really required have clearly the first claim to assistance from Government.

RESOLUTION ON THE REPORT OF THE SANITARY COMMISSIONER, BENGAL, FOR THE YEAR 1903 AND THE ANNUAL STATISTICAL RETURNS AND SHORT NOTES ON VACCINATION IN BENGAL FOR THE YEAR 1903-1904.

MUNICIPAL DEPARTMENT—SANITATION.

Darjeeling, the 8th June 1904.

RESOLUTION No. 1143T.—M.

READ—

The Report of the Sanitary Commissioner, Bengal, for the year 1903.

Read also—

The Annual Statistical Returns and Short Notes on Vaccination in Bengal for the year 1903-1904.

The Sanitary Commissioner's Report for 1903 deals for the most part with figures only, his remarks under the several headings consisting mainly of comparisons between the statistics of the year under review with those of the preceding year, and to speculations regarding the causes for these variations. Information as to local conditions, the special causes and prevalence of disease, and the progress of sanitation during the year, is somewhat scanty. Major Clarkson has not even given any definite information regarding his Municipal inspections. He has been requested to furnish this information for the year 1903 in a separate report which will be reviewed in the resolution on the working of Municipalities for the year 1903-1904, and to incorporate similar information in future annual reports.

2. There was a decrease in the number of births registered from 2,987,800 in 1902 to 2,903,:91 in 1903, and the ratio per mille fell from 40·14 to 39·00. This reduction is attributed by the Sanitary Commissioner to the general unhealthiness of the former year. Though the statistics for all districts do not manifestly support this explanation, it may be accepted without cavil.

3. The total mortality showed a slight diminution from 2,488,428 deaths in 1902 to 2,481,149 in 1903 in spite of an increase in deaths from plague and cholera by over 85,000. The year being a comparatively dry one, there was a decrease of 67,000 in deaths from fever. The statistics furnished regarding the deaths in towns are interesting, and will be dealt with in the Resolution on Municipal Administration.

4. The Sanitary Commissioner is undoubtedly correct in holding that deaths from respiratory diseases are underestimated. Tuberculosis is shown by the jail returns and the common experience of hospitals to be far more prevalent than is supposed; and efforts are being made to educate the people as to the danger of infection. Pamphlets are distributed to patients in hospitals, and the attention of local officers has been drawn to the necessity of enforcing such provisions of the Municipal Act as tend to afford protection from the disease. At the instance of the Inspector-General of Civil Hospitals the Director of Public Instruction, Bengal, has also instituted short courses of lectures on the subject in all colleges and their attached schools. In all hospitals tuberculosis is now dealt with as an infectious disease, and patients suffering from it are isolated as much as possible—a measure the excellent effects of which are already apparent in jails.

5. It is satisfactory to observe that there is a reduction in the rate of infant mortality which is considerably greater than the reduction in the rate of total mortality in the Province. An interesting enquiry into the causes of death in 2,06. cases of children under six months old was made by Assistant Surgeon Hari Mohan Sen whilst in charge of the Jessore district, and the results probably give a fairly accurate picture of what the facts are. The causes assigned by him were malpraxis (37·40 per cent.), malnutrition (37·34 per cent.), mismanagement of labour and diseased parentage (18·14 per cent.), insanitation (7·34 per cent.), and other causes (·58 per cent.). The remarks of the Sanitary Commissioner and the Calcutta Health Officer regarding infant mortality in that city are interesting and no doubt generally sound. The Lieutenant-Governor does not, however, concur in attributing the excessive mortality to

bad midwifery; for although this is no doubt an important factor in infant mortality, skilled medical aid both in hospitals and from private practitioners is much more easily obtained in Calcutta than elsewhere. Some part of the difference may be accounted for by better registration. The facts stated in paragraph 7 of the report indicate how defective registration is elsewhere.

6. To enable a comparison to be readily instituted between the year under review and the preceding ten years, and also to ascertain how far the statistics throw light on the progress of disease, the Lieutenant-Governor has caused tables to be prepared showing the average annual mortality from cholera, fever, small-pox and dysentery and diarrhœa in the quinquennial periods ending in 1897 and 1902. These tables are interesting and are published along with this resolution for general information. It is to be noted in regard to them that the second quinquennium was coincident with an extension of the system of daffadars or head-chaukidars, one of whose duties is to bring to light any failure on the part of a chaukidar to report a birth or a death. The returns for the later years are therefore slightly more accurate. The effect of this is to make the results appear somewhat less favourable than they really are; for any increase in the mortality is exaggerated, while on the other hand any improvement is minimised and made to seem less than is actually the case. The Lieutenant-Governor does not propose fully to discuss these statistics in this Resolution; but there are certain features of them which seem to demand attention.

7. In the case of cholera the quinquennial tables shew that in the later period the average death-rate throughout the province as a whole was lower by no less than one-fifth. The reduction was shared in by 38 out of 46 districts and by 7 out of 9 divisions. The fact that the decrease in the virulence of this disease is not only great but widespread points unmistakeably to an improvement in the sources from which the supplies of drinking water are drawn. This is no doubt to be attributed to the awakening of the public conscience in regard to the necessity for pure drinking water, of which the long continued agitation on the subject affords sufficient evidence.

8. The results brought out in regard to fever are no less striking. They may be summed up in the statement that there has been a movement of the disease from the west to the east. One of the most gratifying results brought to light by the tables is that the number of deaths caused by fever in Calcutta has been reduced by considerably over one-third, a result which must be principally due to the sanitary reforms which have been carried out. The statistics of rainfall were compiled because it was anticipated that they might be expected to throw light upon the movement of this disease eastwards; and the tables giving a summary of the results by divisions confirm this anticipation; for it will be seen that the five Divisions in which the mortality has decreased are those in which the rainfall has been least. In Bengal proper and in Eastern Bengal it is possible that the effects of the excessive rainfall may in some places have been aggravated by the earthquake of 1897. The interference with river navigation in Mymensingh attracted attention at the time; and one of the drainage schemes at present under consideration has been rendered necessary by the elevation from this cause of the bed of a river in Rangpur. No evidence has however been adduced to show whether similar facts have been noticed elsewhere.

9. The fact of gravest import brought into prominence by the statistics is the great and widespread increase in the mortality from small-pox. The death-rate shows a rise in the second quinquennium in 38 out of 46 districts, and in 8 out of 9 divisions, and has more than doubled in the province as a whole. The area most severely visited by the disease in that period comprises the Orissa Division, where the death-rate exceeded five times the Provincial average, and the districts of Singhbhum and Midnapore, where it was respectively nearly four and five times that average. The persistence of the epidemic in the tract in question is attributed to the prevalence of the practice of inoculation in the neighbouring Native States. The Health Officer of Calcutta in his report for 1902-1903 drew attention to the fact that this disease had apparently a five-years' cycle in Calcutta, and the same tendency to periodicity has been observed elsewhere. After allowing the fullest

weight to this suggestion, however, Sir Andrew Fraser is constrained to conclude, from the facts before him, that the Department as at present organised is unable to cope with the disease. A principal requisite of the Department is adequate supervision to secure that all the vaccinations reported have been effectively carried out; and proposals for reorganising the Department and for increasing the superior staff are now under consideration. The widespread increase of the disease emphasises the necessity for thorough reform; and His Honour will give due weight to the fact before formulating a final scheme.

10. The statistics relating to dysentery and diarrhœa disclose no marked change in the incidence of the disease throughout the whole Province. The death-rate is lighter in 29 and heavier in 17 districts, although on the whole there is a small increase. The heavy mortality from this disease in the Patna and Saran districts is not improbably contributed to by intestinal parasites which are shown by the experience acquired in jails to be present in a large percentage of the population. The attention of the Sanitary Commissioner will be drawn to the marked rise in the mortality from this cause in the district of Patna, which should be further enquired into.

11. It was stated in the Resolution on the Sanitary Commissioner's Report for last year that the knowledge of tropical diseases has developed so rapidly within the last few years that a special enquiry conducted by a qualified officer in one of the fever-stricken districts would, in the Lieutenant-Governor's opinion, be much more likely to prove efficient than could have been expected even five years ago. Captain L. Rogers, I.M.S., was placed on special duty in the month of December last, and was ordered to conduct the special enquiry in the districts of Dinajpur and Purnea. His report has not yet reached the Government, and the discussion of it must, therefore, be postponed.

12. The Sanitary Commissioner remarks in paragraph 45 of his report that little has been done in the direction of mosquito destruction throughout the Province. The people generally, even those who are educated, including Europeans and many medical officers, do not yet appear to have grasped the importance of this measure. It is undoubtedly a difficult one to carry into practice, especially in a country such as Lower Bengal, where every hollow is a tank and every ditch a breeding place for mosquitoes The Inspector-General of Civil Hospitals considers that no progress will be made until Government takes the matter in hand and creates an object-lesson. The Lieutenant-Governor entirely agrees in an opinion which has been expressed by the Inspector General of Civil Hospitals, that it is not generally recognised that "half a loaf is better than no bread," and that even a decrease in the malaria infected mosquitoes is an object worth striving for. There can be no doubt that in many localities a most marked diminution in the number of mosquitoes may be brought about by dealing with their breeding places, and it appears to His Honour that an effective object-lesson such as is recommended by Colonel Browne can probably be given by the officers in charge of jails. If the Jail Superintendents will deal effectively with the jail premises and their vicinity a perceptible effect on the sickness in the jails may be hoped for. The opinion of the Inspector-General of Jails will be invited on this suggestion. The Inspector-General of Civil Hospitals will also be consulted as to the best means of giving effect to his views elsewhere.

13. The subject of the improvement of the sources of village water-supply attracted the attention of Sir Andrew Fraser almost immediately on his arrival in the Province. It is, however, the quality rather than the quantity of water that is in fault; for the voluminous correspondence on the subject contains evidence that a deficiency of the quantity of water available for drinking purposes in villages is altogether exceptional. The local officers have accordingly been requested to direct their efforts chiefly to improving the sources of supply and removing the causes of contamination; and a promise has been given that if in any case the local authorities will contribute one-third of the cost, and the public another third, the Government will contribute the remaining third up to a limit of Rs. 5,000 for any one district, and of Rs. 50,000 for the whole province. These conditions have been imposed so

that the gifts of Government may take a form which will encourage the villagers to help themselves, and which will foster a spirit of co-operation between the Government and the people.

14. The account given of the work of the Sanitary Board in section XI of the report can hardly be regarded as of much interest. It is a somewhat uninstructive list of items of business. It would have been desirable rather, for the information of Municipalities and District Boards, to have given some account of the large drainage schemes that have been undertaken, and of some of the works connected with water-supply and drainage. It is impossible within the limits of this Resolution to supply this defect.

15. The difficulties connected with the installation of septic tanks have come prominently into notice during the year under review. The interests involved are very great, namely, those of the public, those of the mill-owners who have sunk large sums of money in these installations, and not least those of the various municipalities scattered throughout the mufassal; for if the system can be made thoroughly efficient and unobjectionable one of the most difficult problems of Municipal administration will be solved. The Lieutenant-Governor has accordingly appointed a small committee under the presidency of the Inspector General of Civil Hospitals to enquire into and report on this question with special reference to existing installations..

16. Plague followed its usual course, rising in the beginning of the year till it reached a maximum in the month of March, and then again rapidly declining till September. The areas affected were the Metropolitan districts of Hooghly, Howrah and the 24-Parganas, and eight districts of Bihar. Elsewhere the cases were only sporadic. The number of deaths was 65,680 as compared with 32,967 in 1902 and 78,629 in 1901. The number of attacks in 1903 was 74,265 as against 38,920 in 1902, so that the ratio of attacks to deaths rose from 84·7 to 88·4. This may possibly be due to greater virulence in the epidemic, but is more probably attributable to less care being taken when the disease is finally established to search out cases that do not end fatally than was exercised at the first outbreak. In this connection it may be noted that before the final disappearance of the disease from Hongkong the Medical Officers of that Colony discovered a large number of cases of *pestis ambulans* amongst persons who to all appearance were well. Although probably nothing could be done to segregate cases of this kind the knowledge of the existence of the disease in this form may prove very useful.

17. Although the mortality from plague during the year under review was much larger than during 1902 and considerably below that for 1901, no satisfactory explanation has been put forward for these somewhat violent fluctuations. One fact seems clear, viz., that the disease has established itself firmly in the North-Western part of the Province coming and going with the seasons with wonderful regularity. The disease may in fact be looked upon in much the same light as any other vegetable crop; it is affected by climatic conditions and by the nature of the soil in which it grows. The conditions, whether of soil, climate or habitations, or all three, in the Eastern districts seem to be inimical to the propagation of the microbe. The remarks of the Civil Surgeons of Murshidabad, Patna and Saran, and of the Magistrate of Patna are worthy of consideration, especially those of the last named officer. It is a question whether enough is being done in the infected districts in the way of providing medical relief and advice. Although no preventive measures can now be carried out except with the consent of the people, still a great deal can be done through the influence of medical officers acting in sympathy with the people, and the conditions are sufficiently serious to justify exceptional efforts. Before the commencement of the next cold weather the Lieutenant-Governor will take an opportunity of consulting personally on this subject with the Commissioners of the Presidency, Patna and Bhagalpur Divisions, and will ascertain their opinion on the views expressed above, and will consider any suggestions they may have to offer.

18. The Sanitary Commissioner does not refer in his report to the mortality from plague amongst persons who have been inoculated with anti-plague vaccine. Apparently he has overlooked the orders of the Government of India, conveyed in their letter No. 1367-76, dated the 9th September 1903,

directing that the information collected on the subject should be furnished by the Sanitary Commissioner in his Annual Report in as complete and accurate a form as circumstances permit. The Sanitary Commissioner has been requested to furnish this information separately, and his attention has at the same time been drawn to the suggestion in paragraph 1 of the Resolution on his report for 1902 that Divisional totals should be inserted in certain tables, and to the request in paragraph 12 that in his next report he would give his own opinion regarding certain cases in which no marked improvement had followed the introduction of water-supply and drainage schemes. The latter subject is discussed in paragraph 62 of the present report, but no explanation has been given regarding the town of Dacca, which is included in the list in Statement I of Appendix II, and which was inspected during the year.

By order of the Lieutenant-Governor of Bengal,

L. P. SHIRRES,

Secretary to the Govt. of Bengal.

Summary.

RESOLUTION REVIEWING THE ANNUAL RETURNS ON THE WORKING OF THE MEDICAL INSTITUTIONS IN BENGAL FOR THE YEAR 1903.

MUNICIPAL DEPARTMENT—MEDICAL.

Darjeeling, the 11th June 1904.

RESOLUTION No. 1214T.—M.

READ—

The Annual Returns of the Medical Institutions in Bengal for the year 1903, and the notes thereon of the Inspector-General of Civil Hospitals.

Read again—

The Annual Returns of the same institutions for the year 1902, and the Resolution recorded on them.

The triennial report on the Charitable Hospitals and Dispensaries in Bengal is not due until next year, and on the present occasion therefore the Inspector-General has confined himself to recording brief remarks explanatory of the statistics.

2. Although the notes submitted with the tables are short, they deal with a variety of interesting topics. The most important point that they bring out is the continued progress in usefulness and popularity of the institutions in question. There was a decrease in the number of in-patients due partly to an improvement in the public health, but in spite of this there was a large increase in the total number of patients. Colonel Browne's remarks in regard to the more liberal supply of quinine and other febrifuges, to the impropriety of converting the hospitals into alms-houses and pauperising the patients by not charging respectable people for diet while under treatment, and to the success of the floating dispensary in the Faridpur district and of visits of dispensary medical officers to local markets and fairs elsewhere, deserve the attention of the local authorities.

3. The Lieutenant-Governor has perused with much pleasure the long list of important donations made to hospitals during the year under report. Nineteen donations of an aggregate value of Rs. 3,19,500 are included in the list, and they constitute a record of which the Province has no reason to be ashamed. The thanks of the Lieutenant-Governor have already been conveyed to the donors separately, but His Honour avails himself of this opportunity to thank them again for their liberality.

4. The Inspector-General of Civil Hospitals reports favourably on the work done by Civil Surgeons, and states that they have been conscientious and painstaking in the performance of the important duty of inspecting the various institutions under them. The thanks of the Lieutenant-Governor are due to Colonel Browne for the able and careful manner in which he has administered the Department, for the earnestness with which he is seeking to secure better accommodation and equipment for the medical institutions of the Province, and for the sound advice which he has given on all administrative questions in regard to which he has been consulted.

By order of the Lieutenant-Governor of Bengal,

L. P. SHIRRES,

Secretary to the Govt. of Bengal.

RESOLUTION ON THE REPORT ON THE WORKING OF THE EDEN SANITARIUM AND HOSPITAL FOR THE YEAR 1903.

MUNICIPAL DEPARTMENT—MEDICAL.

Darjeeling, the 13th June 1904.

RESOLUTION No. 1236T.—M.

READ—

The Report on the working of the Eden Sanitarium and Hospital for the year 1903.

Read again—

The Report for the year 1902 and the Resolution recorded upon it.

The Report, which has been submitted by Major F. P. Maynard, I.M.S., is a satisfactory record of a year's successful work. The total number of admissions to the institution during the year was 491, of whom 149 were relatives and friends. The total number of persons treated during the year was, therefore, 342, and 300 of these were cured, while 35 were relieved and 5 died. Ninety of the patients were treated in the hospital section, of whom 50 were operated on, with the result that 45 were entirely cured, 3 were relieved and 1 died.

2. The Report of the Auditors shows that there has been a marked improvement in the financial position. The total income was Rs. 49,972 as compared with Rs. 43,910 in 1902, and there was a profit on the year's working of Rs. 3,464. The institution was therefore self-supporting during the year; but it is deserving of more aid from the public than it at present receives. It is doing good work; and although it is not wholly a charitable institution, there is a part of it which should appeal to the liberality of the public: the loss on free beds amounted to Rs. 1,752 against only Rs. 350 received as donations and subscriptions. There is also at present need of funds; for, although some important and much needed improvements in the buildings are being carried out, further alterations and additions are required in order to bring the work up to a suitable modern standard. The most important requirements are improvement of the third class and children's wards and a separate ward for cases of phthisis. The Lieutenant-Governor would commend these objects to the public.

3. Major A. H. Nott, I.M.S., was in charge from January 1st to May 16th, Captain R. H. Maddox, I.M.S., from May 17th to September 22nd, and Major F. P. Maynard, I.M.S., from September 23rd to the end of the year. All these officers are to be congratulated on the satisfactory condition and the popularity of the institution under their charge.

By order of the Lieutenant-Governor of Bengal,

L. P. SHIRRES,

Secretary to the Govt. of Bengal.

LIBERALITY OF BABU BARADA PRASAD SHOME, OF HOOGHLY.

No. 1319T.—R., dated Darjeeling, the 13th June 1904.

From—A. EARLE, ESQ., Secretary to the Government of Bengal, Revenue Dept.,
To—The Secretary to the Board of Revenue, Land Revenue Department.

IN continuation of my letter No. 1315T.—R., dated the 13th June 1904, I am directed to request that the Board will be so good as to convey to Babu Barada Prasad Shome the thanks of Government for his liberality in contributing a sum of Rs. 5,000 towards the construction of an out-patients' dispensary in connection with the Hooghly Imambara Hospital.

2. This letter will be published in the *Calcutta Gazette.*

LIBERALITY OF BABU NEMAI CHARAN DAS, OF CHITTAGONG.

No. 1139T.—M., dated Darjeeling, the 9th June 1904.

From—L. P. SHIRRES, ESQ., Secretary to the Govt. of Bengal, Municipal Dept.,
To—The Commissioner of the Chittagong Division.

I AM directed to acknowledge the receipt of your letter No. 127C., dated the 31st May 1904, in which you report that Babu Nemai Charan Das has paid to the Chittagong General Hospital Committee the sum of Rs. 5,500, being the donation given by him for the construction of a male ward in the outdoor dispensary at that place.

2. In reply I am to request that an expression of the Lieutenant-Governor's acknowledgments may be conveyed to the donor for his public spirit and liberality.

3. This letter will be published in the *Calcutta Gazette.*

WEATHER AND CROP REPORT.

For the week ending the 13th June 1904.

Burdwan.—Rainfall at Sadar 3·43, Kalna 2·00, Katwa 1·45, Raniganj 2·55. Ploughing and sowing still continue. Sugarcane and jute doing well. Fodder and water sufficient. Cattle-disease reported from Kalna. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	8	per rupee.
Kalna	12	3	
Katwa	12	3	
Raniganj	13	0	

Birbhum.—Rainfall at Sadar 6·15, Rampur Hât 3·61. Weather seasonable. Manuring and sowing going on. Ploughing partially stopped for heavy rain. Rice sells at 13½ seers at Sadar and at 14 seers at Rampur Hât. Fodder dear. Water sufficient.

Bankura.—Rainfall at Sadar 3·58, Vishnupur 2·38. Weather seasonable during the latter part of the week. Ploughing and cultivation in progress. Young paddy seedlings and Sugarcane doing well. No cattle-disease reported. Fodder and water sufficient. Common rice sells at 14 seers both at Sadar and Vishnupur.

Midnapore.—Rainfall at Sadar 3·69, Contai 3·92, Tamluk 1·04, Ghatal 1·92. *Boro* being harvested and jute being sown. Sugarcane and tobacco thriving. Fodder and water sufficient. Cattle-disease in thana Midnapore. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee.
Contai	16	0	
Tamluk	13	0	
Ghatal	14	0	

Hooghly.—Rainfall at Sadar 4·70, Serampore 3·03, Arambagh 2·31. Prospects of standing crops fair. Sowing of *aus* and weeding of jute going on. Sowing of *aman* commenced. Fodder and water plentiful. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	per rupee.
Serampore	11	0	
Arambagh	13	11	

Howrah.—Rainfall at Sadar 3·01. The sowing of Jute is over. The plants are doing well. Winter-rice has been sown on about three-fourth part of the normal area. Paddy seedlings are being grown for transplantation. Sugarcane and other standing crops are doing well. No cattle-disease. Fodder and water plentiful. Common rice is selling at 12 seers per rupee.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF MAY 1904.

At the beginning of the month fine weather with high temperature prevailed over the Province. Temperature, however, soon began to fall; and though it remained in slight excess in the south up to the 7th, over the remainder of the Province it speedily fell below normal and remained so for the first half of the month. Pressure had risen slightly during the first two days, but after that it changed but little up to the 16th, oscillating regularly and quickly about the normal, but in no case departing from it by more than a very moderate amount. The distribution of pressure was somewhat abnormal, and it was this slight abnormality, persisting as it did during the greater part of the month, which in the main determined the character of the weather during May. Owing in fact to a relative excess of pressure in the east and north, the area of low pressure was pushed more to the south so as practically to be identical in position with Chota Nagpur, and in consequence of this, the winds were more easterly over the whole Province than is usual during this month. Such a shifting of the wind directions represents a greater indraught of moist air from the Bay, and consequently a greater rainfall. This distribution maintained itself practically unchanged for the first half of the month; and as the winds at the head of the Bay were considerably above their average strength, they helped to perpetuate the conditions thus established. Apart from the first two or three days, rainfall was fairly general, more especially in the eastern half of the Province. About the 15th, however, a slight change of conditions took place. Temperature rose except in the extreme west, and remained above normal till the 19th or 20th. At the same time, as might be expected, the force of the wind diminished at the head of the Bay and on the Orissa Coast. The pressure, in conformity with the same laws, showed a relative rise in the western districts as compared with the east The rainfall accordingly during this period fell off, ceasing almost entirely not only in the western districts, but also in South-West and East Bengal. On the 20th pressure was below the normal over the whole Province, while temperature had again fallen below the normal except in Orissa and in the extreme north. Pressure now began to rise; the rise, which gradually extended from the east to the west, being general and rapid between the 21st and 22nd. Although this rise was succeeded by a fall, which likewise began in the eastern districts, the fall was by no means so marked nor so general; so that pressure continued above the normal from the 22nd to the 27th. Temperature likewise reverted gradually to its former distribution, but continued for the most part below the normal. The winds at the head of the Bay had now increased again in force, and were, as in the first part of the month, above their normal strength. The conditions therefore became more favourable for rainfall, which commencing in the north-east gradually extended to all except the extreme western districts. Thus the weather during this period was of much the same cool and showery character which has distinguished the first half of the month. Changes had, however, in the meantime been taking place in the Bay, which, as it turned out, influenced the weather of the Province to a marked extent during some of the latter days of the month. On the morning of the 25th, the weather had become feebly unsettled off the Circars Coast, and on the same night a small cyclonic storm had rapidly developed at a short distance from the coast and as rapidly began to move towards the land, so that early in the morning of the 26th it passed in the immediate vicinity of Coconada, the barometer at that station showing a depth below the normal of $\frac{8}{10}$th of an inch. It is rare at this season of the year for a storm to develop so close to the coast and to strike the land with so little warning. Its limited extent and slight intensity were, however, probably due to these very causes, as storms which are generated in the centre of the Bay usually develop a much greater violence during the time of their march towards the main land.

Ordinarily too storms which cross the Circars Coast at this time advance in a north-westerly direction over the continent, and have therefore little influence over the weather in Bengal. The present depression, however, after moving into the Central Provinces recurved through Chota Nagpur and South Bihar into North Bengal, where it appeared with its centre in the neighbourhood of Rampore Beauliah on the morning of the 28th. It filled up in the course of the same day, but gave general rain to the whole Province during the two days during which its influence was felt.

Pressure had of course fallen rapidly in the track of the storm, and was everywhere in defect on the 28th. A rapid recovery, however, followed the passage of the storm, and on the last day of the month pressure, was in considerable excess over the whole Province. Temperature had also fallen under the influence of the heavy rainfall, which accompanied the storm, and was largely below the normal on the morning of the 29th. The distribution which followed the disappearance of the depression was, however, such as to give rise to winds less easterly in direction than had prevailed before, and this led to a diminution of the rainfall over the Province as also to a rise of temperature. On the last day of the month, however, the latter had again fallen slightly below the normal.

General summary of the weather.—The weather during May was chiefly characterised by its comparative coolness as well as its excessive rainfall. The former was no doubt due in the first place to the prevalence of the easterly breezes, which followed the slightly abnormal distribution of pressure which has been noted above. This distribution in its turn probably owed its origin to what may be called the distribution of the temperature as apart from its degree, but unfortunately this latter distribution cannot, with the data at present at our disposal, be satisfactorily accounted for. Again, the high winds, which blew almost uniformly during the month at the head of the Bay, aided the distribution of pressure in producing

the indraught of moist air from the sea to which the excessive rainfall was ultimately due. These high winds are usually associated with high temperatures on the mainland, and it may be thought that this factor was as wanting in the present case, as temperature was almost consistently below the average during the month. It should be noted, however, that it is the temperature difference and not the absolute temperature, which is the real determining cause, and that these temperature differences were, as far as can be ascertained, above the average during the month of May. A further point which should be noticed is that the temperatures recorded in the interior of India beyond the limits of the reporting area for Bengal were for much the greater part of the month very considerably in excess of the average. The rainfall which occurred during the passage of the storm was of course due to causes apart from these here noticed.

Summary of pressure.—Pressure never departed very far from the normal except during the storm period of the 27th and 28th. The oscillations which occurred at other times were for the most part of short period and of small amplitude. On the whole, however, the range was greater on the side of high than of low pressure, and mean pressure was accordingly in slight excess except in Chota Nagpur, where, however, the defect was inconsiderable.

Summary of temperature.—Temperature, as has been already noted, was in defect during almost the whole of the month. The defect is seen both in maximum and minimum temperatures, though perhaps more noticeable in the former. Gaya shows a specially notable defect of 8° in the mean of daily maximum. As regards the mean of the daily minimum, the greatest deviations appear at Ranchi and Chaibassa, in both of which a deficiency of nearly 3° is recorded.

Summary of rainfall.—The rainfall of the month may be divided into two heads—that caused by the ordinary weather conditions prevailing during the month, and that caused by the cyclonic storm which passed across the Province on the 27th and 28th. The latter was general and heavy in North and Central Bengal. With regard to the former, conditions were favourable for rainy weather in North Bengal during almost the whole of the month, and rainfall was consequently more or less continuous during this period. In South-West Bengal as well as in the western divisions of the Province, rainfall was practically absent during the first few days and the last days of the month as well as the period between the 15th and 20th. In East Bengal rainfall was almost as continuous, though not quite so, as in North Bengal. In all the divisions except Orissa was there excess. In North Bengal the rainfall exceeded the average by as much as 6 89 inches.

The following table gives full data for comparison of the actual and normal rainfall of the month of May for all districts of the Province. The figures are derived from the average and actual rainfall of the rain-reporting stations in each district. The first column gives the normal or average district rainfall as determined from the observations of past years. The second column gives the actual district rainfall as determined from the actual rainfall of the month at the reporting stations in each district. The third column expresses the ratio of the actual district rainfall of the past month to the normal rainfall as a percentage. The fourth column gives the same information as the third in a slightly different form, stating as a percentage how much the district rainfall of the month varied in excess or defect from the normal :—

The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	79
	Inches.
The total fall of rain from 5th to 11th June 1904	1·74
The average fall of the corresponding period for 24 years, Surveyor-General's Office	2·48
The total fall from 1st January to 11th June 1904	17·11
The average fall of the corresponding period for 24 years, Surveyor-General's Office	12·91

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; ↗ strong wind; < lightning.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 13th June 1904.

G. W. KÜCHLER,
for Meteorological Reporter to the Govt. of India and Director-General of Indian Observatories.

BENGAL CENTRAL RAILWAY COMPANY, LIMITED.

Abstract of principal Commodities carried over the Bengal Central Railway during the month of March 1904, as compared with the same month of previous year.

EMPLOYMENT OF EUROPEANS AND EURASIANS IN GOVERNMENT SERVICE.

NOTIFICATION.

No. 949 T.G.—The 14th June 1904.—The following Resolution No. 419—435, dated the 24th May 1904, recorded by the Government of India in the Home Department, is republished in the *Calcutta Gazette* for general information.

A. EARLE,

Secretary to the Govt. of Bengal.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

ESTABLISHMENTS.

NOS. 419—435.

Simla, the 24th May 1904.

RESOLUTION.

The Governor General in Council observes that allegations have frequently been made to the effect that Europeans and Eurasians enjoy a disproportionate share of State patronage in India and that the legitimate claims of the natives of the country to employment in the public service are comparatively neglected. The matter has been made the subject of complaint by non-official members of the Council of the Governor General for making laws and regulations: it has also been discussed from the opposite standpoint by writers of authority on Indian administration. Moreover, prominence has more recently been given to it in a certain section of the public press. His Excellency in Council has therefore deemed it advisable to institute a special inquiry, extending over every branch of the administration, with the object of ascertaining how far the allegations are well founded.

2. For this purpose the figures of the present day have been compared with those of former periods. It cannot indeed be claimed that the appended statistics attain to mathematical correctness, as will at once be apparent from the explanation that in respect of past years the records as a rule do not give complete information as to the race and religion of employés, which must be inferred from their names. This circumstance makes it impossible

in many cases to distinguish between Europeans and Eurasians, while in others it has probably led to Native Christians being treated as of European origin. But the Government of India do not think that the margin of error which these difficulties involve detracts in any appreciable measure from the value of the general conclusions which the figures suggest. Establishment books giving a nominal roll of the personnel of all ranks of Government servants are maintained by the Accountants General. These records are preserved for 35 years. For purposes of comparison, therefore, the years 1867, 1877, 1887, 1897 and 1903 have been selected. Appointments on a pay of under R75 *per mensem* have been excluded from the scope of the inquiry, as it is evident that below that limit natives of India have practically a monopoly of the appointments in Government service. The statistics extend over a longer period than any hitherto published, and they enter into greater detail than those presented to Parliament in 1892, which referred only to the state of things prevailing on the 31st March 1890, or than those prepared for the Royal Commission on the administration of the expenditure of India which reported four years ago.

3. It remains to explain briefly the general scheme of the attached statements in which the results of the inquiry have been tabulated. Part A, page 1, is a general statement of all civil appointments in India, showing the number held by Europeans, Eurasians, Hindus, and Muhammadans respectively, at the five periods for which figures have been procured. Page 2 of the same statement shows the proportion that each grade of appointments bears to the total number, and the percentages of appointments in each grade held by the various classes of employés. Page 3 gives the same results as page 2 in the form of a simple diagram, devised with the idea of exhibiting the main results so that they can be apprehended at a glance. Part B consists of provincial tables, giving the same set of facts for each of the civil provinces of British India. Appointments directly under the Government of India have treated for this purpose as though they pertained to a province of their own. Percentage tables and diagrams are attached to each of the provincial tables, as in Part A. Part C consists of a similar set of tables for the departments of Government. These are arranged according to the classification adopted in the civil estimates, and do not in all cases correspond exactly with the organization adopted for administrative purposes. The tables in Part C give actual figures only.

4. With the object of elucidating the main results of the investigation the statements marked Summaries I and II have been prepared. From the former it will be seen that while the development of the country and the organization of its administration have resulted during the past 36 years in an increase in the total number of civil appointments on a pay of over R75 from 13,431 to 28,278, an increase of 110 per cent., the number of posts held by Europeans has increased only by 36 per cent., and the number held by Eurasians by 106 per cent. On the other hand, the number held by Hindus has risen by 179 per cent., and the number held by Muhammadans by 129 per cent. The joint increase in the case of Europeans and Eurasians is 61 per cent. only: and the increase in the case of natives of this country is 171 per cent. In the percentage of total posts under Government, natives have gained 13 and Europeans and Eurasians have lost to a corresponding extent.

5. The results of an examination by grades are perhaps even more striking. More than half of the appointments in India are and always have been posts on less than R200 a month. The European element in these was always small, and is now less than 10 per cent. Of posts on R200 to R300, the native proportion has risen from 51 per cent. to 60 per cent.; on R300 to R400 from 23 per cent. to 43 per cent.; on R400 to R500 from 21 per cent. to 40 per cent.; on R500 to R600 from 9 per cent. to 25 per cent.; on R600 to R700 from 15 per cent. to 27 per cent.; on R700 to R800 from 5 per cent. to 13 per cent. Thus in no single grade has the proportion of Europeans increased, while the native increase has been continuous and striking, and has been larger in the higher grades than in the lower. The R800 line may be said to mark the limit of the Provincial Service. Between R800 and R1,000 there were, in 1867, 4 natives in Government employ; there are now 93. Posts on R1,000 and over may be regarded as superior. In 1867, out of a total of 648 such appointments 12 or a percentage of 2 were filled by natives, all of whom were Hindus. In 1903, out of 1,370 such appointments 71 were filled by Hindus and 21 by Muhammandans; the native percentage being, therefore, 7. Thus, even in the case of these highly-paid posts, in which the strength of the European element must in the nature of things be greater, the percentage occupied by Europeans has decreased by 5, while the percentage held by natives has risen to the same extent. The last line but two of Summary I also brings out the striking fact that, though the expansion of British India has resulted in an increase in the total number of highly paid posts, yet the percentage of such posts to the total number of appointments under Government has remained stationary. This affords a complete answer to any suggestion that Government has been raising the standard of pay in the direction of providing a greater percentage of posts for Europeans. The last line but one of the statement deals with aggregate pay. This has risen by 91 per cent. since 1867. When it is remembered that the total number of posts has risen by 110 per cent. during the period, this result indicates that the great increase of efficiency of organization has not been accompanied by disproportionate expenditure. At the same time the aggregate pay drawn by Europeans and Eurasians has risen by 60 per cent. only: while in the case of natives of India the increase is 191 per cent., and in the case of Hindus actually 204 per cent. The last line of the statement confirms the conclusion already suggested, that economy has gone hand in hand with development, by showing that the average pay of a Government appointment in India has been reduced by R31 or 9 per cent. during the past three and a half decades. This decrease however has fallen entirely upon the European and Eurasian staff, for the average pay drawn by indigenous servants of Government has risen from R175 to R188, or by 7 per cent., while that drawn by other classes has fallen by R2 or ·4 per cent. It may

be added that the average pay of a Hindu Government servant (R186) approximates closely to that of a Eurasian employé (R194) in spite of the higher expenses of living of the latter: while the average pay of a Muhammadan employé (R196) is actually higher than either. The last result points to a preference on the part of Muhammadans for the executive (and therefore more highly-paid) posts, to which their traditions and history naturally predispose them, rather than for ministerial employment.

6. To sum up the general results above discussed, the Governor General in Council concludes—

(*i*) that the aggregate cost of the civil establishment of Government has nearly doubled;

(*ii*) that its average cost has appreciably declined;

(*iii*) that there has been no tendency to overweight the administration by the creation of a disproportionate number of highly-paid posts;

(*iv*) that while the total average pay has declined, the average pay drawn by natives has risen; *i.e.*, there has been a transfer of posts from European to native agency, which has been more marked in the case of posts on higher, than in the case of those on lower, pay.

7. Some of the further conclusions suggested by Summary II are of interest. This statement deals with the percentages of total posts and of superior and inferior appointments (*i.e.*, posts over and under R1,000) arranged by provinces. The increase inthe percentage of total posts filled by natives is highest in Burma (27 per cent.), the Central Provinces (23 per cent.), and the Punjab (21 per cent.). This result may be attributed generally to the more recent development of these relatively backward provinces, and, in the case of Burma, to the annexation of the Upper Province. The actual percentage of native appointments is highest in Assam (74 per cent.), Madras (68 per cent.), and Bengal (67 per cent.). The first-named province has but few posts over R500; and the majority of its appointments carry a pay not in excess of R300, and thus are naturally held by natives. The advanced educational conditions of Bengal and Madras suffice to explain the figures for those provinces. The actual percentage of superior posts held by natives is highest in the cases of Berar (27 per cent), Bombay (14 per cent.), and Bengal (13 per cent.). The Berar figures are too small to be significant; but the high percentages which Bengal and Bombay also show suggest that in those provinces natives of India have been particularly successful in attaining high office under Government.

8. The Governor General in Council thinks that these results will convince any dispassionate observer that the charge to which reference was made in the opening paragraph of this Resolution is fallacious and unjust. It is not the fact that the Government of this country has abused its patronage to the benefit of any class or community of persons. On the contrary, as the development of the administrative organization has entailed the creation of fresh appointments, endeavour has consistently been made to share the privileges and responsibilities of office impartially between class and class; and His Excellency in Council regards the results of the present inquiry as entitling him to claim that such endeavour has been successful. The general principles which regulate the situation are, he conceives, two in number. The first is that the highest ranks of Civil employment in India, those in the Imperial Civil Service, the members of which are entrusted with the responsible task of carrying on the general administration of the country, though open to such Indians as proceed to England and pass the requisite tests, must, nevertheless, as a general rule be held by Englishmen, for the reason that they possess, partly by heredity, partly by up-bringing, and partly by education, the knowledge of the principles of Government. the habits of mind, and the vigour of character, which are essential for the task, and that, the rule of India being a British rule, and any other rule being in the circumstances of the case impossible, the tone and standard should be set by those who have created and are responsible for it. The second principle is that, outside this *corps d'élite*, the Government shall, as far as possible and as the improving standards of education and morals permit, employ the inhabitants of the country, both because its general policy is to restrict rather than to extend European agency, and because it is desirable to enlist the best native intelligence and character in the service of the State. This principle is qualified only by the fact that in certain departments where scientific or technical knowledge is required, or where there is a call for the exercise of particular responsibility or for the possession of a high standard of physical endurance, it is necessary to maintain a strong admixture, and sometimes even a great preponderance, of the European element. The Governor General in Council concludes this investigation in the satisfactory assurance that these principles have been vindicated in practice. The statistics annexed to this Resolution show that whatever standard is applied to the admission of natives to Government service, whether it be number or proportion of posts held by them, or the average or aggregate pay drawn, the results are the same. There has been a progressive increase in the employment of natives and a progressive decline in the employment of Europeans, showing how honestly and faithfully the British Government has fulfilled its pledges, and how untrue is the charge which is so often heard, of a ban of exclusion against the natives of the country.

ORDER.—Ordered that a copy of the Resolution be forwarded to all Local Governments and Administrations and to the several Departments of the Government of India for information; and that the Resolution be published in the Supplement to the *Gazette of India*.

H. H. RISLEY,

Secretary to the Government of India.

WEATHER AND CROP REPORT.

For the week ending the 20th June 1904.

Burdwan.—Rainfall at Sadar 3·18, Kalna 2·75, Katwa 3·85, Raniganj 3·13. Ploughing and sowing still continue. Sugarcane and jute doing well. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	per rupee.
Kalna	12	3	
Katwa	12	0	
Raniganj	13	0	

Birbhum.—Rainfall at Sadar 1·11, Rampur Hât 2·85. Weather seasonable. Sowing continues. Ploughing going on. Rice sells at 13½ seers at Sadar and at 14¼ seers at Rampur Hât. Fodder dear. Water sufficient.

Bankura.—Rainfall at Sadar 4·55. Weather cloudy and rainy. Cultivation of *aus* and *haimanta* in progress. Sugarcane doing well. No cattle-disease reported. Fodder and water sufficient. Common rice sells at Sadar at 14 seers the rupee.

Midnapore.—Rainfall at Sadar 2·12, Contai 2·72, Tamluk 4·57, Ghatal 4·14. Ploughing and sowing continue vigorously. Sugarcane doing well. Fodder and water sufficient. Cattle-disease in thana Midnapore. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee.
Contai	16	0	
Tamluk	13	0	
Ghatal	14	0	

Hooghly.—Rainfall at Sadar 3·43, Serampore 4·41, Arambagh 4·05. Prospect of standing crops fair. Sowing of *aus* and weeding of jute continues. Sowing of *aman* continues. Fodder and water plentiful. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	per rupee.
Serampore	10	13	
Arambagh	13	14	

Howrah.—Rainfall at Sadar 2·25. Sowing of winter paddy is almost finished. Paddy seedlings for transplantation are being grown, but they have been damaged to some extent by heavy rain. There is, however, ample time to regrow seedlings on the affected fields. The condition of the jute crop is very good. Sugarcane and other standing crops are doing well. Fodder and water plentiful. No cattle-disease. Common rice is selling at the rate of 12 seers per rupee.

24-Parganas.—Rainfall at Sadar 3·87, Barasat 4·01, Barrackpore 4·51, Basirhat 2·15, Diamond Harbour 3·02. Weather rainy and cloudy. State and prospects of crops good. Sowing finished in some parts. Common rice sells at 12¼ seers per rupee at Sadar and at 13 seers 5 chitaks at Diamond Harbour and Basirhat. Slight damage on account of accumulation of rain water to *aus* and jute crops reported from Basirhat subdivision. Condition of cattle good. Supply of fodder and water sufficient.

Nadia.—Rainfall at Sadar 2·86, Kushtia 1·59, Chuadanga 1·53, Meherpur 1·44, Ranaghat 2·42. Prospects of crops good. *Aman* sowing progressing. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	8	per rupee.
Kushtia	13	8	
Chuadanga	13	0	
Meherpur	12	0	
Ranaghat	12	0	

Murshidabad.—Rainfall at Sadar ·96, Kandi 1·75, Jangipur 1·48, Lalbagh ·98. Weather seasonable. *Boro* harvesting continues in Jangipur. Prospects of *bhadoi*, jute, sugarcane and *til* good. *Haimanti* seedlings growing. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	per rupee.
Kandi	13	0	
Jangipur	13	8	
Lalbagh	13	0	

Jessore.—Rainfall at Sadar 2·56, Jhenida 0·92, Magura 0·99, Narail 0·90, Bangaon 1·66. Weather seasonable. Sowing of *aus* and jute nearly completed. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	9	per rupee.
Jhenida	13	8	
Magura	16	0	
Narail	14	9	
Bangaon	14	8	

Khulna.—Rainfall at Sadar 0·69, Bagerhat 3·00, Satkhira 1·60. Weather cloudy with occasional rain. Sowings of autumn and winter rice (broadcast) continue and estimated at 58 and 28 per cents. respectively. Fodder and water sufficient. Cattle-disease reported from Dumuria. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee.
Bagerhat	15	9	
Satkhira	13	0	

Rajshahi.—Rainfall at Sadar ·53, Nator 1·01, Naugaon 1·02. Prospect of standing crops good. Sowing of *aman* paddy nearly finished. Harvesting of *til* in progress. Jute progressing well. No cattle-disease reported. Common rice selling at 15¼ seers per rupee.

Dinajpur.—Rainfall at Sadar 3·76, Thakurgaon 2·98. Weather seasonable. State of jute and *bhadoi* good. No cattle-disease. Fodder and water plentiful. Common rice sells at 14 seers per rupee both at Sadar and Thakurgaon.

Jalpaiguri.—Rainfall at Sadar 6·37, Alipur Duars 6·09. Fall general. Weather hot and cloudy with occasional showers. Lands are being prepared for *haimanta* paddy. Jute and *bhadoi* paddy doing well. Common rice sells at 13 seers a rupee. Fodder and water sufficient.

Darjeeling.—Rainfall at Sadar 9·18. Weather seasonable. Maize, potato, *bhadoi* paddy, *chota marua* and *kangi* doing well and winter rice being sown. *Terai*—prospects of *bhadoi* good and that of jute only fair. Winter rice still being sown. Coarse rice sells as follows:—

	Srs.	ch.	
Hills	12	0	per rupee.
Terai	14	0	

Maize sells at Darjeeling at 18 and at Kalimpong at 20 seers per rupee.

Rangpur.—Rainfall at Sadar ·64, Gaibanda 1·49, Nilphamari 1·53, Kurigram 2·47. Weather hot and cloudy. Prospects of jute and *aus* fair except in Gaibanda. Weeding of jute and transplantation of *aman* going on. Fodder and water sufficient. Cattle-disease reported from Palashbari outpost in Gaibanda. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	4	per rupee.
Gaibanda	13	0	
Kurigram	14	0	
Nilphamari	14	0	

Bogra.—Rainfall at Sadar 1·38. Fall general. Weather hot and cloudy. Weeding of *aus* and jute and cultivation for winter rice going on. Prospects of standing crops fair. Fodder and water ample. Common rice sells at 15¾ seers per rupee.

Pabna.—Rainfall at Sadar 0·26, Sirajganj 3·90. Fall general. Weather partially cloudy and hot. Prospects of standing crops fair. Weeding of winter and *bhadoi* paddy continues. Reaping of summer rice and *til* going on. No cattle-disease. Fodder and water sufficient. Common rice sells at 16½ seers per rupee.

Dacca.—Rainfall at Sadar ·64. Fall general. Prospects of crops fair. Weather seasonable. Fodder available. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee.
Manikganj	16	0	
Munshiganj	13	0	
Narayanganj	14	0	

Mymensingh.—Rainfall at Sadar 2·27, Jamalpur 3·27, Kishorganj 7·56, Netrakona 9·64, Tangail 1·74. Weather seasonable. Prospects of standing crops fair. Transplantation of winter rice continues. Condition of jute and *aus* impaired by excessive rains. Fodder and water ample. No cattle-disease. Rice sells as follows:—

	Srs.	ch.	
Sadar	13	8	per rupee.
Jamalpur	15	0	
Kishorganj	13	12	
Netrakona	15	9	
Tangail	13	12	

Faridpur.—Rainfall at Sadar 0·73, Goalundo 5·16, Madaripur 3·55. Weather hot and steamy. State and prospects of crops very good. Common rice sells at 15 seers a rupee. Fodder and water sufficient. No cattle-disease.

Backergunge.—Rainfall at Sadar 4·31. Fall general. Weather changeable. No cattle-disease. Fodder sufficient. Common rice sells at 13½ seers per rupee.

Tippera.—Rainfall at Sadar 2·22, Brahmanbaria 4·10, Chandpur 4·19. Weather seasonable. Prospects good. Sowing of *aman* commenced in Sadar. Fodder and water sufficient. Cattle-disease in Hajiganj. Common rice sells as follows:—

	Srs.	ch	
Sadar	13	0	per rupee.
Brahmanbaria	16	0	
Chandpur	16	0	

Noakhali.—Rainfall at Sadar 4·90, Feni 6·15. Weather rainy. Prospects good. Lands being ploughed for *aman*. No cattle-disease. Fodder and water sufficient. Common rice sells at Sadar at 13 seers and at Feni at 15 seers per rupee.

Chittagong.—Rainfall at Sadar 1·56, Cox's Bazar 8·23. Cultivation of *aus* crops still going on. Prospects fair. Cattle-disease reported. Fodder and water sufficient. Common rice selling at 14 seers per rupee.

Chittagong Hill Tracts.—Rainfall 4·56. Weather seasonable. Recent rain has benefited the *jhooms*. Weeding of *jhooms* in progress. Ploughing for winter paddy in progress. Cattle-disease reported from Chandraghona and Bandarban. Prospects fair. Common rice sells at 13 seers per rupee.

	Miles.
The highest velocity of the wind in one hour	11
	%
The mean relative humidity	83
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	83
	Inches.
The total fall of rain from 12th to 18th June 1904	4·77
The average fall of the corresponding period for 24 years, Surveyor-General's Office	3·51
The total fall from 1st January to 18th June 1904	21·88
The average fall of the corresponding period for 24 years, Surveyor-General's Office	16·42

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; < lightning; ↗ strong wind.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 20th June 1904.

G. W. KÜCHLER,

Total for corresponding 22½ weeks of previous year	9,165,082	94,31,297 6 3	13,02,76,188 0	2,25,23,721 3 5	7,33,235 12 11	3,26,88,254 6 7	2,696,958	4,290,668	6,987,626

(a) The decrease is chiefly due to the "Dasahara" festival in the corresponding period of 1903.
(b) The increase is chiefly in coal and food-grain traffic.
* Deducted No. of passengers 8,907 and Rs. 4,073 }
† Added Mds. 5,05,217 " " 39,469 } On account of difference between the approximate and audited figures for the week ended 23rd April 1904.
‡ Do. " 6,277 }
§ Audited figures up to 23rd April 1904.

ADMINISTRATION REPORT OF THE METEOROLOGICAL REPORTER TO THE GOVERNMENT OF BENGAL FOR THE YEAR 1903-1904.

NOTIFICATION No. 1610T.—R.

The 25th June 1904.—The following is published for general information.

A. EARLE,
Secy. to the Govt. of Bengal.

THE Bengal Meteorological Department was under the control of Mr. C. Little up to the 15th March. I was appointed as Meteorological Reporter to the Government of Bengal from the 16th March, and the Department was under my control from that date till the end of the year.

2. The number of observatories on the 31st March 1904 was 47, *i.e.*, one more than the number on the corresponding date of the previous year. The incr[illegible] due to the establishment of a temporary 3rd class observatory at Laheria Serai, the head-quarters station of the district of Darbhanga. For some time past it has been in contemplation of the local authorities to remove the office of the Civil Surgeon located in the Raj Hospital at Darbhanga to Laheria

Serai, where the other Government offices are. As the meteorological observatory, which is in charge of the Civil Surgeon and is situated in the grounds of the Raj Hospital, will at the same time have to be removed, it was found necessary to establish a temporary observatory at Laheria Serai for one year, recording one set of observations at 8 A.M. to enable comparative observations being taken at the two sites in order to determine the differences in the temperature, humidity and rainfall conditions. This will enable the Meteorological Department to apply suitable corrections to the observations and their means at the old site, and thus adapt them to represent the conditions at the new site. A complete set of instruments was supplied, and my head clerk was deputed to put up the instruments, train the observer, who is a compounder of the local charitable dispensary belonging to Government, and to start the observatory. The observatory was started on the 27th July 1903.

3. There were thus six 2nd class and thirty-nine 3rd class observatories, and one voluntary and one temporary observatory under the control of the Bengal Meteorological Department on the 31st March 1904. The following table gives the names and distribution of these 47 observatories:—

Second-class Observatories (6).

Chittagong.	Darjeeling.	Hazaribagh.
Darbhanga.	False Point.	Saugor Island.

Third-class Observatories (39).

Arrah.	Daltonganj.	Narayanganj.
Balasore.	Dehri.	Naya Dumka.
Bankura.	Dinajpur.	Noakhali.
Barisal.	Faridpur.	Pamban (in Madras).
Berhampore.	Gaya.	Patna.
Bhagalpur.	Jalpaiguri.	Puri.
Bogra.	Jessore.	Purnea.
Burdwan.	Krishnagar.	Purulia.
Buxar.	Malda.	Rampur Boalia.
Chaibassa.	Midnapore.	Ranchi.
Chapra.	Motihari.	Raniganj.
Comilla.	Muzaffarpur.	Rangpur.
Cuttack.	Mymensingh.	Sirajganj.

Voluntary Observatory (1).

Cooch Behar.

Temporary Observatory (1).

Laheria Serai.

4. Two other observatories, viz., Angul and Monghyr, have been sanctioned by Government, but they have not yet been started.

5. The principles of the working of the Department explained in previous Administration Reports have been maintained and no changes of importance have been introduced.

6. The thermograph in use at Chittagong had to be recalled as it was out of order, and the allowance of the observer was proportionately reduced.

INSPECTION OF OBSERVATORIES.

7. The following observatories were inspected during the past year :—

No.	Station.	Date of inspection.	By whom inspected.
1	Chittagong ...	May ...	Sir John Eliot, Meteorological Reporter to the Government of India.
2	Darjeeling ...	March ...	Assistant Meteorological Reporter to the Government of India.
3	Darbhanga ...	22nd July ...	Head Clerk, Meteorological Office, Bengal.
4	Mymensingh ...	11th & 12th September ...	
5	Narayanganj ...	13th September ...	
6	Naya Dumka ..	22nd, 23rd & 24th December.	
7	Berhampore ...	26th, 27th & 28th December.	
8	Bhagalpur ...	30th & 31st December ...	
9	Balasore ...	29th & 30th April & 1st May.	Sub-Inspector of Observatories.
10	Mymensingh ...	20th, 21st & 22nd May ...	
11	Barisal ...	24th, 25th & 26th May ...	
12	Jessore ...	28th, 29th & 30th May ...	
13	Chittagong ...	11th, 12th & 13th February	

8. Continued ill-health prevented Mr. Little from doing any inspection work during the year under review. Had he been able to visit the eight or ten observatories allotted to his share, the number of inspection visits would not have been less than that prescribed by Government.

RESULTS OF INSPECTION AND WORK AT OBSERVATORIES.

9. *Second class observatories.*—Only three 2nd class observatories were visited during the past year, viz., *Darjeeling, Darbhanga* and *Chittagong*, and all of them were found to be in good condition at the time of inspection. The Chittagong observer, however, is careless, and the observatory had to be visited on two occasions. Sir John Eliot visited the observatory in May and the Sub-Inspector of Observatories in February last, and though the observations have improved, yet there remains considerable room for further improvement.

The observer at Darjeeling, who is the steward of the St. Paul's School, threatened to resign his appointment on the ground of increased work in the school. My object in visiting Darjeeling was to find another suitable site for the observatory, should it be necessary to remove it on the present observer resigning his post. An excellent site was found on the grounds belonging to the Military Works Department and the Military authorities kindly offered to arrange for the observations being recorded by some responsible person. The present Observer has, however, agreed to stay for another year. Should he decide on resigning his post at the end of that term, the observatory will have to be removed, though this will be very undesirable.

10. *Third class observatories.*—At the time of inspection the observatories at *Narayanganj, Berhampore, Bhagalpur, Dumka* and *Jessore* were found to be in good condition, and judging from the observations submitted during the year, the observers seem to have been careful in their work. The observatories at Barisal, Balasore and Mymensingh were in fair condition at the time of inspection and the observations submitted during the year were generally correct.

The object of the visit of my head clerk to Mymensingh in September last was to shift the barometer from the Public Works Department godown, where it

had been for many years. There was no good site available close by, but the Public Works Department authorities having insisted on the removal of the instrument on the ground of the godown being required for other purposes, the Magistrate of Mymensingh kindly allowed the instrument to be placed in the private room of the Joint-Magistrate. The barometer was removed to the new site on the 12th September 1903.

Owing to the extension of the Lunatic Asylum at Berhampore towards the river side, the thermometer shed and the rain-gauge at that station had to be removed to a site about 200 feet to the north-west of the old site. The exposure at the new site is as good as in the old site. The removal of the thermometers to the new shed was effected on 22nd May 1903.

Generally speaking, the observers at the stations which could not be visited during the past year did good work.

11. *Award for special observations.*—The following observers were granted special awards by the Meteorological Reporter to the Government of India and Director-General of Indian Observatories for storm observations, etc., taken by them during the past year:—

Station.	Amount. Rs.	A.
Burdwan	0	8
False Point	1	0
Mymensingh... ...	0	8
Saugor Island ...	5	0
Pamban	14	0

12. *Work at, and inspection of, Rain-gauge stations.*—The number of rain-gauge stations on the 31st March 1904 was 380, *i. e.*, six more than on the corresponding date last year.

13. The names of the stations started during the year are given in the following table:—

Station.	District.	Sanctioned in Government order—
Laukahi	Darbhanga ...	No. 2219T.—R., dated 8th October 1902.
Baliapal	Balasore ...	No. 108T.—R., dated 21st April 1903.
Eram		
Islampur ...	Patna ...	The stations were started before receipt of Government order of the 25th August 1903.
Asthwan ...		
Jointigarh ...	Singhbhum ...	The station was started before receipt of Government order of the 25th August 1903.

14. The rainfall work at *Dumkol* in the district of Murshidabad has been in abeyance since February last. The rain-gauge at that station had been in charge of Mr. Stenhouse, Manager Cantacobra Indigo concern for many years. But he has expressed his inability to carry on the work any longer. I have therefore addressed the Collector of the district to make other arrangements for the continuance of rainfall registration at that station.

15. No rainfall returns have been received from *Patkabari*, (in Murshidabad district) where the rain-gauge is in charge of the Manager of the Patkabari Indigo concern. The rainfall work at that station has been in abeyance since September 1903.

16. *Kurdeg* in the district of Ranchi is another station from which rainfall returns since January last have not been received.

17. In paragraph 15 of the Administration Report for the year 1902-1903, a list of stations was given where the rain-registering officers had been

irregular in the submission of the rainfall reports. It is to be regretted that in the case of the following stations no improvement has been observed:—

Station.	District.	Station.	District.
Bejauli ...	Gaya.	Dharmsala ...	Cuttack.
Barkope ...	Sonthal Parganas.	Salipore ...	Cuttack.
Bhagya ...	Sonthal Parganas.	Ramchandrapur ...	Tippera.
Nanihat ...	Sonthal Parganas.	Daudkandi ...	Tippera.
Bhabua ...	Shahabad.	Kasba ...	Tippera.
Sasaram ...	Shahabad.	Nasirnagar ...	Tippera.
Mohania ...	Shahabad.		

18. The total number of rain-gauges inspected during the past year was 230, against 232 in 1902-1903, 177 in 1901-1902, and 194 in 1900-1901.

19. The rain-gauges in the Orissa and Chota Nagpur Tributary Mahals, which had never before been inspected, were for the first time visited during the past year.

20. Altogether 379 visits were made during the past year. For ready reference the following table has been prepared showing the number of inspections made during the past five years:—

Year.	Number of inspections made during each year.
1899-1900 ...	212
1900-1901 ...	301
1901-1902 ...	300
1902-1903 ...	415
1903-1904 ...	379

21. It will be seen that a large amount of inspection work has been done during the past two years. The system of regular inspection of rain-gauges has resulted in many cases in the improvement of exposure of rain-gauges, replacement of deefctive rain-gauges by new instruments and the proper training of the rain-registering officers.

22. The following table shows the distribution of the 380 rainfall stations in the various districts in Bengal, as it stood on 31st March 1904, and the number of stations inspected in each district during the past year:—

District.	Number of rain-gauge stations.	Number of rain-gauge stations inspected.	District.	Number of rain-gauge stations.	Number of rain-gauge stations inspected.
Burdwan	5	4	Chittagong	7	3
Birbhum	6	3	Chittagong Hill Tracts ...	3	2
Bankura	10	8	Patna	8	5
Midnapore	8	4	Gaya	10	8
Hooghly	3	3	Shahabad	12	2
Howrah	4	3	Saran	10	3
24-Parganas	9	2	Champaran	5	4
Nadia	5	3	Muzaffarpur	7	5
Murshidabad	9	3	Darbhanga	8	7
Jessore	5	4	Monghyr	10	4
Khulna	12	9	Bhagalpur	8	5
Rajshahi	7	5	Purnea	7	5
Dinajpur	13	7	Malda	4	4
Jalpaiguri	7	4	Sonthal Parganas ...	20	10
Darjeeling	6	4	Cuttack	8	4
Cooch Behar	5	3	Balasore	8	1
Rangpur	9	2	Puri	7	1
Bogra	4	3	Hazaribagh	7	4
Pabna	2	1	Ranchi	9	8
Dacca	5	1	Palamau	10	5
Mymensingh	10	9	Manbhum	7	4
Faridpur	3	3	Singhbhum	11	11
Backergunge	7	6	Orissa Tributary Mahals ...	15	12
Hill Tippera	1	*Nil*	Angul	5	4
Tippera	8	6	Tibet	1	*Nil*
Noakhali	7	6	Chota Nagpur Tributary States.	3	3

23. The system of supplying rain-gauges and measure-glasses to the rain registering officers in Bengal from the Meteorological Office, Bengal, worked satisfactorily during the past year. As the system has been in vogue for a complete term of five years, it is desirable to give a statement of the extra work done by the Bengal Meteorological Department without any additional expense to Government. The number of rain-gauges, measure-glasses and glass bottles supplied to outlying stations during each of the past five years is given in the following table. The instruments have, as a rule, been despatched on the day of receipt of the indent.

Instrument.	1899-1900.	1900-1901.	1901-1902.	1902-1903.	1903-1904.	Total.
Rain-gauge ...	9	22	15	21	18	85
Measure-glass ...	27	40	23	33	32	155
Glass bottle ...	5	4	9	5	10	33
Total ...	41	66	47	59	60	273

24. *Departmental Reports.*—The short annual report on the Meteorology of Bengal for the year 1902, with two maps illustrating the actual and percentage rainfall, was prepared and submitted to the Government of Bengal on the 4th April 1903. The submission of this report has since been discontinued by order of Government.

25. The report on the Meteorology of Bengal for the Monsoon Season of 1903 was prepared and submitted to the Government of Bengal on the 22nd December 1903. The usual number of rainfall maps illustrating the distribution of rainfall over the Province, the district variation from the normal and the percentage variation from the normal for the monsoon period of 1903, were also prepared and submitted to Government with the monsoon summary.

26. The monthly rainfall table for Bengal and the meteorological table for Bengal and Assam, with a summary of the chief features of the weather of the month, was published in the *Calcutta Gazette* about the middle of every month.

27. The following annual rainfall tables were prepared and published in the *Calcutta Gazette.* They were for the period January to December:—

Table I—Showing the monthly and annual rainfall at 380 stations in Bengal for 1903.

Table II—Showing the monthly and annual average rainfall at 318 rainfall stations in Bengal.

Table III—Comparison table of the rainfall of 1903 at 318 rainfall stations in Bengal with averages of previous years.

Addenda to the rainfall table of the Province of Bengal for the year 1903.

28. Charts showing the distribution of actual rainfall, the variation from the normal and the percentage variation, were prepared and submitted monthly to the Government of Bengal during the period May to October 1903, and copies were sent to the Sanitary Commissioner.

29. The Bay of Bengal and Bengal daily weather report dealing with observations taken at 68 meteorological observatories, viz., 46 observatories under my direct control and 22 other stations in Assam, Burma, Madras and Ceylon, including the first-class observatory at Alipore, which is under the administration of the Meteorological Reporter to the Government of India and Director-General of Indian Observatories, was published from 1st May to 31st October. The Bay of Bengal report, dealing with observations taken at 28 observatories round the coast of the Bay, was published during the rest of the year. Both the reports were published daily, including Sundays and holidays, and delivered to the subscribers in Calcutta between 12 and 2 o'clock the same day.

30. The daily flag signal message to Saugor Island and Elephant Point (Rangoon) and the daily weather telegram to the following officers were continued throughout the year:—

Port Officer, Akyab.
Ditto, Moulmein.
Ditto, Rangoon.
Ditto, Negapatam.
Ditto, Coconada.
Secretary, Port Commissioners, Rangoon.
Deputy Port Conservator, Madras.
Port Conservator, Cuddalore.
Ditto, Porto Novo.

31. The daily weather telegram was sent to the Port Officer, Chittagong, from 16th May to 16th November (inclusive). The telegram was also sent to the Port Conservator, Calingapatam, regularly on Fridays, Saturdays and Sundays.

32. The Port Officer, Gopalpur, has been added to the list of recipients of the daily weather telegram. The telegram was commenced from 8th December 1903.

33. Warnings of expected storms and heavy rainfall were sent to—

The Superintending Engineer, Orissa Circle.
Ditto, Sone Circle.
Ditto, South-Western Circle.
The Executive Engineer, Cossye Division.
Ditto, Balasore do.
Ditto, Akhoyapada-Jajpur Division.
Ditto, Arrah Division.
Ditto, Buxar do.
Ditto, Eastern Sone Division.
The Sub-Engineer, Dehri Workshops Subdivision.
The Proof Officer, Balasore.
The Collector of Cuttack.
The Superintendent of Telegraphs, Madras Division.
Ditto, East Coast Division.
Ditto, Madras Office.
The Chief Engineer for Irrigation, Madras.
The Assistant Superintendent of Telegraphs, Madras Subdivision, Madras.
The Traffic Superintendent, East Coast Railway.
The Engineer-in-Chief, ditto.

34. Information of the occurrence of rainfall above one inch at Daltonganj was sent to the Sub-Engineer, Dehri Workshops.

35. There was no addition or alteration in the Code of Storm Signals.

36. The dates of the principal storms and barometric depressions occurring during the past year are given in the first of the two following tables, and the action taken in the matter of issuing storm-warnings and hoisting storm-signals is indicated in the second of these tables:—

Table giving a brief statement of the storms which affected the Bay of Bengal Coasts during the year 1903-1904.

Number of storm.	Period of depression or storm.	Character of storm.	Coast affected.
1	12th to 14th July ...	A shallow depression was shown on the 12th over the north of the Bay which developed into a storm on the 13th and passed inland in the early morning of the 14th.	Orissa Coast.
2	17th to 19th July ...	A shallow depression appeared off the Orissa and Ganjam coasts on the 17th. The centre of the storm on the 18th was in about Lat. 18° 44′ N. and Long. 86° 39′ E. It was shown crossing the Orissa coast and advancing in a north-westerly direction into Chota Nagpur on the 19th.	Ditto.

Number of storm.	Period of depression or storm.	Character of storm.	Coast affected.
3	22nd and 23rd July ...	A small storm was shown near Saugor Island on the 22nd. The disturbed conditions lasted till the 23rd, when it crossed the coast near Balasore.	Bengal and Orissa Coasts.
4	30th July to 2nd August.	On the morning of the 30th a shallow depression appeared over the north-west of the Bay, but it was of slight extent. It advanced north-westward on the 31st and intensified on the 1st, causing moderately strong winds around the depression and fresh to strong squally south-westerly winds prevailed over the Bay with showery to rainy weather. It passed inland in the early morning of the 2nd, causing heavy rain over the east of the Central Provinces and over Orissa.	Orissa Coast.
5	28th to 30th August ...	Pressure decreased over the Bay and squally unsettled weather prevailed over the west on the 27th. There was comparatively little development of the disturbance on the 28th though a well defined cyclonic circulation of the winds was shown around a centre in about Lat. 16° N. and Long. 86° E. On the 29th the disturbed conditions developed into a storm and increasing cyclonic winds prevailed over the Bay. The centre crossed the coast between Vizagapatam and Gopalpur on the 30th.	Ganjam Coast.
6	15th and 16th September.	On the 15th a shallow depression formed over the north-west of the Bay off the Circars Coast, which passed inland on the 16th.	Ditto.
7	3rd to 6th October ...	A depression of slight intensity appeared in the north of the Bay on the 3rd. It slightly intensified and was approaching the coast between Vizagapatam and False Point on the 4th. It developed into a storm on the 5th and the centre lay near Gopalpur at 8 A.M. on that day. It crossed the coast on the night of the 5th.	Orissa Coast.
8	28th and 29th October	On the 28th a moderately well defined cyclonic circulation of winds was developed over the Bay and a storm was shown lying off the Madras coast. At 8 A.M. on the 29th it appeared to be approaching the coast in the neighbourhood of Coconada and Waltair and finally crossed the coast at about 4 P.M. on that day.	Circars Coast.
9	5th and 6th November	Weather was very unsettled in the south-west of the Bay on the 4th. The unsettled conditions slightly intensified on the 5th. The depression lay apparently near the station of Madras at 8 A.M of 6th. During the 7th, 8th, and 9th it hovered over or near the Madras coast slowly filling up, but was never of any importance or intensity.	Coromandel Coast.
10	14th and 15th November.	This depression which caused the most severe storm of the year, probably formed in the equatorial region to the south of the Nicobars. It moved with exceptional rapidity north-westward and was over the south of the Bay on the 13th and in the central area on the morning of the 14th. It then recurved and with similar rapid motion turned gradually eastward and broke up in the neighbourhood of Akyab on the 15th.	Arakan Coast.
11	25th to 27th November	A shallow depression was shown in the south of the Bay on the 25th which appeared to be approaching the Madras coast on the 26th. It advanced to the neighbourhood of Madras on the 27th and gradually filled up during the day.	Coromandel Coast.
12	4th December ...	The disturbance was accompanied by sudden development of a severe gale of wind over the south of the Bay on the 4th. The depression crossed the Madras coast and passed westward into the Arabian Sea.	Ditto.
13	29th to 31st December	This depression moving apparently from the south-east appeared on the North Ceylon and South Madras coasts on the 29th. It recurved northwards and passing over the Eastern Madras districts on the 30th filled up over the Bay to the east of Nellore on the 31st.	Ditto.

Table showing the action taken by the Bengal Meteorological Office in warning the coasts affected by the storms enumerated in the previous table.

Storm number.	Hoisting of storm-signals.			Warning of ports by cautionary telegrams.	
	Ports ordered to hoist signals.	When hoisted.	When lowered.	Ports warned by cautionary telegrams.	Time and date of despatch of cautionary telegrams.
1	2	3	4	5	6
1	Calcutta ...	10-50 A.M. of 13th July 1903	3-52 P.M. of 14th July 1903	Calcutta ...	9-56 A.M. of 13th; 2-45 P.M. of 14th July 1903.

37. The thanks of the Department are due to the tea and indigo planters, to the Moravian Missionaries at Pedong, and to the Chinese Commissioner of Customs at Yatung (in Tibet) who have kindly continued to send rainfall returns during the past year, to the Surveyor-General, Ceylon, for sending meteorological observations taken at Colombo and Trincomallee for the daily weather report, and to Messrs. Mackinnon Mackenzie & Co., Agents of the British India Steam Navigation Company, for allowing the commanders of their vessels to telegraph summaries of the weather experienced during their voyages.

38. *Office Establishment.*—The work of calculating rainfall averages of the Bengal stations (346 in number) *up to date* was carried out by order of the Government of Bengal. The work could not be done during the usual office hours but had to be performed after office hours. The various members of the office establishment deserve credit, not only for the willing spirit with which they have carried out this extra work, but also for the satisfactory way in which they have performed their general duties throughout the year.

METEOROLOGICAL OFFICE, BENGAL;
The 23rd May 1904.

G. W. KÜCHLER,
Meteorological Reporter to the Govt. of Bengal.

WEATHER AND CROP REPORT.

For the week ending the 27th June 1904.

Burdwan.—Rainfall at Sadar 1·62, Kalna 3·70, Katwa 1·85, Raniganj 0·52. Ploughing and sowing still continue. Sugarcane and jute doing well. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows :—

	Srs.	ch.	
Sadar	12	0	per rupee.
Kalna	12	3	
Katwa	12	0	
Raniganj	12	8	

Birbhum.—Rainfall at Sadar 4·00, Rampur Hât 2·11. Weather seasonable. Sowing continues. Transplantion commenced. Rice sells at 13½ seers at Sadar and at 14¼ seers at Rampur Hât. Fodder dear. Water sufficient.

Bankura.—Rainfall at Sadar 1·89, Vishnupur 2·51. Weather cloudy and rainy. Transplantation of *bhadoi* going on briskly and that of winter rice commenced. *Til* and sugarcane doing well. No cattle-disease reported. Fodder and water sufficient. Common rice sells at 14 seers the rupee both at Sadar and Vishnupur.

Midnapore.—Rainfall at Sadar 2·9, Contai 2·67, Tamluk 2·13, Ghatal 1·88. Ploughing and sowing progressing. Sugarcane thriving. Fodder and water sufficient. Cattle-disease reported from Gopiballavpur police-station. Common rice sells as follows :—

	Srs.	ch.	
Sadar	15	0	per rupee.
Contai	16	0	
Tamluk	13	0	
Ghatal	14	0	

Hooghly.—Rainfall at Sadar 2·48, Serampore 2·00, Arambagh 1·95. Prospect of standing crops fair. Sowing of *aus* and *aman* and weeding of jute continue. Fodder and water plentiful. Common rice sells as follows :—

	Srs.	ch.	
Sadar	11	0	per rupee.
Serampore	10	13	
Arambagh	13	14	

Howrah.—Rainfall at Sadar 1·93. Weather hot and cloudy. The sowing of paddy is over. The condition of the standing crops—paddy, jute and sugarcane—is good, though jute crop on some low lands has suffered a little on account of excessive rains. The sowing of seed-paddy for transplantation is over. Fodder and water plentiful. No cattle-disease reported. Common rice is selling at 12 seers per rupee.

24-Parganas.—Rainfall at Sadar not reported, Barasat 3·40, Barrackpore 2·07, Basirhat 2·04, Diamond Harbour not reported. Weather seasonable. State and prospects of crops good. Sowing of seed-paddy for seedlings to be transplanted is in fine progress. Common rice sells at 12¼ seers per rupee at Sadar and at 11 seers at Barasat and 13 seers 5 chitaks at Basirhat. Condition of cattle good. Supply of fodder and water sufficient.

Nadia.—Rainfall at Sadar 1·30, Kushtia 2·29, Chuadanga 2·67, Meherpur 2·03, Ranaghat 1·03. Prospects good. Transplantation of *aman* progressing. Fodder and water sufficient. Cattle-disease in Kaliganj thana. Common rice sells as follows :—

	Srs.	ch.	
Sadar	12	8	per rupee.
Kushtia	13	8	
Chuadanga	13	0	
Meherpur	11	12	
Ranaghat	12	0	

Murshidabad.—Report not received.

Jessore.—Rainfall at Jessore 7·86, Jhenida 0·44, Magura 1·91, Narail 1·31, and Bangaon 1·46. Weather seasonable. Prospects of standing crops fair. Condition of jute is good. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows :—

	Srs.	ch.	
Sadar	14	2	per rupee.
Jhenida	13	8	
Magura	16	0	
Narail	14	9	
Bangaon	14	8	

Khulna.—Rainfall at Sadar 3·63, Bagerhat 3·44, Satkhira 3·53. Weather seasonable Sowings of autumn and winter rice (broadcast) continue and estimated at 68 and 41 per cent. respectively. Fodder and water sufficient. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee.
Bagerhat	15	8	
Satkhira	13	0	

Rajshahi.—Rainfall at Sadar 1·18, Nator 2·29, Naugaon 3·08. Prospects of standing crops good. Sowing of *aman* paddy nearly over. Harvesting of *til* going on. Condition of jute good. Fodder and water sufficient. Common rice selling at 15¼ seers per rupee.

Dinajpur.—Rainfall at Sadar 1·16, Thakurgaon 1·17. Weather seasonable. State of jute and *bhadoi* good. No cattle-disease. Fodder and water plentiful. Common rice sells at Sadar at 14 seers and at Thakurgaon at 14½ seers per rupee.

Jalpaiguri.—Rainfall at Sadar 6·23. Weather wet and cloudy with occasional showers. Preparation of lands for *haimanti* paddy going on. Jute and *bhadoi* paddy doing well. Common rice sells at 13 seers a rupee. Fodder and water sufficient.

Darjeeling.—Rainfall at Sadar 5·83. Weather seasonable. *Hills*—Maize, potato, *bhadoi dhan*, *marua* and *kangni* doing well and winter rice being sown. *Terai*—*Bhadoi* crop progressing. Winter rice still being sown. Jute prospects not very good. Coarse rice sells as follows:—

	Srs.	ch.	
Hills	12	0	per rupee.
Terai	14	0	

Maize sells at Darjeeling at 18 and at Kalimpong at 20 seers per rupee.

Rangpur.—Rainfall at Sadar 2·09. Fall general. Weather cloudy and hot. Prospects of jute and *aus* favourable except in Gaibanda. Harvesting of *aus* and transplantation of *aman* commenced. Fodder and water sufficient. Cattle-disease not yet disappeared from Palashbari. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	4	per rupee.
Gaibanda	13	0	
Kurigram	14	0	
Nilphamari	14	0	

Bogra.—Rainfall at Sadar 1·40. Fall general. Weather cloudy with occasional showers. Weeding of *aus* and jute and cultivation for winter rice going on. Prospects of standing crops fair. Fodder and water ample. Common rice sells at 15½ seers per rupee.

Pabna.—Rainfall at Sadar 6·45, Sirajganj 1·38. Fall general. Weather cloudy and hot. Prospects of standing crops fair. Weeding of winter and *bhadoi* paddy going on. Reaping of summer rice, *til* and *kaun* continues. No cattle-disease. Fodder and water sufficient. Common rice sells at 16½ seers per rupee.

Dacca.—Rainfall at Sadar 1·24. Fall general. Prospects of crops fair. Weather seasonable. Fodder available. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee.
Manikganj	16	0	
Munshiganj	13	0	
Narayanganj	14	0	

Mymensingh.—Rainfall at Sadar 1·35, Jamalpur 1·74, Kishorganj 0·52, Netrakona 1·56, Tangail 1·34. Weather seasonable. Condition of crops fair. Transplantation of winter rice continues. *Aus* and jute suffered from exeessive rain. Fodder and water ample. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	0	per rupee.
Jamalpur	15	0	
Kishorganj	13	13	
Netrakona	15	9	
Tangail	13	8	

Faridpur.—Rainfall at Sadar 1·78, Goalundo 0·90, Madaripur 2·10. Weather hot and steamy. State and prospects of crops excellent. Common rice sells at 15 seers a rupee. Water and fodder sufficient. No cattle-disease.

Backergunge.—Rainfall at Sadar 3 53. Fall general. Weather showery. Cattle-disease in Barguna. Fodder sufficient. Common rice sells at 13½ seers per rupee.

Tippera.—Rainfall at Sadar 1·23, Brahmanbaria 1·68, Chandpur ·80. Weather seasonable. Prospects good. Sowing of *aman* going on in Sadar. Fodder and water sufficient. Cattle-disease in Chandna and Hajiganj thanas. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	0	per rupee.
Brahmanbaria	16	0	
Chandpur	16	0	

Noakhali.—Rainfall at Sadar 1·85, Feni 0·21. Weather changeable. Prospects good. Lands being ploughed for *aman*. Cattle-disease in two thanas. Fodder and water sufficient. Common rice sells at Sadar at 13 seers and at Feni at 15 seers per rupee.

Chittagong.—Rainfall at Sadar 2·83, Cox's Bazar 6·50. Cultivation of *aus* paddy and preparation of lands for *aman* paddy going on. Fodder and water sufficient. Cattle-disease reported. Common rice selling at 14 seers per rupee.

Chittagong Hill Tracts.—Rainfall 1·29. Weather showery. Preparation of lands for winter paddy in full progress. *Jhoom* paddy doing well. Cattle-disease reported from Bandarban. Common rice sells at 12 seers 3 chittaks per rupee.

Patna.—Rainfall at Sadar 2·74, Barh 1·13, Bihar 0·57, Dinapore 2·61, Hilsa 1·45, Islampur 0·33, Asthawan ·92. Weather hot and cloudy. More rain required at Bihar. Sowing of *makai*, *marua*, and rice going on. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	0	per rupee.
Barh	13	12	
Bihar	13	8	
Dinapore	15	0	

Gaya.—Rainfall at Sadar 7·88, Jahanabad 1·28, Aurangabad 1·70. Weather hot and rainy. Sowing of *bhadoi* crops and winter rice in progress. *Marua* and *makai* seedlings doing well. The late rains have done good to the *bhadoi* crops. Sugarcane doing well. Fodder and water for cattle sufficient. Common rice sells at 12 11/16 seers per rupee.

Shahabad.—Rainfall at Sadar 4·47, Buxar 3·67, Bhabhua 1·80, Sassaram 1·27, Dehri 1·74. *Bhadoi* crops and winter paddy sowing commenced. Sugarcane doing well. Fodder and water abundant. Rice sells at Sadar at 14 seers per rupee.

Saran.—Rainfall at Sadar 3·18, Siwan 6·10, Gopalganj 2·21. Weather seasonable. Rainfall has done good. Sowings continue. Sugarcane and indigo doing well. Cattle-disease reported from Sonepur thana. Fodder and water sufficient. Common rice sells at 16 and maize at 28 seers per rupee at Sadar.

	Inches.
The mean pressure of the seven days	29·502
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	29·525
	Hours.
The total number of hours of bright sunshine	19·8
The maximum possible number of hours of sunshine	94·4
The mean temperature of the seven days	83°6
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	84·4
The extreme variation of temperature	12 9
The maximum temperature	90·8
	Miles.
The highest velocity of the wind in one hour	11
	%
The mean relative humidity	88
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	84
	Inches.
The total fall of rain from 19th to 25th June 1904	2·21
The average fall of the corresponding period for 24 years, Surveyor-General's Office	3·03
The total fall from 1st January to 25th June 1904	24·09
The average fall of the corresponding period for 24 years, Surveyor-General's Office	19·45

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; d, drizzling rain; t, thunder; p, passing temporary showers; g, gloomy.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 27th June 1904.

G. W. KÜCHLER,
for Meteorological Reporter to the Govt. of India and Director-General of Indian Observatories.

Weekly Return of Traffic Receipts on Indian Railways.

RESOLUTION ON THE REPORT ON EMIGRATION FROM THE PORT OF CALCUTTA TO BRITISH AND FOREIGN COLONIES FOR THE YEAR 1903.

GENERAL DEPARTMENT—EMIGRATION.

Darjeeling, the 29th June 1904.

RESOLUTION—No. 1221T.—G.

READ—

The Annual Report on Emigration from the Port of Calcutta to British and Foreign Colonies for the year 1903.

Administrative measures.—The most important measure undertaken during the year under review was the framing of rules under Act X of 1902. This Act, which became law at the end of the year 1902, makes provision for the departure by sea out of India of Natives of India for the purpose of working as artisans, or of any entertainment or exhibition, or of service in any restaurant, tea-house or other place of public resort. Rules regulating the engagement of such persons for the purposes indicated above were framed during the year under review, and were finally sanctioned by the Governor-General in Council on the 9th March 1904.

2. *Requisition and despatch of labour.*—The number of Agencies recruiting emigrants was one less than in the previous year, the Agency for the Dutch Colony of Surinam, which despatched 1,254 emigrants during the previous year, having suspended operations during the year under review. The demand and supply of labour for the British Colonies were very nearly the same as in the previous year; the total number of adult labourers requisitioned and supplied during the year 1903 amounting to 9,893 and 8,794, as against 9,830 and 9,240 respectively in the year 1902. No emigrants were despatched to the Colony of Mauritius during the year, owing to the fact that arrangements could not be made to secure a vessel for the purpose before the close of the year.

The number of emigrants registered was 12,403, as against 13,807 in the year 1902, the decrease being attributed to the general prosperity of the agricultural classes during the year under review. As usual, the United Provinces of Agra and Oudh contributed the largest number of emigrants, nearly 62 *per cent.* of the total number of labourers registered being recruited in those Provinces.

3. *Depôts.*—Of 12,612 emigrants who were received in the sub-depôts, 10,787 actually arrived in Calcutta; and, if emigrants who were received in the previous year, those who were readmitted from hospitals after recovery, and infants born during the year be added to these, the total number accommodated in the depôts in Calcutta was 11,161, as against 13,329 in the year 1902. The percentage of deaths (·26) in the depôts was much smaller than in the preceding year, a satisfactory feature of the year being the noticeable decrease in the number of cases of cerebro-spinal meningitis.

The percentage of rejections at the depôts was 8·01, as against 7·44 in the preceding year. The Protector observes that the increase in the percentage is chiefly attributable to stricter medical examination of emigrants in the depôts before embarkation, but that it may also point to the fact that the medical examination of emigrants at the sub-depôts was not performed with sufficient care. The latter question, it may be observed, is one with which Government is only partially concerned. As noticed in paragraph 2 of Mr. Slacke's letter No. 158T.—G., dated the 13th May 1901, to the Government of India, the Emigration Agents make their own arrangements for the examination of emigrants; and it is only when Government officers are employed by them, and subsequent events show that the examination made by such officers has been perfunctory, that Government is called upon to interfere. No such complaints were brought to notice during the year under review.

4. *Embarkation of emigrants*—The number of emigrants who embarked for the Colonies during the year was 9,084, or 1,798 less than in 1902, the largest number (2,937) being despatched to Demerara. The number of returned emigrants who re-engaged was 378, as against 435 in the previous year.

5. *Returned emigrants and remittances from immigrants in the Colonies.*—

(*a*) During the year 4,686 immigrants returned from the Colonies with aggregate savings amounting to Rs. 7,81,643-13-8, the average for each immigrant amounting to Rs. 166-12-10. On the other hand, as many as 1,050 adults, or 22·40 *per cent.* of the total number of returned emigrants, brought back no savings.

(*b*) As in the previous year, the largest remittances by money-order came from the resident immigrants of Natal, the total sum so sent amounting to over 15 lakhs. In the Mauritius the comparative smallness of the remittances is reported to be due to the fact that Indian emigrants settle there permanently with their families, and thus have no occasion to remit money to India.

6. The thanks of the Lieutenant-Governor are due to Dr. Forsyth and Dr. Banks, who held the office of Protector of Emigrants during the year under review, for their careful administration of the Department.

By order of the Lieutenant-Governor of Bengal,

A. EARLE,

Secretary to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL REPORT ON THE POLICE ADMINISTRATION OF THE TOWN OF CALCUTTA AND ITS SUBURBS FOR THE YEAR 1903.

No. 2055J.—D.

POLICE.

Dated Darjeeling, the 29th June 1904.

RESOLUTION.

READ—

The Annual Report on the Police Administration of the Town of Calcutta and its Suburbs for the year 1903.

Read also—

The Reports for the two previous years and the orders of Government recorded thereon.

The Report of the Commissioner of Police, Calcutta, for the year 1903 has been punctually submitted and, as directed last year, has been made shorter than former reports.

2. Mr. R. A. D'O. Bignell held charge of the office of Commissioner of Police throughout the year. There was no change in the sanctioned strength of the force under his control, but at the close of the year there was a large number of vacancies in the ranks of the constables. These vacancies the Commissioner ascribes partly to the fact that a constable's present pay compares unfavourably with what he can earn as a *darwan* in private employ, and partly to more strict supervision of the force, which has led to more work being required of them simultaneously with a decrease of illicit gains. Proposals for the increase of pay of the constables are under the consideration of Government.

Judged by the increase in the number of dismissals from service of officers and men and by the large number of departmental punishments, the discipline of the force during the year was not as good as could be desired. The departmental punishments require the Commissioner's careful consideration. There were 21 judicial convictions, but few of the offences charged were of a serious nature.

3. The total number of cognizable cases reported during the year was 38,853, of which the large majority were as usual petty charges under the Calcutta Police Act, the Cruelty to Animals Act, and cases of public and local nuisances. The total shows an increase of 9,249 on the number reported during 1902, but is similar to the figures for the three years preceding 1901, when there was a sudden drop from 38,353 to 25,115 cases, which was attributed to abstention on the part of the police from dealing with public nuisances, and especially with cases of traffic obstruction as the result of the severe strictures passed on their conduct in connection with the strike amongst carters and hackney carriage drivers which occurred in Calcutta in that year. The number of cases instituted under the Police Act in 1903 was 11,979, which exceeds the figures for 1899 and 1900. The figures indicate that the Calcutta Police have recovered confidence in dealing with public nuisances, and the Lieutenant-Governor trusts that under better supervision the force will keep the right mean between excess of zeal on the one hand and neglect of duty on the other.

4. After elimination of offences of a petty nature the statements show 6,125 cognizable cases reported in 1903 as against 4,926 and 5,221 in the two preceding years. Practically the whole of this increase is under the heads of theft and burglary cases, and is due, as the Commissioner of Police considers, to improved reporting. The explanation involves the conclusion that in previous years the reporting of these classes of offences must have been extremely bad. But it is observed that in spite of the large increase in the number of these cases reported to the police, the number actually brought

to trial was smaller than in the preceding year. It is notorious that in Calcutta the serious crime against property is in great part committed by professional criminals, and there appears reason to fear that the increase is real and the result of greater activity on the part of the criminal classes, and less success on the part of the police in dealing with them. In this connection it is noticed that whereas in 1902, 299 cases of vagrancy and bad character were brought before the courts, in 1903 this number fell to 203. The Lieutenant-Governor trusts that these figures are not indicative of failure on the part of the police to take full advantage of the preventive powers conferred on them by law.

5. In the Courts the results of the cases sent up for trial by the Police have been very satisfactory. Of the total number of police cases sent up, 97 per cent. ended in conviction. Of 93 cases coming before the Sessions 82 ended in conviction; and in the theft and burglary cases in which arrests were made the percentage of convictions was high. The number of old offenders reconvicted during the year was 749: of these, 57 were dealt with by the Courts of Sessions. More commitments of old offenders were made in the previous year, but having regard to the fact that of offenders reconvicted no fewer than 261 had four or more previous convictions against them, His Honour is not satisfied that commitment was made by the courts in all cases where it should have been.

6. The number of cases declared false has steadily increased during the last four years, and in 1903 rose to 167. In only 21 of these cases were prosecutions instituted; and in only 3 of the 11 cases in which the prosecution was brought to a conclusion was sentence of imprisonment imposed. Such results can have no deterrent effect against false accusations; and more frequent and thorough prosecution and more adequate punishment of persons who bring false charges are clearly required. The Lieutenant-Governor hopes that the Police and the Magistrates will give more attention to this matter.

7. There was a falling off in the numbers of youthful offenders dealt with under the Reformatory Schools Act, and under section 562, Criminal Procedure Code. These provisions of the law should be carefully remembered by the courts.

8. The number of non-cognizable cases instituted before the Magistrates during the year fell to 13,669 as against 14,638 in the preceding year. His Honour is glad to notice a large decrease in the number of these cases pending at the close of the year.

9. The Lieutenant-Governor desires to express his appreciation of the good work done during the year by the Commissioner and his subordinate officers.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Commissioner of Police, Calcutta, for information and for communication to the Presidency Magistrates.

Ordered that a copy of the Resolution be forwarded to the Commissioner of the Presidency Division, the Chairman of the Corporation of Calcutta, and the Municipal Department of this Government for information.

Ordered also that a copy of the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

W. C. MACPHERSON,

Offg. Chief Secy. to the Govt. of Bengal.

No. 1012T.F.—The 29th June 1904.—The following extracts from the Report of the Collector of Customs, Calcutta, on the Administration of the Customs Department in the year 1903-1904 and the letter from the Board submitting the report to Government, are published for general information.

L. P. SHIRRES,
Secy. to the Govt. of Bengal.

REPORT ON THE MARITIME TRADE OF BENGAL FOR THE YEAR 1903-1904, BY THE COLLECTOR OF CUSTOMS, CALCUTTA.

GENERAL SUMMARY.

THE following statement shows in tabular form the general details of the sea-borne trade of the Province of Bengal, both foreign and coasting, for the three years 1901-02, 1902-03 and 1903-04. It embraces the trade not only of the chief port, Calcutta, but also of the subordinate ports of Bengal, viz., Chittagong, Balasore, Cuttack, Puri and Narayanganj :—

Total ...	4,95,065	5,26,950	6,76,747
Total net duty ...	4,31,46,264	4,36,78,280	3,76,96,415

Transactions on account of Government are included in the statements in paragraphs 1 and 3, but excluded from all others in this report, being dealt with separately in paragraphs 48 and 56.

The aggregate sea-borne trade of Bengal has risen in the past year by 11·2 per cent. in value, and represents the highest aggregate total since 1875-76. The foreign trade rose in value by 11·6 per cent. and the coasting trade by 8·8 per cent. In the former both merchandise and treasure have risen in value, with the exception of exports of the *precious metals*. In the coasting trade imports of foreign merchandise and of *silver* alone declined. Calcutta absorbed 97·3 per cent. of the foreign trade, Chittagong 2·3 per cent.

and the remaining ports ·3 per cent. Of the aggregate value of the coasting trade 89·3 appertained to Calcutta, 7·2 per cent. to Chittagong. Amalgamating both the foreign and the coasting trade of the Presidency, Calcutta appropriated 96·3 per cent., Chittagong 2·9 per cent., Balasore ·4 per cent., Cuttack ·2 per cent., Puri ·06 per cent., and Narayanganj ·1 per cent.

CHIEF PORT CALCUTTA.

3. The aggregate sea-borne trade of Calcutta with foreign countries and with other ports for the past six years is shown in the subjoined statement:—

	1898-99.	1899-1900.	1900-1901.	1901-1902.	1902-1903.	1903-1904.	Increase or decrease in 1903-1904 as compared with 1902-1903.	Percentage of difference.

* In this and all other statements in this review showing rupees, the value is stated in lakhs only followed by two places of decimals (which is equivalent to omitting "000").

Trade rose in value in the past year by 10·95 per cent., and the aggregate total is higher than that of any year since 1875-76. Both the foreign and the coasting trade participated in the increase. Treasure is shewn separately in the table, and the result of the movements of both bullion and specie in the foreign and coasting trade was a net importation of 7½ crores, or an increase of 81·6 per cent. on the previous year. In the foreign trade the net importation was 9½ crores, or an advance of 95·5 per cent.: large quantities of *gold* were received and a slightly greater amount of *silver* and, at the same time, the exports of both the metals were much smaller. Movements of treasure in the coasting trade culminated in a net exportation of 2 crores: large quantities of both *gold* and *silver* were sent to Burma, mainly by the State. Merchandise exported in the foreign trade was greater than that imported by 20 crores, or 54·04 per cent. and the aggregate trade of both combined was greater by 22 crores, or 52·2 per cent. Details of fluctuations in merchandise will be found in the statements for imports and exports which follow. Imports of merchandise from foreign countries were greatest in April, August and October and lowest in June, July and December. Similarly exports of Indian produce attained their greatest values in the months of October, November and January: the smallest business was transacted in April, May and June.

4. In the coasting trade the value of goods imported rose by 2·8 and that of goods exported by 6 per cent., the aggregate trade showing a rise by 4·5 per cent. In imports of Indian produce, *kerosine oil* and *cocoanut oil* increased considerably, but there was again a large falling off in *grain and pulse* and *cotton twist and yarn.* Exports advanced in value through larger shipments of *grain and pulse*, *oils* and *provision*, but a shrinkage occurred in *jute manufactures*, *opium*, *tobacco leaf* and *cotton goods.*

5. The following table gives the range of prices of the more representative articles taking the year 1900-1901 as the basis of comparison :—

	1899-1900.	1900-1901.	1901-1902.	1902-1903.	1903-1904.

Total Index price for Exports ...	1,405·1	1,500	1,434·8	1,432·7	1,503·1
Aggregate Index price ...	2,314·0	2,500	2,355·6	2,336·1	2,433·8
Average rate of exchange ...	1*s*.4$\frac{1}{12}$*d*.	1*s*. 3$\frac{31}{32}$*d*.	1*s*. 4*d*.	1*s*. 4*d*.	1*s*.4$\frac{1}{16}$*d*.

There was a strong reaction in the past year from the fall in prices of the two previous years. Compared with the previous year the aggregate total has risen by 4·2 per cent. and the total was only 2·6 per cent. less than the standard year. Both imports and exports have risen in average price: the former by 3 and the latter by 4·9 per cent. Under imports only *iron sheets* and *steel* have fallen in price in the past year. Exports have decreased in so far as *coal*, *indigo*, *rice*, *wheat*, *raw jute*, *gunny-bags*, *linseed* and *raw silk* are concerned. Taking the aggregate volume at the average values ruling in the previous year, it will be perceived that the average actual aggregate value for the past year's trade has risen by 4·6 per cent.: imports increased by 7·7 and exports by 3·7 per cent.

FOREIGN TRADE.

6. The following statement shows the value of the import and export trade of Calcutta for the past three years, grouped according to the classes under which they are shown in the Government accounts :—

	Imports.			Exports.		
	1901-1902.	1902-1903.	1903-1904.	1901-1902.	1902-1903.	1903-1904.
	Rs. Lakhs.	Rs. Lakhs.	Rs. Lakhs.	Rs. Lakhs.	Rs. Lakhs.	Rs. Lakhs.
I.—Animals (living)	23·43	19·38	20·19	2·90	2·48	4·08
II.—Articles of food and drink ...	3,47·00	3,[illegible]·38	3,51·00	10,84·76	10,83·63	13,00·44
III.—Metals and manufactures of metals—						
(A) Hardware and cutlery ...	66·03	76·78	81·54	1·87	1·83	2·14
(B) Metals	3,15·65	3,77·74	4,14·84	2·18	3·84	4·87

V.—Oils	2,09·92	1,67·25	1,51·91	33·15	33·64	31·55
VI.—Raw materials and unmanufactured articles ...	88·20	88·26	1,26·65	23,21·54	22,07·33	22,45·47
VII.—Articles manufactured and partly manufactured—						
(A) Yarns and textile fabrics ...	16,90·52	16,76·31	16,53·36	9,64·28	9,70·36	10,10·75
(B) Apparel (excluding hosiery)	46·23	47·82	47·82	11·97	15·20	10·93
(C) Other articles	2,32·72	2,45·32	2,48·56	1,29·66	2,11·57	2,96·69
Total of No. VII ...	19,69·47	19,69·45	19,49·74	11,05·91	11,97·13	13,18·37
Total merchandise ...	32,68·93	32,65·99	33,49·30	53,62·03	52,03·76	57,25·23
Treasure	5,11·70	5,72·94	9,47·69	54·65	83·62	40·00
GRAND TOTAL ...	37,80·63	38,38·93	42,96·99	54,16·68	52,87·38	57,65·23

In imports there was an advance in every group excepting III(D), V and VII(A), while in VII(B) no change existed. Group I consisted chiefly of *horses*. The advance in group II was entirely in *sugar* and that in group III(B) was distributed in an equal ratio between *zinc*, *copper* and *lead*. *Machinery other sorts* accounted for the rise in group III(C) and *locomotive engines with tenders* for the fall in group III(D). *Precious stones and pearls, unset* represented the advance in group VI while a smaller trade in *cotton manufactures* was responsible for the decline in VII (A). The remainder call for no remark.

7. In exports a rise was recorded in every group except III(C), V and VII(B). The advance in group II was in *wheat* and *tea*, in group IV in *opium*, while *raw hides* and *jute* accounted for the increase in group VI. *Jute manufactures* were responsible for the advance in group VII(A) and *shellac* for that in VII(C). The other figures do not call for any remark.

Regarding the distribution of trade with the different countries, it is to be noted that the figures throughout this report refer only to the port of destination or exportation as shown in shipping-bills and bills-of-entry, and are not to be taken to indicate either the country of final destination or of production.

IMPORTS.

FOREIGN TRADE.

8. The following table shows the comparative importance of all articles imported into Calcutta:—

	1899-1900.	1900-1901.	1901-1902.	1902-1903.	1903-1904.	Percentage of proportion to total imports of merchandise.

As usual, the more important items are dealt with separately in this review. But there are others meriting consideration by reason of the great variations that have occurred in the total values in the year under review in comparison with the previous one.

The chief is *jewellery*, where the increase has again been very large (53·6 per cent.) by reason of the large imports of *precious stones* and *pearls*.. This is no doubt due to the great and continued prosperity of the country. Greater scientific research has influenced favourably the value of *instruments and apparatus*. The heavy imports of *paints and colours* in the previous year have caused a decrease in the year under review. Buildings of all kinds have considerably increased and this has been the reason for much larger importations of *timber* from Canada and United States, and of *asphalt* from the United Kingdom. *Tea-chests* have shewn little variation in the past year in spite of the larger outturn of *tea*, but the preference in the past year set in for *wood* as against *metal-boxes*. Very few boxes continue to come from coast-ports: it is believed that in Assam the indents on local supplies have considerably increased.

EXPORTS.

FOREIGN TRADE.

27. The following table gives the values for the past five years of the more important products in the export trade of Calcutta and shows their comparative importance :—

	1899-1900.	1900-1901.	1901-1902.	1902-1903.	1903-1904.	Percentage of proportion to total merchandise exported.

A large demand from the United Kingdom and Germany for *animal bones* caused a considerable rise in the value of *manures* equivalent to 22·3 per cent. *Apparel* fell by 37 per cent. owing to a very much smaller quantity of *boots and shoes* going to Natal and Cape Colony. The increase in *woollen manufactures* of 26·8 per cent. was due to a greater demand for *carpets* from the United Kingdom. Much more *fodder* went to the Straits Settlements, the Philippines, and Germany, and the increase in value was 18·9 per cent. A considerable demand sprang up in the past year from the United Kingdom for *bristles* and, as a consequence, the value rose by 59·3 per cent. More *chillies* exported to Ceylon and the Straits Settlements account for the increased value of 58·2 per cent. under *spices*.

47. DISTRIBUTION OF FOREIGN TRADE OF CALCUTTA BY COUNTRIES.

The following table shows how the trade of Calcutta with foreign countries was distributed in the past three years:—

	IMPORTS.			EXPORTS.			PERCENTAGE WHICH THE TOTAL OF EACH COUNTRY BEARS TO THE WHOLE.	
	1901-1902.	1902-1903.	1903-1904.	1901-1902.	1902-1903.	1903-1904.	In 1902-1903.	In 1903-1904.

Fluctuations in specific articles have already been noticed: the fluctuations in specific countries and groups of countries remain to be examined.

The value of the trade of Calcutta passing through the Suez Canal was 72 crores, against 68¾ crores in 1902-1903, and the proportion of the total trade using this route decreased from 74·8 to 71·7 per cent.

United Kingdom.—The proportion of the trade of Calcutta with the United Kingdom decreased by 4·9 per cent. although both imports and exports increased in value, the former by 32¾ lakhs, and the latter by 173½ lakhs. Under imports the advance was to be observed chiefly in *machinery and millwork*, *metals* and *woollen goods* and to a smaller extent in *hardware and cutlery*, *salt*, *drugs*, *&c.*, *instruments and apparatus* and *oils*. There was, however, a heavy decline of 58½ lakhs in *cotton goods* and a falling off of 14¾ lakhs in *railway plant and rolling stock*. A decrease also occurred in *liquors*, *apparel*, *provisions*, *chemicals*, and *paints and colours*. Under exports the value of shipments of *grain and pulse*, advanced by one crore and that of *tea* and *lac* by 49 and 48 lakhs respectively; on the other hand, there was a decline in *raw jute*, of 14⅓ lakhs, and in *jute manufactures* and *raw silk* of 10 lakhs apiece.

Continent of Europe.—The check received by Continental trade in 1901-1902 and 1902-1903 was removed in the past year, and the total trade rose in value by 84 lakhs. Imports decreased by 3 lakhs only, but exports advanced by 87 lakhs. This advance was shared by all countries except France and Russia. The decline in imports was caused by smaller receipts of *kerosine oil* from Russia, while the advance in exports was chiefly in *grain and pulse* to Belgium and in *hides and skins*, *oilseeds*, *lac*, *grain and pulse* to Germany. The marked increase in value of exports to Belgium was largely due to the fact that a direct line of steamers from Calcutta to Antwerp was established in the past year.

United States of America.—The trade with this country improved by half a crore. Imports advanced by 1⅓ lakhs: *lac* and *raw jute* are alone responsible for the rise in exports.

South America.—The advance of 63 lakhs in exports to this country was entirely in shipments of *gunny-bags*.

Rest of America.—The advance here also was entirely in shipment of *gunny-bags*.

Mauritius, Cape Colony and Natal.—The total trade increased by 5 lakhs. Imports expanded by 34 lakhs, due to a better trade in *sugar* from Mauritius and in *gold* from Natal, but exports contracted by 29 lakhs owing to a smaller business in *gunny-bags*.

Eastern Asia.—A net increase of 46 lakhs was recorded in this trade: imports increased by 54½ lakhs and exports by 7½. In the case of imports larger receipts of *sugar* from Java, more *copper* and *matches* from *Japan* and more *tin* from the Straits Settlements account for the advance. In exports there was a great improvement in the value of *opium* shipments to the Straits Settlements and Cochin-China, which was, however, to a great extent counteracted by a heavy decline in *gunny-bags* shipped to the Straits Settlements.

Western Asia.—This trade advanced by 11 lakhs, imports falling off by 2 lakhs and exports increasing by 13 lakhs. Less *salt* from Aden, Arabia and Persia was the cause of the former, while a bigger trade in *rice* to Aden more than accounts for the improvement in the latter.

Egypt.—Imports improved by one lakh owing to a better trade in *sugar*. The export trade to this country has hitherto been unduly swelled by goods being shipped to Port Said "for orders," the real destination not being disclosed. No such shipments were made in the past year, with the result that there was a decline of 17½ lakhs in value, which is to be found under *oilseeds* only.

Rest of Africa.—The trade was unimportant.

Ceylon.—Trade again receded in value in the past year, the decline being 69 lakhs; 25¾ lakhs of which were in imports and 43½ in exports. With regard to imports, *gold* from Australia, transhipped at Colombo, and *cocoanut oil* were the chief causes of the decrease, while with regard to exports the necessity did not exist for sending so much *gold* and *silver* to Ceylon. There was also a smaller trade in *rice* and *coal*.

Australasia.—A remarkable expansion of 407 lakhs in this trade was recorded. Imports advanced by 365 lakhs and exports by 42 lakhs: *gold* accounts for the whole of the increase under imports, and *gunny-bags* and *gunny-cloth* for the improvement in exports. Shipments of *tea* also improved.

SHIPPING.

FOREIGN TRADE.

49. The number of vessels and their total tonnage engaged in the foreign trade of Calcutta during the past year showed an increase, the figures for entries and clearances taken together being 1,157 vessels and 3,033,244 tons, with a higher average tonnage per vessel. The advance was 65 vessels and 244,335 tons over the previous year's figures, representing 5·9 and 8·7 per cent., respectively. British vessels continue to absorb the bulk of the carrying trade of Calcutta, though the vessels of other nationalities have been participating in a larger share each year, and German steamers now occupy the second place of importance, the increase in the latter being 7 vessels and 21,885 tons among those that entered inwards with cargo and ballast, and 13 vessels and 42,480 tons among those that cleared from the port. A satisfactory feature in the shipping tables was that most of the vessels which entered from foreign ports in ballast were able to secure cargoes, although freight rates in the past year were not specially attractive.

It may be mentioned that in the year 1903-1904 three new direct lines of steamers were established—for Antwerp, for Venice, and for the Javanese ports. Two vessels also in the past year cleared from Calcutta for Russian ports on the Black Sea.

50. Rates of freight in the beginning of the year were high, but in consequence of small arrivals of produce from the interior not much business was done. There was a demand later for shipping and a considerable amount of business was put through, but without any appreciable advance in freights. At the beginning of the cold season, however, freights declined, owing probably to the large number of steamers arriving in ballast both in the foreign trade and from coast ports, some vessels having arrived from the Far East in search of cargo, and a large amount of shipping was engaged. At the close of the year the freight market became firmer with a rise in rates.

CUSTOMS REVENUE.

FOREIGN TRADE.

51. No change was made in the past year in the incidence of taxation so far as the ordinary import duties were concerned, but by a notification (No. 7249S.R., dated the 2nd December 1903) the Government of India remitted in respect of any country, which was a party to the Brussels Convention, all countervailing duties on *sugar* produced after the 31st August 1903. Also under Act No. IX of 1903 and from the 1st April of that year, a cess of ¼ of a pie per pound was levied on all *tea* produced in India and exported from any customs port beyond the limits of British India. This cess brought in during the year a net sum of Rs. 2,15,870.

The gross revenue collected in the past year from customs duties was Rs. 3,62,34,853, or a decrease of 13·3 per cent. If to this be added the revenue collected on *salt* imported into Calcutta, but paid into district treasuries for clearance of salt from inland bonded warehouses, and which amounted in the past year to Rs. 26,35,505, the gross revenue amounts to Rs. 3,88,70,358, or a decrease on the whole of 13·3 per cent. After deduction of refunds and drawbacks, the net revenue that remained was Rs. 3,82,18,192, or 13·8 per cent. less than in the previous year. The decrease is mainly due to the reduction in salt duty from Rs. 2-8 to Rs. 2 per Indian maund: on general merchandise the revenue fell by 6·4 per cent., the total gross collections having been Rs. 3,88,70,358. The reduction in salt duty represented a loss of Rs. 55,86,808, but, owing to the larger consumption (an increase of 2,59,332 maunds), the actual loss was only Rs. 50,68,144.

As shown above there was a decrease in the revenue from *salt* of Rs. 49,38,478 (inclusive of inland warehouse payments): also, owing to the keen competition of *Burma oil*, the revenue from *mineral oils* contracted by Rs. 6,61,279. The countervailing duties on *sugar* have dropped in the past year to only Rs. 36,753. *Liquors*, *woollen goods* and "other" articles, all exhibit better collections in the past year; but owing to smaller imports of *silver*, *metals* fell off slightly in revenue, and the duty on *cotton goods* was adversely affected by the higher price of the raw material. Excise duty on local *cotton manufactures* rose again from Rs. 6,605 to Rs. 10,907-14, or by 65·1 per cent. It is stated this is probably due to mills finding it more profitable to weave, there being always a demand for *cotton listing* and *banding*. Refunds and drawbacks increased again in the past year and by 27·1 per cent., the revenue repaid being Rs. 6,52,166 as compared with Rs. 5,12,895. Drawbacks showed but little variation on the previous year and the total was only Rs. 29,775, but refunds included Rs. 1,39,613 on *arms*, or 24·5 per cent. more than in the previous year, and on *sugar* the payments were Rs. 2,24,960, or an advance of Rs. 54·3 per cent. For *salt*, refunds rose to Rs. 1,63,280, or by 29·4 per cent. *Arms*, *sugar* and *salt* represent 80·9 per cent. of the total payments made.

No. 5715B., dated Calcutta, the 21st June 1904.

From—H. WHEELER, ESQ., Secretary to the Board of Revenue, L. P.,
To—The Secretary to the Government of Bengal, Financial Department.

I AM directed to submit, for the information of Government, the report prepared by the Collector of Customs, Calcutta, on the maritime trade of Bengal for the year 1903-1904.

K. G. GUPTA, ESQ., I.C.S.

2. Mr. Morshead was in charge of the office of the Collector of Customs, Calcutta, throughout the year, and the Board are indebted to him for the energy and care which he devoted to his duties.

ANNUAL REPORTS ON THE WOKING OF THE SHIPPING OFFICES AT CALCUTTA, CHITTAGONG, AND ORISSA PORTS FOR 1903-1904.

No. 1113Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated Calcutta, the 2nd July 1904.

RESOLUTION.

Annual Reports on the working of the Shipping Offices at Calcutta, Chittagong, and Orissa Ports for 1903-1904.

READ—

Letter No. 309S. of 9th May 1904, from the Shipping Master, Calcutta.

Memorandum No. 4165B. of 6th May 1904, from the Secretary to the Board of Revenue, Lower Provinces.

Letter No. 419C. of 25th April 1904, from the Commissioner, Orissa Division.

The receipts of the Calcutta Shipping Office during the year amounted to Rs. 78,751, against Rs. 71,668 during the previous year, showing an increase of Rs. 7,083. This is mainly due to an increase under shipping, discharging, and overtime fees. Receipts from the sale of discharge certificates again showed a large falling off, but this was due to the former charge of eight annas for each certificate having been reduced to four annas.

2. The expenditure showed a small increase of Rs. 5,234, the figures being Rs. 31,574, against Rs. 27,339 in 1902-1903. There were small increases under most heads of expenditure, but the total increase was mainly caused by the large expenditure incurred on account of forms supplied during the year, and also to a stock required for the new branch Shipping Office at Kidderpore.

3. The receipts under "Trust Funds" amounted to Rs. 80,202, which, with the balance of Rs. 12,643 unpaid from the previous year, made up a balance of Rs. 92,845. The receipts showed a reduction of Rs. 2,536 on the previous year, and was due to a greater number of crews having been paid up and discharged at ports other than Calcutta. The disbursements amounted to Rs. 82,856, and of the balance remaining unpaid Rs. 941 lapsed to the State.

The number of seamen shipped and discharged were—

Shipped	41,675
Discharged	36,147

4. There was a decrease of 206 in the number of seamen shipped under European Articles, and this decrease has been going on for some years past, with the exception of last year when there was an increase of 134. This decrease, coupled with the fact that the number shipped under Indian Articles has increased, tends to show that lascars are coming more and more into favour with Masters of vessels who, it is said, find them less expensive and more amenable to discipline. Similarly, under the numbers discharged, there was a decrease of 140 under European Articles and an increase of 3,703 under Indian Articles.

5. In addition to these figures, 42 seamen were shipped and 17 discharged by foreign Consuls.

6. The number of distressed seamen sent home increased from 46 to 65, and this is partly accounted for by the number of seamen discharged in hospital being greater than last year.

7. The value of the money-orders sent by European seamen again fell from Rs. 16,154 to Rs. 7,721. These transactions, as a rule, follow the rise and fall in the numbers of seamen shipped and discharged under European Articles.

8. During the year a complaint was received from the India Office, through the Secretary of State, that there was reason to believe that at certain Indian ports, and notably Calcutta, commissions were given by lascars to the serangs and tindals under whom they served, and by them to ghat serangs for employment on boardship. Enquiry showed that the evil did exist, but to what extent it was impossible to ascertain. In order to remedy this state of affairs, the Port Officer, with the concurrence of the Agents of the Steamer Companies, now deputes the Deputy Shipping Master to select serangs for such vessels as require their crews to join at outports. A printed slip is attached to the Shipping Articles to the effect that no one either on board or on shore is entitled to deduct any money; the crew being at the same time warned that all attempts at extortion should be immediately reported. One case of an attempt to extort money by threats was successfully prosecuted and the serang sentenced to pay a fine of Rs. 200, and two other cases of bribery and extortion are still *sub judice*. A fourth case fell through, as the seamen concerned were unwilling to lodge their complaint before a Magistrate owing to frequent adjournments in previous cases.

9. Two cases of attempted murder on the high seas were also reported, but on careful enquiry both cases were found to be false.

10. The figures of the year under review justify the view previously expressed by the Shipping Master on the probability of Indian crews gradually replacing Europeans. Apart from the question of expense, there is no doubt in the opinion of the Shipping Master that Europeans give far more trouble to Masters and Officers generally and, whenever possible, Masters gladly substitute Natives for Europeans.

11. The final orders of the Government of India were received during the year on the question of overtime fees to Officers in the Shipping Departments. It has been decided that the ordinary working hours of a Shipping Office shall be from 9 A.M. to 6 P.M., and that no fees will be levied for any work done ashore, either out of office hours or on Sundays or holidays. Certain fees have been sanctioned both for Calcutta and Chittagong for shipping and discharging crews *afloat* out of office hours and on Sundays and holidays.

12. At the port of Chittagong the number of seamen shipped and discharged was 75 and 876, against 32 and 366 during 1902-1903. These numbers are showing increases every year.

13. The receipts amounted to Rs. 1,659, against Rs. 690 during the previous year, or an increase of Rs. 969. The main cause of the additional revenue is due to the increase in the number of seamen shipped and discharged. Under fines and forfeiture, there is an increase of Rs. 218 due to fines inflicted by Commanders of vessels on their crews for violation of the terms of agreement and to forfeiture of wages of deserters. There were no disbursements.

14. The receipts from Trust Funds amounted to Rs. 69,631. With the exception of Rs. 9-8, the whole of it was disbursed.

15. During the year the Shipping Master visited 86 vessels to enquire into matters affecting the vessel. No complaints were received.

16. Twenty-five seamen were admitted into hospital, of whom 17 were cured and 8 relieved. The latter left at their own request. Although the number admitted into hospital shows a small increase due to a larger number of vessels visiting the port, the general health of the shipping was good, and no cases of scurvy or other diseases resulting from bad or insufficient food were reported during the year.

17. No seamen were shipped or discharged during the year at False Point, but at Chandbali one native craft discharged all her crew, consisting of seven men and two apprentices without paying them their wages and the necessary expenses to their homes at Cutch. They were left in great distress, but on an enquiry being held by the Shipping Master, a sum of Rs. 420-11-5 was realised from the owners and disbursed to the crew. It is, however, not understood how the crew were at first discharged without being paid their just dues, and the Shipping Master should explain whether the discharge was effected through the Shipping Office or irregularly.

By order of the Lieutenant-Governor of Bengal,

D. B. HORN,

Secretary to the Govt. of Bengal.

RETURN OF JOINT-STOCK COMPANIES FOR THE YEAR 1903-1904.

No. I.

Abstract of Joint-Stock Companies for the year 1903-1904.

	Companies divided into shares.			Companies limited by guarantee, *i.e.*, possessing no capital paid up.	
	Number of Companies.	Nominal Capital.	Paid-up Capital.	Number of Companies.	Number of Members.

B. L. CHANDRA,
Registrar of Companies.

REPORT UNDER SECTION 41 OF BENGAL ACT I OF 1893 ON THE WAREHOUSES IN HOWRAH FOR THE YEAR ENDING 31ST MARCH 1904.

No. 2019L.S.-G.—The 1st July 1904.—The following report is published for general information.

L. P. SHIRRES,
Secy. to the Govt. of Bengal.

Dated Howrah, the 22nd May 1904.

From—J. F. GRAHAM, ESQ., Chairman of the Howrah Municipality,
To—The Magistrate of Howrah.

I HAVE the honour to report that 267 warehouses were licensed in 1903-1904 out of 325 registered during that year, against 270 out of 305 registered in 1902-1903, the details being as follows:—

Years.	Jute.	Cotton.	Straw.	Wood.	Hay.	Total.
Registered, 1902-1903 ...	34	34	55	180	2	305
Ditto, 1903-1904 ...	34	36	53	201	1	325
Licensed 1902-1903 ...	29	33	44	163	1	270
Ditto, 1903-1904 ...	28	30	36	172	1	267

2. Formerly 5½ per cent. was the proportionate liability of the Howrah Municipality towards the cost and maintenance of the Metropolitan Fire-brigade, but in 1903-1904 the percentage was raised from 5½ to 11 (*vide* Bengal Government letter No. 1028T.—M., dated 23rd June 1902). Hence the license fee on jute warehouses was increased from 3¾ per cent. to 6 per cent., and on cotton and other warehouses from 2½ per cent. to 5 per cent. by a Resolution of the Commissioners at their Ordinary General Meeting held on the 5th September 1902. Again the Commissioners at their Ordinary General Meeting, held on the 21st August 1903, reduced the license fee on jute warehouses from 6 to 5 per cent., on cotton warehouses from 5 to 3 per cent., on wood from 5 to 4 per cent., and on the rest from 5 to 2½ per cent. with effect from the second half of 1903-1904, but resolved that an amount up to Rs. 1,058 be paid from the General Fund if there were any deficit. Accordingly in 1903-1904 the license fee on jute was levied at an average rate of 5½ per cent., on cotton at an average rate of 4 per cent., on wood at an average rate of 4½ per cent., and on the rest at an average rate of 3¾ per cent.

3. The income from license fees during the year under report amounted to Rs. 10,938 (of which Rs. 534 were arrears for 1902-1903, Rs. 1,297 were collected in advance in 1902-1903 for 1903-1904 and Rs. 485-8-6 are to be set off in 1904-1905 against those persons who paid their license fees at the beginning of this year at 6 per cent. on jute and 5 per cent. on wood and others—*vide* Resolution No. 5, dated 5th September 1902, and Chairman's orders dated 21st and 27th August 1903) against Rs. 7,941 (of which Rs. 183 were on account of

arrears for 1901-1902, and Rs. 1,297 on account of license fees for 1903-1904 collected in advance in 1902-1903) in 1902-1903.

4. Formerly *ulu* grass was assessed under the Municipal Act, but in 1903-1904 *ulu* and waste paper were made subject to the operation of the Licensed Warehouse and Fire-brigade Act—*vide* Government Notification No. 2772M., dated 12th November 1903.

5. The demand, collection, remission and balance for 1903-1904 are shewn in Appendix A. The details of jute and cotton warehouses registered and of licenses granted during the year are entered in Appendix B. Owing to the comparative unimportance of the 209 licenses granted for the storage of straw, wood and hay in 1903-1904 against 208 in the previous year, they have not been entered in Appendix B, and it may be noted that such license fees have only been levied under the Fire-brigade Act since July 1893, prior to which they were levied under section 261 of the Bengal Municipal Act.

6. There were 44 prosecutions in the year under review, which realized in fines Rs. 244-8 as against 40 in the previous year when Rs. 161 was realized.

7. The expenditure incurred in assessing and collecting license fees amounted to Rs. 930 as detailed below:—

		Rs.
Salary of General Supervisor and Assessor	...	600
Ditto Inspector, including commission	...	234
Ditto clerk	...	45
Ditto peon	...	48
Contingencies	...	3
Total	...	930

8. The Fire-brigade establishment continued under the control of the Commissioner of Police, Calcutta. The Fire-brigade station in Howrah stands in a very central position north of the Municipal market, and from a wooden stage raised above it the whole town is overlooked. There were 14 fires during the year, the details of which are given in Appendix C. There were also 8 other petty fires, at all of which the Fire-brigade attended while they were extinguished by residents of the localities.

9. The Commissioner of Police demanded Rs. 9,264 for the maintenance of the Fire-brigade in 1903-1904, and this amount was remitted to him during the year.

APPENDIX A.

Statement showing the demand, collection, remission and balance in Howrah on account of contributions for the Fire-brigade during the official year 1903-1904.

A few cases of cattle-disease reported from Supaul subdivision. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	4	per rupee.
Banka	12	8	
Madhipura	17	0	
Supaul	18	0	

Purnea.—Rainfall at Sadar 0·32, Kishanganj 0·40, Araria 1·31. More rain wanted in Kishanganj subdivision. Sowing of *aghani* crops going on. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee.
Kishanganj	17	0	
Araria	18	0	

Malda.—Rainfall at Sadar 1·00, Gajol ·68, Sibganj 1·80, Chanchal 0·67, Gomashtapur 0·74. Weather hot and cloudy. *Bhadoi* and jute crops doing well. Cultivation for winter rice not finished. Cattle-disease and want of fodder reported from places. Water sufficient. Common rice sells at 13 seers per rupee.

Sonthal Parganas.—Rainfall at Sadar 5·48, Deoghar 3·74, Godda 2·64, Jamtara 3·29, Pakaur 4·40, Rajmahal 3·34. Weather hot and cloudy. Sowing of paddy nearly over. Transplantation of autumn rice has commenced at Deoghar and Jamtara. Sugarcane doing well. Cattle-disease reported from some parts of Rajmahal. Fodder and water sufficient. Common rice sells at 11 seers per rupee at Sadar.

Cuttack.—Rainfall at Sadar 4·47. Fall general. Weather seasonable. *Mandia* and *arhar* being sown. *Biali*, *sarad* and jute growing. Early cotton being plucked. Late cotton getting maturity. Cattle-disease reported from Sadar and Kendrapara. Fodder and water sufficient. Common rice sells at 17 seers 6¼ chitaks per rupee at Sadar.

Balasore.—Rainfall at Sadar 3·86. Sowing nearly finished and at places puddlings commenced. Standing crops and vegetables doing well. No cattle-disease. Rice sells at 18 seers per rupee both at Sadar and Bhadrak. Fodder and water sufficient.

Angul.—Rainfall at Sadar 5·42, Bissipara 5·64. Owing to heavy and continuous rain in the interior, *mandia*, *makai* and cotton sown early have failed. Sowing of paddy retarded. Common rice sells at 24 and 18 seers per rupee at Sadar and Khondmals respectively.

Puri.—Rainfall at Sadar 1·77 and Khurda 8·58. Weather seasonable. Sowing and puddling of *sarad* paddy and weeding of *beali* paddy are growing on. *Mandia* being transplated. Cotton is being harvested. Sugarcane and miscellaneous crops are doing well. Fodder and water-supply sufficient. Common rice sells at 17 seers per rupee.

Hazaribagh.—Rainfall at Sadar 3·23, Giridi 2·45. Weather cloudy. *Bhadoi* crops being sown. Cattle-disease reported from one thana. Fodder and water sufficient. Common rice sells at Sadar at 13 and at Giridi at 12 seers per rupee.

Ranchi.—Rainfall at Sadar 2·27, Gumla 6·48. Weather cloudy and rainy. Ploughing and sowing continue. Weeding of *bhadoi* paddy commenced in places. Cattle-disease reported from several thanas. Fodder and water sufficient. Common rice selling at Sadar at 13 and at Gumla at 18 seers per rupee.

Palamau.—Rainfall at Sadar 1·26. Weather hot and cloudy. Rainfall general and almost daily. Sowing of *bhadoi* retarded but rice seedlings are being sown. Prospects of sugarcane good. Cattle-disease in two thanas. Fodder and water sufficient. Rice sells at Sadar at 14 and maize at 20¼ seers per rupee.

Manbhum.—Rainfall at Sadar 4·36, Gobindpur 3·72. Weather seasonable. Prospects of crops good. Fodder and water sufficient. Cattle-disease reported from Gourangdi thana. Common rice sells at Sadar at 12 seers 3 chitaks and at Gobindpur at 12 seers per rupee.

Singhbhum.—Rainfall at Sadar 3·69. Sowing of paddy and *bhadoi* continues. Cattle-disease reported from thanas Ghatsila and Chakradharpur. Fodder and water sufficient. Rice sells at 14½ seers per rupee.

General Summary.—Rainfall during the week was general and in some places moderately heavy. More rain is needed in parts of Burdwan, Shahabad, Darbhanga and Purnea. Prospects of *aus*, jute and other standing crops generally good. Transplantation of winter rice in progress. Cattle-disease reported from 17 districts. Fodder and water generally sufficient. The price of common rice has risen in thirteen districts, has fallen in six, and is stationary in the remainder.

By order of the Lieutenant-Governor of Bengal,

A. EARLE,
Secretary to the Govt. of Bengal.

REVENUE DEPARTMENT,
The 5th July, 1904.

No

	Inches.
The total fall of rain from 26th June to 2nd July 1904	1·95
The average fall of the corresponding period for 24 years, Surveyor-General's Office	3·18
The total fall from 1st January to 2nd July 1904	26·04
The average fall of the corresponding period for 24 years, Surveyor-General's Office	22·63

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, gloomy, d, drizzling rain, p, passing temporary showers.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 4th July 1904.

G. W. KÜCHLER,
for *Meteorological Reporter to the Govt. of India and Director-General of Indian Observatories.*

Manbhum.—Rainfall at Sadar 6·36, Gobindpur 7·41. Weather seasonable. Prospects of crops good. Fodder and water sufficient. Cattle-disease reported from two thanas. Common rice sells at 12 seers per rupee.

Singhbhum.—Rainfall 10·07. Sowing of paddy and *bhadoi* crops nearly finished. Transplantation going on. Fodder and water sufficient. Cattle-disease reported from thana Ghatsila. Rice sells at 14½ seers per rupee.

General Summary.—Rainfall during the week was general, and in some places heavy. More rain is needed in Rajshahi, Dinajpur, Bogra, Mymensingh, Saran, Darbhanga, Purnea, and Malda, and also in parts of Burdwan, Murshidabad, and Bhagalpur. The standing crops have been damaged to some extent by excessive rain in the districts of Midnapore, Hooghly, Howrah, 24-Parganas, and Hazaribagh. Prospects otherwise good. Transplantation of winter rice continues. Cattle-disease reported from ten districts. Fodder and water generally sufficient. The price of common rice has risen in nine districts, has fallen in eight, and is stationary in the remainder.

By order of the Lieutenant-Governor of Bengal,

A. EARLE,

Secretary to the Govt. of Bengal.

Calcutta,
The 12th July 1904.

C. H. DeMello,
Offg. Under-Secy. to the Govt. of Bengal.

Abstract of the Results of Meteorological Observations taken at the Alipore Observatory in the month of June 1904.

	Inches.	Date.	Hour.
The mean pressure of the month	29·490		
The average pressure of June from 44 years' registers ...	29·547		
The highest pressure in the month	29·703	2nd	10
The lowest pressure in the month	29·322	10th & 30th	16
The range of pressure	0·381		
	Hours.		
The total number of hours of bright sunshine during the month	128·6		
The maximum possible number of hours of sunshine ...	403·4		
	℉		
The mean temperature of the month	84·8		
The average temperature of June from 20 years' registers ...	84·5		
The highest temperature in the month	101·2	6th	
The lowest temperature in the month	74·2	14th	
The range of temperature during the month	27·0		
The mean daily range of temperature	11·7		
The greatest range of temperature in one day	24·3	6th	
	Per cent.		
The mean humidity of the month	84		
The average humidity of June from 20 years' registers ...	83		
	Inches.		
The mean vapour tension of the month	0·996		
The average vapour tension of June from 20 years' registers ...	0·957		
The mean cloud proportion of the month	7·68		
The average cloud proportion of June from 27 years' registers	7·05		
	Inches.		
The total rainfall of the month	10·25		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	9·78		
The average fall of June from 24 years' registers ...	11·04		
The greatest fall in 24 hours	1·87	12th	
	Days.		
The number of rainy days in the month	19		
The average number of rainy days in June from 24 years' registers	13		
	℉		
The mean maximum equilibrium temperature of solar radiation during the month	142·6		
The mean difference of sun and air temperatures	52·2		
The greatest sun temperature	154·9	5th	
The greatest excess of sun over air temperature	64·2	23rd	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	76·5		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	2·5		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	4·3	4th	
	Miles.		
The mean movement of the wind per day	67·2		
The greatest movement of the wind in one day	168·0	11th	
The greatest movement of the wind in one hour	20·0	6th	1 to 2 P.M.

The number of hours with winds from each of the eight points—

N. 15, N.E. 31, E. 112, S.E. 168, S. 76, S.W. 109, W. 57, N.W. 16, Calm 132.

N.B.—The clock of the anemograph being under repair, the wind directions for 4 hours are deficient.

G. W. KÜCHLER,
for Meteorological Reporter to the Govt. of India and Director-General of Indian Observatories.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 11th July 1904.

Results of the Meteorological Observations taken at the Alipore Observatory from 3rd to 9th July 1904.

	Inches.
The mean pressure of the seven days	29·481
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	29·554
	Hours.
The total number of hours of bright sunshine	10·8
The maximum possible number of hours of sunshine	94·0
	°
The mean temperature of the seven days	80·1
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	83 8
The extreme variation of temperature	12·2
The maximum temperature	87·2
	Miles.
The highest velocity of the wind in one hour	21
	%
The mean relative humidity	92
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	85
	Inches.
The total fall of rain from 3rd to 9th July 1904	12·09
The average fall of the corresponding period for 24 years, Surveyor-General's Office	2·30
The total fall from 1st January to 9th July 1904	38·13
The average fall of the corresponding period for 24 years, Surveyor-General's Office	24·93

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; ●, continued rain.

FIRST FORECAST OF THE JUTE CROP IN BENGAL FOR THE SEASON, 1904.

The 16th July 1904.—The following note is published for general information.

A. EARLE,
Secy. to the Govt. of Bengal.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

First forecast of the Jute Crop in Bengal for the season 1904.

Explanatory.—Returns are received from 26 districts in Bengal, the area under jute in the remaining districts being insignificant.

About two-thirds of the crop is grown in Eastern Bengal (Mymensingh, Tippera, Dacca, Pabna, Rajshahi, and Bogra districts) and one quarter in Northern Bengal (Rangpur, Dinajpur, and Jalpaiguri districts).

The present forecast of the area sown and prospects of the crop is based upon reports of Collectors received up to the end of the first week of July and upon local inquiries by officers of the Department, including the Director.

Character of the season.—The districts of Mymensingh, Tippera, and Rangpur, in which nearly half the jute crop is grown, were visited with very heavy rain in the early part of the season and this has affected prospects. From the other important districts, especially Faridpur and Dacca, the reports of the weather have generally been favourable, but weeding has been hindered by heavy rain in Dinajpur, Bogra, and Jessore.

Area cultivated.—Special inquiries are being made by Collectors, assisted by officers of this Department, and the reports are still being tested.

Normal area.—The normal area has not therefore been raised in this forecast and is the same as in the final forecast of last year—2,470,000 acres. Collectors of the following districts have, however, reported larger normal areas:—

	Acres.		Acres.
24-Parganas	88,300	instead of	63,400
Jessore	62,100	„	40,800
Dinajpur	130,400	„	102,000
Rangpur	417,000	„	340,000
Pabna	182,000	„	144,800
Dacca	189,900	„	171,000
Mymensingh	750,000	„	705,000
Faridpur	140,000	„	100,000
Noakhali	6,700	„	4,500
Purnea	291,000	„	55,000
Cuttack	7,800	„	4,800

The increase amounts to 533,900 and is explained in various ways by Collectors; *e.g.*, underestimates in previous returns, good prices and good harvests.

Area under cultivation in 1904.—For the same reasons as are given for the increase in the normal area and also in some districts on account of favourable weather at the time of sowing, there is a large increase in the area under jute this year, viz., 2,793,400 as against an area estimated in the final forecast of 1903 at 2,470,000. The increase is in the districts mentioned in the previous paragraph. The Purnea figures certainly and some of the others require further verification, and inquiries will be made. There is no doubt that a very much larger area than usual has been sown, though in East Mymensingh and Tippera some of the crop has been ploughed up. It is safe, I think, to estimate an area under crop this year of 2,700,000 acres.

Prospects.—Collectors' estimates work out to 81 per cent. Allowing for underestimates, *e.g.*, Faridpur returns 100 per cent. but is believed to have a bumper crop, and provided no unfavourable conditions develope, the prospects are now of a crop amounting to 87½ per cent. (14 annas) in the area sown. This means not less than 93¾ per cent. (15 annas) of what has been known in the last few years as a normal crop.

Stocks of the crop of 1903 are reported by all Collectors to be low.

Telegraphic summaries from the principal jute-growing districts of the weather and prospects of the crop will be published on Wednesday, July 20th, and every Wednesday till the final forecast is issued at the office of the Board of Revenue and at the Royal Exchange.

S. L. MADDOX,

Offg. Director of the Dept. of Land Records and Agriculture, Bengal.

CALCUTTA,

The 13th July 1904.

First Forecast of the Jute Crop of Bengal, 1904.

Division.	District.	Total area of the district.	Estimated total area under cultivation.	Approximate normal area under jute.	Approximate area sown last year (1903).	Estimated area sown this year (1904).	Taking 100 to represent the normal outturn, how much represented outturn last year (1903)?	Taking 100 to represent the normal outturn, how much will represent this year's outturn (1904)?	Whether much, little, or no jute remains in the district from the crop of the year 1903.	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
1	2	3	4	5	6	7	8	9	10	11	12
		Acres.	Acres.	Acres.	Acres.	Acres.					
Burdwan ...	Burdwan	1,687,680	1,284,200	11,000	11,000*	14,500	75	75	Little ...	Timely rainfall and improvement in the market account for increased area under jute.	* Increased by Collector last year from 6,700 acres.
	Midnapore ...	3,319,[illegible]10	2,190,600	14,000	10,600	11,200	80	86	Very little	Timely rain during sowing time increased the area, but the outturn will be less than normal owing to constant rain in June.	
	Hooghly	1,087,360	482,900	12,000	12,300	18,800	97	95			
Presidency	24-Parganas ...	3,574,851	1,079,700	63,400†	57,000	71,100	90	98	Little ...	......	† The Collector proposes to raise the normal area to 88,300 acres.
	Nadia	1,788,160	1,043,800	47,800	36,000	38,000	65	87	Very little	Increase both in area and estimated outturn is due to seasonable rainfall.	

DIVISION.	District.	Total area of the district.	Estimated total area under cultivation.	Approximate normal area under jute.	Approximate area sown last year (1903).	Estimated area sown this year (1904).	Taking 100 to represent the normal outturn, how much represented outturn last year (1903)?	Taking 100 to represent the normal outturn, how much will represent this year's outturn (1904)?	Whether much, little, or no jute remains in the district from the crop of the year 1903.	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
1	2	3	4	5	6	7	8	9	10	11	12
		Acres.	Acres.	Acres.	Acres.	Acres.					
Presidency—*concld.*	Murshidabad ...	1,371,520	985,500	21,700	18,000	20,300	97	95	Little ...	Increase in area sown is due to seasonable rainfall and to increase of area available by abandonment of Laltakuri embankment.	
	Jessore	1,872,000	1,208,800	40,800*	30,700	55,700	77	69	Do. ...	Early rains induced the cultivators to sow more lands with jute than last year, but subsequent heavy rains have damaged the young plants in different quarters. Hence the lower estimate of outturn.	* The Collector proposes to raise the normal area to 62,100 acres
	Khulna	3,103,948	870,000	20,800	9,100	9,750	86	96	Do. ...	Timely rainfall has resulted in the increase of area and outturn.	
	Rajshahi	1,663,040	1,262,100	108,700	84,000	105,600	63	100	Do. ...	The prospects are so far favourable.	
	Dinajpur ...	2,526,080	1,697,600	102,000†	60,000	102,600	85	75	Very little	The increase in area sown this year is due to timely rainfall. The expected short outturn is ascribed to excessive rain after sowing.	† The Collector proposes to raise the normal area to 130,400 acres.

Rajshahi ...	Jalpaiguri ...	1,894,000	925,000	70,800	66,100	89,700	70	80	None ...	Heavy rainfall during the sowing season rendered weeding impracticable. Hence the outturn is below the normal.	
	Darjeeling (plains) ..	744,960	148,200	2,500	2,200	1,700	80	70	Practically none.	The apparent decrease in the area under cultivation this year is accounted for by the fact that last year the area was guessed at, while this year's statistics have been obtained from each outpost.	
	Rangpur ...	2,235,520	1,224,900	340,000‡	302,200	312,750	75	69	Very little	Decrease in outturn is due to excessive untimely rains at the weeding season.	‡ The Collector proposes to raise the normal area to 417,000 acres.
	Bogra	869,760	622,900	96,000	72,000	90,000	78	78	Ditto ...	Incessant rain at the time of weeding retarded the work and did some injury to the crop. Hence better outturn cannot be expected.	
	Pabna	1,176,960	865,300	144,800§	140,000	193,300	85	87·5	No jute remains.	The high price of jute last year has caused an increase of area sown. Excessive rainfall has caused some damage to the crop.	§ The Collector proposes to raise the normal area to 182,000 acres.
Dacca ...	Dacca	1,780,480	1,213,500	171,000‖	171,000	191,800	85	100	Little ...	On account of timely rainfall a better outturn than last year is expected.	‖ The Collector proposes to raise the normal area to 189,900 acres.
	Mymensingh ...	4,082,480	2,405,000	705,000¶	650,000	725,000	97	75	Nil ...	The short outturn is due to excessive rain at the beginning of the season.	¶ The Collector proposes to raise the normal area to 750,000 acres.
	Faridpur	1,459,840	1,132,600	100,000**	95,000	153,000	86	100	Very little	The sowing season this year was very favourable. Nearly 10 per cent. more has been sown with jute.	** The Collector proposes to raise the normal area to 140,000 acres.
	Backergunge ...	2,335,360	1,418,000	10,000	10,000	10,000	50	50	Little ...	The excessive rainfall has damaged the crop. Hence the outturn is estimated to be much below the normal.	

DIVISION.	District.	Total area of the district.	Estimated total area under cultivation.	Approximate normal area under jute.	Approximate area sown last year (1903).	Estimated area sown this year (1904).	Taking 100 to represent the normal outturn, how much represented outturn last year (1903)?	Taking 100 to represent the normal outturn, how much will represent this year's outturn (1904)?	Whether much, little, or no jute remains in the district from the crop of the year 1903.	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
1	2	3	4	5	6	7	8	9	10	11	12
		Acres.	Acres.	Acres.	Acres.	Acres.					
Chittagong ...	Tippera	1,599,360	1,209,000	266,400	266,400	218,700	100	70	Little ...	The decrease in area sown and in the outturn is due to the season being unfavourable owing to excessive rainfall. Much jute land was sown with paddy.	
	Noakhali	1,052,800	784,800	4,500	4,600	6,100	80	65	Very little	The decrease in outturn is due to excessive rainfall.	The Collector proposes to raise the normal area to 6,700 acres.
Bhagalpur ...	Bhagalpur ...	2,704,640	2,097,000	22,400	20,700	20,700	89	95	Little.		
	Purnea	3,195,513	1,639,800	55,000*	49,300	291,100	100	100	Little ...	Normal outturn is expected	* The Collector proposes to raise the normal area to 291,000 acres. Enquiries are being made.
	Malda	1,216,000	716,500	32,500	24,300	27,600	75	80	Very little	The increase both in area and outturn is due to sufficient rainfall at the time of cultivation.	

Orissa ...	Cuttack	2,322,560	1,161,200	4,800†	5,900	9,200	100	87	Very little	The increase of area under cultivation this year is due to a very large demand for jute by foreign traders during the last two years. The area under jute in Kendrapara subdivision is nearly doubling every year. The outturn is estimated at 14 annas owing to the deficiency of rainfall at sowing time.	† The Collector proposes to raise the normal area to 7,800 acres.
	Balasore ...	1,334,368	870,800	2,600	5,200	5,200	95	100	Little ...	The weather is favourable to jute cultivation.	
	Total ...	51,968,874	30,540,700	2,470,500	2,213,600	2,793,400	93¾	87½‡	...	......	‡ The Collector's figures work out to 81 per cent., against 87 per cent. last year. I have increased the estimate to 87½, against last year's 93¾ per cent. But in my opinion this 87½ per cent. represents at least 93¾ per cent. or 15 annas of what in previous years was known as a normal crop.

WEATHER AND CROP REPORT.

For the week ending the 18th July 1904.

Burdwan.—Rainfall at Sadar 2·42, Kalna 3·25, Katwa 1·63, Raniganj 3·83. Transplantation is going on. More rain urgently wanted in Katwa for transplantation. Sugarcane and *aus* doing well. Fodder sufficient. Cattle-disease reported from Raniganj. Common rice sells as follows :—

	Srs.	ch.	
Sadar	11	12	per rupee.
Kalna	12	3	
Katwa	Not reported		
Raniganj	14	0	

Birbhum.—Rainfall at Sadar 1·71, Rampur Hât 0·25. Weather seasonable. Transplantation continues briskly. Sugarcane doing well. Fodder dear. Water sufficient. Common rice sells as follows :—

	Srs.	ch.	
Sadar	13	8	per rupee.
Rampur Hât	14	0	

Bankura.—Rainfall at Sadar 1·92, Vishnupur 2·62. Weather seasonable, hot at times. Transplantation of winter rice continues. Standing crops doing well. Prospects very hopeful. Cattle-disease reported from thana Bankura. Fodder and water sufficient. Common rice sells as follows :—

	Srs.	ch.	
Sadar	14	0	per rupee.
Vishnupur	13	0	

Midnapore.—Rainfall at Sadar 3·54, Contai 0·41, Tamluk 2·02, Ghatal 1·85. Progress of cultivation retarded owing to heavy rainfall last week. Fodder and water sufficient. Cattle-disease in Salboni. Common rice sells as follows :—

	Srs.	ch.	
Sadar	15	0	per rupee.
Contai	15	0	
Tamluk	12	0	
Ghatal	13	8	

Hooghly.—Rainfall at Sadar 0·80, Serampore 2·30, Arambagh 0·24. Prospects of standing crops fair. Fodder and water sufficient. Transplantation of *aman* continues. Weather seasonable. Condition of jute at Serampore not good owing to excessive rain, fair at Arambagh. Sowing of jute completed. Common rice sells as follows :—

	Srs.	ch.	
Sadar	11	0	per rupee.
Serampore	10	10	
Arambagh	13	4	

Howrah.—Rainfall at Sadar 1·16. Weather seasonable. The standing crops are doing well. Transplantation of paddy seedlings is going on. The jute crop has suffered owing to heavy rains. Fodder and water for cattle plentiful. No cattle-disease reported. Common rice is selling at 11 seers per rupee.

24-Parganas.—Rainfall at Sadar 1·92, Barasat 3·58, Barrackpore 2·38, Basirhat 1·97, Diamond Harbour 4·25. Weather cloudy with occasional rain. State of standing crops fair. Transplantation of winter rice is going on in places. Common rice sells at 12 seers per rupee. Condition of cattle good. Supply of fodder and water sufficient. Condition of jute on the whole less favourable. Jute reported to have been damaged by flood s in the Basirhat subdivision. Sowing of jute finished.

Nadia.—Rainfall at Sadar 1·12, Kushtia 2·84, Chuadanga ·91, Ranaghat 3·72, Meherpur 1·38. Prospect of standing crops good. Transplantation of winter rice going on. Condition of jute favourable. No cattle-disease. Common rice sells as follows :—

	Srs.	ch.	
Sadar	12	8	per rupee.
Kushtia	13	8	
Chuadanga	13	0	
Meherpur	11	12	
Ranaghat	12	0	

Murshidabad.—Rainfall at Sadar ·40, Kandi 1·36, Jangipur ·88, Lalbagh ·10. Weather seasonable. Transplantation of winter rice continues. Rain wanted at Jangipur. Prospects of jute and sugarcane fair. *Aus* doing well. Early paddy being harvested at Jangipur. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	0	per rupee.
Kandi	13	0	
Jangipur	13	4	
Lalbagh	13	0	

Jessore.—Rainfall at Sadar 1·52, Jhenida 0·86, Magura 0·52, Narail 0·78, Bangaon 0·11. Weather seasonable. State of standing crops fair. Condition of jute favourable. Sowing finished. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	0	per rupee.
Jhenida	15	0	
Magura	15	0	
Narail	15	0	
Bangaon	14	8	

Khulna.—Rainfall at Sadar 4·03, Bagerhat 3·22, Satkhira 3·64. Weather seasonable. Sowings of autumn and winter rice (transplanted) estimated at 94 and 5 per cent. respectively. State of autumn rice and jute favourable. Sowing of *til* not yet commenced and outturn of summer rice estimated at 95 per cent. Fodder and water sufficient. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	0	per rupee.
Bagerhat	15	12	
Satkhira	13	0	

Rajshahi.—Rainfall at Sadar 1·49, Naugaon 3·99, Nator 0·85. Condition of standing crops fair. More rain wanted. Cutting and steeping of jute going on. Condition of jute good. No cattle-disease except cattle-pox in one village of Baraigram thana. Fodder and water sufficient. Common rice selling at 15 seers per rupee.

Dinajpur.—Rainfall at Sadar 0·53, Thakurgaon ·76. Weather seasonable. Condition of jute less favourable. Sowing of jute finished. More rain badly wanted. No cattle-disease. Fodder and water sufficient. Common rice sells at 13½ seers at Sadar and at 14 seers at Thakurgaon.

Jalpaiguri.—Rainfall at Sadar 3·64, Alipur Duars 8·53. Weather unseasonable. Sowing of jute finished. Condition of jute and *bhadoi* paddy not good. Transplantation of winter rice going on. Common rice sells at 12¾ seers a rupee. Fodder and water sufficient.

Darjeeling.—Rainfall at Sadar 7·09. Weather raining. *Hills—Bhutta, bhadoi dhan, chota* and *bara marua* doing well. Potatoes being harvested. Winter rice transplanted. *Terai*—Jute prospects poor. Winter and *bhadoi* crops promising. Coarse rice sells as follows:—

	Srs.	ch.	
Hills	12	0	per rupee
Terai	14	0	

Maize sells at Darjeeling at 18 and at Kalimpong at 22 seers per rupee.

Rangpur.—Rainfall at Sadar 1·24. Gaibanda 1·76, Nilphamari 0·54, and Kurigram 3·35. Weather seasonable. Condition of jute favourable except in Kurigram, where its condition less favourable. Sowing of jute finished and harvesting of it going on. Prospect of *aus* favourable except also in Kurgram, and harvesting of it also going on. Transplantation of *aman* going on. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	12	per rupee.
Gaibanda	14	0	
Kurigram	13	8	
Nilphamari	13	0	

Bogra.—Rainfall at Sadar 1·38. Fall general, but insufficient for the season. Weather cloudy with occasional showers. Condition of jute less favourable for want of sufficient rain. Sowing of jute finished long ago. Ploughing for winter rice still continuing in places. More rain wanted for transplantation. Fodder and water ample. Common rice sells at 15¾ seers per rupee.

Pabna.—Rainfall at Sadar 2·35, Sirajganj 0·55. Fall general. Weather cloudy, rainy and hot. Prospects of standing crops fair. Transplantation of winter rice continues. Fodder and water sufficient. No cattle-disease. Common rice sells at 16½ seers per rupee.

Jute ... Weather seasonable. Condition good. Sowing finished.
The above remarks about jute apply also to Serajganj.

Dacca.—Rainfall at Sadar ·83. Fall general. Weather seasonable. Prospects of jute and other crops fair. Sowing of jute finished. In Narayanganj condition of jute more favourable on high lands than on low lands. Fodder available. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee.
Manikganj	16	0	
Munshiganj	13	0	
Narayanganj	14	0	

Mymensingh.—Rainfall at Sadar 1·58, Jamalpur 1·64, Kishorganj 3·05, Netrakona 2·97, Tangail 0·38. Weather unseasonable. Condition of jute and other crops less favourable for want of sufficient rain. Sowing of jute finished. Transplantation of winter rice continues. No cattle-disease. Fodder and water ample. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	0	per rupee.
Jamalpur	16	0	
Kishorganj	13	12	
Netrakona	15	9	
Tangail	13	12	

Faridpur.—Rainfall at Sadar 3·25, Goalundo 1·63, Madaripur 1·52. Weather seasonable. Condition of jute very favourable. Sowing finished. Harvesting of *aus* paddy begun. Jute in Goalundo in excellent condition. Fodder and water sufficient. No cattle-disease. Common rice sells at 14 seers per rupee.

Backergunge.—Rainfall at Sadar 2·54. Fall general. Weather seasonable. Winter rice transplantation continues. Sowing of jute commenced. No cattle-disease. Fodder sufficient. Common *aman* rice sells at 14¼ seers per rupee.

Tippera.—Rainfall at Sadar 1·05, Brahmanbaria 1·99, Chandpur ·59. Weather seasonable. Prospects good. Reaping of jute commenced. Conditions less favourable in Sadar. Harvesting of *aus* commenced in Brahmanbaria. Weather seasonable for jute crop in Brahmanbaria. Condition good. Sowing finished and reaping commenced. Fodder and water sufficient. Cattle-disease in Laksam and Hajiganj. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	14	per rupee.
Brahmanbaria	16	0	
Chandpur	16	0	

Noakhali.—Rainfall at Sadar 5·90, Feni 3·53. Fall general. Weather rainy. Transplantation of *aman* and harvesting of *aus* commenced in Feni. Jute doing well. Fodder and water sufficient. No cattle-disease. Common rice sells at 13 seers at Sadar and 16 seers at Feni per rupee.

Chittagong.—Rainfall at Sadar 1·06, Cox's Bazar 5·43. Prospects of crops good. Transplantation of winter rice commenced. Water and fodder sufficient. Cattle-disease reported. Common rice sells at 13 seers per rupee.

Chittagong Hill Tracts.—Rainfall 2·07. Weather seasonable, both wet and fair. Transplantation still proceeding. Prospects of *jhoom* and all other crops fair. Cattle-disease reported from Bandarban. Rice sells at 12½ seers per rupee.

Patna.—Rainfall at Sadar 2·29, Barh 1·08, Bihar 2·34, Dinapore 2·44, Hilsa 1·45, Bikram 2·37. Weather cloudy and rainy. *Bhadoi* crops benefited by rain. Fields being prepared for paddy. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	4	per rupee.
Barh	13	8	
Bihar	14	0	
Dinapore	13	0	

Gaya.—Rainfall at Sadar 3·05, Nawadah 3·39, Jahanabad 3·46, Aurangabad 3·60. Weather cloudy and rainy. Transplantation of paddy has commenced in Nawadah subdivision. *Bhadoi* crops and paddy seedlings doing well. Sufficient rain in the Sadar subdivision. More rain would injure the growth of *bhadoi* crops. Sugarcane continues doing well. Fodder and water for cattle sufficient. Common rice sells at 13 seers per rupee.

Shahabad.—Rainfall at Sadar 3·23, Buxar 2·25, Bhabhua 3·76, Sasaram 4·02, Dehri 1·83. Paddy and *bhadoi* sowings continue. Sugarcane doing well. Prospects good. Fodder and water abundant. Rice sells at 14 seers at Sadar per rupee.

Saran.—Rainfall at Sadar 4·08, Siwan 4·07, Gopalganj 1·20. Weather seasonable. Standing crops doing well. Weeding of *bhadoi* crops going on. More rain wanted for transplantation of winter paddy. Fodder and water sufficient. Common rice sells at 15 seers and *makai* at 24½ seers per rupee at Sadar.

Champaran.—Rainfall at Sadar 4·01, Bettiah 5·73. Weather hot and cloudy. Transplantation of *dhan* going on. Sowing of *bhadoi* crops almost completed. Sugarcane doing well. No cattle-disease. Fodder and water sufficient. Common rice sells at 17 seers and maize at 30 seers per rupee.

Muzaffarpur.—Rainfall at Sadar ·22, Hajipur 2·62, Sitamarhi ·20. Weather occasionally cloudy with east wind. Transplantation of paddy retarded for want of rain in the Sadar and Sitamarhi subdivisions. Prospects otherwise good. Fodder and water sufficient. Common rice sells at 14 seers and maize at 27 seers per rupee.

Darbhanga.—Rainfall at Sadar 0·40, Samastipur 1·22, Madhubani 0·66. Weather hot and cloudy with east wind. Rain urgently wanted for transplantation of *marua* and paddy. Fodder and water sufficient. Cattle-disease reported from Singhia outpost. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	6	per rupee.
Samastipur	15	0	
Madhubani	13	10	

Monghyr.—Rainfall at Sadar 0·57, Begusarai ·58, Jamui 1·41. Weather seasonable. Standing crops doing well. Sowing of paddy and *bhadoi* crops still going on. Sugarcane is doing well. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	8	per rupee.
Begusarai	13	8	
Jamui	13	0	

Bhagalpur.—Rainfall at Sadar 2·21, Banka 2·29, Madhipura 5·10, Supaul 2·97. Weather, ordinary monsoon. Prospects of all crops good. Usual agricultural operations going on. More rain wanted in Supaul. A few cases of cattle-disease reported from Supaul subdivision. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	4	per rupee.
Banka	11	14	
Madhipura	17	0	
Supaul	18	0	

Purnea.—Rainfall at Sadar 1·55, Kishanganj 1·13. More rain wanted for paddy and jute crops. No cattle-disease. Water and fodder sufficient. Common rice sells at 15 seers at Sadar and Kishanganj per rupee.

Malda.—Rainfall at Sadar ·70, Chanchal 1·60, Gajule ·70, Sibganj 4·16, Gajol ·70 Gomastapur 3·09, Nawabganj ·38. Weather hot and cloudy. More rain wanted. Transplantation of winter rice commenced. *Bhadoi* thriving. Sowing of jute finished. Condition good. No cattle-disease. Water sufficient. Scarcity of fodder in thana Gomastapur. Common rice sells at 13½ seers per rupee.

Sonthal Parganas.—Rainfall at Sadar 0·79, Deoghar 2·18, Godda 2·16, Jamtara 6·51, Pakaur 4·32, Rajmahal 0·96. Weather hot and cloudy. Transplantation of winter rice going on except at Rajmahal. Sugarcane doing well. Fodder and water sufficient. Common rice sells at 11 seers per rupee at Sadar.

Cuttack.—Rainfall at Sadar 1·12. Fall general. Weather seasonable. Almost all the unprotected area was under the late high floods. *Bihali* and *sarad* considerably damaged in that area. Seedling being prepared. Jute crop damaged partially. Cotton plants growing. Fodder scarce in the flooded area. Common rice sells at 17 seers 11 chitaks at Sadar.

Balasore.—Rainfall at Sadar 1·70. Puddling and transplanting in progress. Sugarcane and other crops thriving. Heavy floods in Subarnarekha, but damage appears slight. Fodder and water sufficient. Common rice sells at 16 seers at Sadar and at 18 seers at Bhadrak per rupee.

Angul.—Rainfall at Sadar 1·07. Khondmals report not received. Fall general. Weather seasonable. Broad-casting of paddy, sowing of cotton and miscellaneous crops in progress. Puddling commenced in places. Common rice sells at 24 and 18 seers per rupee at Sadar and Khondmals respectively.

Puri.—Rainfall at Sadar ·43, Khurda 1·92. Weather seasonable. Weeding and transplanting of *sarad* paddy is going on. *Beali* and sugarcane doing well. *Mandia* being transplanted. Cotton being harvested. Miscellaneous crops doing well. Fodder and water-supply sufficient. Common rice sells at 18 seers and 6 chitaks per rupee.

Hazaribagh.—Rainfall at Sadar 3·61, Giridi ·22. Weather hot. Cattle-disease reported from two thanas. Transplantation going on. *Bhadoi* crops considerably damaged. Fodder and water sufficient. Common rice sells at 12¾ seers at Sadar and 12 seers at Giridih per rupee.

Ranchi.—Rainfall at Sadar 8·99. Weather cloudy. Transplantation of paddy in progress. Prospects good. Cattle-disease reported from several thanas. Fodder and water sufficient. Common rice sells at 13 seers at Sadar and 18 seers at Gumla per rupee.

Palamau.—Rainfall at Sadar 2·78. Fall general. Weather rainy and cloudy. Paddy sowing in progress. Prospect of sugarcane fair. Some cattle-disease. Fodder and water sufficient. Rice sells at 13½ seers and maize 23⅝ seers per rupee at Sadar.

Manbhum.—Rainfall at Sadar 1·29, Gobindpur 1·12. Weather seasonable. Prospects of crops good. Transplantation of winter rice going on. Fodder and water sufficient. Cattle-disease reported from three thanas. Common rice sells at 11 seers and 11 chitaks at Sadar and 12 seers at Gobindapur per rupee.

Singhbhum.—Rainfall 1·00. Sowing of paddy finished. Transplantation in progress. Fodder and water abundant. Cattle-disease reported from thana Ghatsila. Rice sells at 14 seers per rupee.

General Summary.—Rainfall during the week was general, but was insufficient in some places. Rajshahi, Dinajpur, Bogra, Mymensingh, Saran, Muzaffarpur, Darbhanga, Purnea and Malda continue to be in need of more rain. Rain is also needed in parts of Burdwan, Murshidabad and Bhagalpur. The districts of Midnapore, Hooghly and Howrah are still suffering from the effects of the heavy rain during the last week. Crops are reported to have been somewhat damaged by floods in the Basirhat subdivision of the 24-Parganas and in the districts of Cuttack and Balasore. Transplantation going on, but retarded in some districts for want of sufficient rain. Prospects on the whole fair. Cattle-disease reported from 13 districts. Fodder and water generally sufficient. The price of common rice has risen in sixteen districts, has fallen in eight, and is stationary in the remainder.

By order of the Lieutenant-Governor of Bengal,

A. EARLE,

Secretary to the Govt. of Bengal.

REVENUE DEPARTMENT,

The 19th July, 1904.

GOVERNMENT OF BENGAL, IRRIGATION DEPARTMENT.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF JUNE 1904.

THE weather at the end of May was of the usual sultry character which distinguishes the period immediately preceding the break of the rains. It is true that the mean temperature was somewhat below the normal, as it had been during the greater part of May, but the lightness of the winds at the head of the Bay and the humidity of the atmosphere were sufficient to make the weather over the province assume that character which is generally described as moist and muggy. The monsoon current had by the beginning of the month established itself firmly over the south of the bay, and during the first few days of June there were indications of unsettled weather in the centre of the bay which seemed to point to a further advance northward. The disturbed state of the weather in this quarter did in fact develope into a small cyclonic storm on the morning of the 3rd, somewhat to the south-west of Diamond Island. Conditions, however, in the north of the bay were not yet favourable for the advance of a depression in the usual north-westerly direction, and it was in consequence diverted to the north-east crossing the Burma coast near Diamond Island early on the same day on which it was first noticed. Though no longer well defined, it apparently moved in a northerly direction during the next few days, skirting the Arakan coast and affecting the weather in that quarter to a considerable extent. The actual storm may be said to have ceased to exist by the 5th, yet disturbed conditions undoubtedly continued to travel slowly along the Arakan and Bengal coasts in succession, culminating finally in a well-marked depression on the morning of the 9th. The sultriness of the weather during this period had increased steadily in Bengal, owing to the prevailing calms, the rising temperature and the almost entire absence of rainfall, and relief was only obtained after the depression, which on the 10th had developed into a small cyclonic storm at the head of the Bay, began to move slowly in a north-easterly path across the Province, ultimately breaking up in the Assam hills. General rain, followed by a welcome fall of temperature, accompanied its passage across the country, but the precipitation in the western districts was, as might have been expected from the course of the storm, very light and scattered. The barometer which at the beginning of the month had been in moderate excess began to fall in the early days of the month even before the formation of this depression, and the fall was naturally accelerated during the period of its development. As at the same time a rise of pressure was taking place in the south, a very strong monsoon current had as early as the 8th established itself over the whole of the bay area. With the final disappearance of the storm on the morning of the 12th, the pressure distribution became again more normal, but this reversion to ordinary conditions was accompanied by a slight retreat of the monsoon current from the head of the Bay. This retreat, however, was only of a temporary character, and a fresh advance of the monsoon was heralded by the appearance of a depression oft the Orissa coast on the morning of the 15th. During these few days rain had diminished largely, and had indeed ceased almost entirely over the greater part of the country. Temperature naturally increased at the same time, but notwithstanding this rise, it was below the normal on the 15th except in the east of the Province. During the 16th and 17th the storm developed slowly, and then during the next few days moved slowly in a westerly direction into the Central Provinces. It was accompanied by general though not very heavy rain, that in the east and north of the province being specially light. Pressure which even after the disappearance of the former storm on the 12th was considerably below the normal over the province, now began to rise sharply, but notwithstanding this recovery still remained in defect at the time of the appearance of the new depression on the 18th. With the development of the storm it naturally commenced to fall once more, so that on the 18th there was considerable defect throughout. Temperature likewise had fallen with the advance of the storm, but notwithstanding small variations high temperature showed a tendency to maintain itself on the eastern and northern parts of the country, the excess appearing chiefly in day temperatures. During the whole of this period the current in the Bay continued far above average strength, an excess which it maintained up to the end of the month. Under the influence of this strong monsoon normal conditions, with general though for the most part light rainfall, prevailed from the 19th to the 24th, on which date symptoms of a fresh disturbance became manifest at the head of the Bay. The course of the latter disturbance was a most unusual one. Though a well-marked depression actually existed, it remained for many days shallow and diffused, and the central regions, into which the feeble winds to which it gave rise were feeding, shifted its position from day to day, so that it may almost be said to have described a circular path passing from the head of the Bay inland to the vicinity of Burdwan on the 25th, then slightly northward on the 26th, then to the west on the 27th, to the south on the 28th, and finally emerging at the head of the bay at the end of the month. At no period of its course was the intensity of the disturbance more than slight, as might have been gathered from its unusual path: as soon, however, as it finally emerged into the bay, it developed in the beginning of July into a storm of considerable strength, and then moved inland once more, observing now however in its path a somwhat more normal direction. During the whole of this period of disturbance the rainfall was fairly general, but for the most part light, the only exception being heavy falls which occurred in Bihar on the 27th and 28th.

During these latter days of the month up to the 28th temperature changed but slightly, and with small variations these continued to be excess in the north and east and defect in the

remaining parts of the province. On the 28th, however, a general rise took place, and temperature was above the normal over almost the whole province on the last day of the month.

From the 17th pressure commenced to rise, and on the 21st was at last once more above the average. A fall, however, speedily set in on the 22nd, and continued till the 26th. Though there was a slight recovery on the 27th and 28th, there was still deficiency on the latter date, a deficiency which was accentuated by the further considerable fall, which took place during the last days of the month. It will be seen that the weather in June was chiefly influenced by the progress of the several disturbances, which followed one another during the month. Of these, the first, whose place of origin as well as subsequent path were both unusual can perhaps hardly be said to have affected the weather of Bengal except in so far as it diverted the rainfall from the province. There is no doubt, however, that the unsettled conditions which it left behind were the immediate cause of the development of its successor which subsequently moved into Assam. This latter storm, which practically constituted the first burst of the monsoon, gave considerable rain to Bengal Proper and Assam; but, as is usual with an early advance of the monsoon current, was followed by a temporary break, which was, however, in this case of very short duration.

The permanent advance of the monsoon current may be said to have taken place with the formation of the third storm on the 17th, the usual date for the breaking of the rains in Lower Bengal. After this the monsoon may be regarded as having been fully established. Attention has already been called to the unusual nature of the disturbance which characterised the latter days of the month, and which finally culminated in a cyclonic storm at the head of the Bay. When a storm has once been fully developed, it is probable that at this time of the year, it never moves out from the mainland to the head of the bay, but when the disturbance is, though well marked, widely diffused and not completely formed, it seems possible from the present example that the central regions into which the indraught of the still feeble winds is taking place, may shift its position from day to day, and, under these circumstances, even drift out to sea, when of course its chances of developing into a cyclonic storm are materially increased. In this sense and in this sense only can it be said that a storm at the season of the year has moved from the land area into the head of the Bay.

Summary of pressure.—Pressure was in defect during the great part of the month. Though above normal at the end of May, it very early began to fall and only for a few days towards the end of the month again reached its former high point. Mean pressure is consequently below the normal over the whole province, the greatest defect occurring at Krishnagar where it amounts to nearly $\frac{1}{10}$th of an inch.

Summary of temperature.—Mean temperature was in defect except in North Bihar and North and East Bengal, where there was excess. But the defect and the excess are chiefly shown in day temperatures, the departure from the normal in night temperatures being for the most part very slight throughout. The greatest variation from the average temperature is shown at Gaya where there was a deficiency of 4¼°. The regions of departure from the normal coincide very nearly with the corresponding regions of excess or defective rainfall.

Summary of rainfall.—There was practically no rainfall over the province during the first seven or eight days of the month. General rainfall accompanied the passage of the first storm across the country, but it was comparatively light in the western districts. A small break followed the disappearance of this storm, but with the formation of the succeeding depression rain again recommenced, and was fairly continuous and widespread during the remainder of the month. The conditions, however, were such as to determine the precipitation more particularly to the south-western portion of the province, and in consequence rainfall was below the average in North and East Bengal. The deficiency is most marked in the former Division, where it amounts to nearly 50 per cent. In East Bengal it is only 17 per cent. In South-Western Bengal and Bihar the rainfall was practically normal, while in Orissa and Chota Nagpur there was considerable excess. The totals, however, for the first six months of the year are still either normal or above normal.

The following table gives the rainfall of the various Divisions of Bengal in June and in each of the previous months of the present year as compared with the normal values for the same periods. The figures given represent the actual falls expressed as percentages of the normal falls:—

METEOROLOGICAL DIVISIONS.	January.	February.	March.	April.	May.	June.	Actual rainfall of first six months of 1904 expressed as a percentage of the normal fall for the period.

	Inches.
The mean pressure of the seven days	29·533
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	29·535
	Hours.
The total number of hours of bright sunshine	30·3
The maximum possible number of hours of sunshine	93·6
	°
The mean temperature of the seven days	84·3
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	83 7
The extreme variation of temperature	17·1
The maximum temperature	93·2
	Miles.
The highest velocity of the wind in one hour	13
	%
The mean relative humidity	83
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	85
	Inches.
The total fall of rain from 10th to 16th July 1904	1·77
The average fall of the corresponding period for 24 years, Surveyor-General's Office	2·86
The total fall from 1st January to 16th July 1904	39·90
The average fall of the corresponding period for 24 years, Surveyor-General's Office	27·79

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 18th July 1904.

G. W. KÜCHLER,
for Meteorological Reporter to the Govt. of India and Director-General of Indian Observatories.

(a) The increase is chiefly in coal and food-grains.

* Added No. of passengers 20,144 and Rs. 53,782 On account of difference between the approximate and audited figures for the weeks ended 14th and 21st May, and of supplemental figures for quarter ended 31st March 1904.
* Do. " " 2,000 " " 65,500 " of special and extra troop trains, &c., not included in previous returns.

† Do. Mds. 16,29,703 and " 1,31,096 " of difference between the approximate and audited figures for the weeks ended 14th and 21st May, and of supplemental figures for quarter ended 31st March 1904.
† Deducted " *60,000* " of traffic carried in excess over East Indian Railway route reserved for payment to Foreign Railways.
† Do. " *6,80,000* " of rebate on coal.

‡ Deducted " *17,341* " of difference between the approximate and audited figures for the weeks ended 14th and 21st May, and of supplemental figures for quarter ended 31st May 1904.
‡ Do. " *3,12,000* " of hire of locomotives and vehicles, and hire and demurrage of vehicles creditable to expenditure.
‡ Added " 72,440 " of rents of dwelling-houses, &c., not included in previous returns.

§ Audited figures up to 21st May 1904.

1904. *Abstract of progressive weekly returns of all earnings for 1904 in comparison with 1903.*

RESULT OF THE EXAMINATION FOR ADMISSION TO THE EXECUTIVE BRANCH OF THE PROVINCIAL CIVIL SERVICE AND THE SUB-ORDINATE CIVIL SERVICE HELD IN APRIL 1904.

RESOLUTION—No. 3025A.

APPOINTMENT.

Dated Calcutta, the 20th July 1904.

READ—

The Resolution of the 4th July 1903, reviewing the results of the examination held in that year, and appointing candidates to be probationers in the Executive Branch of the Provincial Civil Service and in the Subordinate Civil Service.

The notification of the 14th December 1903, publishing rules for the examination of 1904 for admission to the Executive Branch of the Provincial Civil Service and to the Subordinate Civil Service.

The reports of the Examiners at the examination held on the 13th, 14th, 15th and 16th April 1904.

The six Probationary Deputy Collectors and three Probationary Sub-Deputy Collectors appointed on the results of the examination held in 1903 have now all been appointed substantively *pro tempore.* A Probationary Deputy Collector and a Probationary Sub-Deputy Collector, selected on the

results of the Agricultural Examination of the Sibpur Engineering College, still remain to be provided with similar appointments

2. In December last it was notified that at the examination to be held this year, eight candidates would be selected for Deputy Collectorships and three for Sub-Deputy Collectorships, to be held for six months on probation. It was announced that four Probationary Deputy Collectorships would be given to the first four candidates on the list in order of merit; that for the remaining four Probationary Deputy Collectorships four candidates would be selected by the Lieutenant-Governor from those who had obtained not less than one-third of the total marks, and that a similar selection would be made for the Sub-Deputy Collectorships.

3. The examination was held on the 13th April and three days following. One hundred and fifty-seven applicants obtained permission to compete, and 154 actually appeared and answered the examination papers; 12 of these were Muhammadans, 11 were Biharis (including 4 Muhammadans), and 7 were Uriyas (including 1 Muhammadan). The total number of candidates who obtained one-third marks and above was 120.

4. The four candidates named below, who gained the four highest places in order of merit, are, in accordance with the terms of the notification of 14th December 1903, entitled to, and have received appointments as Probationary Deputy Collectors:—

	Number of marks.
Babu Nogendro Nath Sen, B.L.	529
„ Khirod Lal Mookerji, B.A.	518
„ Lalit Chandra Guha, M.A.	502
„ Narendra Nath Datta, B.A.	496

The Lieutenant-Governor has selected from among the other candidates Babu Ajodhya Prasada, M.A., Maulvi Mohammad Fazlul Karim, B.A., Babu Dhirakshan Singh, B.A., and Babu Sasibhusan Satpathi, B.A., for the fifth, sixth, seventh and eighth appointments.

These eight probationary officers will each receive a subsistence allowance of Rs. 50 per mensem; and if the reports from the districts in which they are stationed are favourable, they will, after a period of probation for six months, be appointed to the eighth grade of Deputy Magistrates and Deputy Collectors as vacancies occur. They will not be vested with magisterial powers until they are so appointed. Separate orders will be passed posting these officers to districts.

5. The three candidates named below have been selected by the Lieutenant-Governor to be Probationary Sub-Deputy Collectors:—

Babu Rebati Nath Chatterjee, M.A.
Maulvi Mohamad Sahabuddin Khan, B.A.
„ Syed Mohamed Akbar, B.A.

These probationary officers will receive subsistence allowances of Rs. 30 per mensem at present, and, if they are satisfactorily reported on, will be appointed to the fourth grade of Sub-Deputy Collectors as vacancies occur. Separate orders will be passed posting them to districts.

6. The above appointments are all made subject to the condition that the candidate in each case must obtain the medical certificate of fitness required by rule 5 of the rules contained in the notification of the 14th December 1903, quoted in the preamble.

ORDER.—Ordered that a copy of the above Resolution be published in the *Calcutta Gazette.*

By order of the Lieutenant-Governor of Bengal,

W. C. MACPHERSON,

Offg. Chief Secy. to the Govt. of Bengal.

WORKING OF THE FIRE-BRIGADE IN THE TOWN AND SUBURBS OF CALCUTTA AND IN HOWRAH DURING 1903-1904.

NOTIFICATION.

No. 2301L.S.-G.—The 20th July 1904.—The following is published for general information.

L. P. SHIRRES,
Secretary to the Govt. of Bengal.

No. 8184, dated Calcutta, the 8th July 1904.

From—F. L. HALLIDAY, Esq., Offg. Commissioner of Police, Calcutta,
To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit, in accordance with section 41, Act I of 1893, the following report on the working of the fire-brigade in the town and suburbs of Calcutta and in Howrah during the year 1903-1904.

2. The force at the close of the year, under review, was as follows :—

No.	*Lall Bazar.*	*No.*	*Howrah.*	*No.*	*Bhawanipur.*
1	Superintendent.	1	Engineer.	2	Tindals.
1	Chief Engineer.	1	Native driver.	12	Khalasis.
2	Assistant Engineers.	5	Tindals.	—	
1	European driver.	1	Fireman.	14	
3	Tindals.	17	Khalasis.	—	
2	Native drivers.	3	Syces.		
1	Fireman.	1	Mehter.		*Watgunge.*
14	Khalasis.	—			
13	Syces.	29		2	Tindals.
1	Inspector of Jute Warehouse.	—		12	Khalasis.
			Chitpur.	—	
2	Bhisbees.			14	
2	Mehters.	1	Engineer.	—	
—		1	Native driver.		
43		2	Tindals.		*Palmer's Bridge.*
—		1	Fireman.		
		11	Khalasis.	2	Tindals.
		3	Syces.	12	Khalasis.
		1	Mehter.	—	
		—		14	
		20		—	
		—			

Hose-carts with 400 feet of hose are also kept at the Sukea's Street, Fenwick Bazar, Jora Bagan, Coomertolly, and Alipore police-stations for emergencies.

3. A statement showing the receipts and expenditure of the fire-brigade is annexed to this report. The year opened with a balance of Rs. 23,885-8-4, the receipts amounted to Rs. 88,462-6, and the total expenditure to Rs. 90,321-12-10, leaving a balance of Rs. 22,026-1-6 at the close of the year.

Receipts.—Fees under the Petroleum Act realised Rs. 820 as against the estimate of Rs. 400. Hire of fire-engines Rs. 834-12 as against Rs. 20, and the sale of unserviceable hose and engine Rs. 2,183-2 as against Rs. 100. The net result was an actual increase of Rs. 3,248-6 over the estimates.

Expenditure.—

(*a*) The decrease under the head of Establishment, represents savings due to vacancies in the rank of khalasis, and to the increased pay provided for them in the Budget, not having been sanctioned until late in the year.

(*b*) Contingencies, there were savings chiefly under the following heads :—

	Rs.	A.	P.	
Feed and keep of horses	1,147	8	4	due to economy.
Cost of a new engine with fittings ...	2,194	12	0	
Repairs of engines and vans ...	660	11	6	
Allowance for attendance at fires ...	460	0	0	
Pension	309	11	0	
Hose	322	0	3	

the net decrease being Rs. 5,240-10-10.

(c) Under "Other charges" there was a net saving of Rs. 845-9-5, the decrease falling chiefly under "Water pressure" and "Leave allowance" of subordinates.

The surplus in the opening balance of the year, the improvement in the receipts and the considerable savings in expenditure, have contributed to the large closing balance of Rs. 22,026-1-6, against Rs. 8,000 provided for in the estimates. Out of Rs. 14,026-1-6, in excess, a sum of Rs. 12,000, estimated in the Budget estimate for 1904-1905 as the anticipated closing balance of the year under report, has been taken as a set-off in determining the contribution payable by the several municipalities during the current year.

4. The following table gives the number of fires and the way they were dealt with:—

Description of fire.	Number of fires.	Number of fires attended by fire-brigade.	Number of fires extinguished by residents.	Number of fires attended by Port Fire Engines.
1	2	3	4	5
Fires at which property destroyed, valued at Rs. 50 or more	58	48	8	2
Fires at which property destroyed, valued at less than Rs. 50	77	20	57	Nil

Eleven of these fires occurred in buildings licensed under Act I of 1893 and Act I of 1894 in which property to the total value of Rs. 1,84,154 was destroyed.

The total estimated value of the property destroyed by fire was Rs. 4,12,264 against Rs. 20,76,576-8, the value of the property destroyed in 1902-1903.

No lives were lost during the year at fires.

The following were the most serious fires:—

On the 19th April 1903.—The flat "Ghoosery" containing 1,947 bales of jute, 210 bundles of gunny and 6,837 drums of jute, caught fire on the river off Ghoosery. The fire lasted for twenty-four hours and was extinguished by the Port Commissioner's fire float Hooghly. Loss estimated at Rs. 87,000.

On the 21st December 1903.—Tiled roof huts and godowns containing pitch, rasin, &c., caught fire at 43, Strand Road, within the jurisdiction of the Burrabazar thana. The fire lasted for 27 hours and was extinguished by the Calcutta Fire Brigade. Loss estimated at Rs. 1,30,050.

On the 9th February 1904.—Fourteen corrugated iron shops, 12 tiled huts and 4 masonry houses, containing ghee, flour, oil, gunny-bags and tobacco, caught fire at Durmahatta Street, within the jurisdiction of the Jorabagan thana. The fire lasted for 32 hours and was extinguished by the Calcutta Fire Brigade. Loss estimated at Rs. 95,000.

On the 25th January 1904.—May Smith's Jute Press in a corrugated iron godown, containing jute, caught fire at Ghoosery, Howrah. The fire lasted for 9 hours and 55 minutes and was extinguished by the Calcutta Fire Brigade. Loss estimated at Rs. 15,000.

On the 29th December 1903.—Guzdar's Hydraulic Jute Press in which a quantity of jute in bales caught fire at Ghoosery, Howrah. The fire lasted for 13 hours and 13 minutes and was extinguished by the Fire Brigade. Loss estimated at Rs. 25,000.

5. Ten licenses were granted under section 36, Act I of 1893, for letting off fire-works, rockets, &c. None of the licenses were suspended under section 37 of the Act.

Four prosecutions were instituted under Act IV of 1884 for manufacturing fire-works without licenses; in all the cases the accused were convicted and fined.

Statement showing the actual receipts and disbursements of the Fire-Brigade Fund for the year ending 31st March 1904.

Petty fires.

77 Petty fires occurred during the year 1903-04, 25 in the Town, 45 in the Surburbs and 9 in Howrah. Of these—
14 Were extinguished by fire brigade.
57 Were extinguished by residents.
6 Were extinguished by the residents of the locality but fire brigade attended.

77

The value of the property destroyed in those fires amounted to Rs. 855, or an average of Rs. 11-1-6 per fire.

CALCUTTA,

The 8th July 1904.

F. L. HALLIDAY,

Offg. Commissioner of Police, Calcutta.

The 20th July 1904.—The following extracts from the Resolution and Returns of the Board of Revenue on the working of the Income-tax Department in Bengal in the year 1903-1904 are published for general information.

L. P. SHIRRES,

Secretary to the Govt. of Bengal.

RESOLUTION.

INCOME-TAX BRANCH.

K. G. GUPTA, ESQ., I.C.S.

Dated Calcutta, the 9th July, 1904.

THE statistical information regarding the Income-tax Department, for the year 1903-04, has been compiled with reference to the Government of India's Resolutions Nos. 2316S.R, dated the 8th May, 1901, and 83S.R., dated the 14th January, 1903.

* * * * * * *

2 The receipts, charges and net revenue of the years 1902-03 and 1903-04 are compared below:—

YEAR.		Receipts.	Charges.	Percentage of charges.	Net revenue.
		Rs.	Rs.		Rs.
1903-04	...	49,61,823	1,94,938	3·9	47,66,885
1902-03	...	58,66,787	2,12,463	3·6	56,54,324
		—9,04,964	—17,525	+·3	—8,87,439

The net revenue showed a decrease of 15·7 per cent., as compared with an increase of 3·9 per cent. in 1902-03, this result being due to the enactment of Act XI of 1903, raising the minimum income assessable to Income-tax. Deducting collections on incomes below Rs. 1,000 from the receipts of the previous year, the net revenue for the year under report shows an increase of Rs. 1,16,693, or 2·5 per cent.

3. *Return No. III.*—The collections under Parts I, II and IV showed a decrease of Rs. 1,47,642, Rs. 92,572 and Rs. 6,62,604, or 11·8, 14·03 and 18·3 per cent., respectively. On the other hand, the realizations from interest on securities showed an increase of Rs. 5,882, or 6·4 per cent. in comparison with the preceding year. If the collections on incomes below Rs. 1,000 be deducted from those of the preceding year, the year under report would show an increase of Rs. 52,881, or 5·04 per cent. under Part I, and of Rs. 86,521, or 3·009 per cent. under Part IV, while the collections under Part II, would show a decrease of Rs. 92,270, or 14 per cent., which is ascribed to depression in the coal trade and to a falling off in the profits of jute mills and presses.

4. *Returns Nos. V and VI.*—The number of persons finally assessed decreased by 74,631, or 59·2 per cent., while the final demand for the year fell by Rs. 8,51,746, or 16·1 per cent. The elimination of assessees with incomes below Rs. 1,000, therefore, has relieved more than one half of the former assessees, while resulting in a decrease of only one-sixth of the demand. Excluding the exemptions under the recent legislation, the number of persons finally assessed and the final demand for the year under report rose by 5,036 persons and by Rs. 27,774, or by 10·8 and ·6 per cent. respectively, as compared with a rise of 1·7 and 2·9 per cent. respectively during 1902-03, in comparison with the preceding year.

5. The percentage of collections on the final demand for the year was 96·04, as compared with 96·6 during 1902-03. The districts of Birbhum, Bankura, Murshidabad, Bogra, Dacca, Backergunge, Tippera, Noakhali, Gaya, Champaran, Darbhanga, Malda, Cuttack and Palamau succeeded

in collecting the entire demand within the year The prescribed standard of 95 per cent. was attained in all the other districts excepting Calcutta and Burdwan, where the percentages were 93·8 and 93·5, respectively. The deficiency in Calcutta during the year was due to the fact that assessments amounting to Rs. 1,02,370 were made during the last quarter of the year, while in Burdwan the non-payment of the tax of Rs. 4,142 by one assessee affected the results adversely.

With the disappearance of the smaller assessees the percentage of collections should exhibit an improvement as soon as the partial disorganisation occasioned by the change in the limit of assessable incomes has subsided.

6. *Return No. VII.*—The total cost of assessment and collection of the tax during the year shows a decrease of Rs. 17,525, or 8·2 per cent., in comparison with the previous year, owing to the curtailment of the clerical establishments entertained both in the Collectors' and Commissioners' offices, including the office of the Collector of Income-tax, Calcutta, and to the reorganization of the Warrant Establishment in Calcutta by the abolition of the posts of two bailiffs and the employment of permanent peons in the place of the *ticca* peons formerly entertained. The reorganisation of the assessors' establishment will have effect from the current year, and the charges of the Department will then be still further reduced.

RETURN No. I.

Statement showing the collections of the Tax under Act II of 1886, as amended by Act XI of 1903, from Salaries, Pensions, Annuities and Gratuities paid by the Government in the year 1903-1904.

The 20th July 1904.—The following Resolution by the Board of Revenue regarding the administration of the Stamp Department in Bengal in the year 1903-1904 and an abstract of the receipts and charges for the year are published for general information.

L. P. SHIRRES,

Secretary to the Govt. of Bengal.

RESOLUTION.

STAMPS.

K. G. GUPTA, ESQ., C.S.

Dated Calcutta, the 5th July 1904.

1. THE annual statistics of the Stamp Department for the year 1903-1904 have been compiled in the prescribed Statements I to VII.

2. *Statement I.*—The figures of general receipts and charges for the year 1903-1904, though obtained from the Accountant-General, have not as yet been finally verified, and are therefore liable to subsequent adjustment.

3. The revenue collected under the Stamp and Court-fees Acts amounted to Rs. 1,98,35,542 against Rs. 1,95,70,438 in the previous year, showing an increase of Rs. 2,65,104. The figures adopted in the revised budget estimate for the year were Rs. 1,96,00,000, or Rs. 2,35,542 less than the actual realisations. The increase of revenue was obtained under the head of Judicial stamps.

The total charges during the year amounted to Rs. 5,24,914, being an increase of 5·9 per cent. over the figures for 1902-1903 which was mainly under 'refunds.'

4. *Statements II and III.*—The statistics of receipts from the sale of the different kinds of stamps under the heads Judicial and Non-Judicial in the several districts have been compiled mainly from the figures furnished by the Superintendent of Stamps, Calcutta. There is a discrepancy of Rs. 88 between the figures of total receipts in these statements and those furnished in Statement I, which cannot be reconciled until finally verified statistics are received from the Accountant-General.

5. The sale-proceeds of Court-fee stamps, excluding stamps for copies, rose from Rs. 1,31,09,068 to Rs. 1,34,39,977, that is, by Rs. 3,30,909. The greater portion of the increase was contributed by the districts of Monghyr (Rs. 54,607), Tippera (Rs. 46,175), Patna (Rs. 37,930), Backergunge (Rs. 36,407), Burdwan (Rs. 26,367), Dacca (Rs. 24,978), Bhagalpur (Rs. 22,341) and Noakhali (Rs. 21,938). The increase in Monghyr is attributed by the Collector to the institution during the year of a large number of civil suits which had been withheld in the preceding year on account of plague. The increase in the district of Patna was due to the institution of a larger number of cases under the Indian Succession Act, 1865. The increase in other districts is generally attributed to the increased number and value of civil and rent-suits.

The largest decrease (Rs. 48,246) occurred in Gaya, and is attributed to the prevalence of plague which kept people away from the Courts. The decrease (Rs. 19,526) in Darbhanga is ascribed by the Collector to a marked falling off in the number of rent-suits, which had increased abnormally in the years immediately following the recent settlement operations in the district.

6. There was a net decrease of Rs. 62,903 in the receipts from the sale of non-judicial stamps, due to a decline in the receipts under the heads of impressed stamps, impressed labels, and notarial stamps. The revenue derived from the sale of impressed stamps amounted to Rs. 34,89,903, in comparison with Rs. 35,59,667 in the preceding year. The number of deeds executed was fewer, for which it is not possible to give any particular explanation. The revenue derived from the sale of *hundis*, or inland bills-of-exchange, was Rs. 1,31,860, showing an increase of Rs. 6,374 as compared with the receipts of the preceding

year. The receipts from the sale of impressed labels, which are used only in Calcutta, were noticeably smaller than in the preceding year, when the receipts were abnormally large. There was a satisfactory increase in the sale of one-anna receipt stamps, especially in Calcutta. The increase in the sale of forms for cheques or receipts is attributed to the larger issues of cheque books to District and Local Boards, and to the growth of trade in Calcutta.

7. *Statement IV.*—The total number of vendors for the sale of judicial and non-judicial stamps during the year was 6,253, or a decrease, as compared with the previous year, of 568 persons. A considerable reduction in the number of vendors was effected in the district of Chittagong, where the stamp vendors' register was overhauled during the year.

The discount allowed during the year exceeded that of preceding year by Rs. 1,783,—the result of the increased sales.

8. *Statement V.*—The total number of cases in which deficient duty and penalty were levied by the Courts during the year shows a decrease of 38, and there was a decrease of Rs. 78 in the amount of duty and penalty realised in comparison with the figures of the preceding year. On the other hand, there was an increase of 3 in the number of cases decided, but a decrease of Rs. 19,562 in the duty and penalty realised by Revenue Officers as compared with the figures of 1902-1903. The decrease occurred mainly in Calcutta, where there had been an abnormal increase in the previous year.

9. *Statement VI.*—The number of cases instituted for the infringement of the provisions of the Stamp Act was 356, in which 376 persons were brought to trial, against 220 cases and 252 persons in the preceding year. The fines imposed amounted to Rs. 3,747 in comparison with Rs. 1,557, while the amount distributed in rewards was Rs. 2,420 against Rs. 551.

10. *Statement VII.*—Of the cases of the valuation of estates for the issue of probates or letters of administration reported during 1903-1904, 81·1 per cent. were enquired into. The corresponding percentage in the preceding year was 78·2. The proportion borne by the deficit duty realised to the amount originally paid was 8·2 per cent., as compared with 14·0 per cent. in the previous year.

STATEMENT I.—*Abstract of Receipts and Charges for the year ending the 31st March 1904.*

LIBERALITY OF RAJA JOGENDRA NARAYAN ROY, OF LALGOLA.

No. 2370Medl., dated Calcutta, the 23rd July 1904.

From—L. P. Shirres, Esq., Secretary to the Govt. of Bengal, Municipal Dept.,
To—The Commissioner of the Presidency Division.

I am directed to acknowledge the receipt of your letter No. 64G.—Medl., dated the 2nd instant, in which you report that Raja Jogendra Narayan Roy, of Lalgola, has placed a sum of Rs. 6,000 at the disposal of the Civil Surgeon of Murshidabad for the construction of an outdoor ward in the Berhampore Hospital.

2. In reply I am to request that you will be so good as to convey to the donor an expression of the Lieutenant-Governor's appreciation of his liberality and public spirit. This letter will be published in the *Calcutta Gazette.*

LIBERALITY OF BABU ISWARA CHANDRA HAZRA, OF AMRAGORI, IN THE DISTRICT OF HOWRAH.

No. 2414Medl., dated Calcutta, the 25th July 1904.

From—L. P. Shirres, Esq., Secretary to the Govt. of Bengal, Municipal Dept.,
To—The Commissioner of the Burdwan Division.

I am directed to acknowledge the receipt of your letter No. 452L.S.-G., dated the 20th instant, in which you report that Babu Iswara Chandra Hazra, of Amragori, in the district of Howrah, paid a sum of Rs. 4,000 during the year 1899-1901 to the District Board of Howrah for the maintenance of three beds in the Amragori Dispensary, and that in November last he paid a further sum of Rs. 3,000, and requested that the number of beds might be increased from 3 to 6.

2. In reply I am to request that you will be so good as to convey to the donor an expression of the Lieutenant-Governor's appreciation of his liberality and public spirit. This letter will be published in the *Calcutta Gazette.*

WEATHER AND CROP REPORT.

For the week ending the 25th July 1904.

Burdwan.—Rainfall at Sadar 5·44, Kalna 8·76, Katwa 4·83, Raniganj 3·27. Transplantation of *aman* going on. Prospect of Sugarcane, *aus* and jute good. Fodder and water sufficient. Cattle-disease reported from villages of thana Manteshwar in the Kalna subdivision. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	12	per rupee.
Kalna	11	13	
Katwa	12	11	
Raniganj	14	0	

Birbhum.—Rainfall at Sadar 4·75, Rampur Hât 4·66. Weather seasonable. Transplantation continues. Sugarcane doing well. Fodder dear. Water sufficient. Rice sells as follows:—

	Srs.	ch.	
Sadar	13	8	per rupee.
Rampur Hât	14	0	

Bankura.—Rainfall at Sadar 3·06, Vishnupur report not received. Weather seasonable, hot towards the latter part of the week. Transplanting of winter rice in progress. Standing crops doing well. No cattle-disease reported. Fodder and water sufficient. Common rice sells at 14 seers the rupee at Sadar.

Midnapore.—Rainfall at Sadar 2·77, Contai 1·03, Tamluk 4·03, Ghatal 2·59. Sugarcane and *aman* seedlings somewhat damaged by heavy rains. Fodder and water sufficient. Cattle-disease in Gopiballavpur thana. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee.
Contai	15	0	
Tamluk	12	0	
Ghatal	13	0	

Hooghly.—Rainfall at Sadar 6·23, Serampore 4·47, Arambagh 1·30. Prospects of standing crops fair. Fodder and water sufficient. Transplantation of *aman* continues, but excessive rains doing mischief in Serampore. *Aus* not bad. Weather seasonable. Condition of jute fair at Sadar and Arambagh; not good at Serampore owing to excessive rains. Sowing of jute completed. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	per rupee.
Serampore	10	6	
Arambagh	13	4	

Howrah.—Rainfall at Sadar 2·00. Weather hot and cloudy. It now appears that the damage done to the paddy and the jute crops owing to heavy rains is not inconsiderable in the Sadar subdivision. Large tracts of land sown with paddy in the jurisdiction of the Dumjor and Jagatballabhpur thanas have been submerged. Water has gone down in many places, but the crops has been damged. Jute crops has also been damaged. The conditions of the crops in the Ulubaria subdivision are reported to be in better condition. Water and fodder sufficient. No cattle-disease reported. Common rice is selling at 10½ seers per rupee at Howrah.

24-Parganas.—Rainfall at Sadar 3·84, Barasat 3·83, Barrackpore 3·61, Basirhat 3·68, Diamond Harbour 4·18. Weather seasonable. State and prospects of crops fair, but the prospects of jute and *aus* paddy are somewhat unfavourable in Barasat and Basirhat subdivisions. Transplantation of winter rice is going on briskly. Common rice sells at 12 seers per rupee. Condition of cattle good. Supply of fodder and water sufficient. Condition of jute somewhat unfavourable in Barasat and Basirhat subdivision. Sowings finished.

Nadia.—Rainfall at Sadar 3·10, Kushtia 2·46, Meherpur 5·91, Chuadanga 4·19, Ranaghat 5·60. Prospect of standing crops good. Condition of jute favourable, sowings finished and reaping commenced at Ranaghat. Transplantation of winter rice going on. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	8	per rupee.
Kushtia	13	8	
Chuadanga	13	0	
Meherpur	12	0	
Ranaghat	12	0	

Murshidabad.—Rainfall at Sadar 2·05, Kandi 3·20, Jangipur 4·33, Lalbagh 4·96. Weather seasonable. Transplantation of winter rice seedings continues. Prospects of jute and sugarcane fair. *Bhadoi* of low lands in Jangipur being harvested. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	0	per rupee.
Kandi	13	0	
Jangipur	13	8	
Lalbagh	12	8	

Jessore.—Rainfall at Sadar 2·39, Jhenida 2·94, Magura 2·32, Narail 1·46, Bangaon 2·83. Weather seasonable. Transplantation of winter rice going on Condition of jute favourable. Sowing finished. Fodder and water sufficient. Cattle-disease reported from Abhoynagar outpost. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	0	per rupee.
Jhenida	15	0	
Magura	15	0	
Narail	15	0	
Bangaon	14	8	

Khulna.—Rainfall at Sadar 3·19, Bagerhat 4·59, Satkhira 2·42. Weather seasonable. Sowing of autumn and winter rice estimated at 95 and 13 per cent. respectively. State of autumn rice favourable. As regards jute, rainfall and weather seasonable. State favourable. Sowing finished. Sowing of *til* not yet commenced. Fodder and water sufficient. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	0	per rupee.
Bagerhat	15	8	
Satkhira	13	0	

Rajshahi.—Rainfall at Sadar 3·81, Naugaon 2·34, Nator 2·91. Prospects of standing crops good. More rain wanted in Nator for transplantation of *ropa* paddy. Condition of jute fair. Fodder and water sufficient. Common rice selling at 14 seers 10 chitaks per rupee.

Dinajpur.—Rainfall at Sadar 2·02, Thakurgaon 3·52. Fall in the district general, varying from 3·52 to 1·36. More rain wanted for the transplantation of winter rice and for improvement of *bhadoi*. Weather rainy. Condition of jute not satisfactory. No cattle-disease. Fodder and water plentiful. Common rice sells at 13 seers at Sadar and Thakurgaon.

Jalpaiguri.—Rainfall at Sadar 5·16, Alipur Duars 3·55. Weather unseasonable. Condition of jute and *bhadoi* paddy not good. Transplantation of winter rice going on. Common rice sells at 11¾ seers a rupee. Fodder and water sufficient everywhere.

Darjeeling.—Rainfall at Sadar 5·22. Weather rainy. *Hills*—Maize, *bhadoi* paddy, *chota* and *bara marua* doing well. Potatoes being harvested. Winter rice being transplanted. *Terai*—Jute prospects poor. *Bhadoi* prospects promising. Winter rice progressing. Coarse rice sells as follows:—

	Srs.	ch.	
Hills	12	0	per rupee.
Terai	14	0	

Maize sells at Darjeeling at 18 and at Kalimpong at 22 seers per rupee.

Rangpur.—Rainfall at Sadar 1·40. Gaibanda 0·88, Nilphamari 1·24, Kurigram 1·75. Weather seasonable. Condition of jute favourable except in Kurigram and Gaibanda. Sowing of jute finished and its harvesting progressing. Prospect of *aus* favourable except in Kurigram, and its harvesting progressing. Transplantation of *aman* proceeding. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	12	per rupee.
Gaibanda	13	8	
Kurigram	13	8	
Nilphamari	13	0	

Bogra.—Rainfall at Sadar 6·11. Fall general. Weather seasonable. Reaping of jute commenced in places. Condition less favourable. Ploughing for winter rice still continuing and transplantation commenced in parts of the district. Fodder and water sufficient. Common rice sells at 15¾ seers a rupee.

Pabna.—Rainfall at Sadar 5·42, Sirajganj 2·92. Fall general. Weather cloudy and rainy. Prospects of standing crops fair. Transplantation of winter rice continues. Fodder and water sufficient. No cattle-disease. Common rice sells at 16½ seers per rupee. As regards jute, weather seasonable. Condition good on the whole. Sowing finished.

The above remarks apply to jute in Serajganj except that the condition is less favourable than the last year.

Dacca.—Rainfall at Sadar 4·15. Fall general. Weather seasonable. Prospects of jute and other crops good. Sowing of jute finished. Prospects of jute in Narayanganj favourable. Fodder available. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee.
Manikganj	16	0	
Munshiganj	13	0	
Narayanganj	15	0	

Mymensingh.—Rainfall at Sadar 6·52, Jamalpur 2·43, Kishorganj 4·60, Netrakona 2·41, Tangail 2·10. Weather seasonable. Transplantation of winter rice continues. Harvesting of *aus* and jute commenced. Condition of jute not favourable. Fodder and water ample. No cattle-disease. Rice sells as follows:—

	Srs.	ch.	
Sadar	13	0	per rupee.
Jamalpur	16	0	
Kishorganj	13	10	
Netrakona	15	9	
Tangail	14	0	

Faridpur.—Rainfall at Sadar 3·84, Goalundo 1·94, Madaripur 1·35. Weather seasonable. State and prospects of crops good. Condition of jute favourable. Sowing finished. Harvesting of *aus* and reaping of jute begun. No cattle-disease. Fodder and water sufficient. Common rice sells at 15 seers per rupee.

Backergunge.—Rainfall at Sadar 3·65. Fall general. Weather wet. Transplantation of winter rice continues. Prospects of jute and autumn rice good. No cattle-disease. Fodder sufficient. Common *aman* rice sells at 14½ seers per rupee.

Tippera.—Rainfall at Sadar 4·35, Brahmanbaria 1·73, Chandpur 3·80. Weather rainy. Prospects good. Sowing of *aman* in Sadar and harvesting of *aus* in Brahmanbaria going on. Reaping of jute continues. Condition less favourable in Brahmanbaria. Cattle-disease reported from Chandina and Hajiganj. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	14	per rupee.
Brahmanbaria	20	0	
Chandpur	16	0	

Weather seasonable for jute in Brahmanbaria. Condition good. Reaping continues.

Noakhali.—Rainfall at Sadar 7·45, Feni 5·94. Fall general. Weather rainy. Prospects good. Transplantation of *aman* and harvesting of *aus* going on in Feni. Sowing of jute finished. Prospect good. Cattle-disease reported. Fodder and water sufficient. Common rice sells at 12 and 16 seers at Sadar and Feni respectively.

Chittagong.—Rainfall at Sadar 10·81, Cox's Bazar 6·27. Prospects of crops good. Transplantation of winter rice commenced. Cattle-disease prevalent in parts of the district. Fodder and water sufficient. Rice sells at 13 seers per rupee.

Chittagong Hill Tracts.—Rainfall 4·14. Weather wet. Transplantation going on. Prospects of crops fair. Epidemic of cattle-disease reported from Bandarband dying out. Rice sells at 12½ seers per rupee.

Patna.—Rainfall at Sadar 5·44, Barh 3·42, Bihar 4·36, Hilsa 4·20, Bikram 2·91. Weather cloudy and rainy. Prospects of *bhadoi* crops are good. Transplantation of paddy commenced in places in Bihar. Fodder and water plentiful. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	8	per rupee.
Barh	14	0	
Bihar	14	0	

Gaya.—Rainfall at Sadar 0·42, Nawadah 2·37, Jahanabad 3·26, Aurangabad 6·85. Weather cloudy and rainy. Transplantation of paddy going on. *Marua* and *makai* and paddy on low lands suffered from floods in certain parts of Jahanabad subdivision, but the crops on high lands are doing well. Incessent rain caused damage to *bhadoi* crops in Aurangabad. The prospects of *bhadoi* crops on the whole favourable. Sugarcane continues doing well. Common rice sells at 13 seers per rupee.

Shahabad.—Rainfall at Sadar 5·37, Buxar 7·7, Bhabhua 4·20, Sasaram 6·61, Dehri 8·66. The rain has seriously damaged the *bhadoi* crops in Buxar and Sasaram subdivisions. Transplantation of paddy commenced. Sugarcane doing well. Fodder and water abundant. Rice sells at 14 seers per rupee at Sadar.

Saran.—Rainfall at Sadar 3·78, Siwan 3·80, Gopalganj 3·48. Weather seasonable. Standing crops doing well. Weeding of *bhadoi* crops going on. Transplantation of paddy commenced. Cattle-disease reported from Manjhi thana. Fodder and water sufficient. Common rice sells at 15 seers and maize at 26 seers per rupee at Sadar.

Champaran.—Rainfall at Sadar 3·00, Bettiah 3·70. Weeding of *bhadoi* and transplantation of paddy in progress. *Bhadoi* crops benefited by rain, and paddy seedlings doing well. No cattle-disease. Fodder and water sufficient. Common rice sells at 16½ seers and maize at 30 seers per rupee.

Muzaffarpur.—Rainfall at Sadar 2·29, Hajipur 9·45, Sitamarhi 0·84. Weather occasionally cloudy. Transplantation of paddy going on. More rain wanted for Sitamarhi. Prospects otherwise good. Fodder and water sufficient. Common rice sells at 14 seers and maize at 26 seers per rupee.

Darbhanga.—Rainfall at Sadar 0·49, Samastipur 2·57, Madhubani 1·76. More rain required in Sadar and Madhubani subdivisions. Weather hot and cloudy. Fodder and water generally sufficient. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	6	per rupee.
Samastipur	15	0	
Madhubani	13	10	

Monghyr.—Rainfall at Sadar 6·00, Begusarai 2·18, Jamui 7·40. Weather rainy and cloudy. Sowing of paddy and *marua* still going on in places. Paddy benefited and *makai* damaged by excessive rain in Jamui subdivision. Prospects of standing crops good. Sugarcane doing well. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	5	per rupee.
Begusarai	13	8	
Jamui	13	0	

Bhagalpur.—Rainfall at Sadar 2·81, Banka 5·37, Madhipura 5·49, Supaul 4·90. Ordinary monsoon weather. Prospects of all crops good. Transplantation of paddy going on vigorously. A few cases of cattle-disease reported from Supaul and Madhipura subdivisions. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	4	per rupee.
Banka	12	8	
Madhipura	16	0	
Supaul	17	0	

Purnea.—Rainfall at Sadar 6·78, Kishanganj 3·13, Araria 2·15. More rain wanted in Kishanganj and Araria. Transplantation of paddy going on. No cattle-disease. Fodder and water sufficient. Common rice sells at 15 seers per rupee.

Malda.—Rainfall at Sadar 2·84, Chanchal 5·01, Gajol 3·17, Sibganj 2·17, Gumashtapur 7·11 Nawabganj 3·07. Fall general. Weather hot and cloudy. Transplantation of winter rice in progress. *Bhadoi* doing well. Condition of jute good. No cattle-disease. Water sufficient. Scarcity of fodder at places in thana Gomastapur. Common rice sells at 13½ seers per rupee.

Sonthal Parganas.—Rainfall at Sadar 5·76, Deoghar 5·84, Godda 2·55, Jamtara 6·58, Pakaur 3·24, Rajmahal 4·69. Weather hot and cloudy. Transplantation of winter rice going on. Fodder and water sufficient. Cattle-disease reported from Dumka. Common rice sells at 11 seers per rupee at Sadar.

Cuttack.—Rainfall at Sadar 1·63. Fall general. Weather seasonable. Flood receded from submerged tracts. Transplantation going on there. *Bihali* being weeded in protected areas. *Sarad* growing well. Cattle-disease reported from Banki. Fodder and drinking-water sufficient. Common rice sells at 11 seers 11 chitaks per rupee at Sadar.

Balasore.—Rainfall at Sadar 1·78. Puddling and transplanting and weeding in progress. Sugarcane and other crops doing well. Low lands crops damaged by floods in Subarnarekha and Baitarini rivers. Fodder and water available. Rice sells at 18 and 17 seers per rupee at Bhadrak and Sadar respectively.

Angul.—Rainfall at Sadar ·43, Phulbani 2·56. More rain wanted in Sadar. Sowing of cotton and miscellaneous crops in progress. Common rice sells at 24 and 19½ seers per rupee at Sadar and Khondmals respectively.

Puri.—Rainfall at Sadar 1·63, Khurda 1·36. Weather seasonable. Weeding and transplanting of *sarad* paddy going on. *Beali* and sugarcane doing well. *Mandia* being transplanted. Cotton being harvested. Miscellaneous crops doing well. Fodder and water-supply sufficient. Common rice sells at 18 seers and 6 chitaks per rupee.

Hazaribagh.—Rainfall at Sadar 2·00, Giridi 3·46. Weather hot. Transplantation of paddy going on. Sugarcane promising. Cattle-disease reported from one thana. Fodder and water sufficient. Common rice sells at 13 seers and 12½ seers at Sadar and Giridih respectively.

Ranchi.—Rainfall at Sadar 0·70. Weather hot and cloudy. Transplantation continues Cattle-disease reported from the Gumla thana. Fodder and water sufficient. Common rice sells at 13 and 18 seers per rupee at Sadar and Gumla respectively.

Palamau.—Rainfall at Sadar 2·75. Fall general. Weather seasonable. Paddy-sowing still going on. Prospect of standing crops fair. Some cattle-disease. Fodder and water sufficient. Rice sells at 13½ seers per rupee at Sadar.

Manbhum.—Rainfall at Sadar 4·60, Gobindpur 10·18. Weather seasonable. Prospects of crops good. Transplantation of winter rice in full swing. No cattle-disease. Fodder and water sufficient. Common rice sells at 11 seers 9 chitaks and 12 seers per rupee at Sadar and Gobindpur respectively.

Singhbhum.—Rainfall 3·55. Transplantation continues. Cattle-disease reported from thana Ghatsila. Fodder and water sufficient. Rice sells at 14 seers per rupee.

General Summary.—Rainfall during the week was general, but not evenly distributed. The districts of Rajshahi, Dinajpur, Muzaffarpur, Darbhanga, Purnea and Angul are in need of more rain. Excessive rain caused some damage to crops in Midnapore, Hooghly, Howrah, 24-Parganas and Shahabad. Transplantation of winter rice in progress. Prospects fair. Cattle-disease reported from 15 districts. Fodder and water generally sufficient. The price of common rice has risen in six districts, has fallen in seven, and is stationary in the remainder.

By order of the Lieutenant-Governor of Bengal,

H. LEMESURIER,

Offg. Secretary to the Govt. of Bengal.

REVENUE DEPARTMENT,

The 26th July, 1904.

Results of the Meteorological Observations taken at the Alipore Observatory from 17th to 23rd July 1904.

	Inches.
The total fall of rain from 17th to 23rd July 1904	3·99
The average fall of the corresponding period for 24 years, Surveyor-General's Office	2·83
The total fall from 1st January to 23rd July 1904	43·89
The average fall of the corresponding period for 24 years, Surveyor-General's Office	30·62

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, gloomy; d, drizzling rain; t, thunder; p, passing temporary showers.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 25th July 1904.

CONTENTS.

REPORT ON THE ADMINISTRATION OF THE SALT DEPARTMENT IN BENGAL, DURING THE YEAR 1903-1904.

The 2nd August 1904.—The following extracts from the Report of the Board of Revenue on the Administration of the Salt Department in the Lower Provinces during the year 1903-1904 are published for general information.

L. P. SHIRRES,

Secretary to the Govt. of Bengal.

No. 6442B., dated Calcutta, the 14th July 1904.

From—H. WHEELER, ESQ., I.C.S., Secretary to the Board of Revenue, L. P.,

To—The Secretary to the Government of Bengal, Financial Department.

CHAPTER I.—PRELIMINARY.

Administration.

2. There was no change in the charges in the districts of Cuttack, Balasore, Puri, Midnapore, Howrah, the 24-Parganas, Khulna and Chittagong in which preventive operations were carried on, the limits of circles, ranges and parties remaining the same as in the previous year.

A scheme for the re-organization of the Salt Department was submitted to Government with the Board's letter No. 4048B., dated the 13th May 1903, but orders on the subject have not yet been received.

The work of fixing definite areas in the different saliferous districts for the employment of the special police head-constables accompanying salt parties engaged in house-searches under section 18 of Act XII of 1882, which was begun in the previous year in accordance with Government Order No. 5728S.R., dated the 13th December 1902, was brought to a close during the year. Measures were also successfully taken to improve the patrol work of preventive parties by the formation of blocks which are now visited systematically, but in varying order. The regular supervision of the entire charge is thus facilitated, and the selection without warning of the blocks to be inspected prevents the duty of patrol degenerating into routine.

CHAPTER II.—STOCKS, IMPORTS, AND CLEARANCES.

Accounts of stocks and issues.

4. At the commencement of the year the stocks of salt in all *golas*, both public and private, were over $8\frac{1}{2}$ lakhs of maunds less than on the 1st April 1902, but there was an increase in the quantity of salt imported during the year under report of over $5\frac{1}{2}$ lakhs of maunds. The clearances were less than in the preceding year by 26,041 maunds, and after allowing for wastage, the closing balance stood at 24,69,648 maunds. In addition, at the close of the year, there were 1,75,680 maunds of salt lying afloat in ships in the port of Calcutta, against 3,50,184 maunds at the end of 1902-1903. At Chittagong 1,06,166 maunds of salt were lying afloat at the close of the year.

During the year under report the percentage of the total importations which was bonded in the Sulkea and Kidderpore Dock *golas* amounted to 68 per cent. as against 71 per cent. in the previous year. The decrease is due to a falling off in the imports of *karkatch* salts, which usually go into bond.

Imports.

5. The importations into Calcutta advanced during the year by 6·6 per cent. particularly in the case of imports from the United Kingdom, Germany and Aden. The decrease in the importations of *karkatch* salt from Rawaya and Salif was partly due to difficulties of freight. For some months no imports were received from Salif owing to labour difficulties caused by differences between the Turkish Government and the neighbouring Arab tribes. The decrease in the imports from the Persian Gulf is attributed to a falling off in the number of Arab sailing ships employed in the trade. There was a marked decrease in the importations from Bombay which is reported to have been the result of the heavy losses sustained by the importers, who had large stocks in bond at the close of the previous year, when the rate of duty was reduced. The higher rate of duty had already been paid at Bombay on 95 per cent. of the salt imported, and no remission of duty on the stock in bond was allowed. Several importers have since retired from the trade. A feature of the year was the importation of a considerable quantity (nearly $1\frac{1}{2}$ lakhs of maunds) of Madras salt. It is probable that the salt trade with the Madras ports will increase under the new rules, which allow salt to be exported without the prepayment of duty.

In Chittagong, the importations declined by 23·4 per cent. as compared with those of the previous year, but there was an increase of 35·5 per cent. in comparison with 1901-1902. It is reported that a vessel with 3,000 tons of salt from Aden entered on the last day of the year, and the inclusion of her cargo (81,667 maunds) in the statistics would have materially altered the comparison.

Sales of imported salt from shipboard and bond.

6. There was an increase of 1·3 per cent. in the sales of imported salt, of which 21 per cent. was sold from shipboard, and 79 per cent. from bond, against 19 and 81 per cent., respectively, in the preceding year. In Calcutta the sales from the importing vessels direct increased by 13·2 per cent., while there was a decrease of 3·7 per cent. in the sales from bond. It is reported that for several weeks before the budget was published clearances were very small, as the trade anticipated a further reduction in the duty. Of the vessels carrying salt into Calcutta during the year, 94 per cent. were steamers.

The increase in the total sales at Chittagong amounted to 11·3 per cent.

Transactions in the Sulkea and Kidderpore Dock *golas*.

7. The total turn-over at the Sulkea and Kidderpore Dock *golas* for the last five years is shown below :—

Years.			Mds.
1899-1900	...	...	1,13,87,469
1900-1901	...	...	1,21,04,343
1901-1902	...	...	1,49,52,131
1902-1903	...	...	1,54,83,982
1903-1904	...	...	1,50,05,754

The turn-over at Sulkea was 94,99,784 maunds against 1,04,09,921 maunds in the previous year. At Kidderpore the turn-over was 55,05,970 maunds in comparison with 50,74,011 maunds in 1902-1903.

The bonding accommodation at Sulkea has been extended by the sub-division of 23 full *golas*, and will be further increased by the lowering of the floors of the *golas* which is now in progress. Administrative sanction has also been accorded to the construction of new *golas* on the foreshore at Sulkea. But it is a question whether the need for additional space is not greater at Kidderpore; and provided satisfactory arrangements can be made with the Port Commissioners, it would perhaps be advisable to increase the bonding accommodation at Kidderpore before undertaking any new works at Sulkea. A project for extending the railway sidings and providing additional loading platforms is under consideration.

The Kidderpore *golas* which are conveniently situated for the supply of salt to Eastern and Northern Bengal were fully utilized during the year. The question of the revision of the existing arrangements with the Port Commissioners by which the rent charges of the warehouses at Kidderpore are divided in equal shares between them and Government was under discussion at the close of the year.

Inland bonded warehouses.

9. Licenses for seven additional private bonded warehouses were issued during the year, while one warehouse (at Baruipur) was closed and another (at Ashuganj) was accidentally burnt down. There were in all 27 warehouses open at the close of the year, all of which, excepting two at Chandbali, were in Eastern Bengal.

The quantity of salt despatched to these inland bonded warehouses amounted to 13,44,528 maunds (8,99,618 maunds from shipboard and 4,44,910 maunds from the *golas* in Calcutta), as compared with 12,58,769 maunds (6,98,209 maunds from shipboard and 5,60,560 maunds from the *golas*) in 1902-1903, an increase of nearly 7 per cent. Bonders are said to have experienced great difficulty in securing flats for the carriage of salt during the jute season, and one of the principal bonders at Narayanganj and Bhairab Bazar is building a flotilla of his own. The quantity of non-duty-paid salt removed during the year from shipboard at Chittagong for clearance at Narayanganj was 32,755 maunds, showing an increase of 2,250 maunds, or over 7 per cent., as compared with the preceding year.

Imports of Madras salt into Orissa by land.

12. The quantity of Madras *karkatch* and refined salt imported into Orissa by land during the year under report was 9,18,823 maunds against 8,28,823 maunds in the previous year, showing an increase of 90,000 maunds, or 10·8 per cent. The Oriental Salt Company, Limited, maintained depôts for the sale of their salt at Cuttack and Jajpore Road in the district of Cuttack, and at Balasore, Soro, Bhadrak and Chandbali in the district of Balasore. Since the closure of their depôt at Khurda in the district of Puri in December 1901, the Company have not opened any other depôts in that district.

Name of factory from which the salt was imported.	Quantity imported in—		Increase.	Decrease.

Net increase ... 90,000 Mds.

Imports of Bombay salt in the Tributary Mahals of Orissa.

13. Bombay *karkatch* salt finds its way into the Tributary Mahals *viâ* the Bengal-Nagpur Railway. The importations during the last three years have dwindled from 40,552, 25,301, and 11,356 maunds to 2,009 maunds during 1903-1904.

CHAPTER III.—CONSUMPTION AND PRICES.

Consumption in Bengal.

14. The total quantity of salt which passed into consumption in the entire Province of Bengal during the year under review was 1,11,48,331 maunds. This is exclusive of 1,58,609 maunds, being the net exports by land, and inclusive of 22,276 maunds educed from saltpetre. In comparison with the preceding year the figures show an increase of 1,02,641 maunds, or ·93 per cent. Of the total quantity the saliferous tracts (including the whole of Orissa) took 20,08,603 maunds, or 18 per cent., and the rest of the Province 91,39,728 maunds, or 82 per cent. The resulting rate of consumption per head in the saliferous tracts including Orissa was 6 seers 1 chitak, or 12·47 lbs., and in the rest of the Province, 5 seers 7 chitaks, or 11·18 lbs. The corresponding averages during the previous year were 12·21 lbs. in the saliferous tracts, and 11·18 lbs. in the rest of the Province.

The rates of consumption per head of the population in the Bombay and Madras Presidencies during 1902-1903 were 10·38 lbs. and 16·05 lbs., respectively.

	Mds.
1899-1900	... 1,01,94,338
1900-1901	... 1,02,27,601
1901-1902	... 1,04,31,438
1902-1903	... 1,10,45,690
1903-1904	... 1,11,48,331

From the figures noted on the margin, it will be observed that there has been a steady yearly increase in consumption. The figures represent the quantities on which duty was paid prior to delivery for consumption.

Consumption of salt within the Salt Law limits.

15. During the year under report the consumption of salt within the Salt Law area was practically stationary, the average rate of consumption showing an increase in the districts of Midnapore, Howrah, Chittagong, and Noakhali; and a decline in those of the 24-Parganas, Khulna, and Backergunge. The reduction in the sales in the 24-Parganas which has for the first time taken place since the commencement of preventive operations at the close of 1897-98, is attributed to the unusually hot weather of 1903, and to the absence of timely rains, which seriously affected cultivation, and consequently the condition of the poorer classes. Illicit manufacture at the same time showed a tendency to recrudesce, the number of detected cases of salt crime rising from 209 in 1902-1903 to 338 in 1903-1904, while the increase occurred in the thanas of the Diamond Harbour and Matla circles which showed also the greatest fall in sales. The decrease in Khulna scarcely calls for explanation, while Backergunge is not a district in which illicit manufacture is resorted to upon any scale.

The increase in Midnapore, Howrah, and Chittagong in spite of the general drought that prevailed in the first two districts is satisfactory and for it the preventive establishments claim credit, but in Chittagong the increasing importations of cheap Hamburg salt have probably also contributed to the result. In Noakhali Messrs. David & Co. have opened a salt agency at the Noakhali railway station, and have been selling salt at a cheap rate. The district of Midnapore again failed to show an average annual consumption of 5 seers or more per head of the population, although the average advanced by one chitak.

Consumption of salt in the town of Calcutta.

17. The quantity of salt consumed in the town of Calcutta during the years 1902-1903 and 1903-1904 amounted to 1,52,373 maunds and 1,63,055 maunds respectively, giving an average annual consumption of seven seers and one chitak, and seven seers and eight chitaks respectively, or of 14 and 15 pounds approximately per head of the population, calculated on the census figures of 1901 *plus* the usual allowance for annual increase.

Prices of salt in Bengal generally.

18. In all districts the average prices fell during the year under report owing to the reduction in the rate of the duty upon salt. The average wholesale price for the whole Province was Rs. 3-2-10 per maund, as compared with Rs. 3-10-9 in 1902-1903, and Rs. 3-12-8 in 1901-1902.

The average wholesale price during the year of Liverpool salt per hundred maunds as sold from the ship's side in the port of Calcutta, exclusive of duty, amounted to Rs. 53-11-5, as compared with Rs. 56-3-9 in 1902-1903. Prices, which in 1902-1903 varied from Rs. 64-10-8 to Rs. 47-8-8, fluctuated in the year under report from Rs. 50 to Rs. 56-9-7.

19. A whole year's figures are now available since the duty on salt was reduced. So far as the wholesale trade is concerned, it is manifest that it has secured the full benefit of the reduction, as the provincial average wholesale price was just 8 annas less than in the year before. Reports from various parts of the province likewise show that the retail price has everywhere gone down by $1\frac{1}{2}$ pies to 3 pies per seer or 5 annas to 10 annas per maund, which would seem to indicate that the retail purchaser of not less than a seer at a time has also benefited. It is, however, noteworthy that the reduction of duty has not, so far, stimulated consumption; for the increase in sales during the year amounted only to about one lakh of maunds, against an increase of 6 lakhs in 1902-1903 and of 2 lakhs in 1901-1902, with the old rate of duty. It is possible that the results would have been different, but for the fact referred to in paragraph 6 *ante* that for several weeks before the close of the year clearances were greatly curtailed in expectation of a further reduction in duty.

CHAPTER IV.—PREVENTIVE MEASURES.

Preventive operations in the saliferous districts.

20. Operations for the prevention of the illicit manufacture of salt were carried on, as in previous years, in the districts of the 24-Parganas, Midnapore, Howrah, Khulna and Chittagong, and in those of the Orissa Division. Howrah continued to be worked by a small party under the Inspector of the Tamluk circle in the district of Midnapore, under the direct control of the Assistant Commissioner.

Attachments, releases and confiscations in the saliferous districts, including Orissa.

21. Illicit salt was attached, released, and confiscated in 1,135, 7, and 1,510 cases respectively during the year under review, as against 1,163, 5, and 887 in the previous year, to the extent of 3,272, 3,157, and 189 maunds against 261, 85, and 156 maunds during the year 1902-1903. There was thus an increase of 3,011 maunds in the quantity attached, and of 33 maunds in the quantity confiscated. The increase in the quantity attached was due to the seizure at Chitpur in one case of about 3,144 maunds of salt under section 21 of Act VII (B.C.) of 1864. The accused was tried and fined by the Deputy Magistrate of Sealdah, who, however, ordered the salt to be released.

Number of seizures and unsuccessful searches.

22. During the year under review, the number of seizures and unsuccessful house-searches was 969 and 19, respectively, as against 1, 228 and 12 in the previous year. There were no unsuccessful house-searches in the districts of Balasore, Puri, Khulna and Howrah. The general percentage of unsuccessful house-searches to seizures was inconsiderable.

Number of cases instituted under Acts VII (B.C.) of 1864 and XII of 1882.

23. There were 577 prosecutions during the year, against 813 in 1902-1903. Out of 732 persons arrested and brought to trial, 642 were convicted, showing a percentage of 87·7. Cases of the illicit manufacture of salt (section 9, Act XII of 1882) numbered 500 as compared with 673 in the previous year. The proportion of persons convicted of this offence was 88 per cent. of those brought to trial. The decrease in the number of cases chiefly took place in the districts of Balasore, Puri, and Chittagong, and is attributed partly to the institution of a system of regular patrols. It is reported that 30 cases were lost in the districts of the 24-Parganas and Midnapore owing to the failure of the special police head-constables to attend house-searches. During the year one opium case was detected by salt officers as against 31 in the previous year. No cases under the Excise Act were reported by salt officers. Salt crime has practically disappeared from Orissa, and it ought to be possible to still further reduce the preventive establishments employed in that Division. The Commissioner of Excise and Salt will be asked to report.

Fines, forfeitures and rewards.

24. The fines and forfeitures realised during the year amounted to Rs. 4,991, while Rs. 6,193 were disbursed as rewards as compared with Rs. 7,689 and Rs. 6,568 realised and disbursed respectively during 1902-1903. The decrease was due to the smaller number of convictions.

CHAPTER V.—FINANCIAL RESULTS.

Receipts and charges.

27. The financial results of the administration of the Salt Department for the year under report as well as for the two preceding years, are shown in Appendix G. The results of the year, as compared with those of 1902-1903, show a decrease of Rs. 49,94,079, or 18·6 per cent. in the receipts, and an increase of Rs. 29,464, or 6·4 per cent., in the charges, giving a net revenue of Rs. 2,13,24,128, which is less than that of 1902-1903 by Rs. 50,23,543, or 19 per cent. The decrease in receipts occurs mainly under the two heads of the Import and Excise duties on salt. The falling off under the former head was due to the reduction of the rate of duty, and that under the latter to the exhaustion of the stocks of Lake salt in Orissa. The decrease under the head "rent of warehouses" was due to the smaller stocks of salt in the *golas* at Sulkea throughout the year.

There was an increase of Rs. 1,926 and Rs. 36,107 in the charges under the heads "salaries, warehouses and rewards," and "refunds of customs duty on salt," respectively. Under the former head the sub-heads "salaries of establishment," "scales and weights," "rewards to informers," and "contingencies and miscellaneous" showed an increase. The increase on account of establishment was mainly due to the opening of new bonded salt warehouses, as explained in paragraph 9, and that under the sub-head "scales and weights" was caused by the purchase of trays, trestles, and boxes for the new steel-yards for the Salt Department of the Calcutta Custom House.

Charges of the Salt Department.

28. The charges during the year under report, amounted in all to Rs. 2,31,150, against Rs. 2,24,842 in the previous year, showing an increase of Rs. 6,308, or 2·8 per cent.

Trade in saltpetre.

30. The quantity of salt educed in the manufacture of saltpetre and removed from all the refineries in the Province on payment of duty during the year was 22,276 maunds, as compared with 16,847 maunds similarly removed in 1902-1903.

The number of saltpetre refineries at work under license in Calcutta and its environs was four, as in the previous year. Of these, one is at Soorah, two at Kakurgachi, and one at Ultadingi. The refineries at Soorah and Ultadingi refine saltpetre and educe salt therefrom, while those at Kakurgachi do not educe salt.

The quantity of refined saltpetre produced was 38,687 maunds against 44,903 maunds, and the quantity of salt educed was 2,999 maunds against 2,588 maunds in 1902-1903. The quantity of salt excised was 2,560 maunds against 1,201 maunds in the previous year. The decrease of 6,216 maunds in the outturn of refined saltpetre is attributed to the general depression in the trade. The increase of 1,359 maunds in the educed salt assessed to duty during the year was mainly due to a growing demand for it in the district of Burdwan. A small quantity of the educed salt was used locally in the manufacture of soap and for freezing purposes.

The total receipts from license fees and duty realised in Calcutta on the salt educed in the process of manufacturing saltpetre amounted to Rs. 5,320 against Rs. 3,162 in the preceding year, showing an increase of Rs. 2,158. The increase was in duty alone, and was the result of the larger quantity excised.

Conclusion.

39. Mr. T. Inglis was in charge of the office of the Commissioner of Excise and Salt from the 1st to the 16th April 1903, from which date Mr. K. J. Badshah held charge till the close of the year, and the Board desire to express their thanks to these officers for their administration of the Department. The Board's acknowledgments are also due to Mr. L. F. Morshead, the Collector of Customs, Calcutta, and to Mr. A. S. Judge, Superintendent of the Preventive Service and Salt *Golas*, Calcutta, for the manner in which they discharged their duties during the year.

WEATHER AND CROP REPORT.

For the week ending the 1st August 1904.

Burdwan.—Rainfall at Sadar 0·96, Kalna 3·25, Katwa 2·45, Raniganj 5·74. Transplantation of *aman* going on. Sugarcane and *aus* damaged a little at Raniganj by the heavy rain. Fodder and water sufficient. Cattle-disease reported from Kalna. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	0	per rupee.
Kalna	11	8	
Katwa	12	7	
Raniganj	13	8	

Birbhum.—Rainfall at Sadar 3·91, Rampur Hât 12·24. Weather seasonable. Transplantation continues. Sugarcane damaged by heavy rain in Rampur Hât. Fodder dear. Water sufficient. Rice sells as follows:—

	Srs.	ch.	
Sadar	13	8	per rupee.
Rampur Hât	14	0	

Bankura.—Rainfall at Sadar ·56, Vishnupur ·66. Weather hot. Transplanting of winter rice continues. Standing crops doing well. No cattle-disease reported. Fodder dear. Water sufficient. Common rice sells at 14½ seers the rupee at Sadar and at 14 seers at Vishnupur.

Midnapore.—Rainfall at Sadar 3·01, Contai ·02, Tamluk 2·66, Ghatal 3·22. Lands on which seedlings were destroyed by floods are being ploughed for *aman*. Transplantation going on on high lands. Cattle-disease in Gopiballavpur thana. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee.
Contai	15	0	
Tamluk	Not reported		
Ghatal	13	0	

Hooghly.—Rainfall at Sadar 1·17, Serampore 1·17, Arambagh 2·69. Prospects of standing crops fair. Fodder and water sufficient. Transplantation of *aman* continues, *Aus* not bad. Weather seasonable. Condition of jute fair, resowing unnecessary. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	per rupee.
Serampore	10	6	
Arambagh	13	6	

Howrah.—Rainfall at Sadar 0·86. Weather seasonable. The standing crops are doing well. Transplantation of paddy seedlings is going on. Fodder for cattle has become very dear but water is plentiful. No cattle-disease reported. Common rice is selling at 13 seers per rupee.

24-Parganas.—Rainfall at Sadar 2·99, Barasat 1·72, Barrackpore 1·32, Basirhat 0·94, Diamond Harbour 1·30. Weather seasonable. Prospects fair. Damage to crops caused by excessive rain in parts of Diamond Harbour, Barasat and Basirhat. Transplantation of winter rice is going on briskly. Common rice sells at 12 seers per rupee. Condition of cattle good. Supply of fodder and water sufficient. Condition of jute somewhat unfavourable in Barasat and Basirhat subdivision. Sowing of jute finished.

Nadia.- Rainfall at Sadar 2·43, Kushtia 3·91, Meherpur 6·15, Chuadanga 2·79, Ranaghat 1·90. Prospect of standing crops good. Weather seasonable. Jute is doing well, but is partially damaged by flood. Sowing of jute finished. Reaping commenced. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	per rupee.
Kushtia	13	8	
Chuadanga	11	12	
Meherpur	12	0	
Ranaghat	12	0	

Murshidabad.—Rainfall at Sadar 5·68, Kandi 3·65, Jangipur 15·08, Lalbagh 7·96. Weather seasonable. Early paddy is being harvested in Jangipur. Jute and paddy submerged under water in some places, but jute doing well in Lalbagh. Transplantation of winter rice continues briskly. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	per rupee.
Kandi	12	8	
Jangipur	13	8	
Lalbagh	12	8	

Jessore.—Rainfall at Sadar 0·50, Jhenida 1·34, Magura 2·14, Narail 1·03, Bangaon 0·78. Weather seasonable. Transplantation of winter rice still going on. Condition of jute favourable. Sowing finished. Fodder and water sufficient. Cattle-disease reported from Bangaon thana. Common rice sells as follows:—

				Srs.	ch.	
Sadar	...	...	...	14	0	per rupee.
Jhenida	...	...	...	15	0	
Magura	...	...	...	15	0	
Narail	...	...	...	13	5	
Bangaon	...	...	...	14	4	

Khulna.—Rainfall at Sadar 0·95, Bagerhat 1·59, Satkhira 1·02. Weather seasonable. Sowing of autumn and winter rice estimated at 98 and 22 per cent. respectively. State of autumn rice favourable. *Til* sowing not yet commenced. As regards jute, rainfall and weather seasonable. State favourable. Sowing finished. Fodder and water sufficient. No cattle-disease. Common rice sells as follows:—

				Srs.	ch.	
Sadar	...	...	...	14	0	per rupee.
Bagerhat	...	...	...	15	8

Faridpur.—Rainfall at Sadar 4·78, Goalundo 3·89, Madaripur 1·35. Weather seasonable. State of crops good. Jute doing very well. Harvesting of *aus* and jute continues. No cattle-disease. Fodder and water sufficient. Common rice sells at 14 seers per rupee.

Backergunge.—Rainfall at Sadar 2·24. Fall general. Weather changeable· Winter rice transplantation continues. Prospects of autumn rice and jute good. No cattle-disease. Fodder sufficient. Common *aman* sells at 14¼ seers per rupee.

Tippera.—Rainfall at Sadar 7·18, Brahmanbaria 4·17, Chandpur 6·80. Fall heavy. Weather rainy. Prospects good. Reaping of jute continued. Harvesting of *aus* going on everywhere. Weather seasonable for jute in Brahmanbaria. Condition good. Reaping continued. Fodder and water sufficient. Cattle-disease reported from Hajiganj. Common rice sells as follows:—

	Srs.	ch	
Sadar	13	5	per rupee.
Brahmanbaria	17	0	
Chandpur	16	0	

Noakhali.—Rainfall at Sadar 7·48, Feni 14·40. Weather seasonable. Prospects good. Transplantation of *aman* and harvesting of *aus* continue. Sowing of jute finished. Condition favourable. Rainfall seasonable. Reaping of jute commenced. Fodder and water sufficient. Cattle-disease reported. Common rice sells at 13 and 15 seers per rupee at Sadar and Feni respectively.

Chittagong.—Rainfall at Sadar 5·80, Cox's Bazar 12·53. Prospects of standing crops good. Transplantation of winter rice going on. Cattle-disease reported. Fodder and water available. Rice sells at 12 and 15 seers per rupee at Sadar and Cox's Bazar respectively.

Chittagong Hill Tracts.—Rainfall 7·00. Weather wet. Transplantation going on. Prospects of crops fair. No cattle-disease. Rice sells at 12½ seers per rupee.

Patna.—Rainfall at Sadar 11·33, Barh 6·92, Bihar 6·25, Dinapore 8·08, Hilsa 8·83, Bikram 8·70. General heavy rainfall. *Bhadoi* crops damaged in low lands and on *diara* lands. Paddy seedling also lost in some low lands. Cattle-disease reported from Maner *thana*. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	4	per rupee.
Barh	14	0	
Bihar	14	0	
Dinapore	14	0	

Gaya.—Rainfall at Sadar 4·05, Nawadah 6·35, Jahanabad 4·99, Aurangabad 3·31. Weather cloudy and rainy. Transplanting of paddy continues. *Marua* and *makai* partially damaged by excessive rain in Sadar, Jahanabad, and Aurangabad subdivisions. Prospects of these crops favourable in Nawada subdivision. Sugarcane continues doing well. Cattle-disease reported from seven villages. Fodder and water for cattle sufficient. Common rice sells at 13 seers per rupee.

Shahabad.—Rainfall at Sadar 7·36, Buxar 5·25, Bhabhua 2·97, Sasaram 2·26, Dehri 2·90. Transplantation of paddy continues. *Bhadoi* damaged by heavy rains. Sugarcane doing well. Fodder and water abundant. Rice sells at 14 seers per rupee at Sadar.

Saran.—Rainfall at Sadar 7·78, Siwan 4·63, Gopalganj 8·90. Standing crops doing well, but sun needed for the *bhadoi*. Transplantation of paddy continues. No cattle-disease. Fodder and water sufficient. Common rice sells at 14½ seers and maize at 24 seers per rupee at Sadar.

Champaran.—Rainfall at Sadar 6·35, Bettiah 8·91. Rain sufficient for transplantation of paddy, which is going on briskly. Weeding of *bhadoi* in progress. Prospects good. Sugarcane doing well. Fodder and water sufficient. No cattle-disease. Common rice sells at 16 seers and maize at 20 seers per rupee.

Muzaffarpur.—Rainfall at Sadar 9·49, Hajipur 12·52, Sitamarhi 5·65. Weather cloudy and rainy. Prospects of crops in Sitamarhi improved and good in Sadar. Heavy rains somewhat affected the indigo and maize at Hajipur. Prospects on the whole favourable. Transplantation of paddy going on. Fodder and water sufficient. Common rice sells at 14 seers and maize at 26 seers per rupee.

Darbhanga.—Rainfall at Sadar 7·77, Samastipur 11·48, Madhubani 7·99. Rainfall general. Transplantation of paddy and *marua* in progress. More rain required in Sadar and Madhubani subdivisions. Fodder and water sufficient. Cattle-disease reported from Laukasa and Madhepur thanas. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	6	per rupee.
Samastipur	15	0	
Madhubani	14	15	

Monghyr.—Rainfall at Sadar 7·46, Begusarai 7·15, Jamui 8·15. Weather rainy Transplantation of paddy going on. *Bhadoi* crops slightly damaged by excess of rain in places. Sugarcane doing well. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

					Srs.	ch.	
Sadar	...	...	...	...	12	8	per rupee.
Begusarai	...	...	...	...	13	8	
Jamui	...	...	...	...	13	0	

Bhagalpur.—Report not received.

Purnea.—Rainfall at Sadar 7·03, Kishenganj 8·24, Araria 6·22. Transplantation of paddy briskly going on. No cattle-disease. Fodder and water sufficient. Common rice sells at 16 seers at Sadar and at 15 seers at the other subdivisions.

Malda.—Rainfall at Sadar 4·07, Gajol 6·45, Gumashtapur 4·48. Weather hot and cloudy. Transplantation of winter rice still going on. *Bhadoi* ripening at places. Condition of jute good. No cattle-disease. Fodder and water sufficient. Common rice sells at 13½ seers per rupee.

Sonthal Parganas.—Rainfall at Sadar 5·20, Deoghar 5·48, Godda 8·52, Jamtara 9·66 Pakaur 8·37, Rajmahal 8·19. Weather cloudy and rainy. Transplantation of winter rice in full swing. Prospects of Indian-corn not favourable owing to excessive rains. Fodder and water sufficient. Common rice sells at 11 seers per rupee at Sadar.

Cuttack.—Rainfall at Sadar 0·59. Fall general. Weather seasonable. Transplantation going on in flooded area. *Biali* being weeded. Rain wanted at places. *Dhauli* insects damaging *biali*. Cattle-disease reported from Sadar and Banki. Fodder and water sufficient. Common rice sells at 17 seers 11 chitaks per rupee at Sadar.

Balasore—Rainfall at Sadar 0·57. Puddling, weeding and transplanting of *sarad* rice continuing. Other standing crops thriving. Condition of cattle good. Fodder and water sufficient. Rice sells at 18 seers at Bhadrak and 16 seers at Sadar per rupee.

Angul.—Rainfall at Sadar ·67, Phulbani 1·11. Weather cloudy. More rain wanted for transplantation of paddy. Common rice sells at 24 and 19 seers per rupee at Sadar and Phulbani respectively.

Puri.—Rainfall at Sadar 2·11, Khurda 1·17. Weather seasonable. Weeding and transplanting of *sarad* paddy going on. *Beali* and sugarcane progressing. *Mandia* being transplanted. Cotton being harvested. Miscellaneous crops doing well. Fodder and water-supply sufficient. Common rice sells at 17 seers and 1 chitak per rupee.

Hazaribagh.—Rainfall at Sadar 3·93, Giridi 5·96. Weather hot. Transplantation of paddy going on. Cattle-disease reported from one thana. Fodder and water sufficient. Common rice sells at 12½ seers per rupee both at Sadar and Giridih.

Ranchi.—Rainfall at Sadar 3·47. Weather cloudy. Transplantation of paddy in full swing. Harvesting of *gundli* continues. Heavy rains slightly damaged *bhadoi* crops in places. Cattle-disease reported from several thanas. Fodder and water sufficient. Common rice sells at 13 and 18 seers per rupee at Sadar and Gumla respectively.

Palamau.—Rainfall at Sadar 2·49. Weather seasonable. Transplantation of paddy commenced in places. Prospect of standing crops, except *makai* and *sawam*, good. Some cattle-disease. Fodder and water sufficient. Rice sells at 14⅝ seers per rupee at Sadar.

Manbhum.—Rainfall at Sadar 4·68, Gobindpur 4·70. Weather seasonable Prospects of crops good. Transplantation of winter rice in full swing. Cattle-disease reported from two thanas. Fodder and water sufficient. Common rice sells at 11¼ seers at Sadar and 12 seers at Gobindpur per rupee.

Singhbhum.—Rainfall 1·07. Transplantation in progress. Cattle-disease reported from thana Ghatsila. Fodder and water sufficient. Rice sells at 14 seers per rupee.

General Summary.—Rainfall during the week was general, and in some places heavy. Excessive rain caused some damage to crops in Burdwan, Birbhum, 24-Parganas, Nadia, Murshidabad, Patna, Gaya, Shahabad, Muzaffarpur, Monghyr and Ranchi. More rain is wanted in Dinajpur, Darbhanga, Cuttack and Angul. Transplantation of winter rice continues. Prospects on the whole fair. Cattle-disease reported from 15 districts. Fodder and water generally sufficient. The price of common rice has risen in 18 districts, has fallen in 9, and is stationary in the remainder.

The total fall from 1st January to 30th July 1904	45·86
The average fall of the corresponding period for 24 years, Surveyor-General's Office	33·68

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, gloomy; d, drizzling rain; t, thunder; p, passing temporary showers; ▲ dew.

RESOLUTION ON THE ANNUAL REPORT ON REFORMATORY SCHOOLS.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 5th August 1904.

RESOLUTION—No. 2715.

READ—

The Annual Report on the Reformatory Schools at Alipore and Hazaribagh for the year 1903.

Admissions.—In the Resolution recorded by this Government on the Report for the year 1902, attention was drawn to the fact that there had been a noticeable increase in the annual number of admissions since the year 1899, when they amounted to 99 only. It is satisfactory, therefore, to observe that the number of admissions in the two schools fell from 156 in 1902 to 107 during the year under review, this being the lowest figure reached in the last four years. Government has often expressed a belief that many of the boys sent to the Reformatories might be more suitably dealt with under the provisions relating to youthful offenders in the Criminal Procedure Code and the Reformatory Schools Act; and the Lieutenant-Governor is, therefore,

gratified to observe that the Boards of Management have been careful to scrutinize the admissions with the object of ascertaining whether any of the boys sent to the Reformatories could not have been better treated under the provisions already referred to. As a result of this examination, 28 boys were released during the year as against 12 in 1902 and 4 in 1901.

It has been ascertained from the judicial returns for the year that 269 youthful offenders were discharged on probation of good conduct under section 562 of the Criminal Procedure Code, and that 30 boys were discharged after admonition or made over to their parents or guardians under section 31 of the Reformatory Schools Act.

2. *Health, discipline and education.*—The health of the boys was on the whole satisfactory in both the schools. There was a slight decrease in the number of offences and punishments in the Alipore School; but they were more numerous at Hazaribagh than in the preceding year. Proper attention was given to the education, moral discipline and physical exercise of the boys. The Lieutenant-Governor regrets to notice the case of suicide which occurred at the Alipore School and which is said to have been facilitated by the structural defects of the cubicles. Steps have been taken to prevent the recurrence of such cases.

3. A report on the arrangements for separating the boys at night in this school was submitted during the year. It was represented that these arrangements are a relic of the days when the building was a jail; that they are open to strong objections as prejudicial to the health and spirits of the inmates; and that they are unsuitable at any rate for the younger boys. On receipt of this report, the Lieutenant-Governor intimated that he would be prepared to consider any well-devised scheme which the Board might formulate for the purpose of improving the present arrangements. Subsequently, the Director of Public Instruction inspected the school, and reported that to put it on a really satisfactory footing it would be necessary to devise a comprehensive scheme of rebuilding and reorganization. He stated that, in spite of all improvements, the institution could, in his opinion, never be a school, but would always retain the character of a jail, unless a radical change was made in the structural condition of the old building. At the same time he pointed out that the area of the land is limited, the buildings unsuitable and the cubicles insanitary; and that, in these circumstances, it was undesirable either to enlarge or to rebuild the school on its present site. He was convinced, therefore, that the most satisfactory arrangement would be to remove the school to a short distance from Calcutta.

It appears to the Lieutenant-Governor that in the present state of the buildings it is difficult to give effect to the principles enunciated by the Government of India in their Resolution No. 374-79, dated the 2nd September 1899; that the present defects of the structure can only be removed by a large and expensive building scheme; and that it would be impolitic to carry out such a scheme on the area at present occupied by the school, if suitable arrangements can be made for its removal elsewhere. In these circumstances, Sir Andrew Fraser has directed that the question should be considered in all its bearings by a representative Committee, which will now be formed for the purpose.

4. *Industries.*—During the year the recognized policy of Government that all boys of the agricultural classes should be concentrated at Hazaribagh, and all boys of the industrial castes at Alipore, was given effect to. The plan of adapting the instruction given to the boys to their hereditary occupations also received careful attention; and with this object the number of industries in the Alipore School was increased from 9 to 13. The need of teaching the boys the trades of their castes has been frequently emphasised by Government and is again illustrated by the figures supplied for the year under review. Out of 161 boys released from the Alipore School during the three years preceding the year under report, only 22 were found to be following the industries taught them at the school; and out of 189 boys released from the Hazaribagh Reformatory during that period, only 75 were employed in the pursuits in which they had been trained. These figures are, it is true, not altogether conclusive, inasmuch as many of the boys released

could not be traced or had died, others were unemployed or with friends, while some were of bad character or had been reconvicted. The number thus accounted for was 89 in the case of the former, and 83 in the case of the latter, school. At the same time, the fact that 50 of the boys released from the Alipore Reformatory and 31 of those discharged from the Hazaribagh School were following occupations other than those taught to them appears to show that the efforts made to train the boys for their future careers have not been altogether successful. The Lieutenant-Governor is aware that the Board are alive to the importance of this matter; and trusts that they will continue to give it their careful attention.

5. *Licensing.*—The Lieutenant-Governor observes with pleasure that the system of licensing has been more extensively resorted to than has hitherto been the case. Besides the 46 boys already working under this system at the close of the year 1902, as many as 114 boys were licensed out as against 66 during the preceding year. Out of the 89 boys of the Alipore School under license, 19 escaped from their employers and 17 were returned to the school for bad conduct; while of the 71 boys licensed out from the Hazaribagh School, 13 boys were returned to the school. It is regrettable that this system proved a failure in so many cases. As observed in last year's Resolution, it is necessary that care should be exercised in the first instance in the selection of boys for such employment; but His Honour is also disposed to consider it possible that these failures may partially be due to the fact that some of the boys selected have not been trained specially for the occupation followed by them under license. In particular, this seems to be the case with boys licensed out for employment in jute mills and other similar institutions for which no special training has hitherto been provided in the reformatory. In last year's Resolution it was observed that a proposal for training boys for such employment was under consideration. The scheme referred to has since been approved by Government; and it has been decided to introduce a spinning and weaving department in the Alipore School. As a large number of the boys licensed out are employed in jute and silk mills, the Lieutenant-Governor hopes that the introduction of this industry in the School will tend to make this system more successful.

During the year, the Lieutenant-Governor approved, as an experimental measure, a proposal that boys of inferior castes should be licensed out as domestic servants to employers of labour who are private persons. It is trusted that this measure will lead to a further extension of the licensing system.

6. *Tracing of discharged boys.*—The percentage of failures to trace out the histories of boys for three years after their release was the same in 1903 as in the previous year; and the Lieutenant-Governor would again invite the attention of the officers of the Education Department to their duties in this respect. One of the chief objects which the Government of India had in view in transferring the management of the Reformatories from the Jail to the Education Department was to attain more complete and satisfactory information about boys who had left the schools than was possible under the old system. It was stated that it was desirable that the boys should not be left without help and guidance on leaving school, and that a watch should be kept over them, both in their own interests and also in order that the result of the working of the schools might be known. It is evident from the large number of cases in which the histories of boys after their release is unknown that this object has not yet been attained. The Lieutenant-Governor has recently sanctioned the appointment of an additional Sub-Inspector of Schools to assist in maintaining a watch over released boys in Calcutta; and as over one-third of the boys discharged from the Alipore School belong to that city, there should, His Honour considers, be a marked improvement, in future, in tracing out and finding employment for such boys.

By order of the Lieutenant-Governor of Bengal,

H. LeMESURIER,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE CIVIL VETERINARY DEPARTMENT, BENGAL, AND OF THE BENGAL VETERINARY COLLEGE.

REVENUE DEPARTMENT—AGRICULTURE.

Calcutta, the 8th August 1904.

RESOLUTION—No. 3287.

READ—

The Annual Report of the Civil Veterinary Department, Bengal, and of the Bengal Veterinary College for the year 1903-04.

Read also—

Letter No. 1926A., dated the 9th July, 1904, from the Director of the Department of Land Records and Agriculture, Bengal, submitting the above report with his remarks.

The Report was due on the 1st July 1904, but was not received by Government till the 25th idem.

2. *Veterinary Dispensaries and Veterinary Assistants.*—During the year under review two new dispensaries were opened, one at Noakhali and the other at Dinajpur; a third dispensary was established at Purnea, but could not be opened, as it was impossible to secure the services of a qualified Veterinary Assistant. The total number of dispensaries working at the close of the year was 22. The growing popularity of these institutions is again illustrated by the increase in the number of animals which received treatment, particularly in that of out-patients which was nearly doubled, during the year. The most marked feature in the work of the Department was the increase in the number of cases treated in the villages by itinerant Veterinary Assistants; 60,151 animals having received treatment from these officers as against 21,439 in the previous year and 7,346 in the year 1901-02. The Lieutenant-Governor is of opinion that in no way can the Department prove more useful to the people at large than by sending out officers of this stamp, to be constantly on tour in the interior, to inoculate freely for rinderpest and to report upon and deal with outbreaks of all kinds of epizootic diseases. His Honour regards the development of this work as one of the most important functions of the Department, and is pleased to observe the increasing extent to which the benefits of veterinary science are being brought home to the peasantry. At present, however, the number of qualified men is insufficient to fill the posts for which they are required; and during the year under review it was again found to be impossible to meet the demands of several districts. In order to overcome this difficulty, the Lieutenant-Governor has recently sanctioned the proposal of the Director of Land Records that, as a temporary measure, vacancies in the subordinate staff of the Department should be filled by veterinary graduates from Bombay and Lahore until a sufficient number of Bengal veterinary graduates are available for employment.

3. *Epidemic diseases.*—The number of animals (57) admitted into the Belgachia Contagious Diseases Hospital was the same as in the previous year. Of these, 43 were found to be suffering from Glanders and had to be destroyed, and one died of that disease. The Superintendent of the Veterinary Department observes, however, that these cases represent a mere fraction of those actually existing in Calcutta. The introduction of the Glanders and Farcy Act, XIII of 1899, into that city and its suburbs has long been contemplated by Government; but, as stated in last year's Resolution, it has hitherto been deferred, on financial grounds, pending the revision of the provincial settlement. The necessary provision has, however, now been made in the budget; and it is hoped that before the end of the current year it will be possible to give effect to this most salutary and necessary measure.

4. There was a slight increase in the total number of cases of cattle-disease reported from the districts during the year. There was a very marked increase in the number of animals attacked by foot-and-mouth disease, and a noticeable decrease in the number of those suffering from rinderpest. There were over 25,500 cases of the former disease as against 8,436 in the previous year; very severe outbreaks occurring in Backergunge and Palamau, from each of which districts over 9,000 cases were reported. The preventive measures

taken in the former district were most effective; practically every animal affected received treatment; and it is satisfactory to observe that the percentage of deaths was as low as ·04. On the other hand the number of animals attacked by rinderpest (15,266) was the lowest on record during the last four years; and it is clear that there has been a steady and general decrease in the number of such cases since the year 1900-01 when they reached the large total of nearly 64,000. As in the previous year, this disease was specially prevalent in the districts of Khulna and Palamau, nearly 3,000 animals being attacked in the former and over 4,500 in the latter district. Altogether 9,454 cattle were immunised, but unfortunately these operations had to be suspended owing to a deficiency in the supply of serum and partly also in consequence of the smallness of the staff available. This stoppage of the supply was the more regrettable, as it occurred at the beginning of the rinderpest season when, owing to the outbreaks which occurred in various places, the demand was at its greatest.

5. *Improvement of Stock.*—The question of establishing depôts for the rearing of bulls in this Province came under the consideration of Government shortly before the close of the year. The scheme which has been approved by the Lieutenant-Governor is that animals should, in the first instance, be selected for cattle-breeding operations from the farms at Pusa and Sripur, and that, where the conditions of climate vary, they should be sent away to be acclimatised before being used. For this purpose, it is proposed that the farms at Pusa and Sripur should be utilised for young bulls intended for service in Bihar and Bhagalpur, and that depôts for Central and Northern Bengal should be established at Belgachia and Rampur Boalia. The purchase of cattle for breeding operations at the Pusa farm has been entrusted to the Bengal Veterinary Department, and Major Raymond was engaged during the year in making arrangements for the purchase of suitable animals.

6. *The Veterinary College.*—Altogether 43 students were under instruction throughout the year. The results of the examinations of the three classes were extremely satisfactory; and the Lieutenant-Governor agrees with the Director of Land Records that they are highly creditable to the Principal and the teaching staff of the College.

7. *Belgachia Infirmary.*—There was an increase of 434 in the total number of cases treated in the infirmary during the year, which was mainly due to the large number of in-patients received. Altogether there were 2,819 patients of all classes; and 723 operations were performed as against 623 in the previous year. The Superintendent draws attention to the fact that though a large number of cruelty cases came before the Magistrates of Calcutta, comparatively few animals were sent by them to the Infirmary. There is reason to believe that cruelty would be more effectually prevented if, instead of fining the owners and allowing them to continue to work their animals, Magistrates were to send the latter to the hospital for treatment. The attention of Magistrates in Calcutta has been drawn to the matter.

8. *Financial.*—The Provincial cost of maintaining the Department exceeded that of last year by over Rs. 15,000. The increase was chiefly due to greater expenditure on account of the pay of lecturers, increased establishment, the feeding of animals and contingencies.

9. The Lieutenant-Governor has much pleasure in acknowledging the zeal and ability with which Veterinary-Major Raymond managed the Department during the year, and agrees with the Director of Land Records that he deserves great credit for the progress which has been made in its development.

By order of the Lieutenant-Governor of Bengal,

H. LEMESURIER,

Offg. Secy. to the Govt. of Bengal.

PRELIMINARY FORECAST OF THE SUGARCANE CROP OF BENGAL, 1904.

The 3rd August 1904.—The following note is published for general information.

H. LeMesurier,
Offg. Secy. to the Govt. of Bengal.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Preliminary Forecast of the Sugarcane Crop of Bengal, 1904.

Character of the season.—The success of the sugarcane crop depends a good deal on occasional showers being obtained during the dry season, viz., from January to June. It enables cultivators to do the sowing without artificial irrigation and to grow the coarser varieties of sugarcane afterwards, also without irrigation. These were very nearly the conditions that prevailed throughout the province during the dry season that has just passed. In January light showers were obtained in Bihar and in the districts of Dacca and Mymensingh; though little or no rain was obtained in the remaining districts. In February and March rainfall was of normal character throughout the province, except in the Burdwan and Chittagong Divisions, which received rain above the normal. In March rainfall in the Dacca and Rajshahi Divisions was below normal, but in the Chota Nagpur Division it was much above the normal. In April there was little rain in the Burdwan, Patna, and Chota Nagpur Divisions, though Dacca and Chittagong Divisions received nearly double the usual rainfall during this month. In May and June copious rainfall was obtained throughout the province. In the Chota Nagpur Division the rainfall in May was greatly in excess of the normal. Thus, on the whole, the season was very favourable during sowing and the first period of the growing stage of the crop.

2. *Area sown.*—The normal area under sugarcane in this province is now estimated at 690,300 acres, and the actual area sown this year at 645,100 acres, against 646,400 acres in the previous year. Notwithstanding the favourable character of the season, the tendency towards shrinkage of area under this crop which has been noticed for a few years seems to continue.

3. *Character of the crop.*—It will be seen from the summary of the district returns appended to this report, that in sixteen districts the outturn is expected to reach or to exceed the normal. Fifteen other districts anticipate an outturn of 90 to 99 per cent. For nine other districts the estimate varies from 80 to 89 per cent., and for the remaining five from 70 to 79 per cent.

4. *Outturn.*—The District Officers' returns work up to a general outturn of 92 per cent. for the whole province. Considering the specially favourable character of the season, I am inclined to raise this estimate to 95 per cent.

S. L. Maddox,
Offg. Director of Land Records and Agriculture, Bengal.

Calcutta,
The 28th July 1904.

Preliminary Forecast of the Sugarcane Crop of 1904.

DIVISION.	District.	Total area of district, in acres.	Total area estimated to be under cultivation, in acres.	Approximate normal area under sugarcane, in acres.	Approximate area under sugarcane last year (1903), in acres.	Estimated area under sugarcane this year (1904), in acres.	Taking 100 to represent the normal outturn, how much represented the outturn last year (1903)?	Taking 100 to represent the normal outturn, how much will represent this year's outturn (1904)?	Remarks by District Officers.	Remarks by the Department Land Records and Agriculture, Bengal.
1	2	3	4	5	6	7	8	9	10	11
Burdwan ...	Burdwan ...	1,687,680	1,284,200	27,400	27,700	26,000	76	80*	* Want of timely rainfall at Sadar is the cause of decrease in area, but the increase in the outturn is due to the seasonable rainfall in the Kalna and Katwa subdivisions.	
	Birbhum ...	1,121,920	776,300	9,000	9,000	8,900	100	100		
	Bankura ...	1,677,440	642,800	15,000	13,000	12,800	100	90	Owing to the setting in of the rains earlier this year, the outturn of the crop is estimated to be below the normal.

WEATHER AND CROP REPORT.

For the week ending the 8th August 1904.

Burdwan.—Rainfall at Sadar 1·88, Kalna 1·51, Katwa 1·10, Raniganj 1·46. Transplantation of *aman* continues. Prospects of standing crops fair. Jute being harvested at Kalna. Fodder and water sufficient. Cattle-disease reported from Kalna and Katwa subdivisions. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	0	per rupee.
Kalna	11	5	
Katwa	12	7	
Raniganj	13	8	

Birbhum.—Rainfall at Sadar 3·85, Rampur Hât 1·61. Weather seasonable. Transplantation continues. Prospect of sugarcane improving in Rampur Hât. Fodder dear. Water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	8	per rupee.
Rampur Hât	14	0	

Bankura.—Rainfall at Sadar 1·99, Vishnupur 2·64. Weather hot with occasional showers. Transplantation of winter rice being completed. Prospects of standing crops very hopeful. No cattle-disease reported. Fodder dear. Water sufficient. Common rice sells at 15 seers at Sadar and Vishnupur.

Midnapore.—Rainfall at Sadar 2·09, Contai 2·84, Tamluk 1·72, Ghatal 0·86. Lands on which seedlings were destroyed by floods are being reploughed and resown. Transplantation continues on high lands. Fodder and water sufficient. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	15	0	per rupee.
Contai	16	0	
Tamluk	12	0	
Ghatal	13	0	

Hooghly.—Rainfall at Sadar 2·45, Serampore 2·65, Arambagh 1·65. Prospects of standing crops fair at Sadar and Arambagh, excessive rains doing mischief among *aus* and sugarcane at Serampore. Fodder and water sufficient. Weather seasonable. Condition of jute fair at Arambagh; not good at Sadar and Serampore owing to excessive rains. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	per rupee.
Serampore	10	6	
Arambagh	13	6	

Howrah.—Rainfall at Sadar 3·97. Weather seasonable. Transplantation of winter paddy seedlings is briskly going on. The other standing crops are doing well. No cattle-disease reported. Fodder and water sufficient, but fodder is selling dear. Common rice sells as follows:—

	Srs.	ch.

August 8, 1904.

J. A. Robertson,
Director-General of Statistics.

H. LeMesurier,
Offg. Secretary to the Government of Bengal.

Abstract of the Results of Meteorological Observations taken at the Alipore Observatory in the month of July 1904.

	Inches.	Date.	Hour.
The mean pressure of the month	29·522		
The average pressure of July from 44 years' registers ...	29·537		
The highest pressure in the month	29·727	26th	10
The lowest pressure in the month	29·322	1st	16
The range of pressure	0·405		
	Hours.		
The total number of hours of bright sunshine during the month	87·0		
The maximum possible number of hours of sunshine ...	413·1		
	°		
The mean temperature of the month	83·2		
The average temperature of July from 20 years' registers ...	83·1		
The highest temperature in the month	93·2	12th	
The lowest temperature in the month	75·0	7th	
The range of temperature during the month	18·2		
The mean daily range of temperature	8·8		
The greatest range of temperature in one day	13·3	11th	
	Per cent.		
The mean humidity of the month	87		
The average humidity of July from 20 years' registers ...	87		
	Inches.		
The mean vapour tension of the month	0·988		
The average vapour tension of July from 20 years' registers ...	0·962		
The mean cloud proportion of the month	8·66		
The average cloud proportion of July from 27 years' registers	8·03		
	Inches.		
The total rainfall of the month	20·62		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	?		
The average fall of July from 24 years' registers ...	12·31		
The greatest fall in 24 hours	3·12	7th	
	Days.		
The number of rainy days in the month	17		
The average number of rainy days in July from 24 years' registers	19		
	°		
The mean maximum equilibrium temperature of solar radiation during the month	137·3		
The mean difference of sun and air temperatures	50·2		
The greatest sun temperature	151·7	17th	
The greatest excess of sun over air temperature	63·1	17th	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	76·1		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	2·3		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	4·9	12th	
	Miles.		
The mean movement of the wind per day	100·5		
The greatest movement of the wind in one day	230·0	9th	
The greatest movement of the wind in one hour	21·0	7th 9 to 10 A.M.	

The number of hours with winds from each of the eight points—

N. 2, N.E. 6, E. 35, S.E. 54, S. 178, S.W. 258, W. 68, N.W. 13, Calm. 130.

G. W. KÜCHLER,
for Meteorological Reporter to the Govt. of India and Director-General of Indian Observatories.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 8th August 1904.

Results of the Meteorological Observations taken at the Alipore Observatory from 31st July to 6th August 1904.

	Inches.
The mean pressure of the seven days	29·570
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	29·580
	Hours.
The total number of hours of bright sunshine	23·8
The maximum possible number of hours of sunshine	91·6
The mean temperature of the seven days	82·7
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	82·9
The extreme variation of temperature	13·3
The maximum temperature	90·2
	Miles.
The highest velocity of the wind in one hour	8
	%
The mean relative humidity	87
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	87
	Inches.
The total fall of rain from 31st July to 6th August 1904	5·94
The average fall of the corresponding period for 24 years, Surveyor-General's Office	3·75
The total fall from 1st January to 6th August 1904	51·80
The average fall of the corresponding period for 24 years, Surveyor-General's Office	37·43

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 8th August 1904.

G. W. KÜCHLER,
for Meteorological Reporter to the Govt. of India and Director-General of Indian Observatories.

BENGAL AND NORTH-WESTERN RAILWAY.
